CITY OF COCKBURN**AGENDA TO BE PRESENTED TO THE SPECIAL AUDIT
AND STRATEGIC FINANCE COMMITTEE MEETING TO BE
HELD ON WEDNESDAY, 11 DECEMBER 2019 AT 6.00PM**

- 1. DECLARATION OF MEETING**
- 2. APPOINTMENT OF PRESIDING MEMBER (IF REQUIRED)**
- 3. DISCLAIMER (TO BE READ ALOUD BY PRESIDING MEMBER)**

Members of the public, who attend Council Meetings, should not act immediately on anything they hear at the Meetings, without first seeking clarification of Council's position. Persons are advised to wait for written advice from the Council prior to taking action on any matter that they may have before Council.

- 4. ACKNOWLEDGEMENT OF RECEIPT OF WRITTEN
DECLARATIONS OF FINANCIAL INTERESTS AND CONFLICT
OF INTEREST (BY PRESIDING MEMBER)**
- 5. APOLOGIES AND LEAVE OF ABSENCE**

Mr S Cain, Chief Executive Officer	-	Leave of Absence
Ms G Bowman, Executive Manager, Strategy and Civic Support	-	Apology

- 6. PUBLIC QUESTION TIME**
- 7. DEPUTATIONS**
- 8. DECLARATION BY MEMBERS WHO HAVE NOT GIVEN DUE
CONSIDERATION TO MATTERS CONTAINED IN THE
BUSINESS PAPER PRESENTED BEFORE THE MEETING**
- 9. PURPOSE OF MEETING**

The purpose of the meeting is to adopt the Annual Financial Report for the year ended 30 June 2019, as attached to the agenda.

10. FINANCE AND CORPORATE SERVICES DIVISION ISSUES

10.1 2019 ANNUAL FINANCIAL REPORT AND EXTERNAL AUDIT REPORT

RECOMMENDATION

That Council:

- (1) adopt the Annual Financial Report for the year ended 30 June 2019;
- (2) receive the External Audit Plan used for the year ending 30 June 2019;
- (3) receive the Audit Report for the year ended 30 June 2019; and
- (4) receive the draft Audit Opinion as issued by the Office of the Auditor General,

as attached to the Agenda.

Background

Section 5.54 of the *Local Government Act 1995* requires Council to accept the Annual Report for a financial year no later than 31 December after that financial year. Section 5.53 requires that the Annual Report contains the Financial Report (prepared under Section 6.4) and the Auditor's Report (prepared under Section 7.9) for that financial year.

Regulation 9 (2) of the *Local Government (Audit) Regulations 1996* states that the principal objective of the external audit is for the auditor to carry out such work as is necessary to form an opinion as to whether: the accounts are properly kept; and that the Annual Financial Report:

- is prepared in accordance with financial records; and
- represents fairly the results of the operations of the Local Government at 30 June in accordance with Australian Accounting Standards and the *Local Government Act 1995*.

Section 7.12A of the *Local Government Act 1995* requires Local Governments to meet with the auditor at least once in every year and to:

- examine an Audit Report received by the Local Government;

- determine if any matters raised by the audit report require action to be taken by the Local Government;
- ensure that appropriate action is taken in respect of those matters.

As set out in its Terms of Reference, the Audit and Strategic Finance Committee (ASFC) is required to review the City's Annual Financial Report and the associated Audit Report and recommend its adoption to Council. The auditor will attend this meeting to present their audit report and discuss any issues they have raised.

Amendments to the *Local Government Act 1995* in August 2017 transferred responsibility for oversight of Local Government audits to the Office of the Auditor General (OAG). During their first year of oversight, the OAG contracted out the City's 2017-2018 Financial Audit to its previous auditor (Macri Partners). Subsequently, the OAG has tendered out the audits for the City and several other Local Governments, with KPMG having been awarded the City's audit contract for the next three financial years (including the 2018-2019 audit).

The attached External Audit Plan for 2019 outlines the purpose and scope of the External Audit and explains the audit methodology and approach taken in completing the 2018-2019 audit. The Audit Plan was prepared by KPMG and approved by the OAG.

Report

2019 Annual Financial Report

The Annual Financial Report being presented to the AFSC contains a detailed set of financial statements prepared in accordance with Australian Accounting Standards, including all accounting and supporting notes. These are discussed and analysed below.

Statement of Comprehensive Income

1. Operating Result (before Non-Operating Activities)

The City's operating result for 2019 came in at \$1.09 million, well down on the restated \$6.61 million from the previous year and the budgeted \$3.6 million due to a one off non-cash expenditure item (amortisation on landfill rehabilitation asset). This is still a sound financial result, as it demonstrates the City continues to generate enough operating revenue to cover all its operating costs, inclusive of depreciation and amortisation on assets.

Operating revenue of \$154.98 million was up \$6.84 million (4.6%) on last year. The main contributors were revenue from rates up \$4.05 million (4.1%) to \$103.6 million, fees and charges up \$1.82 million (6.3%) to \$30.5 million and interest earnings up

\$0.6 million (13.7%) to \$5.76 million. Operating grants were little changed on last year at \$12.79 million.

Operating expenditure for the year of \$153.89 million was up by \$12.36 million (8.7%). Employee costs, the City's biggest operational expense item, were up \$2.22 million (4.1%) to \$56.78 million.

Spending on materials and contracts was up \$1.44 million (3.7%) to \$40.2 million, with Parks and Environmental Services (\$8.9m), Waste Services (\$8.0m), Recreation and Community Safety (\$6.1m), Infrastructure Services (\$5.8m) and Community Development Services (\$3.4m) the biggest spend areas. Parks and Environmental contract costs were up \$1.8 million year on year, whilst childcare provider costs were down \$1.0 million and waste disposal costs down \$0.7 million from last year.

Insurance expenses came in \$0.42m (32.0%) higher than last year at \$1.74 million. But this was due to lower rebates received in the current year from the LGIS self-insurance schemes.

Interest expenses of \$1.07 million were little changed against the restated amount from the previous year. This line item now includes interest costs for the SMRC loans guaranteed by the City.

Depreciation expense (non-cash) increased by 6.2% to \$32.1 million (+\$1.8m). This reflected increased depreciation on parks infrastructure (+ \$0.7m) to \$4.5 million, roads/drainage/footpaths (+\$0.5m) to \$15.5 million and buildings (+\$0.3m) to \$6.3 million.

2. Net Result

Including non-operating activities, the City's net result (before asset revaluations) was up \$7.2 million (29.5%) on the previous year's restated amount to \$31.6 million, despite the large fall in the operating result. The major reason for this was the large write down last year of \$14.1 million in the City's investment in the SMRC. Developer subdivision infrastructure assets gifted to the City were down \$2.7 million year on year to \$9.4 million.

Net profit from the sale of assets was up \$1.5 million on last year, primarily due to profit of \$2.5 million on realised land sales of \$7.6 million. Capital grants and contributions of \$12.7 million were also up on last year by \$1.2 million (+10.8%).

Developer contribution schemes revenue of \$8.5 million was down slightly on last year's result by \$0.25 million.

Statement of Financial Position

The City's net assets and total equity increased year on year by \$52.9 million to \$1,250.7 million. This reflected an increase in total assets of \$62.3 million, comprising current assets (+\$29.1m) and non-current

assets (+\$33.2m). There was also an increase in total liabilities of \$9.4 million, comprising current liabilities (+\$8.6m) and non-current liabilities (+\$0.8m).

1. Assets

The year on year increase of \$29.1 million in current assets to \$176.3 million included an extra \$19.5 million in term deposits and \$6.8 million in cash and cash equivalents, reflecting the greater amount held in financial reserves.

The increase in non-current assets of \$33.3 million to \$1,159 million was predominantly due to an increase of \$33.7 million in infrastructure assets. This included gifted subdivision assets of \$8.4 million, annual revaluation increments of \$21.3 million and a capitalised spend of \$26.1 million. This was reduced by depreciation of \$22.1 million booked for the year.

Property, Plant and Equipment (PPE) assets of \$335.8 million included \$16.6 million of capitalised spend (\$10.2m for buildings), less \$6.8 million in disposals (mainly land assets) and \$11.1 million of booked depreciation for the year.

2. Liabilities

Current liabilities increased year on year by \$8.6 million to \$29.8 million. Trade and other payables increased by \$2.3 million, largely due to the recognition of bonds and deposits (\$3.5m) previously held in Trust (OAG determination). Provisions increased the most (+\$5.6m) to \$12.3 million, due to a current provision of \$5.2 million for the capping of Cell 6 at the Henderson landfill. Current leave provisions had a modest gain of \$0.4 million to \$7.1 million (5.9%), which includes wages and staff growth. This demonstrates adequate management control over outstanding leave entitlements.

Non-current liabilities increased overall by \$0.8 million from last year. Loan borrowings were down by \$4.6 million to \$19.2 million (reflecting repayments) and provisions were up by \$3.0 million to \$33.6 million due to an increase in the landfill site rehabilitation provision.

Changes in Equity

Cash backed reserves held by the City increased by a net \$23.5 million to \$142.6 million during the reporting year. A total of \$54.4 million was transferred into reserves during the year with \$2.5 million coming from investment earnings. Drawdowns from reserves were \$30.9 million.

The Asset Revaluation Surplus increased by \$21.3 million to \$544.6 million as a result of the annual management valuation of roads, drainage and footpath assets, with roads increasing by \$2.0 million, drainage by \$2.1 million and footpaths by \$17.2 million. The large increase in footpaths was a combination of an 18% increase in the unit

rate for concrete footpaths, a 10% increase in our total footpaths resulting from an audit and a 6% improvement in the written down value of footpaths due to better and more accurate condition assessments.

The City's accumulated surplus increased by \$8.1 million to \$563.5 million. This increase represented the \$31.6 million net surplus result, less \$23.5 million in net transfers to financial reserves. The opening balance at 1 July 2018 was adjusted downwards by \$9.3 million due to restatements made to the 2017-2018 financial year during the audit.

Statement of Cash Flows

The City's net cash inflows from operating activities decreased \$3.7 million to \$38.4 million for the reporting year. This result still indicates strong operating cash flows, allowing the City to continue funding new assets and asset renewals as planned.

Net cash outflows for investing activities were down \$6.8 million for the year, comprising:

- Cash inflows from the sale of assets of \$8.6 million were up \$7.0 million on last year, due to several land sales transacted.
- Cash outflows for capital related spending of \$44.6 million were \$5.5 million higher on last year.
- Cash inflows from capital grants and developer contributions were up \$1.0 million to \$21.2 million.
- Net cash outflows from funds management activities (term deposits, financial assets) were down \$3.6 million for the year.
- A cash inflow of \$0.8 million relating to a loss recovery on a failed CDO investment.

Cash inflows from financing activities of \$1.9 million included the inflow of \$5.9 million of bonds and deposits previously held in Trust. This was offset by cash outflows of \$4.0 million for the repayment of borrowings for the Cockburn ARC and SMRC.

Cash and cash equivalents increased during the reporting year by \$6.8 million to \$7.6 million. It should be noted that the City's term deposits totalling \$157.4 million are not considered cash equivalents under Australian Accounting Standards.

Rate Setting Statement

This statement shows the most complete view of the City's financial performance for 2019 and determines the municipal budget surplus.

The City's closing funds at 30 June 2019 were \$7.2 million, down \$4.7 million against the previous year. This result includes the take up of a current provision of \$5.2 million for rehabilitating the Henderson landfill site, representing the capping of Cell 6 planned for 2020.

The total amount raised from general rates was up \$4.0 million (4.1%) to \$103.6 million, comprising the adopted increase of 1.9%, with the balance provided by growth in the City's rating base from development. This result was within \$0.05 million of the adopted budget target.

The rate setting statement also includes the spending on capital works and projects, with a total spend of \$42.8 million versus the adopted budget target of \$40.9 million (excludes the budget for carried forward projects).

Financial Ratios

The *WA Local Government (Financial Management) Regulations 1996* prescribe seven financial ratios that are to be included in the Annual Financial Report. These ratios are also used by the Department of Local Government, Sport and Cultural Industries (DLGSC) as a measurement of a Local Government's overall financial health. They form the basis of calculations used for the Financial Health Indicator (FHI) displayed on the MyCouncil website.

RATIO	2019	2018	Benchmark	High
Current Ratio	0.97	1.33	1.00	1.50
Asset Sustainability Ratio	0.46	0.74	0.90	1.20
Debt Service Ratio	8.72	5.53	2.00	5.00
Operating Surplus Ratio	0.01	-0.05	0.01	0.15
Own Source Revenue Ratio	0.94	0.96	0.40	0.90
Asset Consumption Ratio	0.69	0.70	0.50	0.75
Asset Renewal Funding Ratio	0.75	0.71	0.75	1.10
Financial Health Indicator	73	78		

Two of the ratios exceed the DLGSC high ratio benchmark (those in bold), being the debt service and own source revenue ratios. Another three of the ratios are at or above the benchmark. However, there are two ratios that fell below the benchmarks for 2018-2019, being the current and asset sustainability ratios.

The current ratio at 0.97 falls just short of the benchmark of 1.00 and was adversely impacted by the taking up of a current provision of \$5.2 million this year for rehabilitation of the landfill (cell capping costs). Given the capping is planned for 2020, this item should not impact next year's ratio.

The asset sustainability ratio at 0.46 has fallen well below the benchmark in 2018-2019 and it was also below last year. As a result, the OAG have identified this as indicating a significant adverse trend in

their audit report. However, the City is fully cognisant of the reasons for the result and confident that its financial planning strategies are appropriate for a City in a high growth phase. This ratio assesses the City's capital spending on renewing assets compared to the amount of depreciation on its asset base. Half of the City's depreciation is generated by its roads and road related assets. The City has well developed asset management plans for these assets, which determine the appropriate timing for renewal spending. Cockburn's road network is overall in relatively good condition. It doesn't make sense to renew assets before they are due, purely to match a straight line depreciation number. Further, the City is currently focusing much of its roads capital spend on new roads infrastructure to address traffic concerns and a growing population. This is typical for an outer growth Council as opposed to a developed inner Council and the ratio fails to distinguish between the two. It is expected that the ratio will improve in coming years as the City commences delivery of renewal projects contained within the Community Sport and Recreation Facilities Plan. For example, the delivery of the South Lake Leisure Centre replacement (Cockburn ARC) several years ago had a positive impact on this ratio. If we average the City's ratio over the past four years, it is above the benchmark (1.00 vs 0.90).

The results from these seven ratios combine to produce an FHI score for the City of 73 (compared to 78 last year). This result has dipped on last year because of the impact from the two ratios discussed above. Despite this, the City's result is still above the benchmark result of 70 that serves to indicate sound financial health (as defined by the Department of Local Government, Sport and Cultural Industries).

