Ordinary Council Meeting, Tuesday, 13 May 2025

Minutes

In Attendance

Elected Members

Deputy Mayor C Stone	Central Ward (Presiding Member)
Cr P Eva	Central Ward
Cr T Widenbar	Central Ward
Cr T Dewan	East Ward
Cr C Reeve-Fowkes	East Ward
Cr C Zhang	East Ward
Cr K Allen	West Ward (departed 8:15pm)
Cr P Corke	West Ward
Cr M Separovich	West Ward

Staff

Mr D Simms	Chief Executive Officer
Mr D Arndt	Director Sustainable Development and Safety (depart 8:16pm)
Ms C Bywater	Director Corporate Systems and Services (depart 8:16pm)
Ms K Johnson	Director Community and Place (depart 8:16pm)
Mr A Lees	Director Infrastructure (depart 8:16pm)
Mr J Blanchard	General Council
Ms T Hardmeier	Service Lead Governance and Council Support
Mr S Cecins	Communications and Media Officer (depart 8:16pm)
Mr M Lee	System Support Officer (IT Support)
Mrs L Spearing	Executive Support Officer

1. Declaration of Meeting

The Presiding Member declared the meeting open at 7pm.

“Kaya, Wanju Whadjuk Boodjar” which means “Hello, Welcome to Whadjuk Land”

The Presiding Member acknowledged the Whadjuk Peoples of the Nyungar Nation who are the traditional custodians of the land on which the meeting was being held, and paid respect to their Elders both past and present, and extended that respect to First Nations Peoples who were present.

The Presiding Member advised there is a third Confidential Item 21.3 to be considered tonight, of which hardcopies have been circulated to Elected Members prior to the Meeting.

2. Appointment of Presiding Member (If required)

Nil

3. Disclaimer

The Presiding Member read the Disclaimer:

Members of the public, who attend Council Meetings, should not act immediately on anything they hear at the Meetings, without first seeking clarification of Council's position.

Persons are advised to wait for written advice from the Council prior to taking action on any matter that they may have before Council.

4. Acknowledgement of Receipt of Written Declarations of Financial Interests and Conflict of Interest (by Presiding Member)

Item	Name	Type of Interest
14.4.1	Cr Phoebe Corke	Impartiality
14.4.1	Staff Member - Marie la Frenais	Impartiality (Employee)
14.4.1	Staff Member - Ella Hetherington	Impartiality (Employee)
14.4.1	Staff Member - Cassandra Cooper	Impartiality (Employee)

5. Apologies and Leave of Absence

Apology

Mayor Logan Howlett

6. Response to Previous Public Questions Taken on Notice

Nil

7. Written Requests for Leave of Absence

Nil

8. Public Question Time

Naomi O'Hara, Spearwood

Item 14.1.1 – Knock Way Parking Management Plan

- Q1. The report misses the important point that long term there is not enough parking at Cockburn Station, and this adds to freeway congestion. Will the Council add a recommendation to advocate for multi-storey parking at Cockburn and Murdoch Train Stations (as is provided along the Joondalup line)?
- A1. The Director Sustainable Development and Safety advised Perth Transport Authority (PTA) currently provides 1,383 car parking bays including 19 short-term bays, motorcycle bays, and 27 ACROD bays at the Cockburn Central Station. There is a further 1,949 car parking bays at Aubin Grove Station and 1,154 bays at the Murdoch Station. Based on observations the Aubin Grove station car park is generally never more than half full and provides an alternative to commuters wishing to access the Cockburn to Perth line.

There has been an increase in commuters utilising the Cockburn Central station whilst the Armadale Line is being upgraded. With the opening of the Thornlie-Cockburn Line, the PTA have advised that the Armadale Line between Cannington and Perth stations will reopen on 9 June 2025, with the remainder of the line open before the end of this year. This is likely to see a reduction in commuter demands for parking at Cockburn Central station.

Rina Burrows, Bibra Lake

Subject: Bibra Lake Turtle Nesting Cages – follow up

As Ms Burrows was not in attendance at the meeting, responses to her questions have been forwarded to her.

Following the City's statement that work with Murdoch University to identify new locations for the turtle nesting cages at Bibra Lake would be completed "in the coming weeks," I would like to ask:

- Q1. Is the City formally committing to relocate the turtle nesting cages before the 2025 nesting season - yes or no? If yes, when will the new location be confirmed and publicly announced?
- Q2. Will relocation occur between 25 August and 7 September 2025 — yes or no? If yes, are contractors and logistics secured to ensure this timeline?
- Q3. If relocation doesn't proceed in 2025, will contingency measures be implemented — yes or no? If yes, what specific measures (e.g., fencing, monitoring) are confirmed?
- Q4. Can the City provide names, roles, and expertise of Murdoch University advisors — yes or no? If yes, can the City provide the names and their expertise and will this be made available in a public report?

Answer Q1-4

The City has been notified by the South West Corridor Development Foundation, which administers the Saving Our Snake Necked Turtle (SOSNT) program, that it was unable to secure funding to continue the program, initially funded by Lotterywest. As a result, the SOSNT program for the 2025 nesting season onwards is under review by participating local governments in collaboration with SOSNT and DBCA.

The City of Cockburn remains committed to turtle conservation and is exploring options to continue supporting citizen science efforts to protect our turtle population.

The City acknowledges that the relocation of turtle nesting cages is an ongoing community concern. A 2025-26 budget request has been submitted for the removal of nesting cages at Bibra Lake with their future use part of the review of turtle conservation actions and the City will share any updates with the community

Jane Di Sabato, Coolbellup**Subject: Save our Snake Neck Turtle Program**

As Ms Di Sabato was not in attendance at the meeting, responses to her questions have been forwarded to her.

Q1. Would the Council please advise whether the Save our Snake Neck Turtle program will continue after this season?

Q2. The Council is to be commended on initiating the SOSNT Program. It was 'fit for purpose' at the time. We request that this program is adjusted to meet the needs to the rapidly changing conditions at the lake.

For the second consecutive year there is no suitable water for turtle hatchlings at Bibra Lake. There are many noted threats to the turtles (data provided on these is provided to Council by skilled citizen scientists). Nest protection program alone is no longer enough to sustain the Snake Neck Turtle population at Bibra Lake.

Will the Council adjust the SOSNT Program by extending the protection of the species to all stages of their life cycle, in a manner that addresses their current threats - implementing water solutions to keep the lake bed moist to protect the aestivating turtles from foxes, having a plan to hold hatchlings till enough viable water returns to the lake and continuing the nest protection program?
Will the Council lead this important area of conservation?

Answer 1,2. Please refer to responses to Rina Burrows' questions.

Steve Shaw, Bibra Lake**Subject: Mobile CCTV**

Q1. When is the mobile CCTV going to be reinstated at the dirt carpark opposite the exercise area located at the corner of Progress Road and Bibra Drive?
Since the mobile CCTV has been taken away in the last couple of months, there has been an increase in anti-social behaviour such as illegal camping,

dumping and dirt road bikes hooning across this location, and might I include drug dealing and various other things that are happening there.

When the CCTV was in place, there were none of these issues recorded. I run around the lake every day, I have a lot of friends who use the park for that purpose, and in wintertime when it is dark, especially females, felt a lot safer when the camera was in place.

A permanent CCTV service should be installed in this area to discourage anti-social behaviour. Are there any future plans for this to happen? Also, it is very poorly lit, which is another contributing factor.

- A1. The Director Sustainable Development and Safety advised the City deployed one of its three CCTV mobile units to the car park on Progress Road, Bibra Lake (opposite Adventure World) from 16 February to 2 March 2025.

Since the unit's removal, CoSafe has continued to provide both proactive and reactive patrols in this location and the City encourages all members of the community witnessing antisocial behaviour to report it, and that will be investigated as soon as practicable.

Given the remote nature of the carpark, installing permanent CCTV infrastructure is neither straightforward nor cost-effective at this stage. The mobile unit will be redeployed to this location as part of the City's ongoing rotation of the CCTV mobile units, however we also need to balance coverage across the City with other operational priorities, given we have a limited number of CCTV units.

Daniel O'Callaghan, North Lake
Subject: Magpie Deaths – Mystery Illness

As Mr O'Callaghan was not in attendance at the meeting, responses to his questions have been forwarded to him.

- Q1. I refer to the article in the West Australian on 11 May 2025 - Mystery syndrome wiping out magpies across WA and stripping streets of their song.

The article outlines the alarming rate that we are losing our magpies due to a mystery illness.

The article also outlines things the community can do to help. This includes being mindful of what we are using in the garden and to avoid toxins that could be harmful to wildlife including weed killer, pesticides and fertilisers.

If this is the case, why is the City still using glyphosate, a potential carcinogen to control weeds? Is there an alternative that could be used instead?

- A1. The City prioritises the safe and minimal use of herbicides in its weed management practices with the following methods employed:

Organic solutions: Slasher Weedkiller, an organic herbicide, is used on pedestrian paths. Herbicides are not applied to residential verges near private properties

Glyphosate: This is the primary herbicide for road surfaces

Roundup Bioactive 360: This herbicide is specially used in aquatic areas and wetlands.

All these chemicals have been approved by the Federal Government's Australian Pesticides and Veterinary Medicines Authority.

The City continues to evaluate alternative weed control products to determine its efficacy and value for money proposition.

Joyce Gadalon, North Lake

Subject: Fox Control

As Ms Gadalon was not in attendance at the meeting, responses to her questions have been forwarded to her.

The City's fox control actions commenced on the 29 April 2025.

Q1. Please advise how many days fox control actions were active for and provide the results of those actions.

A1. The current control program is still active. The contractor was engaged for a seven-day program, which has been spread out over a number of weeks due to human activity in reserves. The program is due to be completed within a week and a summary of results can be made available at that time.

Q2. Please advise when the next round of fox control is due and duration.

A2. The next feral fox control program in Bibra Lake will be the annually scheduled spring control. This control will be a 14-day duration in early September to reduce the fox population before the turtle nesting season, with a second round later in the season. The control will be scheduled once the budget for the next financial year is approved.

Council has previously noted the intent for increased annual funding for fox control to be requested in the 2025-26 budget from \$20,000 to \$50,000, plus a separate one-time \$40,000 contribution to the Perth South West Metropolitan Alliance's (PSWMA) Fox Monitoring and Targeted Control Project.

Felicity Bairstow, Bibra Lake

Subject: Speed Limits – Bibra Lake

Q1. The section of Hope Road in Bibra Lake between Bibra Drive and Progress Drive currently has a speed limit of 70km per hour, an historical anomaly from when Hope Road connected through to Jandakot Airport.

As a road designated as an Access Road under the MRWA Road Hierarchy this road's purpose is to serve WA Wildlife, the 1st Bibra Lake Scouts and The Wetlands Centre.

For the sake of community and wildlife safety the speed limit needs to be reduced. There have been multiple requests for this from the affected organisations and communities over the years to reduce the speed limit to 50km per hour to come in line with Progress Drive's speed limit. Could you please provide an update on the status of speed limit reduction on this stretch of Hope Road?

A1. The Director Infrastructure Services advised that in relation to the request to reduce the speed on Hope Road between Progress Drive and Bibra Drive, the City advises the following:

- Main Roads WA (MRWA) is responsible for the approval and implementation of speed zoning in Western Australia
- The City previously requested MRWA implement a speed reduction on Hope Road (Progress - Bibra Drive) in 2021 and 2024
- Using their Speed Zoning Guidelines, MRWA decided the speed limit of 70k/h is appropriate and meets driver expectations
- MRWA have advised that the 70km/h speed limit is appropriate for Hope Road due to its open nature and few driveways to adjacent properties
- The City has requested that MRWA review its previous decision to maintain the posted speed of 70 km/h in light of the recently adopted Council Urban Road Safety Improvements Project for the Bibra Lake suburb
- With funding through MRWA's Low Cost Urban Road Safety Program, the City will be installing road safety treatments that can improve the safety of roads and intersections and reduce crashes that impact our community
- The proposed project is the installation of an LED Speed Radar along the section of Hope Road
- We hope that installing traffic calming devices in the broader area of the Bibra Lake suburb will encourage Main Roads to reconsider zoning Hope Road to a lower speed limit.

9. Confirmation of Minutes

9.1 (2025/MINUTE NO 0067) Minutes of the Ordinary Council Meeting - 8/04/2025

Council Decision

MOVED Cr T Dewan SECONDED Cr K Allen

That Council confirms the Minutes of the Ordinary Council Meeting held on Tuesday, 8 April 2025 as a true and accurate record.

CARRIED 9/0

(2025/MINUTE NO 0069) Council Decision

MOVED Cr C Reeve-Fowkes SECONDED Cr M Separovich

That Council:

- (1) APPROVES the installation of the proposed parking restrictions on Knock Way, Jandakot, as contained with the Knock Way, Jandakot – Parking Management Plan;
- (2) ADVOCATES the Public Transport Authority to install way finding signage to direct traffic towards additional parking at Aubin Grove Station; and
- (3) ADVOCATES to the State Government for the construction of multi-storey or additional car parking at Cockburn Central Train Station.

<u>CARRIED 9/0</u>

Background

Knock Way, Jandakot, was redeveloped in 2021 as part of the North Lake and Armadale Road Bypass Project.

During this time, the Public Transport Authority (PTA) constructed a parking facility with a capacity of approximately 1,000 vehicles. Parking is available at a rate of \$2 per day with the purchase of a valid transit ticket.

Nearmap observations indicate weekday occupancy levels ranged between 50 and 80 per cent prior to the Armadale Line closure on 20 November 2023. Since the closure, weekday occupancy has consistently exceeded 90 per cent.

Submission

N/A

Report

Due to the closure of the Armadale Line, increased demand for parking at Cockburn Central Station is resulting in an undersupply.

Consequently, vehicles are parking illegally on Knock Way, parking on road shoulders, accessways, and footpaths. The City has received multiple reports from pedestrians and other road users regarding obstructions and increased safety hazards

Since the beginning of 2024, thirteen complaints have been received relating to parking issues on Knock Way.

In response, the City commenced daily patrols in February 2025. Since then, twenty-six infringements have been issued for vehicles obstructing pedestrian access on dedicated footpaths.

Figure 1 - Example of Parking Behaviour

Figure 2 - Example of Parking Behaviour

Alternate car parking is available at the Aubin Grove Station. For users unable to find parking at Cockburn Central Station, travelling to Aubin Grove adds approximately ten minutes. The Aubin Grove Station car park provides around 2,000 bays and is underutilised.

This parking management plan aims to enhance road safety by preventing parking on footpaths, shoulders, and accessways, and encouraging the use of designated off-street parking, particularly Public Transport Authority facilities at Cockburn Central and Aubin Grove Stations.

Recommendation

It is recommended that 'No Stopping' signs be installed on both sides of Knock Way, from Prinsep Road (north) to Armadale Road (south), refer Attachment 1.

Strategic Plans/Policy Implications

City Growth and Moving Around

A growing City that is easy to move around and provides great places to live.

- An integrated, accessible and improved transport network.

Budget/Financial Implications

The proposed signage plan is estimated to cost approximately \$10,000. Funding will be subject to allocation in the FY 2025/26 budget or a budget amendment within the same financial year.

Legal Implications

The land administration of Knock Way is currently under assessment by Main Roads Western Australia (MRWA). It is intended that Knock Way will be ceded as a local road and become the responsibility of the City in the future.

In the interim, clause 3.53 of the Local Government Act 1995 (Control of certain unvested facilities) can be applied in these circumstances. This clause provides that the City is responsible for maintaining the thoroughfare, until it is formally ceded.

Community Consultation

N/A

Risk Management Implications

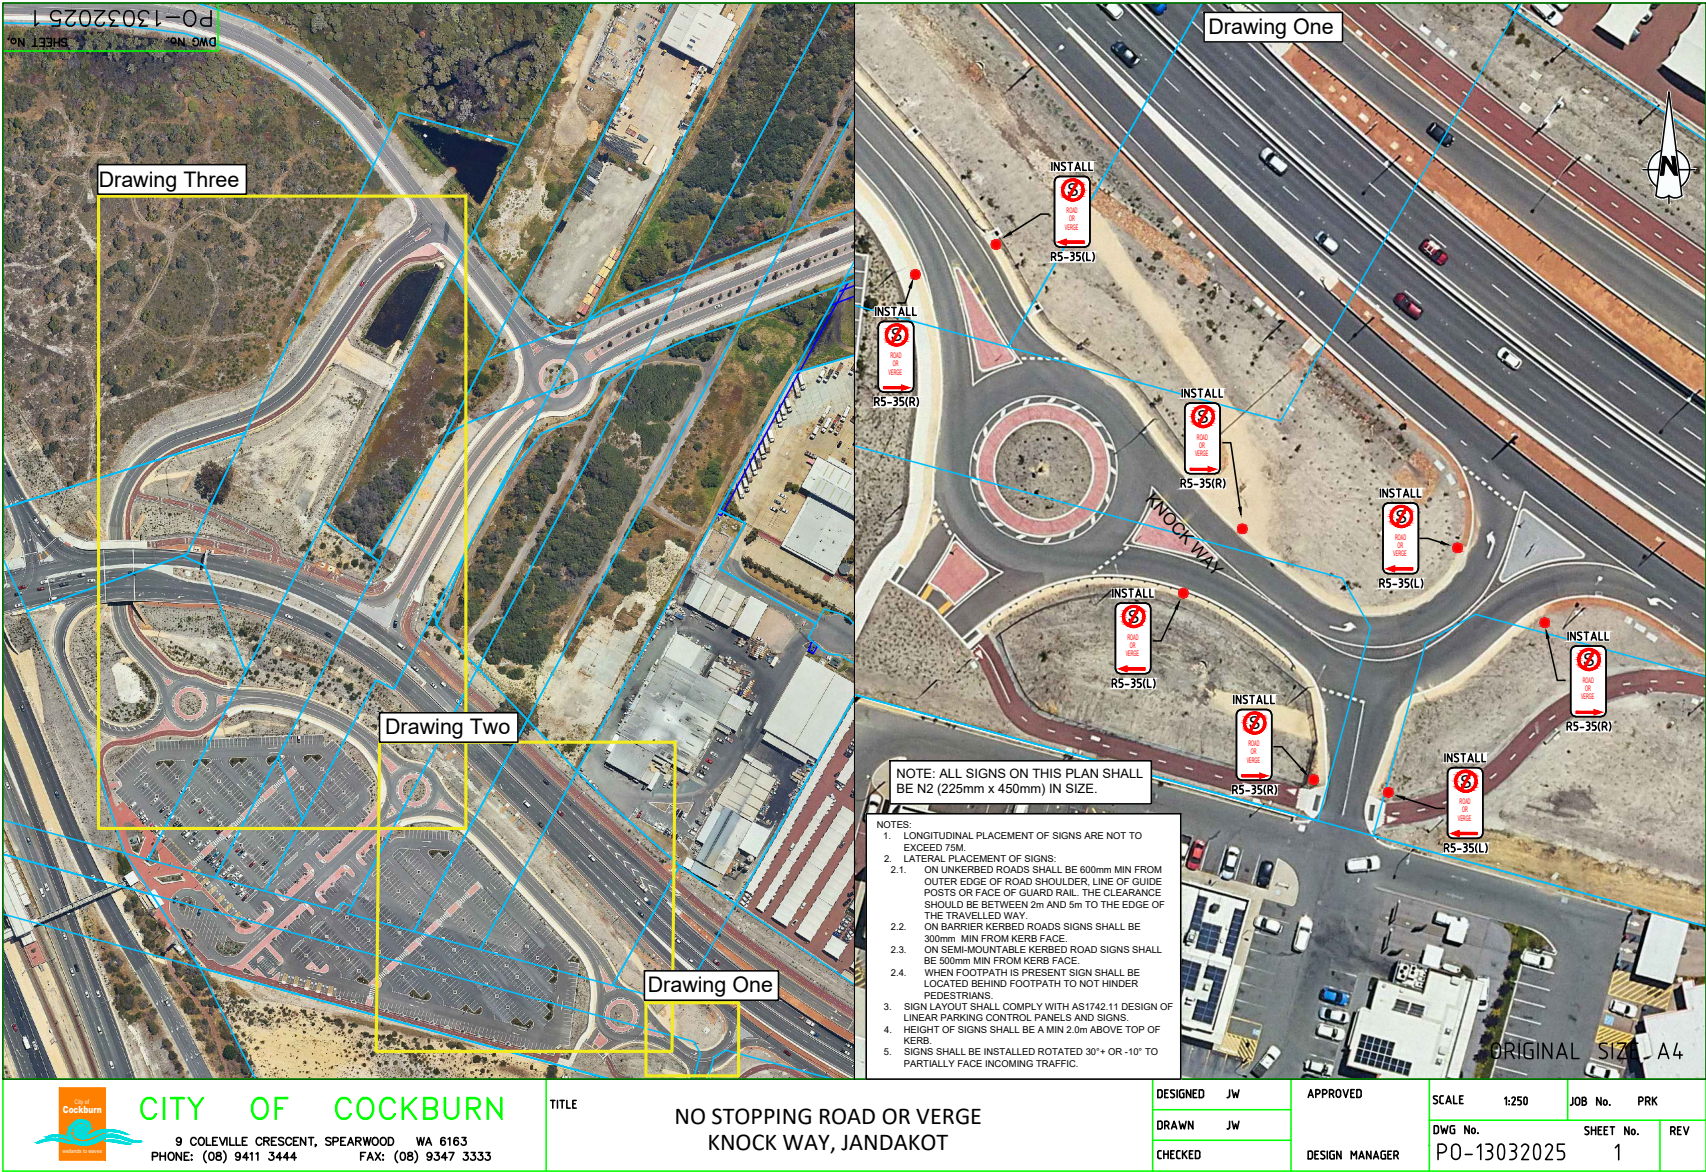

There is a low to medium reputational risk should the recommendation not be approved.

