

Blue Economy Video Transcript

For the City of Cockburn our future is blue

Our ocean or the devil nara

Has always been a significant place

It it part of our local identity and our gateway to the world

And its our connection with the ocean that has helped Cockburn secure thousands jobs, skills and opportunities

As we become a focal point for Defence and the Blue Economy nationally

We're already home to 15 billion dollar cluster of marine infrastructure

Stretching from the Naval Ship yards and the Australian Marina Complex to the advanced industrial and commercial hub at Henderson, Latitude 32, Jandakot and Bibra Lake

By harnessing the passion of our world leading marine industries

Our defence capabilities, training our young people for future jobs and investing in infrastructure Cockburn is ready to takes its place as a global leader of the Blue Economy

Cockburn our future is blue