Restatements

Note 39 of the financial report discloses a number of restatements required to be made to the 2017-2018 financial comparatives. These came to light through both the audit process and management discovery. These are listed below:

- Term deposits reclassified from Cash and Cash Equivalents to Financial Assets.
- The fair value of the Port Coogee marina assets taken up upon recognition in 2016 was overstated.
- The Provision for Site Rehabilitation and related Rehabilitation Assets at the Henderson landfill had not been accurately measured in prior years as the auditor determined certain valuation assumptions used in the financial model to be inaccurate.
- The investment in the Southern Metropolitan Regional Council (SMRC), which was being recorded under the equity method, should have been characterised as an investment in an associate, rather than as an investment in a joint venture.

- The City did not recognise the Loan Liability associated with the SMRC loans guaranteed by Council. Instead, it netted the loan liability off the equity interest held. Principal and interest payments were expensed in the Statement of Comprehensive Income as Other Expenses.

These restatements impacted a number of the statements and associated notes as indicated in note 39 and throughout the financial report.

Audit Report (KPMG)

The 2019 Annual Financial Report was audited by KPMG under contract from the Office of Auditor General (OAG). *The Local Government Act 1995* requires the City to meet with the auditor at least once in every year and representatives from the OAG and KPMG will be present at the meeting to discuss the audit report and any audit findings. The audit report will be signed off and issued following the meeting and is expected to be without qualification.

Draft Audit Opinion (Office of the Auditor General)

The OAG have issued an unqualified audit opinion (in draft form) with two “emphasis of matter” findings relating to land under roads and the restatements for 30 June 2018. This will be signed off and issued by the OAG after the meeting. The draft audit opinion is attached to the agenda.

Strategic Plans/Policy Implications

Leading and Listening

Deliver sustainable governance through transparent and robust policy and processes

Ensure sound long term financial management and deliver value for money

Budget/Financial Implications

The cost of the quoted external audit is sufficiently covered within the City’s annual budget. However, the OAG have indicated additional work was performed to complete the audit and this will result in extra cost.

Legal Implications

Local Government Act 1995 Sections 5.53, 5.54, 6.4, and Part 7 - *Audit Local Government (Audit) Regulations 1996* Regulations 9, 9A and 10 *Local Government (Financial Management) Regulations 1996* Part 4 - Financial Reports

Community Consultation

N/A

Risk Management Implications

It is a requirement under the *Local Government Act 1995* for Council to accept the City's Annual Report (including the Financial Report and Auditor's Report) by no later than 31 December each year. Failure to do so will lead to statutory non-compliance.

Advice to Proponent(s)/Submissioners

Understanding the Financial Statements

Introduction

The Financial Statements show how the Council performed financially during the 2018/19 financial year and presents the financial position as at the 30th June 2019.

Council is required to prepare its financial statements in accordance with the Australian Accounting Standards, the Local Government Act 1995 and the associated Local Government Regulations. As Council is a "not-for-profit" organisation in the public sector, some of the generally recognised terms used in private sector reports are not ideally transferable to the Local Government environment.

Cockburn Council is mindful of its role of acting in the public interest and it is in this context that this guide is provided to assist readers in understanding and analysing the financial statements.

What is contained in the Financial Statements?

Council's Financial Statements has two sections, namely:

- (1) The principal Financial Statements
- (2) The Notes to and Forming Part of the Financial Statements.

There are five (5) principal Financial Statements and thirty nine (39) Notes to the Accounts. These are prepared by Council staff, audited by an independent Auditor, presented to Council's Audit Committee and then accepted by full Council as part of the Annual Report.

The five Principal Financial Statements comprise the following:

- Statement of Financial Position
- Statement of Changes in Equity
- Statement of Comprehensive Income
- Cash Flow Statement
- Rate Setting Statement

The Notes to the Accounts include the accounting policies that were applied in preparing the financial statements, as well as more detailed information relating to specific items and values disclosed within the statements.

Statement of Financial Position

This statement is a snap shot of the financial position of the Council as at 30 June of the reporting year. It shows what Council owns as assets and what it owes as liabilities. The bottom line of this statement is the net assets and is equivalent to the net worth of the Council that has built up since inception.

The assets and liabilities are separated into those that are Current and Non Current. Current means those assets and liabilities, which are likely to be consumed or

extinguished within the next 12 months. Non Current refers to assets and liabilities with an economic life extending beyond 12 months.

Statement of Changes in Equity

From one year to the next, the value of and composition of equity (as reported within the Statement of Financial Position) changes. Equity can be defined as being the net worth of Council or its net assets (Assets less Liabilities).

Council's equity is comprised of Cash Backed Reserves, Asset Revaluation Reserve (non cash) and the Accumulated Surplus. Net surpluses (or deficits) from Council's operations (as disclosed in the Statement of Comprehensive Income), will change the overall total of equity (via the accumulated surplus). Asset revaluations also impact Council's net worth position. Transfers to and from cash backed reserves, whilst not impacting the overall total of equity, demonstrate the consumption of or accumulation of savings for future purposes.

Statement of Comprehensive Income

The Statement of Comprehensive Income shows:

- The sources of Council's Revenue under various Program Headings
- The expenses incurred in running the Council during the year under Program Headings

These expenses relate only to the operations and do not include the costs associated with the purchase or the building of assets. While asset purchase costs are not included in expenses, there is an item for depreciation. This is the annual allocation of the cost of assets by reference to the remaining useful life of assets.

The key figure is the change in net assets resulting from operations and this year, it indicates that revenues exceeded expenses.

Cash Flow Statement

The Cash Flow Statement summarises Council's cash payments and cash receipts for the year. This statement is presented according to a very specific accounting standard and needs some care and analysis. The values in the Cash Flow Statement differ from those shown in the Statement of Comprehensive Income, as it is prepared on a cash basis, whereas the Statement of Comprehensive Income is prepared on an accruals basis.

Cash in this statement refers to bank deposits and other forms of highly liquid investments that can be readily converted to cash.

Council's cash arises from and is used in three main areas:

- Operating activities
- Investing activities – this term relates to assets such as infrastructure, plant, land and other long-term revenue producing assets.
- Financing activities – this is used to record the receipt and repayment of external financing such as loans and leases.

The bottom line of the Cash Flow Statement shows the cash held at the end of the financial year.

Rate Setting Statement

The inclusion of a Rate Setting Statement in the annual statements is a requirement of the Local Government (Financial Management) Regulations 1996. The format for this statement is prescribed within the regulations and is the same as that included in the annual budget.

As the name suggests, the Rate Setting Statement sets out the total amount of general rates proposed in the budget and the amount actually raised during the reporting year. To arrive at these, the statement reconciles all sources and application of funds and the closing surplus or deficit (less any opening balances). This includes all operational revenue and expenses (as included in the Statement of Comprehensive Income) together with all capital acquisitions made, transfers to and from cash-backed reserves and transactions associated with borrowings.

The Rate Setting Statement provides a more complete picture of the council's financial activities during the reporting year compared to the Statement of Comprehensive Income (which reports only on the operational activities).

Notes to the Accounts

The notes are a very important and informative section of the Report. They provide additional meaning to and information in support of the principal statements.

The Significant Accounting Policies at note 1 provide the reader with the policies and parameters used in preparing the Statements. In other words, these are the ground rules that form the basis for preparing the statements.

Apart from the Accounting Policies, the other notes provide the details behind many of the summarised figures contained within the statements. Where there is a direct correlation between amounts, the applicable note number is disclosed beside the relevant item in the statements.

The notes should be read in conjunction with the principal Financial Statements to get a clearer understanding of Council's financial position.

Auditor's Report & CEO's Statement

The independent Audit Report provides an external and independent opinion on the Financial Statements. It provides the reader with the scope of the audit work undertaken and expresses an audit opinion formed on this basis. The audit opinion relates to the fairness aspects and the statutory compliance of the Financial Statements.

The Statement by the Chief Executive Officer serves as a written undertaking by management to the correctness and fairness of the statements.

**City of Cockburn
Financial Report
For the year ended 30 June 2019**

**Local Government Act 1995
Local Government (Financial Management) Regulations 1996**

Statement by Chief Executive Officer

The attached financial report of the City of Cockburn for the financial year ended 30 June 2019 is based on proper accounts and records to present fairly the financial position of the City of Cockburn at 30 June 2019 and the results of the operations for the financial year then ended in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards.

Financial Report

NOTES TO THE ACCOUNTS

1. Significant Accounting Policies

The significant accounting policies which have been adopted in the preparation of this financial report are presented below and have been consistently applied unless otherwise stated.

a. Basis of Preparation

The financial report comprises general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the Local Government Act 1995 and accompanying regulations.

The Local Government (Financial Management) Regulations 1996 take precedence over Australian Accounting Standards. Regulation 16 prohibits a local government from recognising as assets Crown land that is a public thoroughfare, such as land under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or any other sporting or recreational facility of State or regional significance. Consequently, some assets, including land under roads acquired on or after 1 July 2008, have not been recognised in this financial report. This is not in accordance with the requirements of AASB 1051 Land Under Roads paragraph 15 and AASB 116 Property, Plant and Equipment paragraph 7.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Critical accounting estimates

The preparation of a financial report in conformity with the Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. The results of this experience and other factors combine to form the basis of making judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The local government reporting entity

All Funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

City of Cockburn
Financial Report

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated.

b. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

c. Cash and Cash Equivalents

Cash and cash equivalents include cash at bank and in hand and short-term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included as short-term borrowings in current liabilities on the Statement of Financial Position.

d. Inventories

General

Inventories are valued at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

e. Fixed Assets

Each class of fixed assets within either property, plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Mandatory requirement to revalue non-current assets

Effective from 1 July 2012, the *Local Government (Financial Management) Regulations 1996* were amended and the measurement of non-current assets at Fair Value became mandatory.

City of Cockburn
Financial Report

As at 30 June 2017 all non-current assets were being carried at Fair Value in accordance with the requirements and are now remeasured at least every five years.

Relevant disclosures, in accordance with the requirements of Australian Accounting Standards, have been made in the financial report as necessary.

Land under control

In accordance with Local Government (Financial Management) Regulation 16(a), the City was required to include as an asset (by 30 June 2013), Crown Land operated by the local government as a golf course, showground, racecourse or other sporting or recreational facility of State or Regional significance.

Upon initial recognition, these assets were recorded at cost in accordance with AASB 116. They were then classified as Land and revalued along with other land in accordance with the other policies detailed in this Note.

Initial recognition and measurement between mandatory revaluation dates

All assets are initially recognised at cost and subsequently revalued in accordance with the mandatory measurement framework detailed above.

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

Individual assets acquired between initial recognition and the next revaluation of the asset class in accordance with the mandatory measurement framework detailed above, are carried at cost less accumulated depreciation as management believes this approximates fair value. They will be subject to subsequent revaluation at the next anniversary date in accordance with the mandatory measurement framework detailed above.

Revaluation

Increases in the carrying amount arising on revaluation of assets are credited to a revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised against revaluation surplus directly in equity. All other decreases are recognised in profit or loss.

Land under Roads

In Western Australia, all land under roads is Crown Land, the responsibility for managing which, is vested in the local government.

Effective as at 1 July 2008, Council elected not to recognise any value for land under roads acquired on or before 30 June 2008. This accords with the treatment available in Australian Accounting Standard AASB 1051 Land Under

City of Cockburn
Financial Report

Roads and the requirement of Regulation 16(a) (i) of the Local Government (Financial Management) Regulations that prohibits local government from recognising such land as an asset of local government.

In respect of land under roads acquired on or after 1 July 2008, as detailed above, Regulation 16(a) (i) of the Local Government (Financial Management) Regulations prohibits local government from recognising such land as an asset of local government.

Whilst such treatment is inconsistent with the requirements of AASB 1051, Local Government (Financial Management) Regulation 4(2) provides, in the event of such an inconsistency, the local Government (Financial Management) Regulations prevail.

Consequently, any land under roads acquired on or after 1 July 2008 is not included as an asset of the City.

Depreciation of Non-Current Assets

The depreciation amount of all fixed assets including buildings but excluding freehold land, are depreciated on straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated life of the improvements.

When an item of property, plant and equipment is revalued, any accumulated depreciation at the date of the revaluation is treated in one of the following ways:

- 1) The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. For example, the gross carrying amount may be restated by reference to observable market data or it may be restated proportionately to the change in the carrying amount. The accumulated depreciation at the date of the revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the asset after taking into account accumulated impairment losses; or
- 2) Eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Depreciation is recognised over the asset's useful life, as follows:

Property, Plant and Equipment

Buildings (Components)	30-50 years
Furniture and Equipment	3-10 years
Computer Equipment	3-5 years
Plant & Machinery	3-10 years

Infrastructure Assets

Infrastructure – Footpaths	20-50 years
Infrastructure – Drainage	30-75 years
Infrastructure – Roads: Surface	15-25 years
Infrastructure – Roads: Base	50-80 years
Infrastructure – Roads: Sub-Base	80-100 years

City of Cockburn
Financial Report

Infrastructure – Roads: Kerbing	20-50 years
Infrastructure – Bridges	30-50 years
Infrastructure – Parks Equipment	10-30 years
Infrastructure – Marina	20-100 years
Infrastructure – Landfill	10-80 years
Bus Shelters	15-40 years

Capitalisation Threshold

Asset Class	\$
Land	5,000
Buildings	5,000
Furniture & Equipment / Computer Equipment	5,000
Plant & Machinery	5,000
Infrastructure Assets	5,000
Software	100,000

During the reporting year, the City increased the capitalisation threshold for land and buildings from nil to \$5,000 in accordance with the *Local Government (Financial Management) Regulations 1996*. The City also wrote off any assets held that had been previously capitalised below the \$5,000 threshold. The total amount was immaterial.

After considering AASB 1031 – Materiality, the above capital recognition thresholds have been determined for each asset class. Any purchase below these thresholds is recognised as expenditure in the income statement.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of comprehensive income in the period in which they arise.

f. Financial Assets

Other financial assets at amortised cost

The City classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at fair value through profit and loss

The City classifies the following financial assets at fair value through profit and loss:

City of Cockburn
Financial Report

- debt investments which do not qualify for measurement at either amortised cost or fair value through other comprehensive income.
- equity investments which the City has not elected to recognise fair value gains and losses through other comprehensive income.

Impairment and risk

Information regarding impairment and exposure to risk can be found at Note 29.

g. Trade and other receivables

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Impairment and risk exposure

Information about the impairment of trade receivables and their exposure to credit risk and interest rate risk can be found in Note 29.