Advice to Proponent(s)/Submitters

N/A

Implications of Section 3.18(3) Local Government Act 1995

14.1.2 (2025/MINUTE NO 0070) Development Application - DA24/0963 - 9 Kent Street, Spearwood - Redevelopment of Beale Park

Responsible Executive Director Sustainable Development and Safety
Author Service Lead Planning
Attachments N/A

Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes
 That Council:

- (1) APPROVES the proposed redevelopment of the Beale Park Clubrooms and playing fields subject to the following conditions:

Conditions

1. Development shall be carried out in accordance with the approved plans.
2. Prior to issue of a Building Permit, a Tree Management Plan shall be submitted with all trees nominated for retention and all 35 new trees for planting in the approved plans denoted by a Tree Protection Zone in accordance with Australian Standard AS 4970-2009 "Protection of trees on development sites" for review and comment.
3. Prior to works commencing, the City's Parks and Environment team are to be notified to arrange for the irrigation to be capped and a temporary solution installed.
4. Prior to issue of a Building Permit, a Construction Management Plan shall be submitted to and approved by the City for new buildings detailing management of:
 - (a) access to and from the site;
 - (b) the delivery of materials and equipment to the site;
 - (c) the storage of materials and equipment on the site;
 - (d) the parking arrangements for contractors and subcontractors;
 - (e) other matters likely to impact on surrounding properties; and
 - (f) management of construction waste.

The Construction Management Plan shall be implemented at all times during the construction phase.
5. Prior to occupation or use of the development, vehicle parking, manoeuvring and circulation areas shall be designed, constructed, sealed, drained, line marked and kerbed in accordance with:
 - (a) The approved plan;
 - (b) The City's engineering requirements and design guidelines
6. The areas must be sealed in bitumen or concrete (non-residential) concrete or brick paving (residential) in accordance with City's specifications, unless otherwise approved by the City.
7. The dimensions of all car parking bays, aisle widths, wheel stops, columns, ramps and circulation areas complying with the Australian Standards AS/NZS

- 2890.1:2004 and AS/NZS 2890.6:2009. Directional line-marking shall be included on plans and on site, as required.
8. The bays must be individually marked on site as 'Visitor Bays' and 'Staff Bays' and made available for use by visitors and staff members at all times.
 9. All crossovers are to meet the City's Vehicle Crossover Specification. A separate approval is required by the City's Development Engineering team. A sightline shall be provided at the intersection of the crossover and the front boundary for standard crossovers. All sightlines shall be maintained clear of obstructions above a height of 0.75m.
 10. Prior to occupation or use of the development, any redundant crossover(s) as shown on the approved plans, shall be removed and the verge and kerb reinstated to the satisfaction of the City.
 11. All stormwater shall be contained on site. Stormwater drainage is to be able to contain a 1 in 100-year, 24 hour storm event.
 12. Details about the stormwater drainage design for the proposed development shall be submitted to the City prior to the lodgement of a Building Permit Application, for review and approval. Details are recommended to include drainage calculations with catchment area, rainfall intensity, etc.
 13. The redeveloped clubrooms shall adhere to the approved amended Waste Management Plan to the satisfaction of the City.
 14. All outdoor lighting shall be installed and maintained in accordance with Australian Standard AS 4282 - 1997 "Control of the Obtrusive Effects of Outdoor Lighting".
 15. Prior to works commencing, a Dust Management Plan shall be submitted to and approved by the City. The approved Dust Management Plan shall be implemented thereafter, to the satisfaction of the City.
 16. The development shall comply with the noise pollution provisions of the Environmental Protection Act 1986, and more particularly with the requirements of the Environmental Protection (Noise) Regulations 1997.
 17. Prior to issue of a Building Permit, an updated Acoustic Report with accompanying Noise Management Plan outlining how noise is to be managed, and complaint response procedure, shall be submitted to and approved by the City, and implemented thereafter, to the satisfaction of the City.
 18. Prior to the demolition of any structures/buildings on the heritage inventory, an Archival Record shall be prepared and submitted to the City in accordance with the Heritage Council of WA guidelines.

Footnotes

- a) This is a Development Approval only and does not remove the responsibility of the applicant/owner to comply with all relevant building, health and engineering requirements of the City, or with any requirements of the City of Cockburn Town Planning Scheme No. 3 or with the requirements of any external agency.
- b) In accordance with Clause 26 of the Metropolitan Region Scheme (MRS) text, this development approval under Town Planning Scheme No.3 is also

deemed to be an approval under the Metropolitan Regional Scheme.

- c) Further to Footnote A, a Certified Building Application is required for Building class 9b/6/10a Type C construction WA Public building as defined by the Building Code of Australia.
- d) With regard to Condition 7 above, an Application for Approval of a Dust Management Plan form may be obtained from www.cockburn.wa.gov.au, and shall identify the mitigation and contingency measures proposed by the developer. Appropriate mitigation and contingency measures are outlined in the Department of Environment Regulation publication "Land development sites and impacts on air quality" (November 1996). The developer is further advised that Council approval may be required for bulk earthworks on Class 3 and 4 development sites between 1 October and 31 March the following year.
- e) If dust is detected at adjacent premises and is deemed to be a nuisance by the City, then any process, equipment and/or activities that are causing the dust nuisance shall be stopped until the process, equipment and or activity has been altered to prevent the dust to the satisfaction of the City.
- f) All noise attenuation measures, identified by Herring Storer Acoustics Report "DA ACOUSTIC ASSESSMENT - PRELIMINARY ACOUSTIC ASSESSMENT Proposed Club Premises - Beale Park Redevelopment - 9 Kent St, Spearwood" (Ref 33683-1-22048-02; dated November 2024) and the further acoustic report required under condition 9, are to be implemented prior to occupancy of the development and the requirements of the Acoustic Report are to be observed at all times. To ensure compliance, the following are recommended:
 - i. that a review of the mechanical services design be undertaken when the design is complete.
 - ii. the glazing to the Function / Clubroom is to be a minimum of 10.38mm laminated glass.
 - iii. Additionally, the access doors to the club / function area are to be closed when music is being played and access should be via the lobby.
- g) Guidance on matters for an Operational Noise Management Plan should be provided within the further report that will be required at the building permit stage.
- h) Written confirmation from a recognised acoustic consultant that all recommendations made in the Acoustic Report prepared by Herring Storer Acoustics and the further Acoustic Report required under condition 9 have been incorporated into the proposed development, shall be submitted to the City at the time of lodgement of the Building Permit Application.
- i) The builder shall provide written confirmation that the requirements of the Acoustic Report referred to in condition 9 have been incorporated into the completed development with the Form BA7 Completion Form, prior to occupation of the development.
- j) All food businesses shall comply with the Food Act 2008 and Chapter 3 of the Australia New Zealand Food Standard Code (Australia Only).

- k) An “Application to Construct or Alter a Food Premises” is required to be submitted to Health Services prior to construction. This is to be accompanied by detailed plans and specifications of the food preparation and storage area (including mechanical ventilation and hydraulics), sanitary conveniences and garbage room, demonstrating compliance with the mentioned legislation.
- l) This development has been defined as a public building and shall comply with the relevant provisions of the Health (Miscellaneous Provisions) Act 1911 (as amended), and the Health (Public Buildings) Regulations 1992. A Building Permit Application shall be submitted for approval, prior to works commencing.

(2) ADVISES those who made a submission of Council’s decision accordingly.

CARRIED 9/0

Background

The redevelopment of Beale Park has been brought to Council for determination as the proposal includes the demolition of the heritage listed club rooms.

In accordance with the City’s delegation register, planning officers do not have the delegation to approve the demolition of heritage-listed structures, and any such proposal must be brought to Council.

Beale Park contains one of the City’s major soccer facilities, Cockburn City Soccer Club, which has outgrown the current premises and requires upgrades to meet their needs.

The Community, Sport and Recreation Facilities Plan 2018-2033 and Western Suburbs Sporting Precinct Study 2018 identified the need for the redevelopment of Beale Park to serve a growing community. A master-planning process in 2018 identified the following priorities for Beale Park and incorporated them into a high-level conceptual plan ultimately used to inform this development application.

Community feedback during that time was sought from site users and residents to inform a design for the upgrades. The City undertook a three-phase approach to engagement, with the master plan released for community feedback and endorsed by Council in 2018. Community feedback was sought on progressing the design of the play equipment, public artwork, and park furniture in 2020, and in 2021, the City prepared a concept design for Beale Park, guided by prior consultation findings, tree studies and site and project constraints.

Key themes arising from the engagement centred on:

- More carparking
- Improved access and egress
- A new multi-purpose sporting and community facility
- Re-orientation of sporting fields. [resulting in seven senior soccer pitches]

- Accessible toilets and lighting upgrades to increase the area and times available for sport.

The works will be conducted over two stages to upgrade the clubrooms and playing fields.

Figure 1 – Aerial Shot

Report

The development application comprises of the following works:

- Increased active open space (seven senior soccer pitches)
- New sports floodlighting across the reserve
- A new centrally located clubroom facility with six unisex change rooms
- Increased storage
- A new rationalised car park.

In detail, this entails:

- Demolition of existing main, secondary clubhouse & attached verandahs
- Partial Demolition of CVES building and retaining of Garage Section
- Staging of works to accommodate Cockburn Soccer Club operations
- One full sized competition standard senior soccer pitch, with all other senior soccer pitches being as large as feasibly possible
- New club room facilities, consisting of:
 - 6 home and away unisex change rooms
 - Referees / official's room
 - Function and club room
 - External and internal storage area
 - Public toilets (including ambulant toilets)
 - Office and meeting rooms
 - First aid room
 - Kitchen, bars and kiosk
 - Nature / movement / local history themed public artwork incorporated into the proposed new clubhouse
 - Photovoltaic panels to roof
 - Spectator viewing and seating area.
- New BBQ area with shade structure
 - BBQ equipment, picnic tables and seating, water fountain with dog bowl and bins.
- New nature-based playground area with shade sails.
 - Play equipment with jumping, sliding and swinging features. Climbing frames.
- Hamilton Road car park upgrade, consisting of:
 - 41 visitor car bays (Potential loss of 4-5 bays subject to final Arboriculture report)
 - 2 universal accessible car bays
 - 1 ambulance bay
 - 1 loading bay
 - Car park pole lighting.
- Kent Street car park upgrade and extension, consisting of:
 - 96 visitor bays (Potential loss of 6-8 bays subject to final Arboriculture report)
 - 2 universal accessible car bays
 - 1 ambulance bay
 - 1 loading bay
 - Car park pole lighting.

- New enclosed bin store
- Sports lighting upgrade
- New outdoor gym equipment area
- New tree planting along Hamilton Road and south end of Beale Park
- New park benches
- New park bins.

The purpose of this report is to consider submissions made during the advertising period and provide a final recommendation to Council.

It should be noted that not all appendices listed in the attached development report have been included as an attachment to this OCM item. Only those technical reports that are relevant to the issues discussed in this report have been included. However, all appendices referenced in the development report can be viewed on the City's Comment on Cockburn website.

Town Planning Scheme No.3 (TPS3)

Beale Park is recognised as a Local Reserve under the City of Cockburn Town Planning Scheme No.3 (TPS3).

Clause 2.4 Use and Development of Local Reserves:-

Clause 2.4 provides that:

2.4.1 A person must not –

- a) use a Local Reserve; or*
- b) commence or carry out development on a Local Reserve, without first having obtained planning approval under Part 7 of the Deemed Provisions.*

2.4.2 In determining an application for planning approval the local government shall have due regard to –

- a) the matters set out in clause 67 of the Deemed Provisions; and*
- b) the ultimate purpose intended for the Reserve. 2.4.3 In the case of land reserved for the purposes of a public authority, the local government is to consult with that authority before determining an application for planning approval.*

There are no land use concerns in respect to this proposal.

The redevelopment of the clubrooms and associated fields constitutes a 'Community Use' which is Permissible and consistent with the objectives of the Local Reserve.

Car Parking:

There is no specified corresponding land use for car parking purposes explicitly identified within TPS3.

The application comprises of approximately 94 existing car bays, with 44 bays to the Kent Street car park, and 48 bays to the Hamilton Road car park. 2 accessible bays are also provided to the Hamilton Road car park.

Vegetation

Clause 4.18 specifies that *“Planning approval is required prior to the removal, destruction of and/or interference with any tree included on the local government Significant Tree Register.”*

Schedule A Clause 7 states that *“7. Any tree included on the local government’s Local Government Inventory and Heritage List prior to clause 13B coming into effect continues under this scheme and is taken to be on the significant tree register.”*

The significant trees present onsite include a registered Carnaby’s Cockatoo roosting site and the two Norfolk island pine trees recorded in the Local Heritage Survey are thus automatically included in the Significant Tree Register. The pine trees will be retained.

Six trees are proposed to be cleared to facilitate the redevelopment.

City of Cockburn Local Heritage Survey (LGI)

The subject site contains two heritage places.

Partial demolition is proposed within the ‘Two Soccer Clubs’ heritage place 103 which is a Category C site under the City of Cockburn Local Heritage Survey. Local Planning Policy LPP 4.4 Heritage Conservation Design Guidelines specifies that:

The following policy provisions apply to places included on the LGI and identified as management category C (Significant).

1. *Alterations, Extensions or Changes of Use*
 - (a) *Where alterations or extensions are proposed consideration should be given to ensuring these modifications do not detract from the heritage values of the place, and retention of original fabric is encouraged where feasible.*
 - (b) *Substantial modifications to the place may require an archival record (as a condition of development approval), and the archival record should be prepared in accordance with the Heritage Council of WA guidelines.*
2. *Demolition*
 - (a) *Retention of the building or place is encouraged; however demolition may be supported, subject to the consideration of heritage significance together with other relevant planning issues.*
 - (b) *An archival record will be required as a condition of development approval for demolition, and the archival record should be prepared in accordance with the Heritage Council of WA guidelines.*
 - (c) *Consideration should be given to the inclusion of interpretation of the heritage place (refer to 7.0).*

The proposal, on balance, is consistent with the requirements of TPS3, so its demolition can be considered as per Clause 2(a) above. The site is not on the State's register (rather, it is on the Local Inventory only). As such, referral to the Heritage Council is not required.

Removal of significant trees are only permitted in limited, unavoidable circumstances under the policy. The City has made every effort to minimise loss of tree canopy in conjunction with this application and has reduced the original extent of clearing proposed.

In response to feedback from the Department of Climate Change, Energy the Environment and Water, the City has rescoped the project beyond the original design to balance site user needs and environmental considerations.

The updated plans retain the significant Carnaby's Black Cockatoo roosting trees by shifting the clubrooms further south and thus significantly reducing the number of trees requiring removal.

The six trees identified for removal are non-significant and not used by Black Cockatoos for roosting. The City will replant 35 new trees to ameliorate their removal.

External Referral

The proposal was deemed as a 'controlled action' by the Department of Climate Change, Energy the Environment and Water following referral of the proposal to the Australian Department of Agriculture, Water and Environment, confirming the proposal required further assessment and approval under the *Environment Protection and Biodiversity Conservation Act 1999* (EPBC) Act.

The City responded by amending the design scope and relocating the clubrooms further south in order to retain all identified roosting trees. Six trees in total will require clearing, which shall be supplemented with 35 new planted trees.

Strategic Plans/Policy Implications

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

- Protection and enhancement of our natural areas, bushland, parks and open spaces.
- Sustainable resource management including waste, water and energy.

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

- Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.
- A safe and healthy community that is socially connected.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- High quality and effective community engagement and customer service experiences.
- Best practice Governance, partnerships and value for money.

Budget/Financial Implications

Community Consultation

The proposal was advertised for 21 days, in accordance with Part 5, Division 3, Regulation 47 of the Planning and Development (Local Planning Schemes) Regulations 2015, during 28 February to 21 March 2025.

Advertising consisted of a notice and electronic copies of the documentation being made available on the City's 'Comment on Cockburn' website, letters to directly affected landowners and/or occupiers, and relevant State Government Agencies.

The City received nine responses, as summarised below:

Submitter	Comment	City's response
1	<p>Object to an exercise area / station next to the children's playground. In the past exercise groups have used the area commencing early mornings, late afternoons and weekends. It's an area for parents and their children and should remain as such. If a gym is necessary, move it to the club house area and its amenities.</p> <p>On the form is my objection to an exercise area occupying the same surrounds as a children's playground. Not overly keen on a 100 bay carpark further down the road either but as it doesn't impact my property or future value there isn't much I can say about that. The property owners opposite should be objecting to that.</p>	The location and inclusion of outdoor exercise equipment was identified through the community engagement process 2018-2021.
2	<p>As a resident and owner family at [property address redacted], we frequent the park. On the attached plan whilst generally good, I cannot believe the council will demolish the magnificent trees (highlighted). Is that necessary, when there is already a soccer club at Manning park? Why not build-double story instead of spreading out the building? We have noted that one tree has already been cut down, that tree was huge! I'm no environmentalist but what a shame, there is so much land there that's vacant. I have inspected the plans. Please keep my details confidential. Object to the proposal on the grounds of major tree removals and</p>	The plans retain the significant Carnaby's Black Cockatoo roosting trees and the six trees identified for removal are non-significant. The City will be replanting 35 new trees.

