Policy Purpose

The City of Cockburn Public Artworks Strategy focuses on the delivery of public art by the City in the public realm. It sets out key goal, including the following:

- Develop a collection of distinct and diverse public artworks.
- Increase awareness of public art as a significant cultural asset.

This Percent for Art Policy (policy) seeks to assist in achieving these goals by requiring the provision of professionally produced artworks on site as part of eligible developments within the City of Cockburn.

This policy is adopted pursuant to City of Cockburn Town Planning Scheme No. 3 (TPS 3).

The purpose of this policy is to require the provision of artworks produced by professional artists as part of eligible developments within the City of Cockburn.

The Cockburn Central and Cockburn Coast areas are subject to a site-specific Public Art Plan and Strategy that identifies themes and locations for public art in the area. Therefore, additional location-specific provisions are required to introduce the requirement for a public art contribution in accordance with the Public Art Plan and Strategy.

The Cockburn Central Public Art Plan and the Cockburn Coast Public Art Strategy includes locations for public art in the public realm, including Public Open Space. These public artworks will provide the opportunity to celebrate the place, promote community identity, and to assist with legibility. It is therefore appropriate that a cash-in-lieu contribution option be provided to developers which would enable the collection of funds for the provision of artworks in the public realm.

The key objectives of this requirement are to:

- (1) Improve the attractiveness and functionality of the City's built environment;
- (2) Develop and promote community identity within the City;
- (3) Increase the social, cultural and economic value of the City;
- (4) Establish new design partnerships between artists, architects and other professionals;
- (5) Increase public awareness of the value of art and design;

- (6) Improve legibility by introducing artworks that assist in making streets and buildings more identifiable;
- (7) Produce landmarks that act as focal points and icons for the City;
- (8) Provide new opportunities for artist commissioned artworks to celebrate a place, generate vibrancy, contribute to cultural identity and engage with the community above and beyond the art involved in building design and landscaping and hardscaping elements that would normally be associated with development.
- (9) Enhance legibility by introducing artworks that assist in making streets, buildings and Public Open Space in the Cockburn Coast and Cockburn Central areas more identifiable