Classification and subsequent measurement

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

h. Fair Value of Assets and Liabilities

When performing a revaluation, the City uses a mix of both independent and management valuations using the following as a guide:

Fair Value is the price that the City would receive to sell the asset or would have to pay to transfer a liability, in an orderly (i.e. unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset. The fair values of assets that are not traded in an active market are

City of Cockburn
Financial Report

determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

To the extent possible, market information is extracted from either the principal market for the asset (i.e. the market with the greatest volume and level of activity for the asset) or, in the absence of such a market, the most advantageous market available to the entity at the end of the reporting period (i.e. the market that maximises the receipts from the sale of the asset after taking into account transaction costs and transport costs).

For non-financial assets, the fair value measurement also takes into account a market participant's ability to use the asset in its highest and best use or to sell it to another market participant that would use the asset in its highest and best use.

Fair Value Hierarchy

AASB 13 requires the disclosure of fair value information by level of the fair value hierarchy, which categorises fair value measurement into one of three possible levels based on the lowest level that an input that is significant to the measurement can be categorised into as follows:

Level 1

Measurements based on quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2

Measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Measurements based on unobservable inputs for the asset or liability.

The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data. If all significant inputs required to measure fair value are observable, the asset or liability is included in Level 2. If one or more significant inputs are not based on observable market data, the asset or liability is included in Level 3.

Valuation techniques

The City selects a valuation technique that is appropriate in the circumstances and for which sufficient data is available to measure fair value. The availability of sufficient and relevant data primarily depends on the specific characteristics of the asset or liability being measured. The valuation techniques selected by the City are consistent with one or more of the following valuation approaches:

Market approach

Valuation techniques that use prices and other relevant information generated by market transactions for identical or similar assets or liabilities.

Income approach

City of Cockburn
Financial Report

Valuation techniques that use convert estimated future cash flows or income and expenses into a single discounted present value.

Cost approach

Valuation techniques that reflect the current replacement cost of an asset at its current service capacity.

Each valuation technique requires inputs that reflect the assumptions that buyers and sellers would use when pricing the asset or liability, including assumptions about risks. When selecting a valuation technique, the City gives priority to those techniques that maximise the use of observable inputs and minimise the use of unobservable inputs. Inputs that are developed using market data (such as publicly available information on actual transactions) and reflect the assumptions that buyers and sellers would generally use when pricing the asset or liability and considered observable, whereas inputs for which market data is not available and therefore are developed using the best information available about such assumptions are considered unobservable.

As detailed above, the mandatory measurement framework imposed by the *Local Government (Financial Management) Regulations 1996* requires, as a minimum, all assets carried at a revalued amount to be revalued at least every 3 years.

i. Impairment of Assets

In accordance with Australian Accounting Standards the City's assets, other than inventories, are assessed at each reporting date to determine whether there is any indication they may be impaired.

Where such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, to the asset's carrying amount.

Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (e.g. AASB 116) whereby any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

For non-cash generating assets such as roads, drains, public buildings and the like, value in use is represented by the depreciated replacement cost of the asset.

j. Trade and Other Payables

Trade and other payables are carried at amortised cost. They represent liabilities for goods and services provided to the Municipality prior to the end of the financial year that are unpaid and arise when the Municipality becomes obliged to make future payments in respect of the purchase of these goods and

City of Cockburn
Financial Report

services. The amounts are unsecured and are usually settled within 30 days of recognition.

k. Employee Benefits

The provisions for employee benefits relates to amounts expected to be paid for long service leave, annual leave, wages and salaries and are calculated as follows:

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled. The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position.

Other long-term employee benefits

The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position. Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

l. Borrowings

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

City of Cockburn
Financial Report

Borrowings are classified as current liabilities unless the Council has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

m. Provisions

Provisions are recognised when: The Council has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

n. Leases

Leases of fixed assets where substantially all the risks and benefits incidental to the ownership of the asset, but not legal ownership, are transferred to the City, are classified as finance leases.

Finance leases are capitalised recording an asset and a liability at the lower amounts equal to the fair value of the leased property or the present value of the minimum lease payments, including any guaranteed residual values. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Leased assets are depreciated on a straight line basis over the shorter of their estimated useful lives or the lease term.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred.

Lease incentives under operating leases are recognised as a liability and amortised on a straight line basis over the life of the lease term.

o. Investment in Associates

An associate is an entity over which the City has significant influence. Significant influence is the power to participate in the financial operating policy

City of Cockburn
Financial Report

decisions of that entity but is not control or joint control of those policies. Investments in associates are accounted for in the financial statements by applying the equity method of accounting, whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition change in the City's share of net assets of the associate. In addition, the City's share of the profit or loss of the associate is included in the City's profit or loss.

The carrying amount of the investment includes, where applicable, goodwill relating to the associate. Any discount on acquisition, whereby the City's share of the net fair value of the associate exceeds the cost of investment, is recognised in profit or loss in the period in which the investment is acquired.

Profits and losses resulting from transactions between the City and the associate are eliminated to the extent of the City's interest in the associate.

When the City's share of losses in an associate equals or exceeds its interest in the associate, the City discontinues recognising its share of further losses unless it has incurred legal or constructive obligations or made payments on behalf of the associate. When the associate subsequently makes profits, the City will resume recognising its share of those profits once its share of the profits equals the share of the losses not recognised.

p. Rates, Grants, Donations and Other Contributions

Rates, grants, donations and other contributions are recognised as revenues when the local government obtains control over the assets comprising the contributions. Control over assets acquired from rates is obtained at the commencement of the rating period or, where earlier, upon receipt of the rates.

Where contributions recognised as revenues during the reporting period were obtained on the condition that they be expended in a particular manner or used over a particular period, and those conditions were undischarged as at the reporting date, the nature of and amounts pertaining to those undischarged conditions are disclosed in Note 20(c). That note also discloses the amount of contributions recognised as revenues in a previous reporting period which were obtained in respect of the local government's operation for the current reporting period.

q. Superannuation

The Council is a member of the Western Australian Local Government Superannuation Plan (WALGSP). This is a Defined Contributions Plan and Council contributes at the rate of 10.5% for the Superannuation Guarantee Charge, plus additional matching contributions of up to 4% where agreed.

r. Rounding Off Figures

All figures shown in this annual financial report, other than a rate in the dollar, are displayed rounded to the nearest dollar but summed to two decimal places.

City of Cockburn
Financial Report

s. Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

t. Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non-current based on the City's intentions to release for sale.

u. Budget Information

Budget figures shown in the financial statements have been disclosed as per the legislative requirements. Where necessary, budget information has been recast to comply with current presentation requirements. Unless otherwise stated, the budget comparative figures shown in this annual financial report relate to the original budget estimate for the relevant item of disclosure.

v. New Accounting Standards and Interpretations for Application in Future Periods

The AASB has issued a number of new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods, some of which are relevant to the City.

Management's assessment of the new and amended pronouncements that are relevant to the City, applicable to future reporting periods and which have not yet been adopted is still in progress. The expected impact is set out as follows:

City of Cockburn
Financial Report

	Title	Issued / Compiled	Applicable⁽¹⁾	Impact
(ii)	AASB 15 Revenue from Contracts with Customers	December 2014	1 January 2019	<p>This Standard establishes principles for entities to apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer.</p> <p>The effect of this standard will depend on the nature of future transactions the City has with those third parties it has dealings with. The City has not yet determined the impact of adopting this standard</p>
(iii)	AASB 16 Leases	February 2016	1 January 2019	<p>Under AASB 16 there is no longer a distinction between finance and operating leases. Lessees will now bring to account a right-to-use asset and lease liability into the statement of financial position for all leases. Effectively this means the vast majority of operating leases as defined by the current AASB 117 Leases which currently do not impact the statement of financial position will be required to be capitalised on the statement of financial position when AASB 16 is adopted.</p> <p>Currently, operating lease payments are expensed as incurred. This will cease and will be replaced by both depreciation and interest charges. Whilst the City is yet to fully assess the impact based on the current number of operating leases held by the City, the impact is not expected to be significant.</p>

City of Cockburn
Financial Report

- | | | | | | | |
|------|--|--------------|------------------|-----------|---------|--|
| (iv) | AASB
Income of Not-for
Profit Entities | 1058
2016 | December
2016 | 1
2019 | January | <p>These standards are likely to have a significant impact on the income recognition for NFP's. Key areas for consideration are:</p> <ul style="list-style-type: none"> • Assets received below fair value; • Transfers received to acquire or construct non-financial assets; • Grants received; • Prepaid rates; • Leases entered into at below market rates; and • Volunteer services |
|------|--|--------------|------------------|-----------|---------|--|

Whilst it is not possible to quantify the financial impact (or if it is material) of these key areas until the details of future transactions are known, they will all have application to the City's operations.

Notes: (1) Applicable to reporting periods commencing on or after the given date.

Management is continuing to review industry guidance and analyse business transactions to determine the financial requirements for 2019/20 reporting year.

w. Adoption of New and Revised Accounting Standards

During the current year, the City adopted all of the new and revised Australian Accounting Standards and Interpretations which were compiled, became mandatory and which were applicable to its operations.

Whilst many reflected consequential changes associated with the amendment of existing standards, the only new standard with material application is AASB 9 *Financial Instruments*.

AASB 9 *Financial Instruments* replaces AASB 139 *Financial Instruments: Recognition and Measurement* for annual reporting periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

The City applied AASB 9 prospectively, with an initial application date of 1 July 2018. The adoption of AASB 9 has resulted in changes in accounting policies, however there were no changes to amounts recognised in the financial statements.

City of Cockburn
Financial Report

Classification and subsequent measurement

Under AASB 9, financial assets are subsequently measured at amortised cost, fair value through other comprehensive income (fair value through OCI) or fair value through profit or loss (fair value through P/L). The classification is based on two criteria: the City's business model for managing the assets; and whether the assets' contractual cash flows represent 'solely payments of principal and interest' on the principal amount outstanding.

The assessment of the City's business model was made as of the date of initial application, 1 July 2018. The assessment of whether contractual cash flows on financial assets are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The classification and measurement requirements of AASB 9 did not have a significant impact on the City. The following are the changes in the classification of the City's financial assets:

- Trade receivables, term deposits and loans and advances (i.e. other debtors) classified as loans and receivables as at 30 June 2018 are held to collect contractual cash flows and give rise to cash flows representing solely payments of principal and interest. These are classified and measured as financial assets at amortised cost beginning 1 July 2018.
- The investment in Local Government House Trust was designated as at fair value through profit and loss (previously classified as an available-for-sale financial asset).

Impairment

The adoption of AASB 9 has fundamentally changed the City's accounting for impairment losses for financial assets by replacing AASB 139's incurred loss approach with a forward-looking expected credit loss (ECL) approach. AASB 9 requires the City to recognise an allowance for ECLs for all financial assets not held at fair value through P/L. There was no change to the provision for impairment losses at 1 July 2018 as a result of this change.

x. Intangible Assets

Easements

The Council has determined that under AASB 138 Intangible Assets, easements are valued on an historical cost basis, because it is unlikely that an active market in easements exists to allow for fair value measurement. Due to acquisition of easements at NIL values, no easements have been included in the financial report.

y. Provision for Restoration, Rehabilitation and Site Monitoring Costs

The City complies with the full provision method for accounting provisions in respect of restoration, rehabilitation and site monitoring costs. Charges are made to expenses based on the estimated costs of restoring, rehabilitating and

City of Cockburn
Financial Report

monitoring the landfill site. The rate charge is reviewed annually and is based on an estimated cost per tonne. The cost per tonne is arrived at after taking into account a standard engineering cost per cubic metre of landfill, the density of the waste and the most recent aerial surveys. Engineering rates differ according to the nature of the obligation to provide the service. The provision is recorded at the net present value of expected future costs discounted using the applicable government bond rates.

z. Future capping Expenditure

The liability for estimated future capping expenditure is provided for through a rehabilitation provision on a phase-by-phase basis and is discounted to its present value, with the unwinding of the discount being charged to the statement of comprehensive income within the amortisation charge. The discounted present value of the future capping expenditure is also capitalised as part of the rehabilitation asset and is amortised on a straight-line basis. Changes in estimates are recognised prospectively with corresponding adjustments to the provision and associated costs.

aa. Land Held for Resale

Land purchased for development and/or resale is valued at the lower of cost and fair value less costs to sell. Cost includes the cost of acquisition, development and interest incurred on the financing of that land during its development. Interest and holding charges incurred after development is complete are recognised as expenses.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the Council's intention to release for sale.

City of Cockburn
Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

2b. Revenues and Expenses

MISSION STATEMENT

To make the City of Cockburn the most attractive place to live, work, visit and invest in, within the Perth metropolitan area.

The City of Cockburn has adopted the program/activity structure outlined in Schedule 1 of the Local Government (Financial Management) Regulations. The City has incorporated the allocation of internal service provision costs throughout the various programs/activities.

Council operations as disclosed in this budget encompass the following service orientated programs/activities:

General Purpose Funding

The collection of general-purpose revenue including rates and penalties, general-purpose grants and interest on investments. This provides the funding for much of the City's programs/activities.

Governance

The administration and operation of facilities and services to the elected members of Council. Also includes other corporate type costs that are not related to the specific service areas covered under the other programs.

Law, Order And Public Safety

Provision of community safety services including supervision of various by-laws, animal and dog control, a security patrol service, fire prevention and voluntary emergency services.

Health

The provision of environmental health services including food quality and pest control.

Education and Welfare

The provision of support services to families and children, the aged and disabled and senior citizens. The provision of pre- schools and services and facilities for the youth.

Community Amenities

Refuse collection, recycling and disposal, the operation of the Henderson Landfill site, protection of the environment, administration of the town planning scheme and maintenance of bus shelters.

Recreation and Culture

The provision and operation of community halls and recreation centres, parks and ovals, beach reserves and swimming areas and library facilities. The development and provision of arts and cultural events.

City of Cockburn
Financial Report

Transport

This program includes road, drainage and footpath construction and maintenance. The provision and maintenance of streetscapes is also included, as is the purchase of heavy plant and the operations of the council works depot

Economic Services

Activities associated with the control of building activity within the city and the provision of facilities and services that encourage tourism.

Other Property and Services

Includes private works and engineering overheads and plant operating costs (both of which are allocated to the City's works program).

The fair value of property, plant and equipment is determined at least every three years in accordance with the regulatory framework. Additions since the date of valuation are shown as cost, given they were acquired at arm's length and any accumulated depreciation reflects the usage of service potential. It is considered the recorded written down value approximates fair value. At the end of each intervening period the valuation is reviewed and where appropriate the fair value is updated to reflect current market conditions. This process is considered to be in accordance with Local Government (Financial Management) Regulation 17A which requires property, plant and equipment to be shown at fair value.