Submitter	Comment	City's response
	unnecessary development when there is already a soccer club down the road at Manning. Prefer to keep the trees, dog walking facilities/park instead of more soccer fields.	
3	No objection	
4	In the new club rooms is the hall going to be big enough for social events. & also when finals in soccer are played to have an event there? The old building + the trees around it will they be cleaned up.	The total capacity of the facility is similar to other Club and community facilities across the City. All existing buildings will be demolished.
5	I live near Beale Park and Manning Park. The increase in traffic and lighting at night will have a very negative effect on the roosting sites of the endangered Carnabys Cockatoo – the very reason I moved to this area!	The Environmental Consultant engaged for this project identified any issues impacting the Carnaby's Cockatoos. All measures have been accepted in the final design.
6	<ol style="list-style-type: none"> 1) Although you have included "unisex" changerooms, you haven't allowed enough toilet cubicles for FEMALES, or any "URINALS", for MALES accord to the notes or legend. 2) We realise some trees will be removed, more effort should be made to replant 10 trees for every tree removed. 3) We would like to see "Angle" parking, instead of "Square" parking to our parks. 4) Perhaps "LEFT TURN ONLY" after exiting carparks to create greater traffic safety and FLOW. 	<ol style="list-style-type: none"> 1) The building has been designed to the current building codes. 2) The City will be replacing trees removed at approximately a 6:1 ratio, well above the 4:1 standard ratio. 3) Car park and traffic design has been completed to provide the best outcome within project parameters.
7	Please consider new tree planting along Kent Street to prevent unauthorised verge parking – this is currently a big issue for Kent Street and I'm concerned the new tree planting on Hamilton Road + Spearwood Ave will worsen this.	Car park design has been completed to provide the best outcome within project parameters.
8	<ol style="list-style-type: none"> 1) Please ensure that the field lighting points only onto the playing fields and does not project onto the adjacent neighbourhood, nor into the roosting trees. 2) The traffic study is quite old and, anecdotally, I would say presents an underestimation of the traffic volume on surrounding roads. 3) The intersections of Hamilton Road with Kent Street and Gorham Way are hazardous: <ol style="list-style-type: none"> a. It is a very popular location for pedestrians crossing to go to/from Manning Park and the Phoenix Shopping Centre/City Administration precincts. b. Some kind of remedy is needed to calm the traffic flow and especially stop the very frequent occurrence of drivers mounting the kerb and footpaths to undertake right-turning vehicles exiting Hamilton Road. c. In addition, it seems that some form of traffic calming on Kent Street would also improve safety overall. 4) For the verge plantings, please consider the use of 	<ol style="list-style-type: none"> 1) Floodlighting will be compliant with relevant Australian Standards which caters for the obtrusive lighting. The floodlight design considered roosting trees 2) The traffic study has been conducted in accordance with current standards 3) The comments are noted 4) Tree species identified in for planting are native and included in the Landscape Concept Report

Submitter	Comment	City's response
	endemic screening species, like those currently buffering the eastern/Hamilton Road side of the nearby Dalmatinac football facility, or avenue-making trees like <i>Agonis flexuosa</i> , for example.	
9	<p>The issue is the parking area on Kent st you are directing a hundred plus cars to the street which I'm concern will cause traffic issues especially cars that will be turning left and right onto Hamilton Road which is extremely busy now days, I have noticed Kent st has become a lot busier as people who use it to turn onto Rockingham Rd to avoid the lights on Spearwood Avenue.</p> <p>There is also a safety concern with cars speeding up and down Kent street and losing control as you would know as you just fix a fence on Kent st through a car driving through it.</p> <p>Maybe you could look at opening a Sussex st entrance onto Spearwood Ave at the top end near monument to help with traffic congestion.</p>	<p>There is already an existing car park accessed from Kent Street, the proposal allows for more formalised parking. It is not anticipated this will impact traffic volumes on Kent St.</p> <p>The land at the end of Sussex St is not a road reserve. Broader impacts of opening this road would not make this a supported option.</p>

Risk Management Implications

The officer recommendation considers the relevant planning matters associated with the proposal. It is considered that the officer recommendation is appropriate. If the development application is deferred or ultimately refused by Council:

- The City will become ineligible for the applicable grant money funding
- Additional costs will be incurred to amend the proposal in accordance with Council's decision and the financial viability of the redevelopment will be adversely affected due to the loss of the State Government grant funding.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 13 May 2025 Ordinary Council Meeting.

Implications of Section 3.18(3) Local Government Act 1995

4. Schedule of Submissions [↓](#)
5. Area of Advertising [↓](#)

OFFICER RECOMMENDATION

That Council:

- (1) REFUSES the Retrospective Development Application for a 1.8m *Colorbond* front fence at 158 Lorimer Road, Beeliar, for the following reasons:
 1. The front fence detracts from the consistency of the streetscape and does not complement the existing rural character of the area.
 2. The front fence does not allow native wildlife to pass through the property, as is typical within a rural area, including access to *Thomsons Lake Nature Reserve* wetlands;
- (2) REFUSES approval under the City of Cockburn's Fencing Local Law 2012 for a 1.8m *Colorbond* boundary fence around the perimeter of 158 Lorimer Road, Beeliar, for the following reasons:
 1. The boundary fencing does not comply with height and material requirements specified in Schedule 3 of the City of Cockburn Local Fencing Law 2012
 2. 'Colorbond' is not a material considered by the City to be compatible with the rural character of the area.
 3. The boundary fencing does not allow native wildlife to pass through the property, as is typical within a rural area, including access to *Thomsons Lake Nature Reserve* wetlands;
- (3) ADVISES the applicant, should they be aggrieved by the decision, of their right of review at the State Administrative Tribunal; and
- (4) ADVISES those who made a submission of the Council's determination accordingly.

Council Decision

MOVED Cr M Separovich SECONDED Cr K Allen

That Council:

- (1) DEFERS consideration of the Retrospective Fencing Development Application to allow the applicant to submit an amended proposal for the front fence, which incorporates modification to the location of the fencing to allow for screening vegetation or a re-design which incorporates visually permeable

sections of the fence.

- (2) ACKNOWLEDGES that should the amended proposal be acceptable to the City then it be determined under delegated authority. If the applicant decides that they are not prepared to amend the fence or make suitable amendments, then the application be referred to Council for determination
- (3) ADVISES the applicant and those who made a submission of the Council's resolution.

CARRIED 5/4

For: Deputy Mayor C Stone, Cr P Eva, Cr T Widenbar, Cr T Dewan and Cr P Corke

Against: Cr C Reeve-Fowkes, Cr C Zhang, Cr K Allen and Cr M Separovich

Background

In December 2023 the owner(s) of 158 Lorimer Road, Beeliar erected a 1.8m *Colorbond* perimeter fence along the front, side and rear boundaries of the property. The fence was erected without applying for the necessary approvals.

The City received a complaint from a surrounding resident questioning the rural character and dimensions of the fence. City officers investigated and informed the owner that the fence required a planning approval, with consideration being given to the City's *Fencing Local Law*.

The owner subsequently submitted an application for a retrospective approval for the fence.

Due to the potential financial implications for the landowner in removing the retrospective development, the City has brought the matter to Council for determination.

Submission

N/A

Report

Proposal Details

The application seeks retrospective approval for a 1.8m high dark grey *Colorbond* fence that runs 203m along the street boundary, 68m along the northern boundary, 121m along the southern boundary and 210m along the rear boundary (opposite *Thomsons Lake Nature Reserve*) (refer Attachment 1 - Plans).

The applicant does not require development approval for dividing/boundary fencing, but does require approval under the City's *Fencing Local Law*.

The applicant has also included a request to widen the existing crossover. A development approval is not necessary for this aspect of the proposal.

Fencing Local Laws 2012

The City's Fencing Local Law applies to dividing or boundary fences within the district of the City of Cockburn.

Under the City of Cockburn *Fencing Local Law*, the prescribed height and materials for dividing fences in the Rural zone are:

- Height: generally not exceeding 1.2 metres
- Material: generally post and wire or other rural-style fencing suitable for open rural landscapes.

The proposed fence does not comply with the Local Law in the following respects:

1. The proposed height of 1.8 metres is 0.6 metres above the generally permitted 1.2 metres for rural fences.
2. *Colorbond* steel is not considered compatible with the open, rural character of the Rural zone. The use of solid, opaque *Colorbond* fencing creates a suburban appearance and is inconsistent with the intended rural aesthetic.
3. The fence would have a visually obtrusive impact on the streetscape and adjoining rural properties, detracting from the openness and natural character of the area.

Notwithstanding the above, the *Fencing Local Law* provides the local government discretion to support alternative materials and fencing heights.

In exercising discretion, the City considers the merits of the proposal including amenity impacts, character of the area, compatibility with surrounding development and the applicant's justification.

Applicant Justification

The following is a summary of the applicant's justification (refer Attachment 2 – Applicant Justification):

1. The fence will deter snakes from entering the property. With a four-year-old onsite, this is a necessity.
2. Increase in crime and opportunistic robbery.
3. Protection against vicious dogs owned by neighbouring property.

Officer Response

The following is a summary of the City's response to the proposal's merits and applicant's justification:

1. The subject property is located in the Rural Zone. The objectives of this zone are; 'To provide for a range of rural pursuits which are compatible with the capability of the land and retain the rural character and amenity of the locality.'
Colorbond fencing is not considered to be consistent with the rural character of the area.
2. The rural lifestyle is inherently connected to the natural environment, including the presence of native wildlife such as snakes. Residents choosing to live in rural areas accept a degree of exposure to these elements, which are an expected and manageable part of rural living.
3. Crime concerns in rural areas are typically minimal and do not justify significant changes to the traditional openness of the landscape. Rural living is built on community trust and awareness rather than imposing physical barriers.
4. The City's Local Planning Strategy emphasises the importance of preserving the natural and cultural assets of rural areas, aiming to deliver a high quality of life based on environmentally sustainable principles. This suggests that maintaining

the intrinsic qualities of rural zones, such as open landscapes, biodiversity, and traditional land uses, is a priority in the City's planning framework.

Strategic Plans/Policy Implications

The proposed fence does not conform with the City's *Fencing Local Law 2012*. The Local Laws prescribe specific requirements for how a sufficient fence on a rural lot should be constructed (including construction materials) (refer Attachment 3 – Fencing Local Law Schedule 3).

Whilst discretion can be applied to alternative materials, it is considered the proposal does not adequately justify the use of a solid 1.8m high *Colorbond* fence.

Examples of 'rural fences' in keeping with the 'character' of the area:

Example 1:

Example 2:

Example 3:

Photographs of nearby properties as shown by the above examples demonstrate that rural fencing in the area typically consists of open-style post and wire or timber rail

designs, reinforcing the view that the subject fence is visually inconsistent and out of character with the local rural setting.

As mentioned above, the Local Law supports the planning principle of appropriate materiality.

Legal/Budget Financial Implications

If the Council refuses the development application, the applicant has a right of review of the decision at the State Administrative Tribunal (SAT). If there was a SAT review the Council decision would need to be funded from the legal budget.

Community Consultation

Due to the significant variation proposed and complaints received, the application was advertised to eleven (11) properties within the immediate locality. At the closure of the fourteen (14) day advertising period, the City received a total of four (4) objections and two (2) non-objections. (refer Attachment 4 – Schedule of Submissions and Attachment 5 – Area of Advertising).

Risk Management Implications

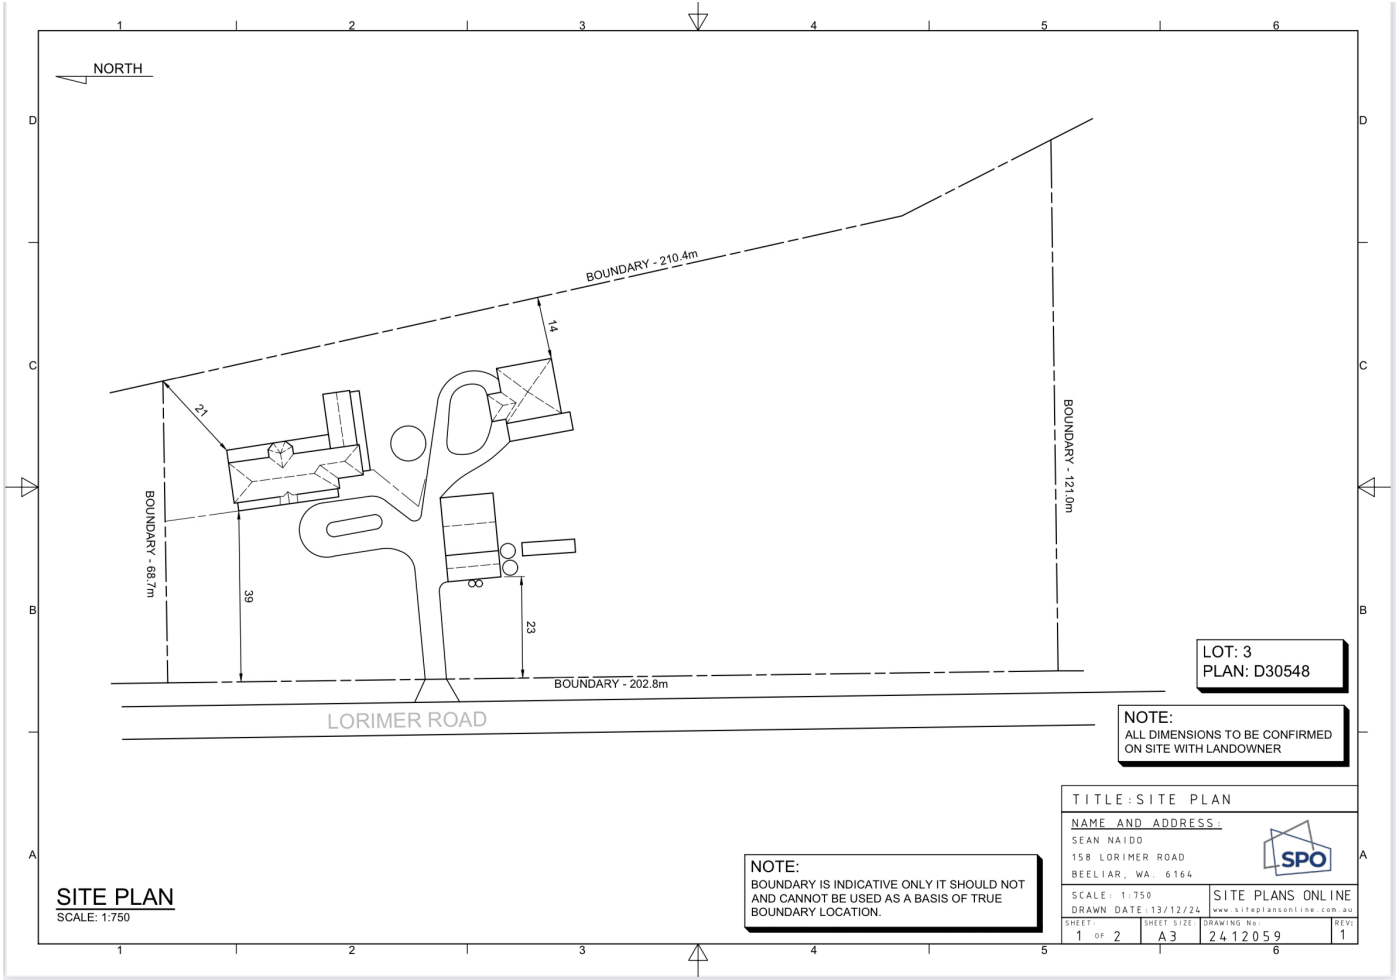

N/A

Advice to Proponent(s)/Submitters

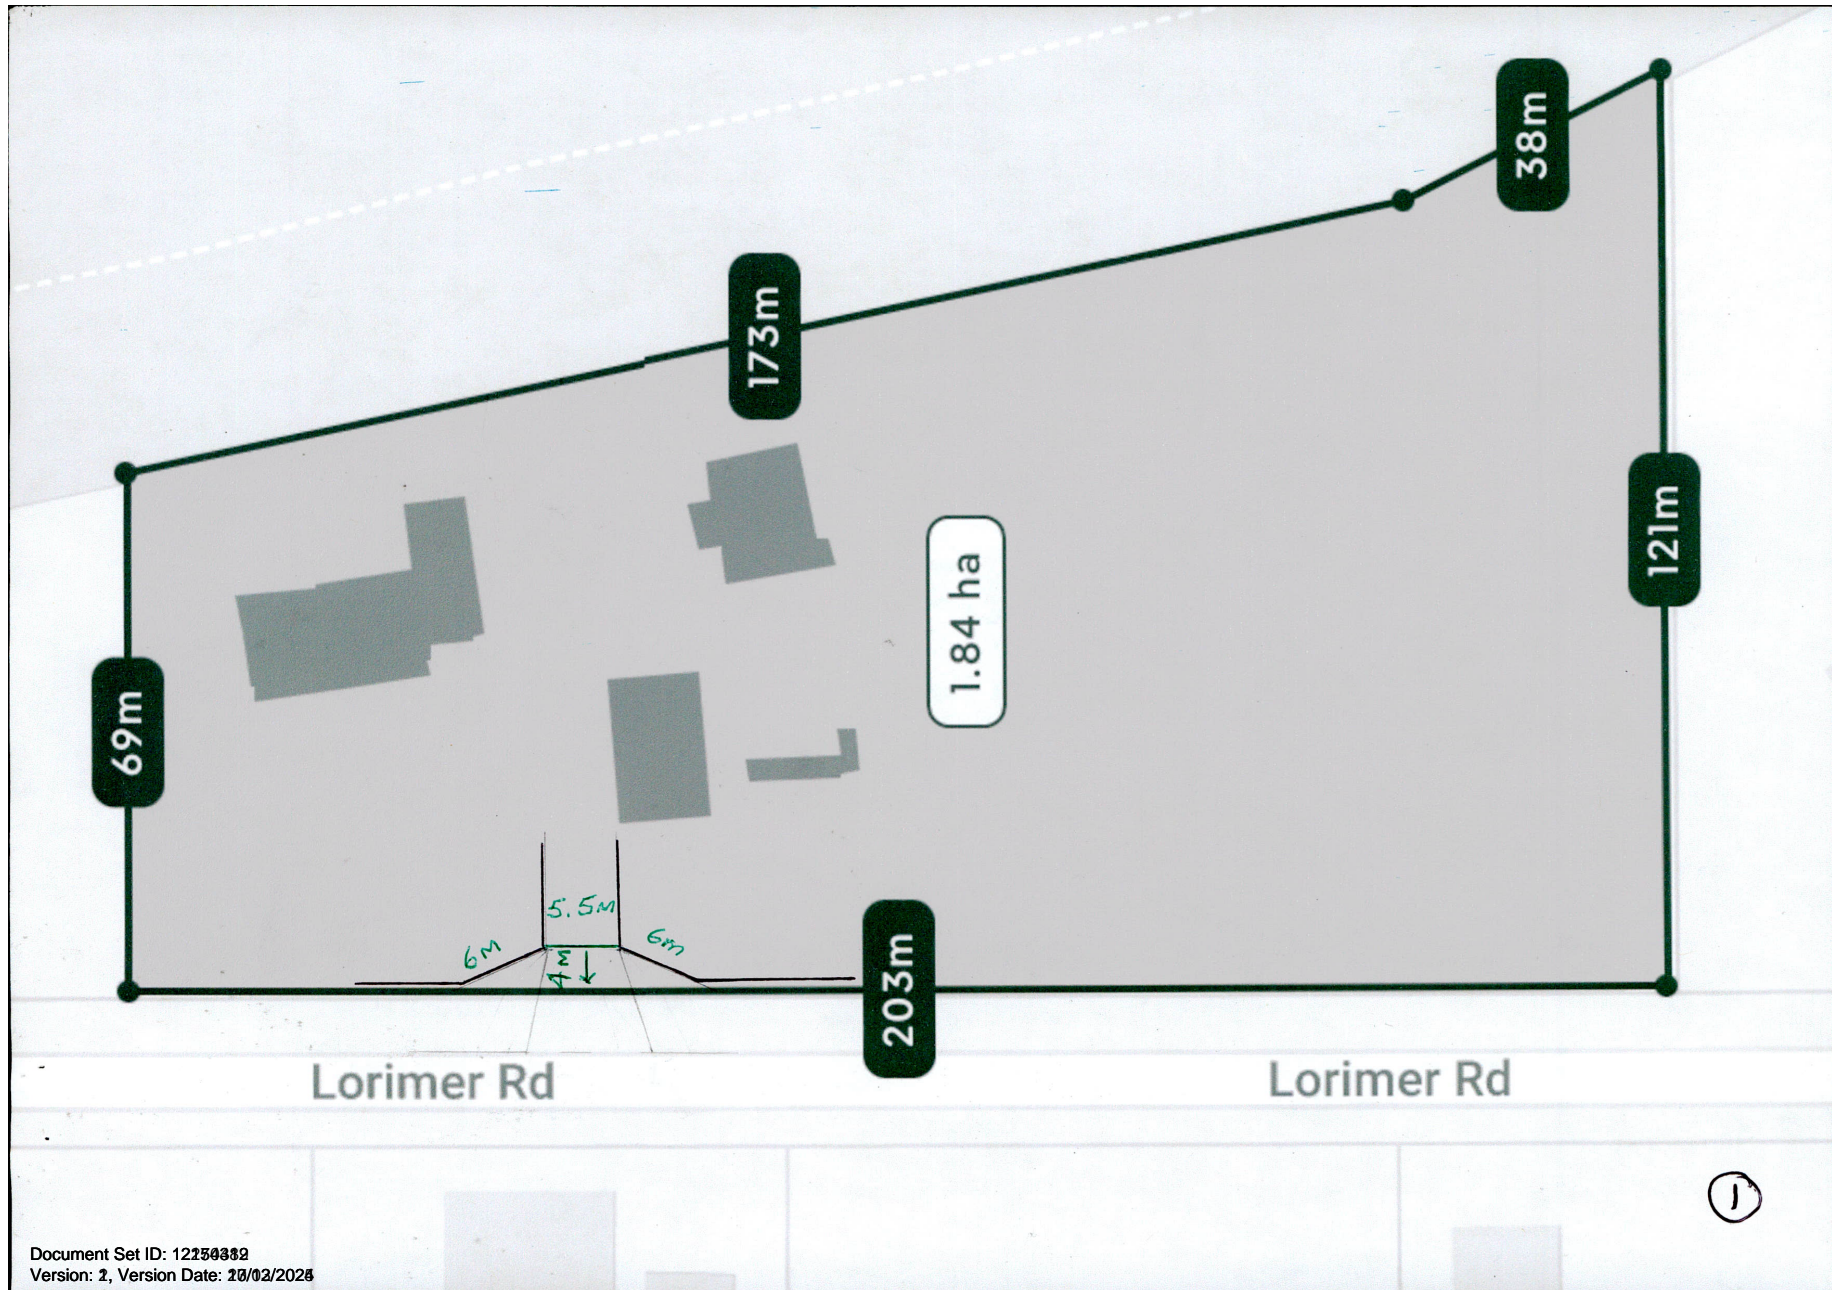

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 13 May 2025 Ordinary Council Meeting.

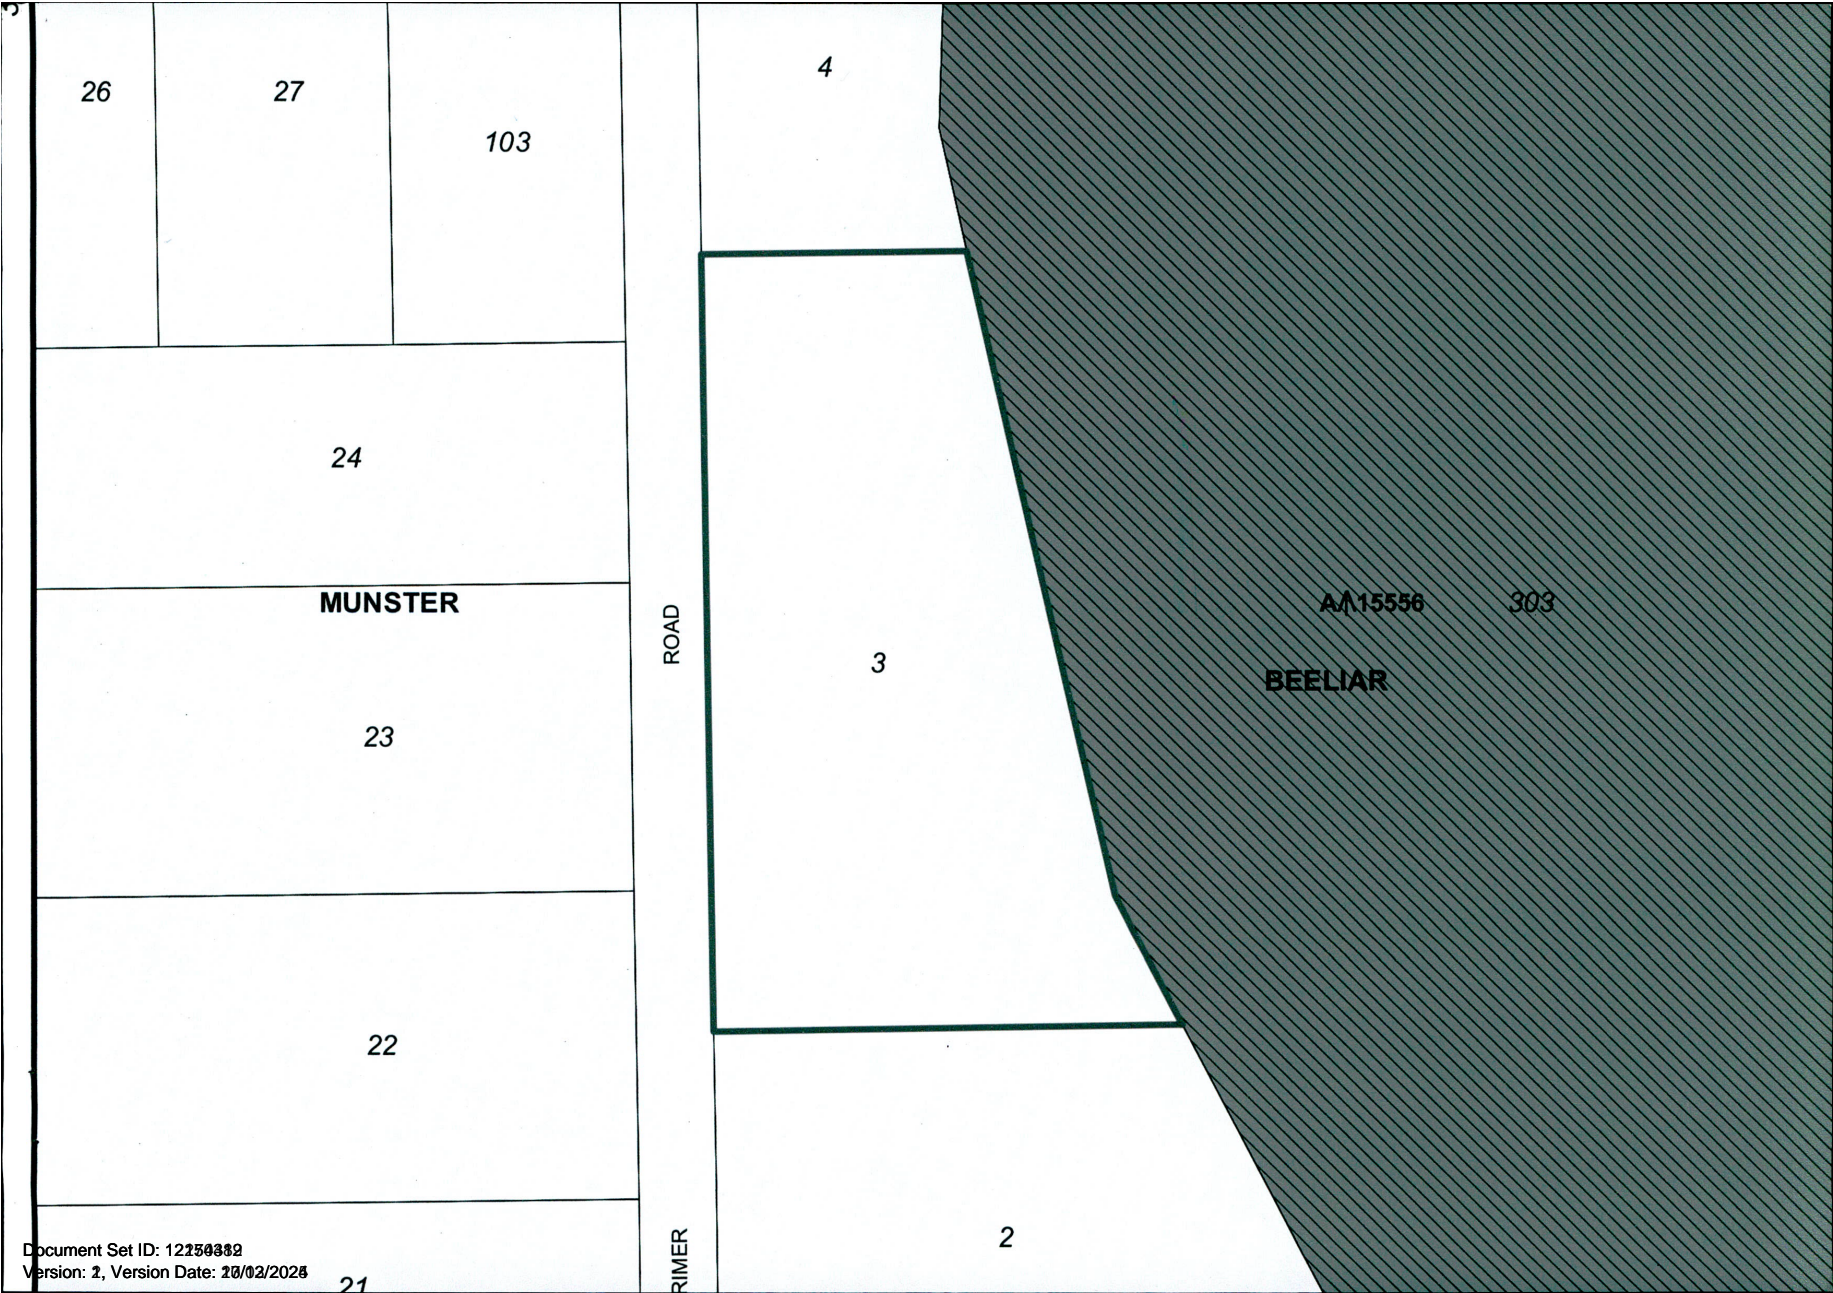

Implications of Section 3.18(3) Local Government Act 1995

Nil

Document Set ID: 12329504
Version: 4, Version Date: 26/05/2025

Statement in support of proposal:**SUFFICIENT FENCE**

The Property is to be used for residential purposes only. The reason for the need of a colourbond fence with a 250mm plinth is mainly to deter snakes, of which we have encountered two large Dugites on the property. One Tiger snake was seen on the boundary of the property. With a curious 4 year old toddler on the property, this poses a real and imminent danger. The current economic climate has resulted in a serious increase in not only opportunistic crime, but home invasions and armed robberies as well. Lorimer road is an extremely quiet road, and from observing the current trends, it is only a matter of time before there is an incident.

The neighbour on the Western boundary has a sign up warning of vicious dogs. With the current "sufficient fence" there is risk again. There are also horses on the property and the possibility of children being bitten over the sufficient fence is real.

We have already had a water pump stolen as well as children's toys, so this fence will hopefully deter thieves.

To safely keep dogs on the property and to meet Shire guidelines for same, we will have to properly secure the property.

TRUNCATION

The entrance gate is about 3.5m wide and inline with the fence. We propose widening the driveway entrance to not less than 5.5m and also setting the new gate back by a further 4m with a 6m tapered fence, thus offering a substantially improved line of site to both vehicles on the road as well as vehicles entering or exiting the property. (See attached diagram 1 and 2) Sufficient turning/manoeuvring space will be provided, so as to eliminate the need for vehicles to reverse out of the property, which could possibly be hazardous to other road users.

DIVIDING FENCES

The entire surrounding fence will be set back from the existing sufficient fence no less than 10cm on the sides as well as at the rear of the property. The rusted sufficient fence on the Eastern side of the property will be replaced at my expense.

The request for a relaxation for the use of only a sufficient fence is based on the above.

We are fully committed to ensuring that the fence is aesthetically pleasing and causes no issues to the surroundings.

Colourbond fencing is being used by other residents on Lorimer Road.

Attachment 3 – Fencing Local Law Schedule 3

**Schedule 3 - Specifications for a sufficient fence
on a rural lot**

Each of the following is a 'sufficient fence' on a rural lot –

- (a) a non-electrified fence that is a fence of posts and wire construction and satisfies the following specifications -
 - (i) wire is to be high tensile wire and not less than 2.5mm;
 - (ii) minimum of 5 wires are to be used, generally with the lower wires spaced closer together than the higher wires so as to prevent smaller stock passing through, and connected to posts in all cases.
 - (iii) posts are to be of indigenous timber or other suitable material including –
 - (A) timber impregnated with a termite and fungicidal preservative;
 - (B) standard iron star pickets; or
 - (C) concrete;
 - (iv) posts are to be placed at not more than 10 metre intervals, set minimum 600mm in the ground and 1200mm above the ground;
 - (v) if timber posts are used, posts are to be cut not less than 1800mm long x 50mm diameter at small end if round or 125mm x 60mm if split or sawn; and
 - (vi) if strainer posts are to be not less than 2250mm long and 150mm diameter at the small end (tubular steel to be 50mm in diameter) and shall be cut from indigenous timber or other suitable material. These shall be placed a minimum of 1000mm in the ground and set at all corners, gateways and fence line angles but not exceeding 200 metres apart; or
- (b) An electrified fence having 4 wires is a sufficient fence that is constructed generally in accordance with (a).

Schedule of Submissions – Fencing - 158 Lorimer Road, Beeliar

No.	Submitter	Details
1.	Confidential	Objection. The fence is a stain on the rural ambience. It is not in adherence to the City of Cockburn fencing laws. It is not suitable for the native wildlife to move freely between the areas like it would with a normal wire rural fence. It is anti social and not ok to put up without permission.
2.	Christine Ledwidge 179 Lorimer Road	Objection. The current fence is not in line with the “City of Cockburn Fencing Laws 2012”. It is an absolute eyesore and is not suitable for rural fencing to allow wildlife to pass through freely as it would with a standard wire fence.
3.	Confidential	Objection. 1. It does not fit in with the nature of rural living 2. It looks like a bikies compound or prison. 3. The cosmetic look of the fence devalues rural property value by the above nature. 4. We don't feel that truncating the front would ever fix the damage that this eyesore has on the property and the neighbouring properties. The front needs to be redone inline with what is suitable for rural open living.
4.	Margerate Connolley 144 Lorimer Road	Objection. The fence is an eyesore for a rural zoned property a sufficient fence is defined in your local law and is described as a 5 strand wire fence. Not keeping with the rural ambience
5.	Confidential	Support. Did not object to the proposal.
6.	Confidential	Support. Happy for it to be screened with vegetation.

<u>CARRIED 9/0</u>

Background

83 Mell Road, Spearwood (the subject site) measures 8,475m² in area. The subject site was developed in 2009 with 43 units (integrated office/warehouse/showroom development) serviced by a central access and parking area.

The subject site and adjoining land (between Mell and Rockingham Roads) was historically zoned 'Light Industry' (under District Planning Scheme No. 2), and then 'Light and Service Industry' under City of Cockburn Town Planning Scheme No. 3 (TPS3) when it was gazetted in 2002.

In November 2010, Scheme Amendment No. 70 (which primarily focused on the former Watsonia Factory site and surrounding former odour buffer area), rezoned the land to 'Development' and included it within the 'Development Area' No.31 (DA31) Special Control Area.

In 2011 the Packham North District Structure Plan (DSP) was adopted by Council to guide the broad land use framework, including the major road network, neighbourhood structure, commercial, and significant public open space areas. It also sought to coordinate local structure plans (LSPs).

The DSP shows the subject land (and adjacent lots previously zoned 'Light Industry') as 'Mixed Business', as it contained existing light industrial land uses and is constrained by the freight railway line.

Development Approval

Development Approval was granted for the subject site in 2007 (amended 2009) for a new integrated office/warehouse/showroom development (with car parking), to replace an existing warehouse.

There was no adopted LSP for the subject land at that time.

Construction occurred in 2009, and a built strata was subsequently approved, creating 43 strata units. This development covers the entirety of the subject site, as shown in Figure 1.

Figure 1: Existing development at 83 Mell Road, Spearwood

Structure Plan No. 31E

In response to subsequent issues that arose regarding ambiguity of land use permissibility, in November 2014 the City adopted Structure Plan No. 31E to guide land uses for the existing strata units (refer Attachment 1).

Structure Plan No. 31E was not endorsed by the Western Australian Planning Commission (WAPC) because it pre-dated the *Planning and Development (Local Planning Schemes) Regulations 2015* ('Regulations').

At that time, LSPs had the 'force and effect' of the Scheme, and the process for adoption was set out in TPS3. WAPC endorsement was only required where they 'facilitated subdivision', and they did not expire.

Given the subject site was already developed and subdivided, WAPC endorsement was not required. For the same reason, the Structure Plan cannot be extended by the WAPC and will expire on 19 October 2025.

Structure Plan No. 31E reflects the DSP and shows the subject land as 'Mixed Business', excluding a range of land uses.

These excluded land uses were seen as unsuitable because they are either sensitive land uses; land uses unsuitable because of the nature of the existing built form and

strata arrangements; or land uses with the potential to have a negative impact on residential development within proximity to the site.

Given LSPs have been demoted to time-limited instruments of 'due regard', and subdivision and development of the site has long been complete, Structure Plan No. 31E has served its purpose and is no longer required.

Rationalisation of most of the other endorsed LSPs within DA31 occurred through Scheme Amendment No.175, gazetted on 3 December 2024.

Submission

N/A

Report

Structure Plan No. 31E for 83 Mell Road, Spearwood has been fully implemented, and the purpose of this basic Scheme Amendment is to transfer the 'Mixed Business' zone (inclusive of a 'Restricted Use') shown on the Structure Plan into TPS3, and to delete DA31.

This will ensure when the Structure Plan expires on 19 October 2025 the City maintains appropriate mechanisms to guide and control future land use (including the same range of permissible land uses and development standards as currently apply) consistent with current landowner and community expectations.

This process is referred to as the rationalisation of a structure plan, and it is noted the alternative of extending the Structure Plan cannot occur in this case because it was not endorsed by the WAPC at the time of Council endorsement (2014).

The draft Scheme Amendment report is included at Attachment 2.

Proposed Restricted Uses

To give effect to the excluded land uses shown on the existing Structure Plan map, it is proposed all approvable land uses within the 'Mixed Business' zone be inserted into 'Table 7 – Restricted Uses' of TPS3 as set out in the recommendation.

'Restricted Uses' function to restrict the range of permissible land uses to only those listed in Table 7 with respect to that land, and all uses that would otherwise be permissible in the zone are not permitted.

This will ensure the range of permissible land uses is appropriate to the area as envisaged by the DSP and Structure Plan.

No special conditions are proposed, beyond the permissibility for each land use being in accordance with Table 1 of TPS3 for the 'Mixed Business' zone. This will ensure there is no tangible change to the planning framework for the subject site.

Development Area 31

As there remain portions of DA31 yet to be structure planned, or that involve structure plans in various stages of implementation, complete deletion of DA31 is not proposed at this time, rather just a reduction to exclude the subject land.

DA31 will remain over the remaining portions of the Mixed Business precinct identified on the DSP between Mell and Rockingham Roads, with no changes proposed to the special provisions for DA31 (within 'Table 9 – Development Areas' of TPS3).

Type of Amendment

This amendment is considered a 'basic' amendment under the provisions of the Regulations on the basis it is an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan for the same land and/or zoning/reserving land consistent with its established use and existing tenure.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

- Thriving local commercial centres, local businesses and tourism industry.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.

Budget/Financial Implications

Not Applicable – the Scheme Amendment documentation has been prepared, and the proposal will be progressed by the administration under its existing budget allocation.

Legal Implications

- Planning and Development Act 2005
- Planning and Development (Local Planning Schemes) Regulations 2015

Community Consultation

Part 5 (Division 1, Regulation 34) of the *Planning and Development (Local Planning Schemes) Regulations 2015* identifies three scheme amendment types: basic, standard, and complex.

The changes proposed by Scheme Amendment No.185 meet the definition of a 'basic' scheme amendment. Such proposals do not typically require public advertising.

Advertising will only occur if the WAPC disagrees with the City's determination of the 'type' of Scheme Amendment (i.e. that it should be processed as a 'standard' or 'complex' scheme amendment, pursuant to r.59 of the Regulations), or the Minister for Planning subsequently directs the City to do so (on the basis the Amendment is considered significant, pursuant to r.61 of the Regulations).

Amendments to the Regulations that took effect on 1 March 2024 clarified as there is no need for basic scheme amendments to be advertised, there is no need to seek the Minister's Approval to do so pursuant to s.83A of the Planning and Development Act 2005.

Risk Management Implications

The officer recommendation considers the relevant planning matters associated with the proposal. It is considered the officer recommendation is appropriate.