9b. Movements in Carrying Amounts - Property, Plant & Equipment

City of Cockburn
Financial Report

In accordance with council resolutions in relation to each reserve account, the purpose for which the reserves are set aside are as follows:

1. Staff Payments & Entitlements

This Reserve provides for payment of various staff entitlements including separation, bonus, awards and other payments made to Staff either through contractual or statutory entitlement, other than leave liabilities already provided for within the City's net asset position.

Anticipated date of use: ongoing.

2. Plant & Vehicle Replacement

This Reserve provides for the orderly replacement of plant and vehicles. Annual transfers into this Reserve are based on the estimated depreciation charge for plant each year. Funds are drawn as required to meet annual plant replacement costs.

Anticipated date of use: ongoing.

3. Information Technology

This Reserve is used to provide for the capital cost of upgrading/replacement of Council's computer hardware and software.

Anticipated date of use: ongoing.

4. Major Building Refurbishment

This Reserve provides funding for future major refurbishment of Council buildings as they become necessary. Annual transfers are usually made to this Reserve from any end of year surplus.

Anticipated date of use: ongoing.

5. Waste & Recycling

This Reserve provides funding for capital costs associated with the development and management of a waste disposal site. Transfers to this Reserve are made based on planned future capital funding requirements for waste management.

Anticipated date of use: majority by the time the landfill closes in 2040.

6. Land Development and Investment Fund

This Reserve is to accommodate and facilitate the purchase, development and disposal of land under the Council's land development strategies with the ability to loan funds on an interest payable basis to other reserve accounts of the City.

Anticipated date of use: ongoing.

7. Roads & Drainage Infrastructure

The purpose of this Reserve is to provide for the renewal and refurbishment of roads and drainage infrastructure and for the provision of matching funds for Federal & State Government road grants.

Anticipated date of use: ongoing.

City of Cockburn
Financial Report

8. Naval Base Shacks

This Reserve provides funds for the development & refurbishment of the Naval Base shacks site. It will also fund rehabilitation costs when the Park reverts back to the State Government. Annual transfers to this Reserve are fully funded by part of the lease income derived from the shacks.

Anticipated date of use: ongoing.

9. Community Infrastructure

This Reserve funds the provision of community and recreation facilities within the City as the need arises. The requirement for these facilities over the next five to ten years is significant due to the rapid rate of development within the city and the associated population growth.

Anticipated date of use: ongoing.

10. Insurance

This Reserve is used to minimise and smooth annual budgetary impacts from the City's performance based insurance schemes, including deductibility levels.

Anticipated date of use: ongoing.

11. Greenhouse Action Fund

This Reserve will be used to purchase carbon offsets and fund projects to support energy efficiency, waste management and renewable energy installations.

Anticipated date of use: ongoing.

12. Aged and Disabled Asset Replacement

This Reserve is fully funded from the operating government grants received by the services and has no budgetary impact on Municipal funds.

Anticipated date of use: ongoing.

13. Welfare Projects Employee Entitlements

This Reserve is fully funded from the operating government grants received by the services and has no budgetary impact on Municipal funds.

Anticipated date of use: ongoing.

14. HWRP Post Closure Management & Contaminated Sites

This Reserve is required to cover any costs associated with clean-up & remediation works at contaminated sites within the district as enforced by the Contaminated Sites Act.

Anticipated date of use: ongoing.

15. Municipal Elections

This Reserve provides funding to cover election expenses during election years to smooth out annual budgetary impacts.

Anticipated date of use: ongoing.

City of Cockburn
Financial Report

16. Welfare Redundancies

This Reserve was created for the purpose of covering potential future redundancy costs for grant funded services, as funding agreements do not usually allow for these costs.

Anticipated date of use: ongoing.

17. Port Coogee Special Maintenance - SAR

This Reserve is used to manage funds raised through the specified area rate (SAR) for the Port Coogee development. These funds are required for the specialised maintenance requirements of the development.

Anticipated date of use: ongoing.

18. Port Coogee Waterways - SAR

This Reserve is used to manage funds raised through the specified area rate (SAR) for the Port Coogee development on land directly adjacent to the waterways. These funds are required for the maintenance of the waterways surrounding Port Coogee marina and associated infrastructure.

Anticipated date of use: ongoing.

19. Community Surveillance

This Reserve funds activities in relation to Community Surveillance.

Anticipated date of use: ongoing.

20. Waste Collection

This reserve provides funding for future capital requirements related to the Waste Collection service.

Anticipated date of use: ongoing.

21. Family Day Care Accumulation Fund

This Reserve is fully funded from the operating government grants received by the services and has no budgetary impact on Municipal funds.

Anticipated date of use: ongoing.

22. Underground Power – Service Charge

This Reserve is used for managing funds raised through prescribed service charges for the undergrounding of power within the district.

Anticipated date of use: ongoing.

23. Naval Base Shack Removal

Established for the purposes of the future removal of leasehold dwellings at Reserve 24308, Naval Base. All funds raised are to be accounted for on a property lease by lease basis, and not on who paid the actual payment at the time of the payment.

Funds raised will be reimbursed to leaseholders when dwelling is removed and the site rehabilitated to its prior state.

City of Cockburn
Financial Report

Anticipated date of use: no certain date for rehabilitation.

24. Environmental Offset

This Reserve is used to manage funds required to undertake environmental rehabilitation of land associated with road construction as approved by the relevant government agency.

Anticipated date of use: ongoing.

25. Bibra Lake Management Plan

This Reserve is used to manage funding to implement the Bibra Lake Management Plan as adopted by Council.

Anticipated date of use: ongoing.

26. Restricted Grants & Contributions

This Reserve is used to quarantine monies received for restricted purposes across financial years.

Anticipated date of use: ongoing.

27. CIHCF Building Maintenance

This Reserve is used to manage funding for major building maintenance of the Cockburn Integrated Health and Community Facility (CIHCF).

Anticipated date of use: ongoing.

28. Cockburn ARC Building Maintenance

This Reserve is used to manage funding for the major building maintenance of the Cockburn ARC recreation facility.

Anticipated date of use: ongoing.

29. Carry Forward Projects

This reserve is used to manage municipal funding for incomplete projects carried forward to the following financial year.

Anticipated date of use: ongoing.

30. Port Coogee Marina Assets Replacement

This Reserve provides for the replacement of marina infrastructure assets. Funding is provided from pen fees to reflect estimated depreciation costs.

Anticipated date of use: ongoing.

31. Port Coogee Waterways - WEMP

This Reserve is used to manage the funds paid by the developer of the Port Coogee marina development in accordance with the Waterways Environmental Management Plan (WEMP). The funds will be used to maintain and manage the marina waterways.

Anticipated date of use: ongoing.

City of Cockburn
Financial Report

32. Cockburn Coast SAR

This Reserve is used to manage funds raised through the specified area rate (SAR) providing funding to ensure that the parks and public areas (including custom street lighting) within the Cockburn Coast Development are maintained in accordance with the higher standards agreed to between the City and the Developer.

Anticipated date of use: ongoing.

33. Development Contribution Plan (DCP) – Community Infrastructure

This reserve is used to account for funds generated from the Community Infrastructure Development Contributions Scheme (DCP13) established under the City's Town Planning Scheme No. 3.

Anticipated date of use: ongoing.

34. Development Contribution Plans (DCP) – Various

This Reserve is used for the management of contributions and costs with respect to Development Contribution Areas as established by and in accordance with Town Planning Scheme 3.

Anticipated date of use: ongoing.

35. Public Open Space (POS) Cash in Lieu

This Reserve is no longer used from 2017/18. All funds have been transferred to the City's trust account.

City of Cockburn
Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

17. Investment in Associate - SMRC

The City was a member of the Southern Metropolitan Regional Council (SMRC), a regional local government established in 1991 pursuant to the Local Government Act with membership currently consisting of five local governments. In May 2018, Council determined to withdraw from the SMRC establishment agreement, effective 30 June 2019 and gave 12 months' notice. Equity interests have been adjusted in 2018-19 in accordance with the establishment and project participant agreements and accounting standard requirements.

City of Cockburn's withdrawal from the SMRC and all associated projects

The City withdrew from the Regional Resource Recovery Centre (RRRC) Project Participants' Agreement, which became effective after 30 June 2017. At reporting date, the City has no equity interest in the assets of the RRRC. However, the City has recognised a liability for its share of the project's borrowings for which it has guaranteed (refer note 12b). The full repayment of all associated borrowings (expected June 2023) will trigger an equity share in the RRRC's remaining assets at that time (being those acquired through the borrowings). It is the City's position that any value remaining in those assets will be immaterial at that time and accordingly no asset has been recognised.

The City withdrew from the Office Accommodation Project Participant's Agreement, which becomes effective after 30 June 2019 (i.e. 1 July 2019). The City's withdrawal triggered a requirement under the project participant's agreement to prepare an amended business plan for the Project, having regard to the effect of the City's withdrawal. The amended business plan with a notional winding up of the project resulted in a net cost to the City of \$21,252 from the withdrawal. The City is reporting equity of \$675,004 in the office accommodation project as at 30 June 2019, being its share of the net assets immediately before the withdrawal takes effect. The City has also recognised a liability for its share of the related borrowings for which it had guaranteed (refer note 12b). Both this equity share and the related borrowings liability will be extinguished, once the withdrawal takes effect on 1 July 2019. This is in accordance with the project participant's agreement.

The City's withdrawal as a member of the SMRC under the establishment agreement (effective after 30 June 2019) requires the SMRC to (as soon as practicable) calculate the City's share of any surplus or deficit were the SMRC to be wound up. This is yet to occur and the City expects any surplus or deficit position will be immaterial. Accordingly, no equity share has been accounted for by the City in its remaining share of the SMRC as at 30 June 2019.

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

18. Contingent Liabilities**(A) Claim for Injurious Affection - land at 870 North Lake Rd**

The owners of 870 North Lake Rd (Otago Pty Ltd) have made application to the State Administrative Tribunal (SAT) for an order, under s176(1) of the PD Act, claiming that their land is injuriously affected to the value of \$3,932,535 by the City's Local Planning Scheme No.3, including by operation of Development Area Structure Plan. The City disagrees and argues strongly that the land is not injuriously affected. Proceedings for determination of the application were stalled in SAT, awaiting the decision of the Court of Appeal on a similar matter (Scutti v City of Wanneroo). The Court of Appeal handed down its decision, which did not go in favour of the City of Wanneroo. However, the City's legal position is that the decision's application is very limited and not necessarily applicable to the Otago matter.

The matter is currently listed with SAT for a papers hearing on the 19th December 2019.

(B) State Wide Cladding Audit – Cockburn Integrated Health and Community Building

There is an ongoing State Wide Cladding Audit being conducted by the Department of Mines, Industry Regulation and Safety (DMIRS). A total of 7 buildings located in the City fell within the scope of the audit, including one owned by the City. The audit identified one Council owned building at 11 Wentworth Parade, Success required a more detailed risk assessment. The Risk assessment completed by DMIRS confirmed this building is considered a 'Moderate' risk, within a scale of Low, Moderate, High and Extreme.

The Fire Engineering and Building Surveying industry is currently experiencing insurance fade and policy exclusions in regard to professional indemnity insurance (PI), where certification of building cladding is involved. In some instances, a Fire Engineer may be able to confirm that remedial works to a building may reduce the fire risk to an acceptable level in their professional. The City has engaged the services of a Fire Engineer and a consultant Building Surveyor to review the matter and to ultimately certify compliance with the Building Code of Australia (BCA) after any required remedial work.

As at the date of this report, no assessment has been made to reliably estimate the amount of contingent liability that could possibly arise from the building cladding issue, however, management has noted this issue and discloses the possibility of this issue resulting in a future liability.

24. Interest Charges, Administration Fees and Instalments

	Interest	Admin	Actual	Actual
	Rate	Fee	2018/19	2017/18
	%	\$	\$	\$
Administration Fee		5.00	226,474	241,853
Penalty Interest - Rates	7.00		246,497	213,573
Penalty Interest - ESL	11.00		35,031	17,738
Instalment Interest	3.50	-	462,329	422,033
			970,331	895,198

Payment by Instalments

Council offered ratepayers the option of paying rates and charges by four instalments. The first instalment (inclusive of any arrears) had to be paid in full by the due date. Failure to pay the first instalment by the due date resulted in the forfeiture of the instalment payment option. Ratepayers had the following options for paying their rates:

(a) Paid in full by 24 August 2018

- (b) Pay in four instalments due:**
1. 24 August 2018
 2. 26 October 2018
 3. 4 January 2019
 4. 8 March 2019

(c) Weekly or fortnightly instalment direct debits commencing 14 August 2018 to 14 June 2019

Administration Fees

The Rates Instalment Fee is \$5 per instalment.

Special Payment Arrangements

Ratepayers who were unable to pay their account in full or according to the instalment plans offered were able to make special payment arrangements to extinguish their debt. Penalty interest was applied at the rate of 7% to any outstanding balance.

Instalment Interest

The Local Government Act allows for interest to be charged on overdue amounts. The Council charged interest at the rate of 3.5% on outstanding rates for the year under review. This charge covered the opportunity cost of lost income on investment that would otherwise be received had the instalment options not been exercised. The maximum rate of interest allowed to be imposed on outstanding amounts under S6.45(4)(e) of the Local Government Act is 5.5%

Penalty Interest - Rates

Penalty interest was levied where payment in full or the first instalment was not received within thirty-five days of the issue of the rate notice. The rate charged was 7% on the daily balance. The maximum rate of interest allowed to be imposed on overdue rates and service charges under S6.51(1) of the Local Government Act is 11%.

Penalty Interest - DFES

The Minister for Emergency Services deemed the penalty interest rate for 2018/19 to be 11% on outstanding balances. Interest was levied where payment in full or the first instalment was not received within thirty-five days of the issue of the rate notice.

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

29. Financial Risk Management

Council's activities expose it to a variety of financial risks including price risk, credit risk, liquidity risk and interest rate risk. The Council's overall risk management focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Council.

Council does not engage in transactions expressed in foreign currencies and is therefore not subject to foreign currency risk.

Financial risk management is carried out by the finance area under policies approved by the Council.

Restated refer note 39

Fair value is determined as follows:

- Cash and Cash Equivalents, Receivables, Payables – estimated to the carrying value which approximates net market value.
- Borrowings, other financial assets – estimated future cash flows discounted by the current market interest rates applicable to assets and liabilities with similar risk profiles.

(a) Cash & Cash Equivalents and Other Financial Assets

Council's objective is to maximise its return on cash and investments whilst maintaining an adequate level of liquidity and preserving capital. The finance area manages the cash and investments portfolio with the assistance of independent advisers. Council has an investment policy and the policy is subject to review by Council.

The major risk associated with investments is price risk that the capital value of investments may fluctuate due to changes in market prices, whether these changes are caused by factors specific to individual financial instruments of issuers or factors affecting similar instruments traded in a market.

Cash and investments are subject to interest rate risk – the risk that movements in interest rates could affect returns.