If the Scheme Amendment does not proceed (or is ultimately refused by the Minister for Planning):

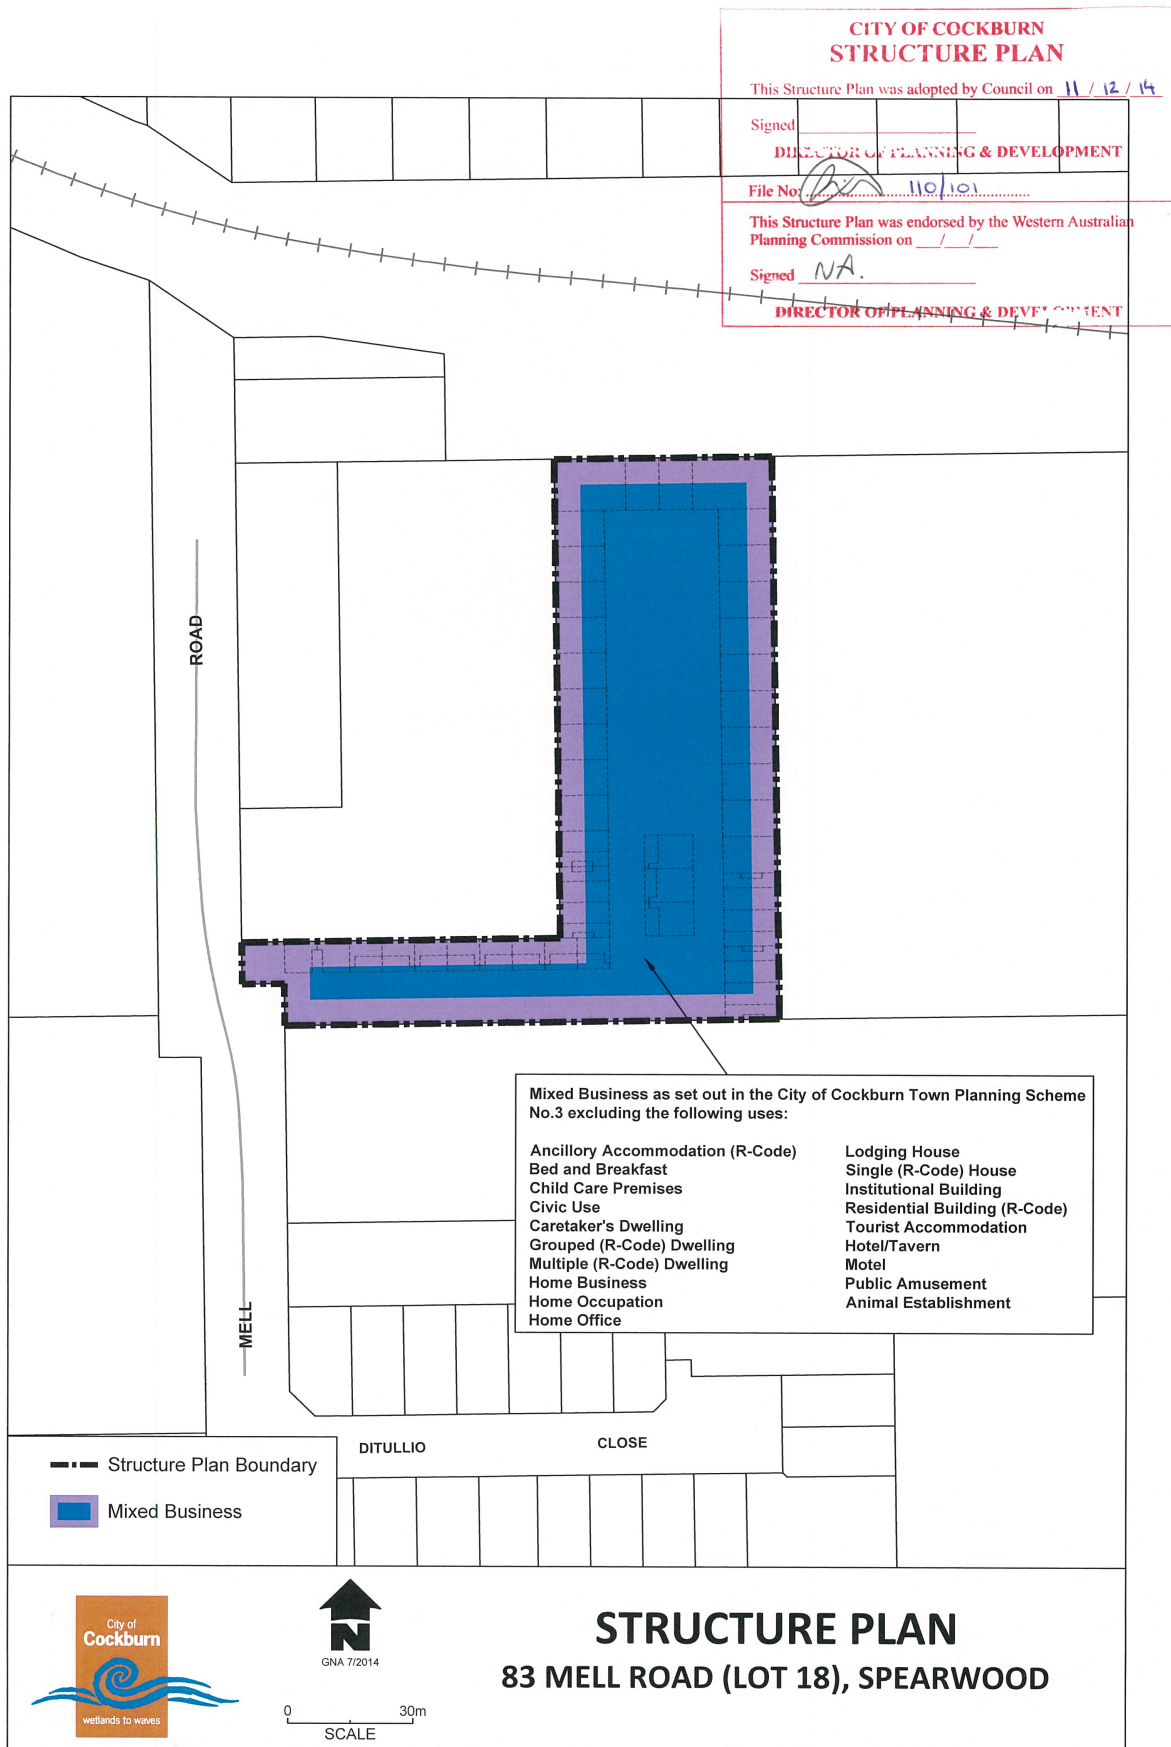

- an opportunity will be missed to simplify the planning framework and remove additional layers of planning (structure plans) that have served their purpose; and
- the City will need to consider alternatives to ensure an appropriate local planning framework is in place to guide future land use for the subject site ahead of the structure plan expiring on 19 October 2025.

Town Planning Scheme No.3
Amendment No.185
(Basic)

*Rationalisation of Structure Plan – 83 Mell Road, Spearwood
(within Development Area 31)*

APRIL 2024

Planning and Development Act 2005
RESOLUTION TO AMEND A TOWN PLANNING SCHEME

City of Cockburn
Town Planning Scheme No.3
Amendment No.185

RESOLVED that the Council, in pursuance of Section 75 of the *Planning and Development Act 2005*, amend the City of Cockburn Town Planning Scheme No. 3 by:

1. Rezoning 83 Mell Road, Spearwood from 'Development' to 'Mixed Business' with a 'Restricted Use' (No.17).
2. Amending Table 7 – Restricted Uses to add 'Restricted Use No. 17 (RU17)', as follows:

No.	Description of land	Restricted Use	Conditions
17	83 Mell Road, Spearwood	<ul style="list-style-type: none"> • Educational Establishment • Place of Worship • Bank • Garden Centre • Market • Nursery • Office • Showroom • Amusement Parlour • Betting Agency • Club Premises • Fast Food Outlet • Reception Centre • Recreation - Private • Restaurant • Consulting Rooms • Health Studio • Medical Centre • Hospital • Lunch Bar • Commercial Vehicle Parking • Motor Vehicle, Boat or Caravan Sales • Motor Vehicle Hire Premises • Motor Vehicle Wash • Service Station • Hardware Store • Veterinary Centre • Vehicle – Disused 	Land use permissibility as per Table 1 for the 'Mixed Business' zone

		<ul style="list-style-type: none"> • Industry – Cottage • Industry – Light • Industry - Service • Storage Yard • Warehouse • Motor Vehicle Repair • Farm Supply Centre 	
--	--	---	--

3. Reducing the extent of the 'Development Area 31' (DA31) Special Control Area boundary to exclude 83 Mell Road, Spearwood.

The Amendment is 'basic' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* for the following reason:

- *It is an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan for the same land.*

Pursuant to Regulation 35A of the *Planning and Development (Local Planning Schemes) Regulations 2015*, the amendment to the above Local Planning Scheme affects the following structure plan(s):

Structure Plan #	Address	Endorsement Date	WAPC Reference
31E	Lot 18 (No.83) Mell Road, Spearwood	Council Endorsement (only) – 11/12/2014	N/A

Upon the amendment taking effect the approved structure plan is to be revoked.

Dated this day of 20.....

CHIEF EXECUTIVE OFFICER

AMENDMENT REPORT

1.0 INTRODUCTION

Local Structure Plan No.31E has been fully implemented (refer **Appendix A**).

The purpose of this basic scheme amendment is to transfer the 'Mixed Business' zone (inclusive of its 'Restricted Use') for 83 Mell Road, Spearwood into Town Planning Scheme No.3 (TPS3), to ensure the City maintains appropriate development control once the structure plan expires on 19 October 2025.

This process is referred to as the rationalisation of a structure plan.

2.0 BACKGROUND

The subject site (shown in **Figure 1**), measures 8,475m² in area, and has long been developed with 43 built strata units serviced by a central access and parking area.

Figure 1 – Subject site - 83 Mell Road, Spearwood

Consistent with adjoining land (between Mell and Rockingham Roads), the site was zoned 'Light Industry' under District Planning Scheme No.2, and then transferred to the 'Light and Service Industry' under TPS3 when it was gazetted in 2002.

In November 2010, Scheme Amendment No.70 (which primarily focused on the former Watsonia Factory site and surrounding odour buffer area), rezoned the land to 'Development' and included it within the 'Development Area' No.31 (DA31) special control area.

In 2011 the Packham North District Structure Plan (DSP) was then adopted by Council to guide the broad land use framework, including the major road network, neighbourhood structure, commercial, and significant public open space areas. It also sought to coordinate Local Structure Plans (LSP's).

The Packham DSP shows the subject land (and adjacent lots previously zoned 'light industry') as 'Mixed Business', as it contained existing light industrial land uses and is constrained by the freight railway line (see **Figure 2**).

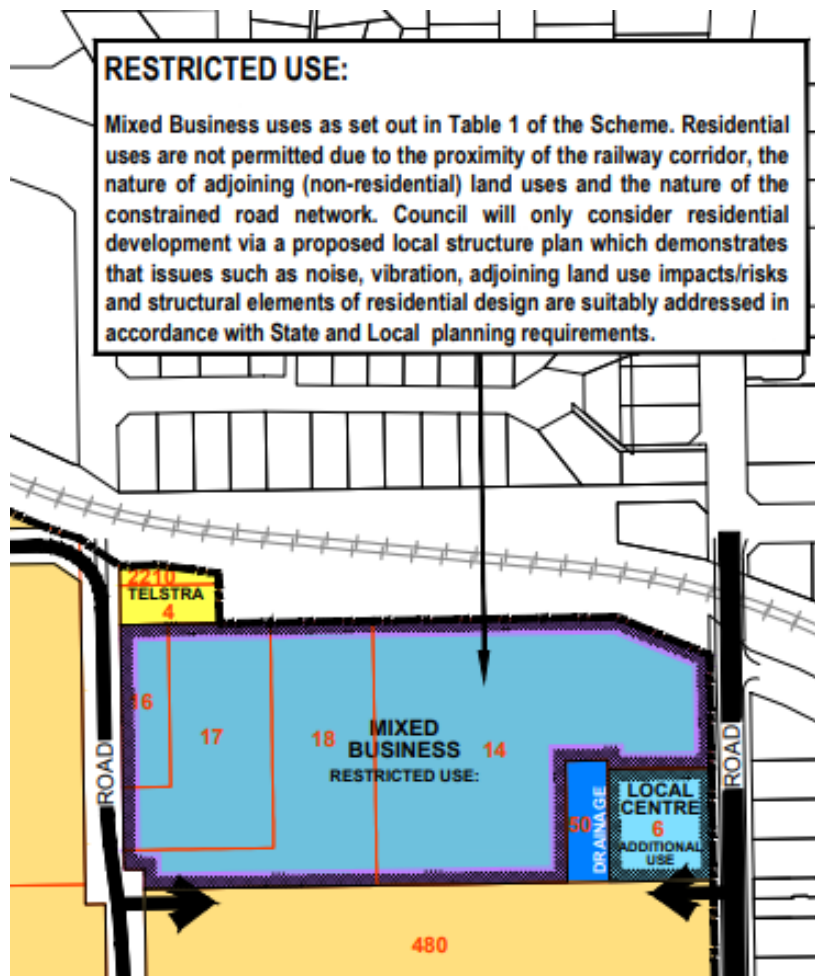

Figure 2 – Extract from Packham District Structure Plan map

Development Approval

Development Approval was granted for the subject site in 2007 (amended 2009) for a new Office/warehouse/showroom development (with car parking), to replace an existing warehouse. Construction occurred in 2009, and a built strata was subsequently approved, creating 43 strata units. This development covers the entirety of the subject site, as shown in **Figures 3 and 4**.

Figures 3 & 4 – Existing development at 83 Mell Road

There was no adopted local structure plan for the subject land at that time.

In response to subsequent issues that arose, in November 2014 the City adopted Structure Plan 31E to guide land uses permissibility for the existing strata units, however it was not endorsed by the Western Australian Planning Commission (WAPC) because it pre-dated the *Planning and Development (Local Planning Schemes) Regulations 2015*.

At that time, Structure Plans had the ‘force and effect’ of the scheme, the process for adopting Structure Plans being set out in TPS3, WAPC endorsement was only required where they ‘facilitated subdivision’, and they did not expire. Given the subject land was already developed and subdivided, WAPC endorsement was not required. For the same reason, the structure plan cannot be extended by the WAPC, and will expire on 19 October 2025.

Structure Plan 31E reflects the DSP and shows the subject land as ‘Mixed Business’, excluding the following land uses:

- Ancillary Accommodation
- Bed and Breakfast
- Child care premises
- Dwelling – Aged or Dependent Persons (R Code)
- Caretakers
- Grouped
- Multiple
- Home Business
- Home Occupation
- Lodging House
- Single House
- Institutional building
- Residential building
- Tourist Accommodation
- Hotel/Tavern
- Motel
- Public amusement
- Animal Establishment

These land uses were seen as unsuitable because they are either sensitive land uses; land uses unsuitable because of the nature of the existing built form and strata arrangements; or land uses with the potential to have a negative impact on residential development within proximity to the site.

3.0 AMENDMENT TYPE

Part 5, Division 1, Regulation 34 of the *Planning and Development (Local Planning Schemes) Regulations 2015*, identifies different amendment types: basic, standard and complex.

Regulation 35(2) requires the local government to specify in their resolutions to prepare or adopt an amendment what type of amendment it is, as well as the explanation for forming that opinion.

This amendment is considered to be a 'basic' amendment, which Regulation 34 describes as:

- (a) (i) *an amendment to correct an administrative error;*
- (ii) *an amendment to the scheme so that it is consistent with the model provisions in Schedule 1 or with another provision of the local planning scheme;*
- (iii) *an amendment to the scheme text to delete provisions that have been superseded by the deemed provisions in Schedule 2;*
- (iv) *an amendment to the scheme so that it is consistent with any other Act that applies to the scheme or the scheme area;*
- (v) *an amendment to the scheme so that it is consistent with a State planning policy;*
- (vi) *an amendment to the scheme map to include a boundary to show the land covered by an improvement scheme or a planning control area;*
- (vii) *an amendment to the scheme map that is consistent with a structure plan, activity centre plan or local development plan that has been approved under the scheme for the land to which the amendment relates if the scheme currently includes zones of all the types that are outlined in the plan;*
- (viii) *an amendment that results from a consolidation of the scheme in accordance with section 92(1) of the Act;*
- (ix) *an amendment to the scheme so that it is consistent with a region planning scheme that applies to the scheme area if the amendment will have minimal effect on the scheme or landowners in the scheme area.*

and, either:

- (b) (i) *the amendment is not referred to the EPA under section 81 of the Act because of section 81(2) of the act; or*
- (ii) *the EPA has informed the local government under section 48A(1)(a) of the EP Act that the proposed amendment should not be assessed by the EPA.*

This proposed amendment satisfies parts (a)(vii) and (b)(i) of the above criteria.

Specifically it is an amendment to the scheme that involves zoning land consistent with an approved structure plan for the same land (discussed in further detail below).

4.0 TOWN PLANNING CONTEXT

4.1 State Planning Framework

The subject land is identified in the *South Metropolitan Peel Sub-Regional Planning Framework* and zoned 'Urban' under the Metropolitan Region Scheme (MRS). A 'Mixed Business' zoning is consistent with this, given the land is constrained for sensitive land uses.

4.2 City of Cockburn Town Planning Scheme No. 3

Under TPS3, the subject land is zoned 'Development' and identified on the Scheme Map and in Table 9 of the Scheme Text as part of 'Development Area 31'.

The purpose of the 'Development' zone and/or 'Development Area' special control area designations, is to trigger the requirement for a structure plan to guide further subdivision and/or development.

5.0 PROPOSAL

Given structure plans have been demoted to time-limited instruments of 'due regard', and subdivision and development of the site has long been complete, Structure Plan 31E has served its purpose and is no longer required.

Rationalisation of most of the other endorsed Structure Plans within DA31 occurred through Scheme Amendment No.175, gazetted on 3 December 2024.

Consistent with that outcome, this amendment seeks to remove the site from DA31 and transfer the approved structure plan 'Mixed Business' zone (and land use restrictions) into TPS3, ahead of the structure plan expiring upon the 10-year anniversary of the LPS Regulations first coming into force, on 19 October 2025.

Development Area 31:

As there remain portions of DA31 yet to be structure planned, or that involve structure plans in various stages of implementation, complete deletion of DA31 and its special provisions is not proposed at this time, rather just a reduction to the extent of the special control area boundary to reflect the outcome of this proposal.

In particular DA31 will remain over the remaining portions of the DSP identified Mixed Business precinct between Mell and Rockingham Roads, with no changes proposed to the special provisions for DA31 (within 'Table 9 – Development Areas' of TPS3).

Restricted Uses:

To give effect to the excluded land uses shown on the face of the existing Structure Plan, it is proposed that all other approveable land uses within the Mixed Business zone be inserted into 'Table 7 – Restricted Uses' of TPS3, as listed below:

- | | |
|-----------------------------|--|
| • Educational Establishment | • Hospital |
| • Place of Worship | • Lunch Bar |
| • Bank | • Commercial Vehicle Parking |
| • Garden Centre | • Motor Vehicle, Boat or Caravan Sales |
| • Market | • Motor Vehicle Hire Premises |
| • Nursery | • Motor Vehicle Wash |
| • Office | • Service Station |
| • Showroom | • Hardware Store |
| • Amusement Parlour | • Veterinary Centre |
| • Betting Agency | • Vehicle – Disused |
| • Club Premises | • Industry – Cottage |
| • Fast Food Outlet | • Industry – Light |
| • Reception Centre | • Industry - Service |
| • Recreation - Private | • Storage Yard |
| • Restaurant | • Warehouse |
| • Consulting Rooms | • Motor Vehicle Repair |
| • Health Studio | • Farm Supply Centre |
| • Medical Centre | |

No special conditions are proposed, beyond the permissibility for each land use, being in accordance with Table 1 of TPS3 for the 'Mixed Business' zone.

6.0 CONCLUSION

Structure Plan 31E will expire on 19 October 2025, and cannot be extended by the WAPC because they did not endorse the Structure Plan at the time it was approved by Council (2014).

The subject land has been developed with an integrated 'Mixed Business' development, including offices, warehouses and consulting rooms, that has been strata subdivided.

Now is an appropriate time for the structure plan to be revoked, and the 'Mixed Business' zone (with a 'Restricted Use') to be rationalised into the Scheme.

This will remove a redundant layer of planning control; whilst still ensuring the City maintains appropriate mechanisms to guide and control future land use (including the same range of permissible land uses and development standards as currently apply) consistent with current landowner and community expectations.

Planning and Development Act 2005

***City of Cockburn
Town Planning Scheme No.3
Amendment No. 185***

RESOLVED that the Council, in pursuance of Section 75 of the *Planning and Development Act 2005*, amend the City of Cockburn Town Planning Scheme No. 3 by:

1. Rezoning 83 Mell Road, Spearwood from 'Development' to 'Mixed Business' with a 'Restricted Use' (No. 17).
2. Amending Table 7 – Restricted Uses to add 'Restricted Use No. 17 (RU 17)', as follows:

No.	Description of land	Restricted Use	Conditions
17	83 Mell Road, Spearwood	<ul style="list-style-type: none"> • Educational Establishment • Place of Worship • Bank • Garden Centre • Market • Nursery • Office • Showroom • Amusement Parlour • Betting Agency • Club Premises • Fast Food Outlet • Reception Centre • Recreation - Private • Restaurant • Consulting Rooms • Health Studio • Medical Centre • Hospital • Lunch Bar • Commercial Vehicle Parking • Motor Vehicle, Boat or Caravan Sales • Motor Vehicle Hire Premises • Motor Vehicle Wash • Service Station • Hardware Store • Veterinary Centre • Vehicle – Disused • Industry – Cottage 	Land use permissibility as per Table 1 for the 'Mixed Business' zone

		<ul style="list-style-type: none"> • Industry – Light • Industry - Service • Storage Yard • Warehouse • Motor Vehicle Repair • Farm Supply Centre 	
--	--	---	--

3. Reducing the extent of the 'Development Area 31' (DA31) Special Control Area boundary to exclude 83 Mell Road, Spearwood.

The Amendment is 'basic' under the provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015* for the following reason:

- *It is an amendment to the local planning scheme that involves zoning land consistent with an approved structure plan for the same land.*

Pursuant to Regulation 35A of the *Planning and Development (Local Planning Schemes) Regulations 2015*, the amendment to the above Local Planning Scheme affects the following structure plan:

Structure Plan #	Address	Endorsement Date	WAPC Reference
31E	Lot 18 (No.83) Mell Road, Spearwood	Council Endorsement (only) – 11/12/2014	N/A

Upon the amendment taking effect the approved structure plan is to be revoked.

14.2.1 (2025/MINUTE NO 0073) Monthly Financial Report - March 2025

Responsible Executive	Director Corporate and System Services
Author(s)	Chief Financial Officer
Attachments	1. Monthly Financial Report - March 2025 ↓

Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes

That Council ADOPTS the Monthly Financial Report including the Statement of Financial Activity and other financial information for the month ending March 2025, as attached to the Agenda.

CARRIED 9/0

Background

The Local Government (Financial Management) Regulations 1996 prescribe that a Local Government must prepare a Statement of Financial Activity each month. Regulation 34(2) requires this statement to be accompanied by documents including:

1. Details of the composition of the closing net current assets (less restricted and committed assets).
2. Explanation for each material variance identified between year-to-date (YTD) budgets and actuals.
3. Any other supporting information considered relevant by the Local Government.

Regulation 34(4)(a) mandates that the Statement of Financial Activity and accompanying documents be presented to Council within two months after the end of the month to which the statement relates. The regulations require the information reported in the statement to be shown either by nature or type, statutory program, or business unit. The City reports the information according to nature or type and organisational business structure.

Regulation 34 (5) states, "Each financial year, a Local Government is to adopt a percentage or value, calculated in accordance with the Australian Accounting Standards, to be used in statements of financial activity for reporting material variances." This regulation requires Council to annually set a materiality threshold for disclosing budget variances within monthly financial reporting. The materiality threshold has been set by Council at \$300,000 for 2024-25 (FY25).

Detailed analysis of budget variances is an ongoing exercise. Necessary budget amendments are either submitted for Council approval through the Expenditure Review Committee or included in the City's mid-year budget review.

Submission

N/A

Report

The attached Financial Report for March 2025 has been prepared in accordance with the Local Government Act 1995 and the associated Financial Management Regulations.

This has been reviewed by management and the following commentary addresses the key financial results and budgetary performance to the end of March.

Statement of Comprehensive Income

A Statement of Comprehensive Income is included in the monthly report, replicating the statutory annual budget. This statement shows the net operating result for the City, which is a key indicator of financial sustainability.

The adopted budget initially forecasted an annual operating deficit of \$4.2 million. However, after in-year budget adjustments, this has improved to a budget deficit of \$3.6 million. The City's budget repair strategy aims to return this result to a surplus over the next several years.

Statement of Financial Position

This statement of financial position shows the City's financial status at the end of the month, compared to the end of the previous financial year. Net assets have increased year on year by \$43.19 million to \$1.869 billion, representing total comprehensive income during this period.

Statement of Financial Activity*Opening Surplus*

The City has an audited opening surplus of \$19.69 million, which is \$12.78 million higher than the annual budget allowance (inclusive of carry-forward funding). In accordance with Council policy, the additional funds have been transferred into the City's financial reserves.

Closing Surplus

The City's YTD closing surplus for the month ending March 2025 was \$84.33 million, compared to a YTD budget of \$71.90 million.

This represents a favourable budget variance of \$12.43 million, comprising the variances across the FY25 operating and capital budgets further detailed in this report.

The full year closing surplus is currently budgeted at \$0.15 million, slightly lower than the adopted budget surplus of \$0.3 million. This figure fluctuates throughout the year due to budget amendments adopted by Council.

Operating Revenue

Operating revenue of \$186.23 million was \$1.38 million behind the YTD budget for March.

The following table summarises the operating revenue budget performance by nature:

Revenue from operating activities	Amended		YTD Actual \$	YTD Variance \$
	Full Year Budget \$	YTD Budget \$		
Rates	133,975,858	133,930,060	134,202,901	272,841
Specified Area Rates	657,000	657,000	653,696	(3,304)
Operating Grants, Subsidies, Contributions	16,609,254	8,254,064	7,624,034	(630,030)
Fees & Charges	43,159,446	33,915,169	33,725,423	(189,746)
Service Charges	250,000	195,000	247,110	52,110
Interest Earnings	13,635,100	10,426,325	9,453,941	(972,384)
Profit/Loss on Sale of Assets	499,619	237,354	328,595	91,241
Total	208,786,277	187,614,972	186,235,700	(1,379,272)

Material variances in the City's operating revenue include the following budget items:

- Interest earnings were \$0.97 million behind YTD budget due to a review of accrued interest recognised on multi-year term deposits (resulting in reduced accrual).
- Rates income is \$0.27 million ahead of YTD budget and will outperform the full year budget.
- Fees and Charges while down a net \$0.19 million YTD, included the following variances:
 - Cockburn ARC revenue continues to perform strongly, at \$0.29 million ahead of the YTD budget.
 - Development & Compliance revenue was \$0.35 million ahead of the YTD budget.
 - Landfill fees were \$1.05 million below the YTD budget, impacted by a temporary loss of commercial customers during the relocation of the transfer station.
- Operating grants & subsidies were \$1.27 million under the YTD budget within Community Development. This includes a \$0.79 timing variance for Cockburn Care and a \$0.44 million shortfall in parent subsidies for family day care.

Operating Expenditure

Operating expenditure of \$144.79 million to the end of March was under the YTD budget by \$9.32 million.

The following table summarises the operating expenditure budget variance performance by nature:

Expenditure from Operating Activities	Amended		YTD Actual \$	YTD Variance \$
	Full Year Budget \$	YTD Budget \$		
Employee costs	(82,663,620)	(60,412,755)	(59,053,675)	1,359,080
Materials & Contracts	(58,151,748)	(40,696,091)	(33,532,190)	7,163,901
Utility charges	(6,550,521)	(4,877,841)	(4,695,898)	181,943
Depreciation/Amortisation	(46,190,627)	(33,433,477)	(33,980,975)	(547,498)
Interest expenses	(260,312)	(120,226)	(138,785)	(18,559)
Insurance expenses	(2,838,923)	(2,613,984)	(2,736,338)	(122,354)
Other expenditure	(15,244,525)	(11,953,793)	(10,651,344)	1,302,449
Total	(211,900,276)	(154,108,167)	(144,789,205)	9,318,962

Material variances in the City's operating expenditure included the following budget items:

- Employee costs were \$1.36 million under the YTD budget, primarily due to savings of \$1.15 million across all service areas from vacant positions and structure review changes.
- Materials and contracts (\$7.16 million under YTD budget):
 - Cockburn ARC operating contract costs were \$0.69 million under YTD budget
 - Recreation Services project planning costs were under YTD budget by \$0.39 million.
 - Streets maintenance costs (streetscapes, verges) were \$0.84 million under YTD budget, with parks and playgrounds also under by \$0.46 million.
 - Sustainability & Environment business unit costs were \$0.64 million under the YTD budget.
 - Organisation Review associated costs are under YTD budget by \$0.48 million.
 - Community Development service costs collectively under YTD budget by \$0.72 million, with childcare educator payments contributing \$0.29 million to this variance.
 - Facilities maintenance is showing an unfavourable variance of \$0.38 million over YTD budget (reduced from \$0.54 million over last month).
- Other expenditure (\$1.30 million under the YTD budget)
 - Community grants program was tracking \$0.46 million under the YTD budget.
 - Landfill levy is \$0.65 million under YTD budget (reflective of lower landfill commercial tonnages and revenue).

Capital Expenditure

Council adopted a capital works program of \$53.73 million in the FY25 annual budget, that is now \$70.99 million following recognition of carry forwards and other adjustments adopted by Council (including the mid-year review).

The City has spent \$39.99 million on its capital program to the end of March, representing an underspend of \$3.51 million against YTD budget.

While the capital budget is showing a YTD cash underspend, the City has committed procurement contract expenditure of \$15.94 million. This represents a total spend/commitment of \$55.93 million (79%) against the full year budget. This performance is indicating a much-reduced carry forwards program at year end.

The following table shows the budget performance by asset class:

Capital Acquisitions	Amended		YTD Actual \$	YTD Variance \$
	Budget \$	YTD Budget \$		
Buildings	23,803,107	15,776,778	13,666,769	(2,110,009)
Furniture & Equipment	994,100	769,100	452,692	(316,408)
Plant and Equipment	8,901,742	3,248,298	4,700,656	1,452,358
Information Technology	795,701	650,900	380,966	(269,934)
Infrastructure - Roads	7,838,700	4,406,425	3,934,003	(472,422)
Infrastructure - Drainage	7,694,366	4,621,240	4,437,852	(183,389)
Infrastructure - Footpath	2,322,210	1,509,053	637,213	(871,840)
Infrastructure - Parks hard	8,288,482	5,674,011	4,284,675	(1,389,336)
Infrastructure - Landscaping	90,686	90,686	60,126	(30,560)
Infrastructure - Landfill site	8,383,200	5,773,391	6,471,159	697,767
Infrastructure - Marina	310,030	25,385	47,585	22,200
Infrastructure - Coastal	1,567,592	957,181	916,564	(40,617)
Total	70,989,916	43,502,448	39,990,258	(3,512,190)

Major project variances identified in the City's capital program budget were identified as follows:

- Buildings (\$2.11 million under YTD budget):
 - ARC expansion and major asset renewal projects are collectively \$1.05 million under YTD budget.
- Footpath Infrastructure (\$0.87 million under YTD budget):
 - Footpaths rehabilitation program is \$0.56 million under YTD budget.
- Parks infrastructure (\$1.39 million under YTD budget):
 - Rose Shanks Vehicle Access Tracks - \$0.20 million under YTD budget
 - Balboa tile repairs - \$0.19 million under YTD budget.
 - Waterbuttons Park New Playground - \$0.23 million under YTD budget

- Tempest Park floodlighting - \$0.15 million under YTD budget
- Irrigation pump renewals - \$0.12 million under YTD budget
- Plant & Machinery (\$1.45 million over YTD budget):
 - Light fleet replacement program - \$0.67 million under YTD budget.
 - Budget cashflow phasing for major plant is misaligned, causing adverse budget variance (will be corrected administratively next month).

Non-Operating Grants, Subsidies and Contributions

The City's budget for capital grants and contributions is a net \$13.88 million. This includes \$10.24 million in grant funding, mostly for roads, and another \$3.57 million of developer contributions towards applicable projects.

There was \$1.75 million in non-operating grants or contributions recognised to the end of March, tracking under the YTD budget by \$2.65 million. Recognition of this capital revenue is tied to project completion (as per the Australian Accounting Standards).

Financial Reserves

A detailed schedule of the City's financial reserves is included in the financial report, showing a balance of \$191.55 million held at the end of March.

General revenue reserves were \$156.64 million, with the balance of \$34.91 million held for restricted purposes (including \$16.37 million for Developer Contribution Plans and \$5.82 million for POS cash in lieu purposes).

Transfers in and out of financial reserves are made in accordance with budgetary and statutory requirements. The budget is forecasting an end-of-year balance of \$219.47 million.

Cash and Financial Assets

At the end of March, the City's closing cash and financial assets totalled \$277.88 million, slightly up from \$277.29 million last month.

This balance included financial assets (term deposits and investments) of \$262.24 million, and cash and cash equivalent holdings (cash at bank and at call deposits) of \$15.64 million. Of these funds, \$192.29 million are internally and externally restricted.

The remaining \$85.59 million represent unrestricted municipal funds for the City's operating activities and liabilities.

Investment Performance, Ratings and Maturity

The City's term deposit portfolio running yield has remained stable at 4.94 percent as of 31 March. As there has been no change to the Australian cash rate since February, the City's portfolio performance remains comfortably above the City's KPI target rate of 4.60 percent (cash rate of 4.10% plus 0.50% performance margin).

New investments placed during the month were at rates between 4.60% and 4.70%.

Current term deposit investments are fully compliant with Council's Investment Policy requirements, as indicated below:

Investment Policy Compliance		
Legislative Requirements	✓	Fully compliant
Portfolio Credit Rating Limit	✓	Fully compliant
Institutional Exposure Limits	✓	Fully compliant
Term to Maturity Limits	✓	Fully compliant

The portfolio also includes several reverse mortgage securities purchased under previous policy and statutory provisions. These have a face value of \$2.314 million and market value of \$1.49 million, although the City currently carries them at a book value of \$0.739 million (net of a \$1.575 million impairment provision made several years ago).

The City continues receiving interest and capital payments, with \$0.7 million returned to date of the original \$3.0 million invested.

The City's investments were held with the following financial institutions as of 31 March (inclusive of accrued interest):

Issuer	Market Value	% Total Value
AMP Bank Ltd	6,757,498.07	2.49%
Australian Military Bank Limited	3,106,198.35	1.15%
Auswide Bank Limited	3,030,920.55	1.12%
Bank of Queensland Ltd	16,621,456.11	6.13%
Credit Union Australia Ltd t/as Great Southern Bank	6,283,602.72	2.32%
Defence Bank Ltd	10,945,246.60	4.04%
Emerald Reverse Mortgage Trust	1,502,361.73	0.55%
ING Bank Australia Limited	83,311,882.56	30.74%
Judo Bank	19,771,005.47	7.29%
National Australia Bank Ltd	29,580,626.03	10.91%
Rabobank Australia Ltd	82,492,315.87	30.43%
Suncorp Bank (Norfin Ltd) - Subsidiary of ANZ	5,134,686.86	1.89%
Westpac Banking Corporation Ltd	2,524,278.08	0.93%
Portfolio Total	271,062,078.98	100.00%

The City's short-term deposits (less than 12 months) made up 54.85 percent (\$148.7 million) of the City's portfolio, compared to 56.33 percent (\$154.0 million) last month.

These were classified under following credit ratings:

Market Value by Security Rating Group (Short Term)

Deposits invested between 1 and 3 years made up 45.15 percent (\$122.4 million) of the City's portfolio, compared to 43.67 percent (\$119.4 million) last month.

These were classified under following credit ratings:

Market Value by Security Rating Group (Long Term)

Investment in Fossil Fuel Free Banks

At month end, the City held \$70.81 million (26.8 percent) of its investment portfolio with banks considered non-funders of fossil fuel related industries (\$76.84 million 28.9 percent last month).

The City's investment in fossil fuel-free banks is subject to changes influenced by the competitiveness of deposit rates and the capacity of these banks to accommodate funds. The City remains committed to prioritising fossil fuel-free investments, provided the deposit rates offered are comparable to alternative options.

Rates Debt Recovery

The collectible rates and charges currently raised for 2024-25 (comprising net arrears, annual levies, and part year rating) totals \$160.34 million.

To the end of March, the City had collected \$145.52 million (90.7%), leaving a balance outstanding of \$14.82 million (9.3%).

The City also held prepayments for the following year's rates totalling \$1.60 million.

The City has levied and received \$0.25 million for underground power charges this year, being year two of a ten-year repayment plan.

In terms of overdue rates accounts under formal or legal debt recovery processes, the City had 204 properties owing a total of \$0.88 million in combined rates and legal fees (versus 282 properties and \$1.16 million last month). This month-on-month decrease reflects successful debt recovery efforts by the rates team.

Formal debt recovery activities are initiated when ratepayers have overdue rates and have not committed to instalment or other payment arrangements, nor sought relief under the City's Financial Hardship Policy.

Trade and Sundry Debtors

The City had \$1.57 million in outstanding trade and sundry debtors to the end of March (reduced from \$1.58 million last month).

Those debts overdue by more than 90 days reduced to \$0.17 million (10.6% of total debt outstanding) from \$0.31 million (19.6%) last month.

The 90-day debtors included \$116k from Naval Base shacks and \$35k from landfill customers. These debts are actively managed.

Strategic Plans/Policy ImplicationsListening & Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.

Budget/Financial Implications

Budget amendments are largely referred to Council's Expenditure Review Committee for recommendation to Council.

Council's adopted budget surplus for FY25 of \$300,000 has decreased to \$154,117 due to Council decisions made throughout the financial year. Budget surplus changes are listed at Note 8 in the financial report.

KEY INFORMATION

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

KEY TERMS AND DESCRIPTIONS FOR THE PERIOD ENDED 31 MARCH 2025

REVENUE

RATES

All rates levied under the *Local Government Act 1995*. Includes general, differential, specified area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts and concessions offered. Exclude administration fees, interest on instalments, interest on arrears, service charges and sewerage rates.

OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Refers to all amounts received as grants, subsidies and contributions that are not non-operating grants.

NON-OPERATING GRANTS, SUBSIDIES AND CONTRIBUTIONS

Amounts received specifically for the acquisition, construction of new or the upgrading of identifiable non financial assets paid to a local government, irrespective of whether these amounts are received as capital grants, subsidies, contributions or donations.

REVENUE FROM CONTRACTS WITH CUSTOMERS

Revenue from contracts with customers is recognised when the local government satisfies its performance obligations under the contract.

FEES AND CHARGES

Revenues (other than service charges) from the use of facilities and charges made for local government services, sewerage rates, rentals, hire charges, fee for service, photocopying charges, licences, sale of goods or information, fines, penalties and administration fees. Local governments may wish to disclose more detail such as rubbish collection fees, rental of property, fines and penalties, other fees and charges.

SERVICE CHARGES

Service charges imposed under *Division 6 of Part 6 of the Local Government Act 1995. Regulation 54 of the Local Government (Financial Management) Regulations 1996* identifies these as television and radio broadcasting, underground electricity and neighbourhood surveillance services. Exclude rubbish removal charges. Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

INTEREST EARNINGS

Interest and other items of a similar nature received from bank and investment accounts, interest on rate instalments, interest on rate arrears and interest on debtors.

OTHER REVENUE / INCOME

Other revenue, which can not be classified under the above headings, includes dividends, discounts, rebates etc.

PROFIT ON ASSET DISPOSAL

Excess of assets received over the net book value for assets on their disposal.

NATURE OR TYPE DESCRIPTIONS

EXPENSES

EMPLOYEE COSTS

All costs associate with the employment of person such as salaries, wages, allowances, benefits such as vehicle and housing, superannuation, employment expenses, removal expenses, relocation expenses, worker's compensation insurance, training costs, conferences, safety expenses, medical examinations, fringe benefit tax, etc.

MATERIALS AND CONTRACTS

All expenditures on materials, supplies and contracts not classified under other headings. These include supply of goods and materials, legal expenses, consultancy, maintenance agreements, communication expenses, advertising expenses, membership, periodicals, publications, hire expenses, rental, leases, postage and freight etc. Local governments may wish to disclose more detail such as contract services, consultancy, information technology, rental or lease expenditures.

UTILITIES (GAS, ELECTRICITY, WATER, ETC.)

Expenditures made to the respective agencies for the provision of power, gas or water. Exclude expenditures incurred for the reinstatement of roadwork on behalf of these agencies.

INSURANCE

All insurance other than worker's compensation and health benefit insurance included as a cost of employment.

LOSS ON ASSET DISPOSAL

Shortfall between the value of assets received over the net book value for assets on their disposal.

DEPRECIATION ON NON-CURRENT ASSETS

Depreciation expense raised on all classes of assets.

INTEREST EXPENSES

Interest and other costs of finance paid, including costs of finance for loan debentures, overdraft accommodation and refinancing expenses.

OTHER EXPENDITURE

Statutory fees, taxes, allowance for impairment of assets, member's fees or State taxes. Donations and subsidies made to community groups.

**MONTHLY FINANCIAL REPORT
FOR THE PERIOD ENDED 31 MARCH 2025**

BASIS OF PREPARATION

BASIS OF PREPARATION

REPORT PURPOSE

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996, Regulation 34*. Note: The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government (Financial Management) Regulations 1996* take precedence over Australian Accounting Standards. Regulation 16 prohibits a local government from recognising as assets Crown land that is a public thoroughfare, such as land under roads, and land not owned by but under the control or management of the local government, unless it is a golf course, showground, racecourse or recreational facility of State or regional significance. Consequently, some assets, including land under roads acquired on or after 1 July 2008, have not been recognised in this financial report. This is not in accordance with the requirements of *AASB 1051 Land Under Roads paragraph 15* and *AASB 116 Property, Plant and Equipment paragraph 7*.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 31 March 2025

SIGNIFICANT ACCOUNTING POLICIES

CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies

GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 31 MARCH 2025**

**NOTE 1
STATEMENT OF FINANCIAL ACTIVITY INFORMATION**

(a) Non-cash items excluded from operating activities

The following non-cash revenue and expenditure has been excluded from operating activities within the Statement of Financial Activity in accordance with Financial Management Regulation 32.