Another risk associated with cash and investments is credit risk – the risk that a contracting entity will not complete its obligations under a financial instrument resulting in a financial loss to Council.

Council also seeks advice from an independent adviser before placing any cash and investments.

Impact of a 1% movement in interest rates on cash

- Equity	86,048	17,495
- Statement of Comprehensive Income	86,048	17,495

(b) Receivables

Council's major receivables comprise rates and annual charges and user charges and fees. The major risk associated with these receivables is credit risk – the risk that the debts may not be repaid. Council manages this risk by monitoring outstanding debt and employing debt recovery policies. It also encourages ratepayers to pay rates by the due date through incentives.

Credit risk on rates and annual charges is minimised by the ability of Council to recover these debts as a secured charge over the land – that is, the land can be sold to recover the debt. Council is also able to charge interest on overdue rates and annual charges at higher than market rates, which further encourages payment.

The level of outstanding receivables is reported to Council monthly and benchmarks are set and monitored for acceptable collection performance.

Council makes suitable provision for expected credit loss in 2018 as required and carries out credit checks on most non-rate debtors.

There are no material receivables that have been subject to a re-negotiation of repayment terms.

(c) Payables & Borrowings

Payables and borrowings are both subject to liquidity risk – that is the risk that insufficient funds may be on hand to meet payment obligations as and when they fall due. Council The contractual undiscounted cash flows of the City's Payables and Borrowings are set out in the Liquidity Table below:

	Due within 1 year	Due between 1 & 5 years	Due after 5 years	Total contractual cash flows	Carrying values
	\$	\$	\$	\$	\$
2018/19					
Borrowings	5,721,810	17,101,952	5,708,500	28,532,262	23,933,583
Payables	9,281,200	-	-	9,281,200	9,281,200

Borrowings are also subject to interest rate risk - the risk that movements in interest rates could adversely affect funding costs. The City manages this risk by borrowing long term and fixing the interest rate to the situation considered the most advantageous at the time of negotiation.

(d) Liquidity Risk and Interest Rate Risk Exposure

The following table summarises the liquidity risk and interest rate risk for the City, together with the effective interest rates as at 30th June 2019.

	Weighted Average Effective Interest Rate	Carrying Amount	Interest Rate Exposure			Non-Interest Bearing	Nominal Amount

Note 36 – Fair Value Measurement

The City of Cockburn measures the following assets at fair value on a recurring basis after initial recognition:

- Land and Buildings
- Plant & Machinery
- Computer Equipment
- Furniture and Equipment
- Roads
- Footpaths
- Drainage
- Landfill Infrastructure
- Parks Equipment
- Marina Infrastructure
- Financial Assets at Fair Value

The following table provides the fair values of the City of Cockburn's assets measured and recognized on a recurring basis after initial recognition and their categorization within the fair value hierarchy:

Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

36 (a). Transfers Policy

The policy of the City of Cockburn is to recognise transfers into and transfers out of the fair value hierarchy levels as at the end of the reporting period. There was no transfer between Level 1, 2, and 3 during the current and previous years.

36 (b). Highest and Best Use

All assets have been valued at their highest and best use, that being their current use.

36 (c). Valuation techniques used to derive fair values:

The fair values of financial and non-financial assets that are not traded in an active market are determined using valuation techniques. These valuation techniques maximise the use of observable data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an asset are observable, the asset is included in level 2. If one or more of the significant inputs is not based on observable market data, the asset is included in level 3. This is the case for Council specialised buildings assets, which are of a specialist nature and where there is no active market for the assets.

The following table summarises the valuation inputs and techniques used to determine the fair value for each asset class.

Asset	Level of Valuation Input	Fair Value at 30 June 2019 (\$)	Valuation Technique(s)	Inputs Used
Land	2	82,952,040	Market Approach	Price per square metre
Buildings	3	222,393,754	Market Approach Cost Approach Using Current Replacement Cost	Estimates of residual value, useful life, pattern of consumption and asset condition and relationship to the assessed level of remaining service potential of the depreciable amount.
Furniture & Equipment	3	1,634,608	Cost Approach Using Current Replacement Cost	Estimates of residual value, useful life, pattern of consumption and asset condition and relationship to the assessed level of remaining service potential of the depreciable amount
Computers & Equipment	3	4,039,032	Cost Approach Using Current Replacement Cost	Make, size, year of manufacture and condition
Plant & Machinery	2	13,523,749	Market Approach	Make, size, year of manufacture and condition
Financial Assets at FVTPL	3	123,734	Market Approach	The proportion of net assets from WALGA's balance sheet over the number of units held by the City.

Recurring Fair Value Measurements

The City's Infrastructure assets were revalued as at 30 June 2019 by Management Valuation. These were valued on the basis that the entity intended to retain these assets for

City of Cockburn
Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

a continuous use for the purposes of the enterprise and for the foreseeable future. The management had regard to assessing the value of the assets in their existing use and ensuring the highest and best use, noting that the current use of an asset is presumed to be its highest and best use unless market or other factors suggest a different use would maximise its value.

The following methods were used to determine the fair value measurements.

Land

Where there is an active and liquid market as evidenced by sales transactions of similar property types, a Market Approach by way of Direct Comparison or Income methods can be utilised, and are accepted valuation methodologies under AASB13. If a Market Approach is adopted, the valuation is deemed to be a Level 2 input.

Direct Comparison method which is considered a Level 2 input on the Fair Value Hierarchy, involves the analysis of sales evidence and comparisons with the subject land taking into account matters such as area, location and other general site characteristics. We note the Direct Comparison approach has been utilised in our assessment for all Land Assets, however the fair value measurement has been either a Level 2 or 3, depending on assumptions as to:

- Whether the land is subject to restrictions as to use and/or sale;
- Whether there is no active market.

If these assumptions apply to the land, we have measured the expected Fair Value as a Level 3. However if an active market could be established and there were no unreasonable restrictions as to use and/or sale, we have deemed the measurement to be a Level 2. Land carrying a Community or Park Recreation zoning, land that is utilised for Community uses (and not zoned 'Community'), access strips, or due to its general characteristics land that has no observable active market, have been assessed as a Level 3.

The valuation techniques used to measure fair value maximised the use of observable data where it was available and relied as little as possible on entity specifics. The disclosure of valuation estimates is designed to provide users with an insight into the judgements that have been made in the determination of fair values.

For assets valued under Level 3, the unobservable input is the rate per square metre applied to the asset.

Buildings

Where there is an active and liquid market as evidenced by sales transactions of similar property types, the Market Approach by Direct Comparison, Income or Summation methods can be utilised, and is an accepted valuation methodology under AASB13. If a Market Approach is adopted, the building valuation is deemed to be a Level 2 input.

Direct Comparison and Summation methods involve the analysis of sales evidence and comparisons with the subject taking into account matters such as method of construction, size, condition, age, land area and location. The land value is subtracted from the Market Value of the property to measure the asset Fair Value.

The Income approach is applied to income producing properties and includes the capitalisation of net income method, or for multi-income stream assets, a discounted cash flow approach. The capitalisation method involves capitalising the estimated net income of

City of Cockburn
Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

the property at an appropriate capitalisation rate (net yield) that has been determined through the analysis of sales evidence.

Due to the predominantly specialised nature of Local Government Assets, most of the buildings valuations have been undertaken on a Cost Approach (Depreciated Replacement Cost) valuation, an accepted valuation methodology under AASB13. The cost approach is deemed a Level 3 Input. Under this approach, the following process has been adopted:

- Where there is no depth of market as determined for the Council assets, the net current value of an asset is the gross current value less accumulated depreciation to reflect the consumed or expired service potential of the asset. Published/available market data for recent projects, and/or published cost guides are utilised to determine the estimated replacement cost (gross value) of the asset, including allowances for preliminaries and professional fees. This is considered a Level 2 input.
- A condition assessment is applied, which is based on factors such as the age of the asset, overall condition as noted by the Valuer during inspection, economic and/or functional obsolescence. The condition assessment directly translates to the level of depreciation applied. The conditions assessed are considered a Level 3 input.
- In determining the level of accumulated depreciation, in some instances residual values have been factored into the calculations, which is the value at the time the asset, is considered to be no longer available. The residual values applied are considered a Level 3 input.

While the replacement cost of the assets could be supported by market supplied evidence (level 2), the other unobservable inputs (such as estimates of residual value, useful life, and asset condition) were also required (level 3).

Landfill Infrastructure

Where there is an active and liquid market as evidenced by sales transactions of similar property types, the Market Approach by Direct Comparison, Income or Summation methods can be utilised, and is an accepted valuation methodology under AASB13. If a Market Approach is adopted, the asset valuation is deemed to be a Level 2 input.

The Fair Value should represent the highest and best use of the asset, i.e. the use of the asset that is physically possible, legally permissible, financially feasible, and which results in the highest value. Opportunities that are not available to the agency or entity are not considered. In this case we have assumed the current use is the highest and best use due to the specialist nature of the assets.

Due to the predominantly specialised nature of Local Government Assets, the landfill valuations have been undertaken on a Cost Approach (Depreciated Replacement Cost), an accepted valuation methodology under AASB13. The cost approach is deemed a Level 3 Input. Under this approach, the following process has been adopted:

- Where there is no depth of market as determined for the Council assets, the net current value of an asset is the gross current value less accumulated depreciation to reflect the consumed or expired service potential of the asset. Published/available market data for recent projects, and/or published cost guides are utilised to determine the estimated replacement cost (gross value) of the asset, including allowances for preliminaries and professional fees. This is considered a Level 2 input.
- A condition assessment is applied, which is based on factors such as the age of the asset, overall condition, and economic and/or functional obsolescence. The condition assessment directly translates to the level of depreciation applied. The conditions assessed are considered a Level 3 input.

City of Cockburn
Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

- In determining the level of accumulated depreciation for major assets, we have disaggregated into significant components which exhibit different patterns of consumption (useful lives). Residual value is also factored which is the value at the time the asset is considered to be no longer available. The condition assessment is applied on a component basis.
- While the replacement cost of the assets could be supported by market supplied evidence (level 2), the other unobservable inputs (such as estimates of residual value, useful life, and asset condition) were also required (level 3).

The valuation techniques used in the determination of fair values maximise the use of observable data where it is available and relies as little as possible on entity specifics.

The landfill infrastructure assets were segregated into Storage, Monitoring, Water Supply, Fixed Plant, Plant & Equipment and Site works; Water supply and Site works assets were further componentized. Unit rates and lump sums were applied based on similar recent project costs, unit rate databases, indices, Rawlinson's Construction Handbook and quotations, these rates were reviewed by council staff. Raw Costs were increased up to 27% depending on project complexity to allow for project overheads including survey, environmental and investigation costs, engineering design, planning and project management.

A site inspection was carried out as part of the valuation process. However none of the sub-surface assets were inspected due to their inaccessible nature.

Plant & Machinery, Computer Equipment and Furniture & Equipment

These classes of assets were revalued in June 2016 through a management review in order to comply with the mandatory requirements of Reg. 17A of the Local Government (Financial Management) Regulations. The additions since that time are shown at cost and given their level of currency, it is deemed the written down values approximate fair values.

Plant and Machinery assets are generally valued using the market approach using comparable sales and relevant industry market price reference guides, and have been classified as being valued at Level 2 of the fair value hierarchy. The most significant inputs into this valuation approach are the make, size, year of manufacture and condition.

Level 3 valuation inputs were used to determine the fair value of the City's furniture and equipment. The valuation methodology was determined having regard to the lack of a market and sales evidence, and the level of specialisation of the assets.

Financial Assets at FVTPL

This class of asset is the Local Government House Trust that the City holds. There are 620 units in total managed by WALGA and the City holds 8 of them. The value of these units is based on the net assets stated on the WALGA's balance sheet. At the end of each financial year, WALGA representative advises the value of the 8 units the City holds.

Infrastructure Assets (Roads, Footpaths, Drainage, Signs, and Lighting & Fences)

In accordance with AASB13 and legislative requirements, the City carried out internal management revaluations of its Roads, Footpaths, Drainage, Signs, and Lighting & Fences infrastructure assets as at 30 June 2019. These valuations were completed using the Cost Approach (Depreciated Replacement Cost), an accepted valuation methodology under AASB13. The cost approach is deemed a Level 3 Input.

City of Cockburn
Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

The valuations were coordinated, developed and prepared in-house and formed by establishing unit rates for infrastructure replacement that consider labour, overhead costs and materials.

The unit rates are agreed by reviewing multiple sources as outlined below:

- Current contract rates from the City of Cockburn's contract management system.
- Internal knowledge from key operational stakeholders.
- Current charge out rates for internal labour activities.
- Rawlinson Construction workbook 2014.

The Condition profile of the City's infrastructure assets is measured using a 1 to 5 rating. This rating affects the remaining life of the asset and has been considered in preparing the valuations.

Road surface and footpath data is considered to have an accuracy level of 95% and all roads and footpaths have been segmented from intersection to intersection. The data recorded against each section includes surface area, surface type, date of construction and condition. The City undertook a full road surface and footpath condition assessment audit with Opus during late 2016.

Data is held for all storm water drainage assets including pits, pipes and sumps, and the pit type, pipe material and length and sump size and material. Where the construction year is unknown, this was assumed to be the same year as the road construction date. The data held for the storm water infrastructure is considered to have 85% accuracy. To improve this accuracy level and to validate the City's database an audit of the City's pits and pipes storm water assets was commissioned in 2013 and was completed within two years. A condition assessment audit of the entire sump fencing was undertaken in 2012 by the Asset Services team, which also clarified any uncertainty of the material types. Sump fencing was included in the revaluation of Fences.

Marina Infrastructure & Parks Equipment.

The Marina Infrastructure was revalued by AssetVal in 2016. The Infrastructure asset is due to be revalued along with Landfill Infrastructure, Land and Building revaluation in 2019/20.

The City will perform a formal Audit on all Parks Hard Equipment in 2019/20.

36 (d) Disclosed Fair Value Measurements

The following assets and liabilities are not measured at fair value in the statement of financial position, but their fair values are disclosed in the notes:

- Borrowings

The following table provides the level of fair value hierarchy within which the disclosed fair value measurements are categorised in their entirety and a description of the valuation technique(s) and inputs used:

City of Cockburn
Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

Description	Note	Fair Value Hierarchy Level	Valuation Technique(s)	Inputs Used
Liabilities				
Borrowings	12(b)	2	Income approach using discounted cash flow methodology	Current commercial borrowing rates for similar instruments

There has been no change in the valuation technique(s) used to calculate the fair values disclosed in the notes to the financial statements.

37. Related Party Transaction

Key Management Personnel (KMP) Compensation Disclosure

	Actual 2018/19	Actual 2017/18
The total remuneration for KMP of the City during the year are as follows:		
Short-term employee benefits	1,314,040	1,314,040
Post-employment benefits	112,078	112,078
Other long-term benefits	421,862	327,429
	<u>1,847,980</u>	<u>1,753,547</u>

Short-Term Employee Benefits

These amounts include all salary, fringe benefits and cash bonuses awarded to KMP except for details in respect of fees and benefits paid to elected members may be found at note 30.

Post-Employment Benefits

These amounts are the current-year's cost of providing for the City's superannuation contributions made during the year.

Other Long-Term Benefits

These amounts represent annual leave and long service benefits accruing during the year.

Related Parties

The City's main related parties are as follows:

i. Key Management Personnel

Any person(s) having authority and responsibility for planning, direct and controlling the activities of the entity, directly or indirectly, including any elected member, are considered key management personnel.

ii. Entities Subject to Significant Influence by the City

An entity that has the power to participate in the financial and operating policy decisions of an entity, but does not have control over those policies, is an entity which holds significant influence. Significant influence may be gained by share ownership, statute or agreement.

iii. Investment in Associate Arrangements Accounted for Under the Equity Method

The interest in the SMRC is accounted for in these financial statements using the equity method of accounting. For details of interests held in associates, refer to Note 17.

Transactions with Related Parties

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated. The following transactions occurred with related parties:

	Actual 2018/19	Actual 2017/18
Associates		
Waste disposal payments made to Southern Metropolitan Regional Council	5,980,280	6,420,874
Amounts Payable to Related Parties:

City of Cockburn
Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

39. Prior Year Restatements

During the year ended 30 June 2019, the following misstatements were identified relating to prior financial periods. These misstatements have been corrected by restating each of the affected financial statement line items for prior periods. The misstatements have had no impact on the Statement of Cash Flows, unless otherwise noted below, and are set out below:

- Amounts invested in term deposits with maturity terms greater than three months at inception should have been recognised as Other financial assets as they did not meet the definition of Cash and cash equivalents in accordance with applicable accounting standards. In previous periods, these amounts were recorded as Cash and cash equivalents. As a consequence, cash and cash equivalents was overstated by \$110,900,000 and \$137,900,000 as at 1 July 2017 and 30 June 2018, respectively, with corresponding understatements of Other financial assets. This mis-statement also had the effect of understating payments for terms deposits and net cash used in investing activities by \$27,000,000 in the Statement of Cash Flows for the year ended 30 June 2018.
- The interest accrued on term deposits was incorrectly recognised as Cash & Cash Equivalents instead of Trade & Other Receivables in FY2017. As a consequence, Cash & Cash Equivalents was overstated by \$1,576,840 as at 1 July 2017.
- The fair value of Marina infrastructure assets gifted to it in FY2017 was not correctly determined at that time. As a consequence, the City has determined that Marina Infrastructure assets, net of accumulated depreciation, was overstated as at 1 July 2017 and 30 June 2018, by \$8,242,441 and \$8,273,834 respectively and that depreciation expense was understated for the year ended 30 June 2018 by \$31,393.
- The Provision for Site Rehabilitation and related Rehabilitation Assets had not been accurately measured in prior years as certain valuation assumptions used in the financial model have been determined to be inaccurate. As a consequence, the Provision for Site Rehabilitation was understated at 1 July 2017 and 30 June 2018 by \$10,841,544 and \$11,054,890, respectively, and the related Rehabilitation Assets had been understated as at 1 July 2017 and 30 June 2018 by \$9,808,345 and \$8,872,106 respectively. In addition, amortisation expense was understated by \$1,498,996 and interest expense was overstated by \$349,411 for the year ended 30 June 2018.
- The investment in the Southern Metropolitan Regional Council (SMRC), which was being recorded under the equity method, should have been characterised as an investment in an associate, rather than as an investment in a joint venture. The City presented its equity accounted investment net of the loan liabilities relating to the SMRC as at 1 July 2017 and changes in the balance of the loan liabilities were directly offset against the Increase/Decrease in Equity – Joint Venture (Statement of Comprehensive Income), rather than as principal repayments and interest expense. For the year ended 30 June 2018, the City did not recognise the Loan Liability for the SMRC and recorded principal and interest payments directly in the Statement of Comprehensive Income as Other Expenses. In correcting these matters, the City has re-characterised its investment in the SMRC as an Investment accounted for using the equity method (Statement of Financial Position) and Share of the profit or loss of associates accounted for using the equity method (Statement of Comprehensive Income), is no longer presenting the investment in an associate net of the related loan liability and has brought to account a Loan Liability as at 30 June 2018. As a consequence of these matters, the City's Investment accounted for using the equity method has been increased by \$9,060,080 and \$633,420 as at 1 July 2017 and 30 June 2018, respectively, and it has separately recorded a Loan Liability of \$9,060,080 and \$7,753,809 as at 1 July 2017 and 30 June

City of Cockburn
Financial Report

NOTES TO AND FORMING PART OF THE FINANCIAL REPORT

2018, respectively. SMRC loan related payments totaling \$1,667,547, originally classified as Other Expenses, have been restated to Interest Expenses of \$361,276 and Principal Repayment of \$1,306,271. The City's Share of the loss in associates accounted for using the equity method was increased by \$8,426,660 for the year ended 30 June 2018.

- As a result of these prior year restatements, a number of the City's financial ratios as at 30 June 2018 and 30 June 2017 have altered. For 2018, the Current Ratio decreased from 1.479 to 1.327, the Debt Service Cover Ratio decreased from 10.370 to 5.527, the Operating Surplus Ratio decreased from 0.008 to -0.053, the Own Source Coverage Ratio increased from 0.957 to 0.958 and the Asset Consumption Ratio increased from 0.691 to 0.702. For 2017, the Current Ratio decreased from 1.432 to 1.089 and the Asset Sustainability Ratio decreased from 1.442 to 1.440.

The following table summarises the impacts on the financial statements:

Statement of Financial Position (30 June 2018 Restatement)

Introduction

To the Audit and Risk Committee

We are pleased to have the opportunity to discuss our audit of the financial report of the City of Cockburn ("the Council"), as at and for the year ending 30 June 2019.

This audit plan and strategy document is intended to provide the Audit and Risk Committee with our audit focus areas, our procedures over these areas, deliverables and timelines.

Restrictions on distribution

This report is intended solely for the information of those charged with governance of the Council and the report is provided on the basis that it should not be distributed to other parties; that it will not be quoted or referred to, in whole or in part, without our prior written consent; and that we accept no responsibility to any third party in relation to it.

Audit Timeline

KPMG's audit responsibility

On behalf of the Auditor General, KPMG's aim is to provide a high quality audit of the Council's financial statements and ratios that is risk focused with independent insight on the key issues.

- KPMG has been contracted by the Office of the Auditor General ("OAG") to perform the audit of the Council. The contract requires KPMG to use their audit approach and methodology. The engagement covers a three year period commencing with the financial year ending 30 June 2019.
- KPMG conducts an independent audit in order to enable the OAG to express an opinion regarding the financial statements and ratios. Our audit is conducted in accordance with Australian Auditing Standards in order to provide reasonable assurance as to whether the financial report is free of material misstatement. The nature of an audit is influenced by factors such as the use of professional judgment, selective testing, the inherent limitations of internal controls, and the availability of persuasive rather than conclusive evidence. Therefore, an audit cannot guarantee that all material misstatements will be detected.
- We perform procedures to assess whether the financial statements present fairly with the Council's financial position as at 30 June 2019, and its performance for the year ending on that date in accordance with the Local Government Act 1995, Local Government (Audit) Regulations 1996, Australian Accounting Standards and other mandatory financial reporting requirements applicable to the Council.
- We form our recommended audit opinion on the basis of these procedures, which include: examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report; and assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the Council.
- We consider the effectiveness of management's internal controls over financial and performance reporting when determining the nature and extent of our procedures.
- We will express an opinion recommendation on whether:
 - The Council has reported, in all material respects, its financial performance as at 30 June 2019 and for the year the ended;
 - The ratios are relevant and appropriate to help users assess the Council's performance and fairly represent the indicated performance for the period.
- The OAG and KPMG understand the importance of our role as auditors in the external reporting framework and we work to maintain an extensive system of quality control over our audit practices.

KPMG's Audit Responsibilities	Audit approach	Business risks relevant to our audit	Audit focus areas	Key accounting and reporting considerations	Data & Analytics	Audit Timeline
-------------------------------	----------------	--------------------------------------	-------------------	---	------------------	----------------

Audit Approach

The following table summarises our approach to the audit of the Council:

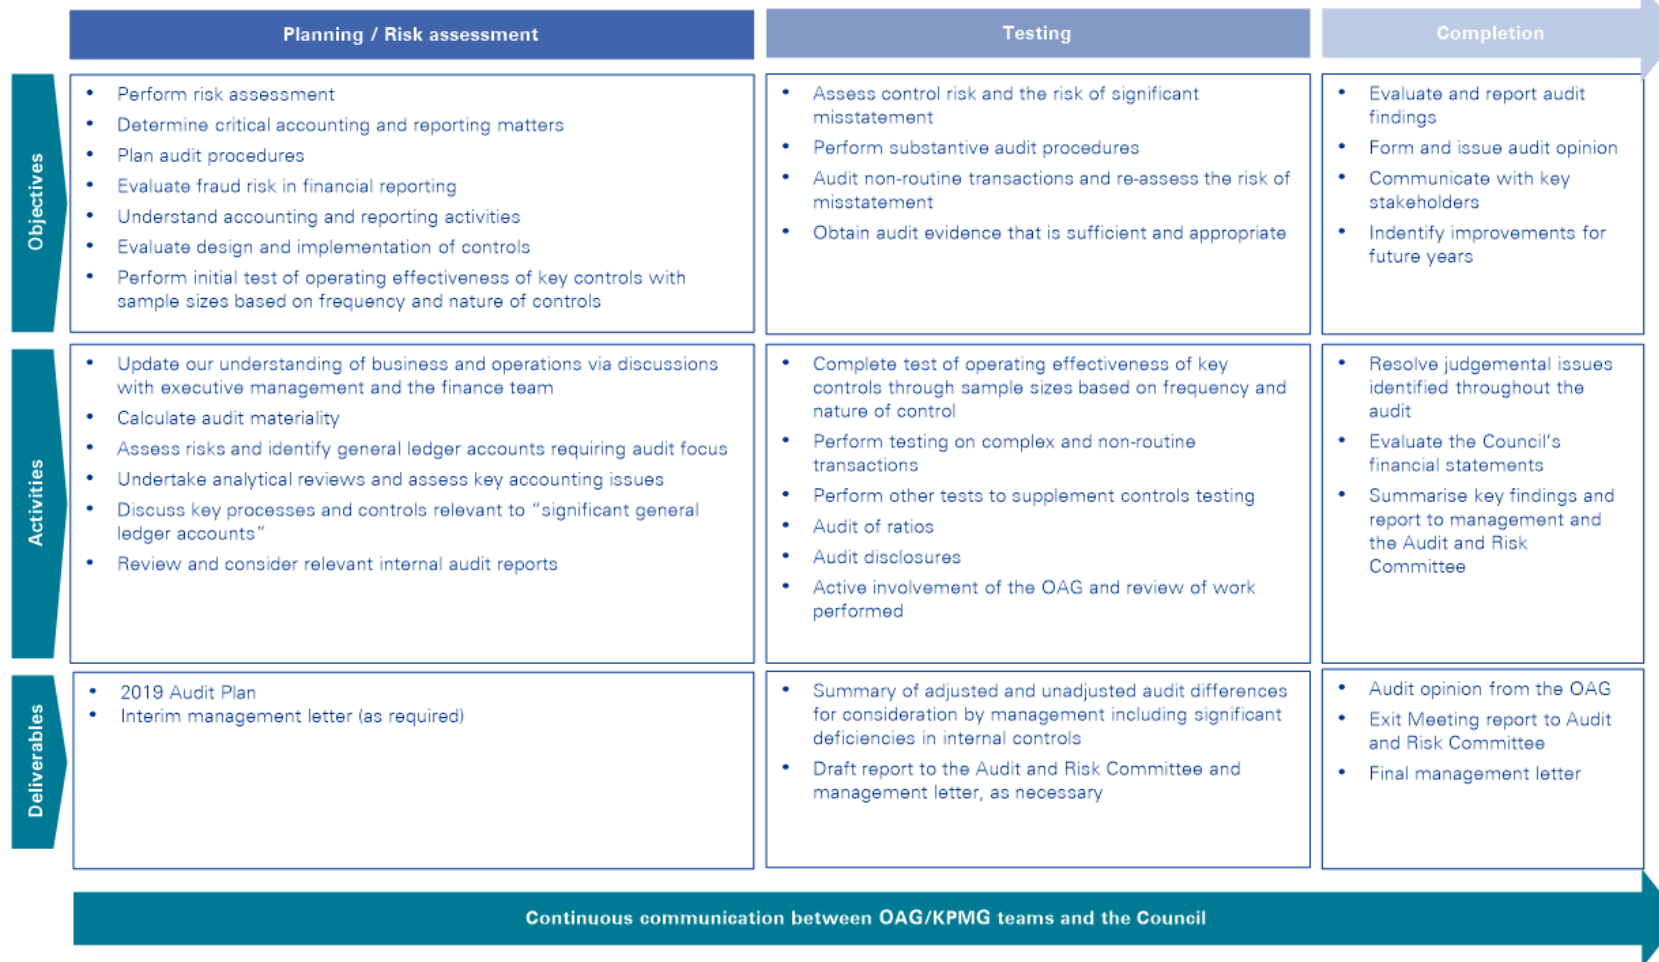

Area	Assessment & Approach
Methodologies and activities	<ul style="list-style-type: none"> Our audit approach is tailored to address financial statement risks unique to the Council. In tailoring our approach, we have held discussions with management, considered any changes to operations, and considered both external and internal developments that may impact our audit risk. A summary of the activities in each phase of our audit is provided. On completion, we will evaluate the evidence we obtained and report our findings to you.
Materiality	<ul style="list-style-type: none"> Planning materiality is determined at the overall financial statement level. Where appropriate, based on qualitative factors, we may lower our materiality threshold. The extent of audit procedures on balance sheet and income statement numbers is based on our professional judgement and materiality applicable to the Council. During the course of our work, we will accumulate and report all identified uncorrected and corrected misstatements above our audit difference posting threshold, as well as material misstatements or omissions in presentation and disclosures, to the Audit and Risk Committee. As required by auditing standards, we will request correction of identified differences.
Risk assessment	<ul style="list-style-type: none"> Based on our experience, our knowledge of the Council and discussions with management, we will perform an assessment of your business risks relevant to our audit and identify financial statement captions that may be affected by these risks to identify audit focus areas. We have summarised the relevant risks faced by the Council; and The audit focus areas are identified, our planned procedures and key accounting and reporting matters for consideration.
Independence	<ul style="list-style-type: none"> Our audit services are subject to the OAG's, KPMG's and our profession's strict rules and policies regarding auditor independence. We will not undertake services that are incompatible with our role as your auditor, or that could compromise our independence in any way. We will continue to monitor our independence on an ongoing basis and will confirm our independence at the time of audit completion and signing the audit opinion.
Approach to fraud	<ul style="list-style-type: none"> The primary responsibility for preventing and detecting fraud rests with the Audit and Risk Committee and management. We are responsible for obtaining reasonable assurance that the financial report, taken as a whole, is free from material misstatement, whether caused by fraud or error. Owing to the inherent limitations of an audit there is an unavoidable risk that some material misstatements of the financial report may not be detected. We will assess the risk of fraud and design procedures that respond to that risk including, but not limited to, making enquiries of management about actual, suspected or alleged fraud and testing journal entry posting controls and a sample of journal entries. We request at this time the accountable authority, in consultation with the Executive, to identify matters relating to fraud consideration for incorporating into our audit approach. We will report fraud related issues identified to the accountable authority if identified during our audit.