	Notes	Amended Budget	YTD Budget (a)	YTD Actual (b)
Non-cash and non-current items excluded from operating activities				
		\$	\$	\$
Adjustments to operating activities				
Less: (Profit)/loss on asset disposals	3	(499,619)	(274,840)	(328,595)
Less: Movement in liabilities associated with restricted cash				3,986,664
Add: Movement in Pensioner Rates & ESL (non-current)		0	0	70,784
Movement in employee benefit provisions (non-current)		0	0	54,091
Add: Depreciation on assets		46,190,627	33,433,477	33,980,975
Total non-cash items excluded from operating activities		45,691,008	33,158,637	37,763,919

(b) Adjustments to net current assets in the Statement of Financial Activity

The following current assets and liabilities have been excluded from the net current assets used in the Statement of Financial Activity in accordance with *Financial Management Regulation* 32 to agree to the surplus/(deficit) after imposition of general rates.

		Last Year Closing 30 June 2024	This Time Last Year 31 March 2024	Year to Date 31 March 2025

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the Council's operational cycle.

KEY INFORMATION

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

		5,000,000					3,750,000			

All debenture repayments were financed by general purpose revenue.

KEY INFORMATION

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

KEY INFORMATION

Provisions

Provisions are recognised when the City has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee benefits

Short-term employee benefits

Provision is made for the City's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The City's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

Other long-term employee benefits

The City's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The City's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the City does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Contract liabilities

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to identified specifications be constructed to be controlled by the City are recognised as a liability until such time as the City satisfies its obligations under the agreement.

14.2.2 (2025/MINUTE NO 0074) Payments Made from Municipal Fund and Local Procurement Summary - March 2025

Responsible Executive	Director Corporate and System Services
Author(s)	Chief Financial Officer
Attachments	<ol style="list-style-type: none"> 1. Payments Listing March 2025 ↓ 2. Credit Cards Summary March 2025 ↓ 3. Credit Card Transaction Details March 2025 ↓ 4. Purchasing Cards March 2025 ↓ 5. Fuel Cards March 2025 ↓

Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes
That Council:

- (1) RECEIVES the list of payments from the Municipal Fund during the month of March 2025, as attached to the Agenda; and
- (2) RECEIVES the lists of transactions paid by credit and other purchase cards during the month of March 2025, as attached to the Agenda.

CARRIED 9/0

Background

Council has delegated its power to make payments from the Municipal or Trust Fund to the Chief Executive Officer and other sub-delegates under Delegated Authority 'Local Government Act 1995 - Payment from Municipal and Trust Funds'.

Regulation 13 (1) of the *Local Government (Financial Management) Regulations 1996* requires that a list of accounts paid under this delegation be prepared and presented to Council each month. Additionally, Regulation 13A requires a list of payments made by employees using credit, debit, or other purchasing cards to be prepared and presented to Council each month.

Submission

N/A

Report

Payments made under delegation in March totalled \$23.79 million. All payment amounts reported are inclusive of GST (impact to budget is GST exclusive cost).

The following table provides a summary of payment types and detailed lists are included as attachments:

Net EFT payments (suppliers, sundry creditors)	\$19,678,042
Payroll payments (two fortnights)	\$4,014,619
Corporate credit cards	\$82,220
Bank transactional fees (BPay and merchant fees)	\$13,724

The City makes several payment runs each month to ensure suppliers and other payees are paid on a timely basis, particularly local and small businesses.

Attached is a list of credit cards transactions made in February and settled in March, grouped by cardholder position. There were two payments made for parking expenses on the CEO's credit card this period (total of \$32.40).

The following table summarises all purchases made by corporate credit cards:

Description	\$	Major Items
Advertising	5,244	Facebook advertisement
Application, Licence, Registration Fees	400	Vehicle licencing
Bank and Other Fees	1,155	PO box hire, international transaction fees
Conferences and Seminars	5,922	NGA 2025, planning congress dinner tickets, AIBS residential timber frames, WACOSS 2025
Disputed Transaction	2,095	Disputed transactions
Equipment Purchases	1,631	Volleyball holiday event, barcode scanners
Events and Functions	10,346	CSC outing, caterings for an event, harmony week event celebration
Hire of Equipment and Facilities	825	Indoor plant hire (library), various room hires
Meeting/Workshop Catering	2,296	catering fleet purchase meeting, Cockburn creatives workshop catering, ELT meeting catering
Motor Vehicle Expenses	4,377	Fuel card subscription, replacement loader windscreen
Office Supplies	2,458	General office supply, stationery for SCC & operations depot
Parking Expenses	171	Parking for various meetings, Perth children's court parking
Professional Services	2,797	Flyer delivery, vet expenses

Program Costs	3,072	Blissco program supplies, photography program
Subscriptions and Memberships	7,354	Various software and online platforms for library, gym sales subscriptions, community survey cost, WA newspaper subscription
Supplies and Materials Purchases	20,589	Tow ropes for landfill, social club kitchen supplies, notebooks for client programs, lifeguard training equipment, gift cards for little & loud fest, first aid supplies
Training & Professional Development	6,729	Student fees, IT training, fire warden
Travel and Accommodation	4,759	Flights & accommodation for planning congress
Total	82,220	

Several types of purchase cards are used across the City for business purchases, and these are governed by the City's procurement policy and procedures.

Detailed lists showing all card transactions are included and summarised below:

Type	Mar 25 \$	Purpose
Woolworths (5 cards)	3,267	Seniors centre, youth centre, amenities, marina
Bunnings (19 cards)	5,589	Facilities, fleet, fire & emergency, parks & environmental services, waste services, civil works, marina
BP fuel cards	34,314	Plant & light fleet

Local Procurement

The Monthly statistics on local and regional procurement spend are summarised below, detailing the spend amounts and percentages relative to the total spend:

Procurement Report - Local Buy Summary & Trends					March	2025
Monthly Statistics	CoC Local Spend	\$764,628	CoC Local Value	10.94%	CoC Local Qty	32.66%
	Local/Regional Spend	\$1,137,461	Local/Regional Value	16.27%	Local/Regional Qty	38.08%
Aboriginal Engagement	Suppliers used YTD	14	Orders raised YTD	575	Committed spend YTD	\$433,576

Local spending within Cockburn made up 10.94% of the City's monthly spend value and 32.66% of procurement transactions. This increased to 16.27% spend value and 38.08% of transactions within the Perth South West Metropolitan Alliance (PSWMA) region.

The following one year rolling chart to March 2025 tracks the City's procurement spend with businesses located within Cockburn and the PSWMA region:

As of the end of March, the 12-month rolling local expenditure in Cockburn reached \$22.80 million, representing 24.1% of the City's total spend. Within the PSWMA region, this figure increased to \$46.42 million, or 49% of the total spend.

This performance measurement aligns with the City's objectives under the Council's Procurement Policy, specifically the "local and regional economy" principle, which emphasise a preference for local procurement.

Social Procurement

As of the end of March, the City had engaged 14 Aboriginal businesses, with a year-to-date committed spend of \$433,576 (13 businesses and \$411,945 last month).

This result represents a significant increase year on year, more than doubling last year's total spend of \$184,167.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

- Thriving local commercial centres, local businesses and tourism industry.

Listening & Leading

A community focused, sustainable, accountable and progressive organisation.

- Best practice Governance, partnerships and value for money.
- High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

All payments made have been provided for within the City's Annual Budget, as adopted and amended by Council.

Legal Implications

This item ensures compliance with s6.10(d) of the *Local Government Act 1995* and Regulations 12, 13, and 13A of the *Local Government (Financial Management) Regulations 1996*.

Community Consultation

N/A

Risk Management Implications

Council is receiving the list of payments made by the City under delegation to meet its contractual obligations. This is a statutory requirement that allows Council to review and clarify any payments made.

14.2.3 (2025/MINUTE NO 0075) Proposal for Levying Differential Rates 2025/26

Responsible Executive Director Corporate and System Services
Author(s) Service Lead Rates and Revenue
Attachments N/A

Council Decision

MOVED Cr M Separovich SECONDED Cr T Dewan
 That Council:

- (1) APPROVES the application of differential rates and minimum payments for the Draft Budget for the 2025/26 financial year; and
- (2) APPROVES advertising in accordance with Section 6.36 of the *Local Government Act 1995* for public submission on the proposed differential rates as set out in the table below:

Rate Category Proposed for 2025-26	Rate in \$	Min payment \$
Differential rates		
Residential Improved (GRV)	0.08387	1,591
Vacant Land (GRV)	0.10408	852
Commercial & Industrial Improved (GRV)	0.09646	951
Commercial Caravan Park (GRV)	0.09158	951
Rural General Improved (UV)	0.00281	1,147
Rural Vacant Land (UV)	0.00421	1,147

CARRIED 9/0

Background

To establish the rates for its budget, Council determines the total rate revenue required in accordance with section 6.2 of the *Local Government Act 1995*. It then sets the cents in the dollar that will generate this revenue. Individual property valuations determine the proportion of the total rate requirements that each property owner must pay.

The differential rating model being proposed for 2025/26 complies with sections 6.33 and 6.35 of the *Local Government Act 1995*, and therefore does not require Ministerial approval. Specifically, compliance is demonstrated by:

- the proposed rate in the dollar for each category does not exceed twice the amount of the lowest rate in the dollar applied within the same valuation type (GRV or UV) - section 6.33(3).
- the proposed general minimum payment (not lesser minimums) is applied to at least 50% of all properties subject to a minimum payment - section 6.35(3).
- the minimum payment is not imposed on more than 50% of properties within any differential rating category - section 6.35(4)

Section 6.33 permits local governments to impose differential rates based on factors such as land use, zoning, or whether the land is vacant or improved. The differential rating categories have been established to reflect the varying levels of demand placed on City infrastructure and services, as well as the costs associated with servicing different land uses.

Under section 6.35 of the *Local Government Act 1995*, the City is also permitted to impose a minimum payment to ensure that all ratepayers make a reasonable contribution towards the cost of services provided. The proposed minimum payments for each category have been set to ensure fairness and financial sustainability, while maintaining compliance with the requirement that no more than 50% of properties within a category are subject to the minimum.

This approach ensures that the proposed differential rates are consistent with legislative requirements and support the equitable and efficient allocation of rating revenue across the community.

In compliance with section 6.36 of the *Local Government Act 1995*, the City must provide local public notice of its intention to impose differential general rates before adopting its 2025/26 budget.

Submission

N/A

Report

The City proposes the following differential rates be advertised for public comment:

Rate Category Proposed for 2025-26	Rate in \$	Minimum payment \$
Differential rates		
Residential Improved (GRV)	0.08387	1,591
Vacant Land (GRV)	0.10408	852
Commercial & Industrial Improved (GRV)	0.09646	951
Commercial Caravan Park (GRV)	0.09158	951
Rural General Improved (UV)	0.00281	1,147
Rural Vacant Land (UV)	0.00421	1,147

In preparing the above differential rates and minimum payments for 2025/26, the City has used the following rates modelling assumptions:

- Residential Improved properties: 3.5% increase in the rate-in-the-dollar and minimum payment
- Vacant: 4.5% increase in the rate-in-the-dollar and minimum payment.
- UV rated properties: 4.5% increase in the rate-in-the-dollar and minimum payment
- Commercial & Industrial properties (including caravan parks): 4.5% increase in the rate-in-the-dollar and minimum payment.

Objects and Reasons for Differential Rates 2025/26

The objective of the proposed differential rates is to generate the necessary revenue to support the delivery of services, programs, and infrastructure outlined in the City's draft 2025/26 budget.

Residential Improved (GRV)

The objective of this proposed rate is to apply a base differential general rate to land zoned and used for residential purposes and to act as the City's benchmark differential rate by which all other GRV rated properties are assessed.

This rate ensures that all ratepayers make a reasonable contribution towards the ongoing maintenance and provision of works, services, and facilities throughout the City of Cockburn. It is lower than the vacant land differential rate as the City is encouraging landowners to develop land rather than land banking.

Vacant Land (GRV)

This rate category imposes a differential general rate on land valued on a gross rental value basis, which is zoned under Town Planning Scheme No.3 for residential, commercial, or industrial purposes, and is classified as vacant land.

The objective of this rate is to encourage the development of vacant land within the City of Cockburn. Vacant land is subject to a higher differential general rate, which serves as a disincentive for owners to keep the property in a vacant or undeveloped state.

Commercial & Industrial Improved (GRV)

This rate category imposes a differential general rate on land valued on a gross rental value basis, which is zoned under Town Planning Scheme No.3 for non-residential, commercial, or industrial purposes and has improvements erected on it.

The objective of this differential rate category is to generate sufficient revenue to cover the costs associated with increased maintenance of infrastructure, particularly transport related infrastructure, and the higher levels of services required for properties in this category.

Commercial Caravan Park (GRV)

This rate category imposes a differential general rate on land valued on a gross rental value basis, which is zoned under Town Planning Scheme No.3 for commercial caravan parks, catering to both permanent trailer homes and non-permanent caravans.

The objective of this rate is to ensure that the City's caravan parks, primarily consisting of permanent trailer homes, contribute equitably to the City's services and facilities, similar to other residential landowners. Additionally, it aims to maintain rating equity with other small unit dwellings within the City.

Rural General Improved (UV)

This rate category imposes a differential general rate on land valued on an unimproved value basis, which is zoned under Town Planning Scheme No.3 for rural general or rural general urban farmland purposes and includes relevant buildings used for commercial or industrial purposes.

The objective of the rate is to impose a differential rate commensurate with the rural use of the land and to ensure that all ratepayers contribute reasonably towards the provision and ongoing maintenance of works, services, and facilities throughout the City.

Additionally, this rate serves as the City's benchmark differential unimproved value (UV) rate and is the base rate by which all other UV-rated properties are assessed.

Rural Vacant Land (UV)

This rate category imposes a differential general rate on land valued on an unimproved value basis, which is zoned under Town Planning Scheme No.3 for rural purposes and classified as vacant land.

The objective of this rate is to encourage the development of vacant land within the City Cockburn, thereby discouraging owners from land banking and not actively developing their vacant rural land for its intended purpose.

Strategic Plans/Policy Implications

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.
- High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

The application of differential rating involves distributing rates revenue among different property categories. Advertising the proposed differential rates and minimum payments is a crucial step in the City's annual budgeting process. The revenue generated from rates directly impacts service delivery, funding for capital projects, and the allocation of reserve funds.

The estimated revenue from the proposed differential rates is \$139.7 million, which aligns with the funding requirements outlined in the draft budget for 2025/26.

Legal Implications

In accordance with section 6.36 of the *Local Government Act 1995*, Council is required to give local public notice of its intention to levy differential general rates.

“S6.36. Local government to give notice of certain rates

- (1) *Before imposing any differential general rates or a minimum payment applying to a differential rate category under section 6.35(6)(c) a local government is to give local public notice of its intention to do so.*
- (2) *A local government is required to ensure that a notice referred to in subsection (1) is published in sufficient time to allow compliance with the requirements specified in this section and section 6.2(1).*
- (3) *A notice referred to in subsection (1) —*
 - (a) *may be published within the period of 2 months preceding the commencement of the financial year to which the proposed rates are to apply on the basis of the local government's estimate of the budget deficiency;*
 - (b) *is to contain —*
 - (i) *details of each rate or minimum payment the local government intends to impose;*
 - (ii) *an invitation for submissions to be made by an elector or a ratepayer in respect of the proposed rate or minimum*

- payment and any related matters within 21 days (or such longer period as is specified in the notice) of the notice; and*
- (iii) any further information in relation to the matters specified in subparagraphs (i) and (ii) which may be prescribed; and*
- (c) is to advise electors and ratepayers of the time and place where a document describing the objects of, and reasons for, each proposed rate and minimum payment may be inspected.*
- (4) The local government is required to consider any submissions received before imposing the proposed rate or minimum payment with or without modification.*
- (5) Where a local government —*
- (a) in an emergency, proposes to impose a supplementary general rate or specified area rate under section 6.32(3)(a); or*
- (b) proposes to modify the proposed rates or minimum payments after considering any submissions under subsection (4),*
- it is not required to give local public notice of that proposed supplementary general rate, specified area rate, modified rate or minimum payment."*

Community Consultation

The proposed differential rates and minimum payments have been considered during recent budget workshops by Elected Members. The recommendations in this report reflect the feedback from those discussions.

The proposed differential rates and minimum payments will be advertised for 21 days, and public submissions will be sought. A report on the outcomes of this consultation will be prepared and submitted to Council as part of the 2025/26 Annual Budget adoption process.

Risk Management Implications

Provided the City complies with the statutory provisions, there is no legislative risk management issues in applying a differential rate.

14.3 Infrastructure Services

14.3.1 (2025/MINUTE NO 0076) RFT 06/2025 - Beale Park Redevelopment

Responsible Executive	Director Infrastructure Services
Author(s)	Technical Officer - Project Management
Attachments	1. Evaluation Summary (Confidential) 2. Tendered Price Summary (Confidential)

Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes
That Council

1. ACCEPTS the tender submitted by Shelford Constructions Pty Ltd trading as Shelford Group for RFT06/2025 Beale Park Redevelopment for the lump sum contract price of \$11,451,070.43 (Ex GST) in accordance with the submitted Price Schedule and the additional Schedule of Rates; and the additional schedule of rates for determining variations. The above sum includes provisional amounts as listed in the Tendered Price Attachment;
2. DELEGATES to the CEO, by absolute majority, authority to negotiate minor variations to the contract for RFT 06/2025 - Beale Park Redevelopment before and/or after its execution in accordance with Regulations 20 and 21A of the *Local Government (Functions and General) Regulations 1996*; and
3. If within six months of this resolution, a contract is unable to be formed for RFT 06/2025 - Beale Park Redevelopment with Shelford Constructions Pty Ltd trading as Shelford Group, DELEGATES to the CEO, by absolute majority, the power to accept the next most advantageous tenderer as identified in the Evaluation Consensus Report recommendation shown in Confidential Attachment 1, to a cost not exceeding \$11,451,070.43 (Ex GST).

CARRIED BY ABSOLUTE MAJORITY OF COUNCIL 9/0

Background

Beale Park is one of Cockburn's major soccer facilities and is home to the Cockburn Soccer Club.

The population of the surrounding area is expected to grow by 21,000 people in 2036, and the current facilities require redeveloping to ensure that they will cater to that expected population growth, while providing the community with increased opportunities to participate in sport and physical activities.

The specific objectives of the redevelopment are to provide:

- An increased amount of active open space (seven senior soccer pitches)
- Sports floodlighting across the reserve (100 lux)
- A new centrally located clubroom facility with six unisex change rooms
- A hireable community room
- Increased storage
- A new rationalised car park with more than 85 bays.

The City of Cockburn (the Principal) commenced planning in 2018, and undertook community engagement as part of the development of the Community, Sport and Recreation Facilities Plan and Western Suburbs Sporting Precinct Study.

A high-level draft master plan for Beale Park upgrades was included for comment.

The key issues that were identified during that process were:

- A requirement to upgrade and expand the club room building due to its age and condition and limited changing facilities
- Insufficient active playing field space
- Issues with parking, including insufficient bays and difficulties with entering and exiting the carpark
- Sports lighting not being to the current standards for night games.

The redevelopment will be partially funded by the State Government with extensive community consultation undertaken on the design.

The contracted works will allow for demolition, removal and appropriate disposal of the existing structures, construction of the clubroom building, sports storage shed and carparks, upgrades to the sports lighting, connection to the Water Corporation sewer line and all other hydraulic works including stormwater drainage, as well as the electrical, mechanical, acoustic, safety, landscaping, and related works.

Several reports have since been commissioned to identify any geo-technical issues, the acoustic requirements for minimising the impact of the redevelopment on the surrounding housing, and any potential impact to the immediate flora and fauna. Protection of the trees on site is critical as they support a colony of endangered Carnaby's Black Cockatoos.

As the current structures contain asbestos, the exact extent of which is unknown, an independent assessment will be required before any demolition occurs.

For staging purposes, the work will be based on separable portions, with the main part of the works (Stage One) scheduled to commence in October 2025 with an anticipated completion date of April 2026. Stage Two is anticipated to be completed by November 2026.

The Contract will be based on AS 2124-1992 General Conditions of Contract.