Audit risk assessment

In our assessment of inherent audit risks impacting the financial report, we consider the nature of the risk, likelihood of its occurrence and potential impact it could have on the Council's financial report.

Key	Factors influencing our assessment
Existence and valuation of fixed assets	<ul style="list-style-type: none"> Valuation methodology and assumptions can be complex and judgmental Significant volume of individual assets
Existence and valuation of infrastructure assets	<ul style="list-style-type: none"> Valuation methodology and assumptions can be complex and judgmental Significant volume of individual assets
Revenue – rates, fees, charges, operating grants and subsidies	<ul style="list-style-type: none"> High volume of transactions that management are required to process accurately Inherent risk of fraud in terms of revenue recognition
Investments / interests in joint ventures	<ul style="list-style-type: none"> Disclosure requirements can be onerous and subject to error or inaccuracies
Contracts and procurement	<ul style="list-style-type: none"> High volume of transactions that management are required to process accurately Inherent risk of fraud in the procurement process
Personnel costs and related liabilities	<ul style="list-style-type: none"> Existence and accuracy of payroll related costs Risk of payments made to fictitious employees
Cash and cash equivalents	<ul style="list-style-type: none"> High volume of transactions of significant value
Trust accounts	<ul style="list-style-type: none"> Equity accounting can be complex which increases the risk of error. Incomplete disclosure of related trust accounts.
Landfill site rehabilitation provision	<ul style="list-style-type: none"> Accounting for rehabilitation provisions can be complex Assessment of assumptions used by management

-------------------------------	----------------	--------------------------------------	-------------------	---	------------------	----------------

Data & Analytics

Innovation using technology

We integrate Data & Analytics (D&A) procedures into our planned approach.

By analysing large volumes of your financial data from Tech One we can:

- Enhance our understanding of your business and risks.
- Design procedures that better target risks and are more precise than traditional audit procedures.
- Provide you with valuable business insights.

We involve our IT Specialists.

Audit focus area	Planned D&A routines
Revenue and Accounts Receivable	Procedures to be determined during our interim testing based on available data.
Journal Entries	Obtain all manual and automated journal entries Identify entries that depart from normally expected accounting practices Using risk based characteristics and trends, identify high risk entries for investigation, such as duplicates, journals by unexpected employees and reversals

Detailed results and summary insights gained from data analytics will be shared with management.

Timeline of the audit

Communicating with and reporting to the Council, with no surprises, underpins the quality of our audit. There are two main elements: the formal audit report, and ongoing communications. Two-way communication with management is a key aspect of our reporting and service delivery. We stress the importance of keeping you informed of issues arising throughout the audit and of understanding your views.

We deliver insights on aspects of the audit and your business practices such as the appropriateness of accounting policies, the design and operation of financial reporting systems and controls, key accounting judgements and any matters where we may disagree with management's view, and any audit differences or errors identified. We ensure the content of these reports meets the requirements of auditing standards and we share our industry experience to encourage discussion and debate with management. We see these insights as a key mechanism to support you in the execution of your responsibilities.

City of Cockburn
Report to Audit & Strategic Finance Committee
For the year ended 30 June 2019

Introduction

To the Audit & Strategic Finance Committee of the City of Cockburn

We are pleased to have the opportunity to meet with you on 11 December 2019 to discuss the results of our audit of the City of Cockburn ("the City"), as at and for the year ended 30 June 2019.

We are providing this report in advance of our meeting to enable you to consider our findings and hence enhance the quality of our discussions. This report should be read in conjunction with our audit plan presented in June 2019. We will be pleased to elaborate on the matters covered in this report when we meet.

Our audit is substantially complete. Subject to the Committee's approval, we expect to be in a position to recommend to the OAG unmodified audit opinions on the City's financial report and financial ratios, with an emphasis of matter paragraph for the prior period restatements identified, provided that the outstanding matters noted on page 3 of this report are satisfactorily resolved.

We draw your attention to the important notice on page 18 of this report, which explains:

- the purpose of this report; and
- limitations on work performed;
- restrictions on distribution of this report.

We would like to thank management for their assistance during the audit process.

Matthew Beevers
Partner

Prior period restatements

Please refer to pages [4](#) to [5](#) for details of the prior period restatements identified and corrected in the financial statements.

Audit misstatements

Please refer to page [13](#) for details on the corrected and uncorrected audit misstatements identified.

Outstanding matters

In order to finalise our work, we require the following:

- Final review of the updated financial statements
- Finalisation of KPMG risk management review of restatement matters by KPMG Technical team
- Receipt of signed financial statements declaration and certification
- Receipt of signed management representation letters
- Subsequent events procedures
- Final clearance comments of the Audit & Strategic Finance Committee of matters contained in this report.

Fraud

We have not identified any instances of material fraud through our audit procedures.

CITY OF COCKBURN | ASFC REPORT

Audit Focus Areas

01 Restatement of prior period errors

Our audit identified a number of accounting matters which has been incorrectly recorded by the City in prior years.

Through consultations between KPMG, the OAG and the City, a summary of the errors identified and corrected, are presented on pages 4 and 5 of this report.

For detailed disclosures of the prior period restatements, please refer to Note 39 to the financial statements for the year ended 30 June 2019.

1. Incorrect classification of term deposits

- It was determined that amounts invested in term deposits with maturity terms greater than three months at inception should have been recognised as Other financial assets as these did not meet the definition of Cash and cash equivalents in accordance with applicable accounting standards.
- In previous periods, these amounts were recorded as Cash and cash equivalents.
- As a consequence, cash and cash equivalents was overstated by \$110,900,000 and \$137,900,000 as at 1 July 2017 and 30 June 2018, respectively, with corresponding understatements of Other financial assets. This misstatement also had the effect of understating payments for terms deposits and net cash used in investing activities by \$27,000,000 in the Statement of Cash Flows for the year ended 30 June 2018.
- Interest accrued on term deposits was incorrectly recognised as Cash & Cash equivalents, instead of Trade & Other Receivables and as such was overstated by \$1,576,840 as at 01 July 2017.

2. Incorrect valuation of Marina Infrastructure Asset

- It was determined that the fair value of the Marina infrastructure assets gifted to the City in FY2016 was not correctly determined at that time.
- As a consequence, the City has determined that the Marina Infrastructure assets, net of accumulated depreciation, was overstated as at 1 July 2017 and 30 June 2018, by \$8,242,441 and \$8,273,834 respectively and that the depreciation expense was understated for the year ended 30 June 2018 by \$31,393.

3. Incorrect valuation of Landfill Provision for Site Rehabilitation and related Rehabilitation Asset

- It was determined that the City's Provision for Site Rehabilitation and related Rehabilitation Assets had not been correctly measured in prior years as certain valuation assumptions contained errors. Furthermore, the rehabilitation asset should have been measured and amortised on a component (or cell) basis over its useful life.
- As a consequence, the Provision for Site Rehabilitation was understated at 1 July 2017 and 30 June 2018 by \$10,841,544 and \$11,054,890, respectively, and the related Rehabilitation Assets had been understated as at 1 July 2017 and 30 June 2018 by \$9,808,345 and \$8,872,106 respectively.
- In addition, amortisation expense was understated by \$1,498,996 and interest expense – provision for site rehabilitation was overstated by \$349,411 for the year ended 30 June 2018.

Document Classification: KPMG Confidential

4

Audit Focus Areas

01 Restatement of prior period errors

Our audit identified a number of accounting matters which has been incorrectly recorded by the City in prior years.

Through consultations between KPMG, the OAG and the City, a summary of the errors identified and corrected, are presented on pages 4 and 5 of this report.

For detailed disclosures of the prior period restatements, please refer to Note 39 to the financial statements for the year ended 30 June 2019.

4. Investment in the Southern Metropolitan Regional Council (SMRC)

- It was determined that its investment in the Southern Metropolitan Regional Council (SMRC), which was being recorded under the equity method, should have been characterised as an investment in an associate, rather than as an investment in a joint venture.
- The City presented its equity accounted investment net of the loan liabilities relating to the SMRC as at 1 July 2017 and changes in the balance of the loan liabilities were directly offset against the Increase/Decrease in Equity – Joint Venture (Statement of Comprehensive Income), rather than as principal repayments and interest expense.
- For the year ended 30 June 2018, the City did not recognise the Regional Resource Recovery Centre (RRRC) Loan Liability and recorded principal and interest payments directly in the Statement of Comprehensive Income as Other Expenses.
- In correcting these matters, the City has re-characterised its investment in the SMRC from an Investment accounted for using the equity method (Statement of Financial Position) to a Share of the profit or loss of associates accounted for using the equity method (Statement of Comprehensive Income).
- The City is no longer presenting the investment in the associate net of the related loan liability and has now recognised a Loan Liability as at 30 June 2018.
- In respect of the City's interest in the RRRC assets in the Southern Metropolitan Regional Council, the City have assessed that these assets have a fair value of nil as at 30 June 2018 and 30 June 2019, based on the City's expectation of the value of these assets when they are realised in 2023.
- The above matter has been subject to the OAG's technical review, to ensure that all participants in the arrangement have recorded this transaction on a consistent basis.

Conclusion

We are comfortable with the restatements and documentation included in Note 39 to the financial statements. In accordance with the Auditing Standards, our proposed audit opinion to the OAG will include an emphasis of matter paragraph which makes reference to the restatements identified and corrected.

Audit Focus Areas

02 Existence and valuation of Infrastructure Assets

Summary

Our audit response to the existence and valuation of infrastructure assets comprises controls and substantive testing.

We consider this an audit focus area due to:

- Valuation methodology and assumptions can be complex and judgmental
- Significant volume of individual assets

Balance	FY19	FY18 (restated)
Infrastructure	\$795,402,490	\$761,666,096

Our controls approach

- Management review of the internal valuations.

Our substantive approach

- Performed a roll forward of the infrastructure asset register for FY2019.
- Reviewed the internal valuations for the Council's infrastructure assets.
- Assessed the competence and capabilities of the City's valuers, including valuation method and assumptions used.
- On a sample basis, selected infrastructure asset additions confirming their existence and agreeing to supporting documentation.
- Recalculated any revaluation gain/loss arising from the revaluation and ensure this has been appropriately recorded.
- Assessed the completeness of capital WIP and for a sample selected, ensured the asset was capitalised at the correct date.
- Performed substantive analytical procedures over the depreciation expense for the year.

Conclusion

Based on the audit procedures performed, with the exception of the matters noted on pages 4-5, no reportable misstatements are noted.

Audit Focus Areas

03 Revenue - rates, fees, charges, operating grants and subsidies

Summary

Our audit response to the revenue – rates, fees, charges, operating grants and subsidies comprises controls and substantive testing.

We consider this an audit focus area due to:

- High volume of transactions and varying revenue/income streams that management are required to process accurately

Balance	FY19	FY18
Rates	\$103,651,315	\$99,600,112
Fees and charges	\$30,518,189	\$28,700,746
Operating grants and subsidies	\$12,786,397	\$12,800,692

Our controls approach

- Council approval of rates and charges for FY19.
- Management review of the monthly rates reconciliation.

Our substantive approach

- Reviewed the City's rates policy for FY19.
- For a sample of rates revenue, recalculated the rates charged and ensured the correct rates were used, rates were accurately charged and the rates were received by the City.
- Focused cut-off testing around financial year end to ensure revenue was recorded in the correct period.
- Assessed the recoverability of debtors at year end.
- Agreed a sample of fees and charges to supporting documentation and bank statements.
- Agreed a sample of contributions received to supporting documentation and bank statements.
- Agreed grants received to the grant agreement and bank statement.
- Reviewed the City's assessment of the impact of the new Accounting Standard, AASB 9.

Conclusion

Based on the audit procedures performed, no reportable misstatements are noted.

Audit Focus Areas

04 Investment in SMRC

Summary

Our audit response to the investment in SMRC comprises a fully substantive approach.

We consider this an audit focus area due to:

- The complexity of accounting for this investment and the City's exit from it

Balance	FY19	FY18 (restated)
Investment in SMRC	\$675,004	\$1,556,989

Our controls approach

- None planned

Our substantive approach

- Reviewed the SMRC agreement and assessed the appropriateness of the accounting treatment.
- Recalculated the City's share of net assets and profits of the associate for the year ended 30 June 2019.
- Considered the accounting for the City's continuing obligations and residual interest in assets.
- The City's exit date of 1 July 2019 from the arrangement was considered and it was determined that no equity interest be recorded for the City's residual equity interest in the SMRC at 30 June 2019 given it was not considered recoverable.
- The City did not recognise any value for its share of the Regional Resource Recovery Centre (RRRC) assets in the Southern Metropolitan Regional Council based on its expectation that nothing will be recoverable by 2023 when the loan is repaid.

Conclusion

Based on the audit procedures performed, with the exception of the matters noted on pages 4-5, no reportable misstatements are noted.

Audit Focus Areas

05

Contracts and Procurement

Summary

Our audit response to the contracts and procurement comprises controls and substantive testing.

We consider this an audit focus area due to:

- High volume of transactions that management are required to process accurately

Balance	FY19	FY18
Total operating expenditure	\$153,891,221	\$141,526,579

Our controls approach

- Review of authorisation of Purchase Orders in line with the City’s Delegation of Authority.
- Review of authorisation of Purchase Orders in line with the City’s Procurement Policy.

Our substantive approach

- Reviewed the City’s procurement policy.
- On a sample basis for expenditure, agreed payments made to supporting documentation and sighted authorisation of such payments in line with the City’s Delegation of Authority.
- On a sample basis for expenditure, agreed payments were made in accordance with the City’s Procurement Policy.
- Performed a search for unrecorded liabilities at year end.

Conclusion

Based on the audit procedures performed, no reportable misstatements are noted.

Audit Focus Areas

06 Personnel costs and related liabilities

Summary

Our audit response to the personnel costs and related liabilities comprises a largely substantive approach.

We consider this an audit focus area due to:

- The material nature of payroll related balances
- Existence and accuracy of payroll related costs

Balance	FY19	FY18
Employee costs	\$56,782,611	\$54,561,331

Our controls approach

- Approval of pay run payments.

Our substantive approach

- Performed a reconciliation between the payroll and trial balance as at 30 June 2019, including related payroll liabilities.
- For a statistical sample selected, verified payments made to employees by agreeing these to employment contracts, payslips and the payroll.
- Performed substantive analytical procedures over the annual leave and long service leave provisions as at 30 June 2019.

Conclusion

Based on the audit procedures performed, no reportable misstatements are noted.

Audit Focus Areas

07 Landfill site - Rehabilitation Provision

Summary

Our audit response to the landfill site – rehabilitation provision comprises a fully substantive approach.

We consider this an audit focus area due to:

- Accounting for rehabilitation provisions is complex
- The requirement to challenge the assumptions used by management

Balance	FY19	FY18 (restated)
Rehabilitation asset	\$25,370,319	\$24,777,879
Provision for rehabilitation liability	\$36,815,756	\$28,568,326

Our controls approach

- None planned

Our substantive approach

- Obtained the City’s calculations/model for the landfill site rehabilitation provision and rehabilitation asset at year end and verified mathematical accuracy thereof.
- Assessed the competence and capabilities of the experts engaged by the City, including valuation method and assumptions used.
- Reviewed and critically assessed the assumptions and inputs used in the model by the City and expert.
- In undertaking our testing of assumptions, we worked with the City on the revision of past accounting to more accurately reflect inflation rates, discount rates and to apply component accounting (based on cells) for amortisation purposes.

Conclusion

Based on the audit procedures performed, with the exception of the matters noted on pages 4-5, no reportable misstatements are noted.

Audit Focus Areas

08 Financial ratios

Summary

We reviewed the financial ratios presented by the City for the year ended 30 June 2019.

Ratio	FY19	FY18 (restated)	FY17 (restated)	Significant Adverse Trend?
Current Ratio	0.932	1.327	1.089	No
Asset Sustainability Ratio	0.456	0.737	1.440	Yes
Debt Service Cover Ratio	8.721	5.527	9.533	No
Operating Surplus Ratio	0.014	-0.053	0.078	No
Own Source Revenue Coverage Ratio	0.936	0.958	0.971	No
Asset Consumption Ratio	0.691	0.702	0.689	No
Asset Renewal Funding Ratio	0.748	0.707	0.729	No

Our approach

- Reviewed the ratios presented by the City for the year ended 30 June 2019.
- Assessed the mathematical accuracy of the financial ratios.
- Recalculated the financial ratios prepared by the City.
- Reviewed the City's comments to ensure consistency with our understanding obtained during the audit.
- Verified the accuracy of the restatement of ratios for the matters noted in the restatement to the financial statements.
- Assessed whether any ratios constituted a significant adverse trend in accordance with the OAG guidance.

Conclusion

Based on the audit procedures performed, except for the adverse trends noted above, no reportable misstatements are noted.

CITY OF COCKBURN | ASFC REPORT

Audit Misstatements

We assess audit misstatements under the income statement method. The income statement method considers the effect of uncorrected prior-period misstatements from an income statement perspective and uncorrected misstatements are quantified as the amount by which the current period income statement is misstated, after considering the reversing and correcting effects of uncorrected prior-period misstatements.

Corrected misstatements

We noted and corrected the following prior period errors, including the current year impact, as summarised on pages 4-5:

- Incorrect classification of term deposits as cash.
- Incorrect fair value assessment of the Marina Asset received by the City.
- Incorrect treatment of the City's interest in the SMRC.
- Incorrect treatment of the City's rehabilitation asset and provision for its landfill site.

Uncorrected misstatements

The following uncorrected misstatement was identified in connection with the rehabilitation asset and provision:

Dr Rehabilitation Asset	\$1,817,096
Cr Provision Rehabilitation Liability	(\$1,817,096)

(Mathematical error due to differences in discount rate used in the calculation)

Omissions and Errors in Presentation and Disclosures

We have not identified any material omissions or errors in presentation and disclosures in the financial report.

In the course of our review of the financial statements we made a number of recommendations in relation to presentation matters, including the disclosure of the corrected restatements as detailed above.

CITY OF COCKBURN | ASFC REPORT

Auditor's Independence

We have strict rules and protocols to maintain our independence from City of Cockburn, including annual training and an annual staff declaration.

Safeguard

Non-audit services did not involve partners or staff acting in a managerial or decision making capacity, or involve the processing or originating of transactions.

Non-audit services were only provided where we were satisfied that they did not impact on our auditor independence.

Partners and staff involved in the provision of non-audit services obtained approval from the lead engagement partner to deliver the service.

Breaches

The APESB Code of Ethics for Professional Accountants ("the Code") requires us to communicate to you any breaches of the independence requirements of the Code.

On the rare instance of a significant breach of the Code, we will report our conclusions to you on the actions to be taken, or already taken within three working days. We will report less significant breaches in the Year-end Report to the Audit Risk Committee.

We confirm that as at the date of this report, no such breaches have been identified.

Non audit services

No non-audit services have been performed during or subsequent to the year ended 30 June 2019.

Conclusion

We confirm that, as at the date of this report, we have complied with the ethical requirements regarding independence.

KPMG Thought Leadership

The Role of Those Charged With Governance

A great deal has been said recently about the board's role, and whether it is sufficient for directors to look after shareholder/owners' interests, or if there is a need for them to engage more broadly and embrace societal accountabilities.

KPMG and the AICD undertook a survey to seek insight from directors about some of the issues that they feel are shaping the way they govern their organisations.

Impact on your community

Creating and retaining a position of trust amongst community stakeholders has never been more important, or indeed complex, for corporate Australia.

In today's environment, the impact that a company – its people, products and services – has on the community in which it operates is under constant public scrutiny.

Inclusion & Diversity Report 2018/19

Inclusion & Diversity is an integral part of how we conduct our business, not only within our organisation but also with our clients. Inclusion is about all of us, diversity is about each of us.

Risk Reimagined – evolving risk management

In a rapidly changing global landscape, emerging risks are affecting businesses more than ever before. Managing risk should create sustainable value if it is viewed as a process that helps management achieve its business goals.

Required communications with the Committee

Type	Response
Our draft management representation letter	OK We have not requested any specific representations in addition to those areas normally covered by our standard representation letter for the year ended 30 June 2019, with the exception of requesting the City to confirm it did not recognise any value for its share of the RRRC assets based on its expectation that it believes nothing will be recoverable by 2023 when the loan is repaid.
Related parties	OK There were no significant matters that arose during the audit in connection with the entity's related parties.
Other matters warranting attention by those charged with governance	OK There were no matters to report arising from the audit that, in our professional judgement, are significant to the oversight of the financial reporting process.
Control deficiencies	OK Refer to management letter issued for control deficiencies noted.
Modifications to auditor's report	OK Emphasis of matter paragraph to be included for restatement of prior period balances identified.
Actual or suspected fraud, non-compliance with laws or regulations or illegal acts	OK No actual or suspected fraud management, employees with significant roles in internal control, or where fraud results in a material misstatement in the financial statements was identified during the audit.

Type	Response
Significant difficulties	OK No significant difficulties were encountered during the audit.
Disagreements with management or scope limitations	OK The engagement team had no disagreements with management and no scope limitations were imposed by management during the audit.
Other information	This is to be completed once the preparation of the annual report is completed.
Breaches of independence	OK No matters to report. The engagement team and the firm have complied with relevant ethical requirements regarding independence.
Accounting practices	OK Over the course of our audit, we have evaluated the appropriateness of City of Cockburn's accounting policies, accounting estimates and financial statement disclosures. In general, we believe that these are appropriate.
Significant matters discussed or subject to correspondence with management	OK The asset revaluations and prior period restatements identified in Note 39 to the financial statements, were subject to correspondence, with management.

CITY OF COCKBURN | ASFC REPORT

Important notice

This report is presented under the terms of our audit engagement letter.

- Circulation of this report is restricted.
- The content of this report is based solely on the procedures necessary for our audit.

Purpose of this report

This Report has been prepared in connection with our audit of the financial statements of the City of Cockburn (the "City"), prepared in accordance with the Australian Accounting Standards ('AASBs') as at and for the year ended 30 June 2019. This report also covers the associated compliance related opinions and the financial ratios.

This Report has been prepared for those charged with governance, whom we consider to be the Audit & Strategic Finance Committee, in order to communicate matters of interest as required by ASAs (including ASA 260 Communication with Those Charged with Governance), and other matters coming to our attention during our audit work that we consider might be of interest, and for no other purpose. The Audit & Strategic Finance Committee should not assume that reports from us indicate that there are no additional matters they should be aware of in meeting their responsibilities.

This report summarises the key issues identified during our audit but does not repeat matters previously communicated to you.

Limitations on work performed

This Report is separate from our audit report and does not provide an additional opinion on the City's financial statements, nor does it add to or extend or alter our duties and responsibilities as auditors.

We have not designed or performed procedures outside those required of us as auditors for the purpose of identifying or communicating any of the matters covered by this Report.

The matters reported are based on the knowledge gained as a result of being your auditors. We have not verified the accuracy or completeness of any such information other than in connection with and to the extent required for the purposes of our audit.

Restrictions on distribution

The report is provided on the basis that it is only for the information of those charged with governance of the City's; that it will not be quoted or referred to, in whole or in part, without our prior written consent; and that we accept no responsibility to any third party in relation to it.

CITY OF COCKBURN | ASFC REPORT

New Accounting Standards

New Accounting Standards effective for the 2019/20 financial year.

- AASB 15/1058: Revenue Recognition
- AASB 16: Lease Arrangements

AASB 15/1058: Revenue Recognition

- AASB 15 Revenue from Contracts with Customers and AASB 1058 Income of NFP (Not for Profit) Entities are applicable from 1 July 2019 for the City.
- The core principle of AASB 15 requires an entity to recognise revenue when the entity satisfies a performance obligation by transferring a promised good or service to a customer.
- The timing of income recognition under AASB 1058 depends on whether such transactions give rise to a liability or other performance obligations or a contribution by owners related to an asset received by an entity to enable the entity to further its objectives.
- Risk that an inappropriate amount is estimated and recorded under the new accounting standards.

AASB 16: Lease Arrangements

- AASB 16 removes the classification of leases as either operating or financing leases - for the lessee - effectively treating all leases as financial leases.
- Short term leases (less than 12 months) and leases of low value assets are exempt from the lease accounting requirements.
- Furthermore, there are changes in accounting over the life of the lease as a front-loaded pattern of expense will be recognised for most leases, even when a constant annual rental is paid.
- Lessor accounting remains similar to current practice.
- AASB 16 is effective for periods commencing on or after 1 July 2019, with early adoption permitted.

We understand that the City's assessment of these new Accounting Standards is in progress.

INDEPENDENT AUDITOR'S REPORT**To the Councillors of the City of Cockburn****Report on the Audit of the Financial Report*****Opinion***

I have audited the annual financial report of the City of Cockburn which comprises the Statement of Financial Position as at 30 June 2019, the Statement of Comprehensive Income by Nature or Type, Statement of Comprehensive Income by Program, Statement of Changes in Equity, Statement of Cash Flows and Rate Setting Statement for the year then ended, and notes comprising a summary of significant accounting policies and other explanatory information, and the Statement by the Chief Executive Officer.

In my opinion the annual financial report of the City of Cockburn:

- (i) is based on proper accounts and records; and
- (ii) fairly represents, in all material respects, the results of the operations of the City for the year ended 30 June 2019 and its financial position at the end of that period in accordance with the *Local Government Act 1995* (the Act) and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the City in accordance with the *Auditor General Act 2006* and the relevant ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report. I have also fulfilled my other ethical responsibilities in accordance with the Code. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter – Basis of Accounting

I draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the City's financial reporting responsibilities under the Act. Regulation 16 of the Local Government (Financial Management) Regulations 1996 (Regulations), does not allow a local government to recognise some categories of land, including land under roads, as assets in the annual financial report. My opinion is not modified in respect of this matter.

Emphasis of Matter – Restatement of Comparative Balances

I draw attention to Note 39 to the annual financial report which states that comparative amounts differ from those reported in the previously issued 30 June 2018 Financial Report because they have been restated to correct misstatements. My opinion is not modified in respect to this matter.

Responsibilities of the Chief Executive Officer and Council for the Financial Report

The Chief Executive Officer (CEO) of the City is responsible for the preparation and fair presentation of the annual financial report in accordance with the requirements of the Act, the Regulations and, to the extent that they are not inconsistent with the Act, Australian Accounting Standards. The CEO is also responsible for such internal control as the CEO determines is

necessary to enable the preparation of a financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the CEO is responsible for assessing the City's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the State government has made decisions affecting the continued existence of the City.

The Council is responsible for overseeing the City's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Report

The objectives of my audit are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with Australian Auditing Standards, I exercise professional judgment and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the CEO.
- Conclude on the appropriateness of the CEO's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the City's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report, as we cannot predict future events or conditions that may have an impact.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the Council and the CEO regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Report on Other Legal and Regulatory Requirements

In accordance with the Local Government (Audit) Regulations 1996 I report that:

- (i) In my opinion, the following material matters indicate significant adverse trends in the financial position of the City:
 - a. The asset sustainability ratio as reported in Note 21 of the annual financial report has been below the Department of Local Government, Sport and Cultural Industries' standard for the last two financial years.
- (ii) All required information and explanations were obtained by me.
- (iii) All audit procedures were satisfactorily completed.
- (iv) In my opinion, the asset consumption ratio and the asset renewal funding ratio included in the annual financial report were supported by verifiable information and reasonable assumptions.

Other Matter

The financial ratios for 2017 in Note 21 of the financial report were audited by another auditor when performing their audit of the City for the year ending 30 June 2017. The auditor expressed an unmodified opinion on the financial report for that year.

Matters Relating to the Electronic Publication of the Audited Financial Report

This auditor's report relates to the annual financial report of the City of Cockburn for the year ended 30 June 2019 included on the City's website. The City's management is responsible for the integrity of the City's website. This audit does not provide assurance on the integrity of the City's website. The auditor's report refers only to the financial report described above. It does not provide an opinion on any other information which may have been hyperlinked to/from this financial report. If users of the financial report are concerned with the inherent risks arising from publication on a website, they are advised to refer to the hard copy of the audited financial report to confirm the information contained in this website version of the financial report.