A Defects Liability period of one (1) year will apply from Practical Completion of each stage.

All work will be carried out in accordance with the relevant industry codes of practice, Australian Standards, and the legislative requirements. That requirement will extend to any reinstatements of the construction area to the pre-construction state or better.

RFT 06/2025 Beale Park Redevelopment, was advertised on Wednesday 5 March 2025, in the Local Government Tenders section of 'The West Australian' newspaper. It was also displayed on the City's website between Wednesday 5 March 2025 and 2:00pm (AWST) Thursday 3 April 2025.

Submission

Tenders closed at 2:00pm (AWST) Thursday, 3 April 2025 and five (5) tender submissions were received from:

Tenderer's Name	Registered Entity Business Name
Geared Construction	Geared Construction Pty Ltd
PCH Civil	PCH Civil Pty Ltd
Rivett Construction	Angularem Pty Ltd
Shelford Constructions	Shelford Constructions Pty Ltd
AE Hoskins	The Trustee for M R Hoskins Family Trust

Report

Compliant Criteria

The following criteria were used to determine whether the submissions received were compliant:

Compliance Criteria	
(a)	Compliance with the Request Document
(b)	Compliance with the conditions of Responding and Tendering
(c)	Compliance with the General and Special Conditions of Contract
(d)	Compliance with and completion of the Price Schedule in the format provided.
(e)	Completion of Qualitative Criteria
(f)	Compliance with ACCC Requirements and completion of Certificate of Warranty.

Compliance Tenderers

All five (5) Tenderers were deemed compliant.

Evaluation Criteria

Evaluation Criteria	Weighting Percentage
Demonstrated Experience	15%
Tenderer's Resources	15%
Methodology	15%
Sustainability	10%
Local/Regional	10%
Tendered Price	35%
TOTAL	100%

Tender Intent/ Requirements

The intent of the Tender is to select a suitably qualified and experienced Contractor to carry out major redevelopment works at Beale Park in Kent Street, Spearwood.

Evaluation Panel

The tender submissions were evaluated by the following:

Name	Position
Sri Pulla (Chair)	Project Manager
Anton Lees	Director Infrastructure Services
Timothy Clarke	Community Infrastructure Manager
Kathleen Koelen	Acting Manager Landscape and Coastal Projects
Ian Hart	Consultant from Savills Project Management Services
Robert McCaughan (Non-scoring)	Manager Building & Security Projects
Probity Role:	
Kelley Ambrose – Contracts Specialist	

Scoring Table – Combined Totals

Tenderer's Name	Percentage Score		
	Non-Cost Evaluation	Cost Evaluation	Total
	65%	35%	100%
Shelford Constructions**	44.00%	32.56%	76.56%
Geared Construction	35.46%	34.09%	69.55%
PCH Civil	36.38%	28.34%	64.72%
Rivett Construction	33.76%	35.00%	68.76%
AE Hoskins	36.12%	29.34%	65.46%

** Recommended Submission

*Evaluation Criteria Assessment*Demonstrated Experience

Shelford Constructions was the highest scoring submission with Geared Construction rated a close second. Both demonstrated to the evaluation panel they have adequate experience in similar works.

AE Hoskins, PCH Civil and Rivett Construction demonstrated elements of the criterion however lacked in similar project experience (value, size and type).

Tenderer's Resources

Shelford Constructions scored the highest for this criterion with PCH Civil and AE Hoskins scoring equal second. All three submissions demonstrated they have experienced personnel and clear resource and contingency plans.

Rivett Construction demonstrated they had experienced personnel, however due to limited information some criterion was lacking.

Geared Construction provided limited information for this criterion. Particularly with regards to resource contingency planning.

Methodology

Shelford Constructions scored the highest with PCH Civil ranking second followed by Geared Construction. All three submissions articulated their methodology and understanding of the requirements.

Rivett Construction provided good methodology on records management but failed to provide sufficient information for approach and project timelines.

AE Hoskins provided limited detail. A project program was provided however it lacked elements.

Sustainability

Shelford Constructions scored the highest, demonstrating sound environmental management practises, recognised procurement and social practices.

AE Hoskins scored second with PCH Civil following in third both providing good responses for this criterion.

Rivett Construction and Geared Construction met some of the criterion but provided limited detail on Social Procurement.

Local/Region

Shelford Constructions ranked highest for this criterion, being based within the region and having a high portion of staff within the Perth South West Metropolitan Alliance group of Councils, providing significant contribution to the local economy. Other tenderers scored less as they are located outside the region.

Summation

The Evaluation Panel recommends that the submission by Shelford Constructions Pty Ltd be accepted as the most advantageous having satisfied all criteria in the evaluation process and demonstrated ability to undertake the Building Construction Services works for the Beale Park Redevelopment.

Shelford Constructions consistently ranked highest across all evaluation criteria, demonstrating strong relevant experience, a well-defined methodology, robust resourcing planning, along with a commitment to sustainability and significant local presence and contribution. Shelford Construction ranked first overall, with first against the qualitative assessment and third for the cost assessment.

Referee checks were undertaken with positive feedback provided.

An independent Financial Risk Assessment has been completed with the tenderer passing the assessment.

The recommendation is based on:

- The level of demonstrated experience in completing similar works
- The required level of resources, experienced personnel and project structure to undertake and manage the works
- Adequate understanding of the requirements with methodology and program schedule to complete the works in accordance with the Specification
- The most advantageous value for money for the City.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

- Increased Investment, economic growth and local employment.

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

- Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.

Budget/Financial Implications

The construction phase of this project will be undertaken across FY26 and FY27 with the defects liability period through to FY28.

The total project cost (including all cost) is expected to be \$13,308,022 (Ex GST) across the three (3) financial years. Detail is provided in the confidential attachments.

The project has been included in the draft capital budget for FY26, which will be adjusted to reflect projected cashflows following tender award.

Funding sources include the following.

Municipal Funding - Building Infrastructure Reserve	\$9,248,407
CSRFF Grant *Refer to note below	\$1,000,000
DCP 13	\$3,059,615
TOTAL	\$13,308,022

External Funding include:

- a) An approved Community, Sport and Recreation Facility Fund (CSRFF) grant of \$1,000,000 from Department of Local Government, Sport and Cultural Industries (DLGSC). A condition of this grant is that the construction contract is awarded, and first claim made by 13 June 2025.
- b) DCP13 funds allocated to this project totalling \$3,059,615 (Ex GST) across two (2) financial years (FY26 \$2,470,000 and FY27 \$589,615).

A total of \$1,524,532 (Ex GST) has been expended over the course of seven (7) financial years, with projected expenditure from April through to June 2025 to be \$350,283 (Ex GST).

It is anticipated the overall project spend (FY19 – FY28) will be \$15,254,020 (Ex GST)

Legal Implications

N/A

Community Consultation

The facilities are used by a number of community user groups with an invested interest in the construction of these facilities. Consultation with the various user groups was made as follows:

1. Community engagement was undertaken on the previous design with the only items of concern being the presence of black cockatoos and the potential impact on the mature trees on site.
2. The revised design of the Clubhouse Building and reconfiguration of the playing field layout has resulted in the retention of the majority of the significant trees on site and the protection of the black cockatoo roosting areas, therefore addressing the concerns of the community.
3. The redesign of the Clubhouse building has also been undertaken, in consultation with:
 - The Cockburn City Soccer Club, including the retention of six (6) change rooms, the size of the function room(s) and the design of the Clubhouse Kitchen
 Feedback was received from the Club as part of the design review of the

Concept Design and incorporated in the approved Schematic Design.
The reconfiguration of the playing fields has been approved by the Club, including the number of fields and their sizes

- The Spearwood Progress Association, the local residents' association will need to be kept informed and consulted with through involvement in the Project Reference Group.

Risk Management Implications

If the recommendation to award the tender is not approved, the following risks have been identified:

- The project may fail to meet the milestones required for the CSRFF grant, resulting in the loss of funding.
- The playing fields will continue to suffer from inadequate lighting and insufficient parking facilities.
- The aging clubroom building will continue to deteriorate, potentially reaching a state where it is no longer usable.

Advice to Proponent(s)/Submitters

The Proponent(s) and those who lodged a submission on the proposal have been advised that this matter is to be considered at the 13 May 2025 Ordinary Council Meeting.

Implications of Section 3.18(3) Local Government Act 1995

14.3.2 (2025/MINUTE NO 0077) Waste Strategy 2020-2030 (5 Year Review)

Responsible Executive	Director Infrastructure Services
Author(s)	Group Manager Parks, Fleet and Waste
Attachments	1. Waste Strategy 2020-2030 (5 Year Review) ↓

Council Decision

MOVED Cr T Dewan SECONDED Cr C Reeve-Fowkes

That Council adopt the Waste Strategy 2020–2030 (5-Year Review).

CARRIED 7/2

For: Deputy Mayor C Stone, Cr P Eva, Cr T Widenbar, Cr C Zhang, Cr K Allen, Cr P Corke and Cr M Separovich

Against: Cr T Dewan and Cr C Reeve-Fowkes

Background

At the 26 March 2024 Special Council Meeting, Council resolved:

That Council:

- (1) Notes the options presented for alternative domestic waste disposal locations due to the closure of the transfer station on top of Cells 4 & 5 at the Henderson Landfill Site.
- (2) Immediately proceeds with Option 1; Relocation of the temporary transfer station to a location in the southern area of the Henderson Waste Facility, at an estimated cost of \$500,000.
- (3) Amends the FY24 Budget by \$500,000 to cover the cost of the temporary transfer station, funded from the Waste Collection Reserve.
- (4) No later the 10 December 2024 Ordinary Council Meeting, the City undertakes a complete review of all its plans, commitments and the implementation plan detailed in the 2020 – 2030 Waste Strategy.
- (5) Amends the FY24 Budget by \$100,000 to cover the cost of the review of the 2020 – 2030 Waste Strategy to be funded from the Waste Collection Reserve.
- (6) No later the 10 December 2024 Ordinary Council Meeting, receives the Business Plan(s) outlining costings, details and other specific requirements on the location(s) of the proposed transfer station.

Carried by an Absolute Majority 8/0.

Following the Council Meeting, staff prepared a brief for the study in accordance with the guidance document titled Local Government Waste Plans prepared by the Department of Water and Environmental Regulation (DWER).

The objectives of the review were as follows:

1. Audit the objectives, performance measures and targets detailed in the Cockburn Waste Strategy.
2. Use the information gained from the audit to review the Waste Strategy with a view to, where required, update it to conform with The Department of Water and Environmental Regulation (DWER) *Guidance document: Local Government waste plans*.
3. Determine an optimum level of service for each of the City's current waste collection services (including alternative options for consideration by Council) and determine the cost of the optimum level of service and the options.
4. Prepare a report titled Draft Waste Strategy 2025-2035 for review by the City's internal review committee.
5. Present the draft waste strategy 2025-2035 to Council and amend the document with any feedback.

The brief was advertised for in a Request for Quotation which closed on 28 May 2024 with the Consultancy being awarded to JBS&G, an environmental consultancy with offices throughout Australia.

The review was provided to the City on 6 September 2024 with an Elected Members Briefing held on 24 September 2024 to provide an overview of the current service delivery models, actions, risks and opportunities. Elected Members requested additional details on priorities, service costs and future strategic direction on waste management.

At the 15 October 2024 Organisational Performance Committee, the committee recommended the following:

- (1) The Committee recommend Council DEFERS any consideration of the 2020–2030 Waste Strategy Review Report until 2025 when the Report can be considered in conjunction with the Waste Service Review.

Carried 7/0

The deferral was a result of the Administration not being able to meet the resolution from the 26 March SCM, due to the request by Elected Members for a follow up briefing on the Waste Strategy.

At the 12 November 2024 Ordinary Council Meeting, Council adopted the 15 October 2024 Organisational Performance Committee recommendation.

IW Projects was commissioned to review previous waste management documentation and lead the workshop with Elected Members on the future direction of waste.

The workshop with Elected Members was held on 25 February 2025 to set the waste priorities, service cost details and future strategic waste directions to inform the Waste Strategy 2020-2030 (5-year review).

This review process ensures that the City's waste management strategies remain aligned with evolving environmental, economic, and community needs.

It also provided information to support the waste management service review being completed along with a framework for continuous improvement and adaptation to new challenges and opportunities in waste management.

Submission

N/A

Report

The City is responsible for the collection and disposal of kerbside and verge side general waste, recyclables and garden organics from its approximately 49,000 households.

The City's owns and operates the Henderson Waste Recovery Park (HWRP), which processes community drop-off materials, hazardous household waste (HHW), e-waste, construction and demolition (C&D) waste, commercial and industrial (C&I) waste and other problematic items, such as tyres and mattresses.

The Strategy aligns with the key objectives of the State Government's Waste Avoidance and Resource Recovery Strategy 2030, which is considered in all decision-making relating to waste management in the city:

Objective 1 – Avoid

Generate less waste

Objective 2 – Recover

Recover more value and resources from waste

Objective 3 – Protect

Protect the environment by managing waste responsibly

The five-year revision of the Strategy has provided the opportunity to update the content and report on the status of the actions identified in the Implementation Plan.

Twenty-one (21) actions were identified in the Implementation Plan at the commencement of the Strategy, of which 11 have been closed and six are ongoing and have been updated.

The remaining four actions relating to long-term infrastructure planning at the HWRP have been replaced with a new action to develop Masterplan for the site.

Actions	Progress	Percent completed
11	Completed	52%
6	In Progress	29%
4	Adjusted	19%
21		100%

Table: Actions progress and completion

This five-year revision of the Strategy focuses on maintaining the high-level of sustainable waste management services provided by the City and addresses the transition to energy recovery facilities for general waste processing, the future of the HWRP, and community consultation on the City's verge side collection system.

Communication and education around sustainable waste practices is integral to meeting the objectives and targets outlined in this Strategy.

A comprehensive waste education and community engagement program is embedded in activities across the Strategy and Implementation Plan to reach a wide demographic through a variety of channels.

The program is designed to meet changing needs of the waste sector and the community over the life of the Strategy.

It seeks to help residents, visitors and businesses to understand their role in sustainable waste management.

The Implementation Plan, also referred to as the City of Cockburn Waste Plan by the Department of Water and Environmental Regulation (DWER), will be reviewed annually in accordance with regulatory requirements.

The associated budget will also be reviewed annually to ensure a proactive and flexible approach.

A new strategy will be prepared prior to the conclusion of this strategy in 2030 to ensure sustainable waste management.

Strategic Plans/Policy Implications

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

- Sustainable resource management including waste, water and energy.

Budget/Financial Implications

Delivery of the implementation plan is sourced through the Annual Municipal budget.

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

Strategic risks relating to waste management have been identified through the City's corporate risk management framework and the five-year review of the Strategy, as follows:

- Introduction of energy recovery facilities and implications for volumes of waste accepted at HWRP
- Delays in the commencement of the East Rockingham energy recovery facility accepting the City's waste
- Changes in legislation (e.g., to mandate waste avoidance and recovery targets or change waste levy obligations)
- Failure to adequately provide for ongoing management of the HWRP, including post-closure responsibilities of the landfill
- Unacceptable environmental impacts due to activities at the HWRP
- Inability to collect household waste and operate the HWRP, including the provision of community drop-off facilities
- Lack of engagement with and education of the community regarding waste avoidance and recovery
- Outcomes of public consultation on verge bulk waste collection services
- Ability to attract and retain trained and experienced waste services employees
- Failure to maintain financial sustainability of waste services unit.

Acknowledgement of Country

The Mayor, Councillors and staff of the City of Cockburn acknowledge the Whadjuk Nyungar people of Beeliar boodja as the traditional custodians of this land. We pay our respect to the Elders, past and present.

Executive Summary

The City of Cockburn holds sustainability as a key strategic value, and is committed to the responsible collection, processing and disposal of waste on behalf of the wider community.

Sustainable waste management requires a strategic approach to ensure the best economic, social and environmental outcomes.

The City is responsible for the collection and disposal of kerbside and verge side general waste, recyclables and garden organics from its approximately 49,000 households. It also owns and operates the Henderson Waste Recovery Park (HWRP), which processes community drop-off materials, hazardous household waste (HHW), e-waste, construction and demolition (C&D) waste, commercial and industrial (C&I) waste and other problematic items, such as tyres and mattresses.

This Strategy and the associated Implementation Plan (Annex 1) align with the key objectives of the State Government's Waste Avoidance and Resource Recovery Strategy 2030, which is considered in all decision-making relating to waste management in the City:

Objective 1 – Avoid

Generate less waste

Objective 2 – Recover

Recover more value and resources from waste

Objective 3 – Protect

Protect the environment by managing waste responsibly

This five-year revision of the Strategy has provided the opportunity to update the content and report on the status of the actions identified in the Implementation Plan. Twenty two (22) actions were identified in the Implementation Plan at the commencement of this Strategy Review, of which nine (9) have been closed and seven (7) are ongoing and have been updated. The remaining six (6) actions relating to long-term infrastructure planning at the HWRP have been replaced with a new action to develop Masterplan for the site. One new action has been created in relation to waste auditing.

This five-year revision of the Strategy focuses on maintaining the high-level of sustainable waste management services provided by the City and addresses the transition to energy recovery facilities for general waste processing, the future of the HWRP, and community consultation on the City's verge side collection system.

Communication and education around sustainable waste practices is integral to meeting the objectives and targets outlined in this Strategy. A significantly reduced waste education and community engagement program is embedded in activities across the Strategy and Implementation Plan to reach a wide demographic through a variety of channels. The program is designed to meet changing needs of the waste sector and the community over the life of the Strategy. It seeks to help residents, visitors and businesses to understand their role in sustainable waste management.

The Implementation Plan, also referred to as the City of Cockburn Waste Plan by the Department of Water and Environmental Regulation (DWER), will be reviewed annually in accordance with regulatory requirements. The associated budget will also be reviewed annually to ensure a proactive and flexible approach. The Strategy itself will be reviewed in the next five years before the end of the current implementation period (2030).

Figure 1: New Leachate Pond C - Henderson Waste Recovery Park

Introduction

The City of Cockburn, like many other metropolitan local governments in Western Australia, is facing challenges in the management of solid waste resulting from:

- Population rise leading to increased waste generation;
- Limitations of existing resource recovery facilities;
- Decreasing availability of landfill space;
- The growing significance of sustainable practices and climate change; and
- Lack of consistency and community understanding regarding waste management approaches.

The City's population at the commencement of the Strategy was 118,091 and is projected to increase to approximately 140,000 by 2030. At the five-year review date, the population was estimated to be approximately 134,000.

While efforts to minimise the use of resources are gaining momentum, waste generation in the City is not decreasing significantly (585 kg/household in 2015 and 555 kg/household in 2024). This coincides with a landfill levy (in April 2025) of \$85 per tonne in Western Australia and finite remaining landfill capacity in the metropolitan area, including at HWRP. The City is responsible for ensuring that waste is suitably managed in the long term to ensure effective and economic resource recovery and minimisation of resource loss.

This Strategy provides a clear direction and a coordinated approach to effectively manage the long-term sustainability of waste practices in the City. While waste management is an issue of national, state and local significance, the City prides itself on providing the best services to its ratepayers by ensuring that appropriate funds are directed to waste management, in line with the overarching City of Cockburn Strategic Community Plan 2020-2030. The City recognises its responsibility to support state and national government solutions to ensure optimum results for the community.

Existing Waste Services

The City's current and continuing waste services:

SERVICES	DETAILS

Review of Achievements to Date

Since the implementation of the Strategy in 2020, the City has delivered a suite of successful waste management programs and projects, including:

- **Development of HWRP:** The City has prioritised essential works at the HWRP, including construction of new leachate ponds and establishing a new community waste drop-off transfer station.
- **Waste Management Services:** The City signed a 20-year contract for the City's energy recovery future for general waste and residual waste streams and outsourced the processing of comingled recyclables.
- **Organic Waste Recovery:** Implemented a three-bin GO system at over 30,000 properties and successfully trialled a commercial food waste service, which proved to be unsustainable.
- **Waste Wise Events Policy Implementation:** In a pioneering move, the City launched its new Waste Wise Events Policy for the 2023-24 events season. This initiative aimed to drastically reduce waste produced during community events, setting an industry standard for sustainability. Through collaboration with event partners, the City established guidelines that prioritised the use of reusable and compostable materials.
- **Waste Sorted Grants:** The City secured a Waste Sorted Grant of approximately \$8,000 to conduct a series of workshops focused on textile waste reduction. This funding facilitated the purchase of equipment that community members can hire for free, encouraging local residents to actively participate in textile recycling efforts.
- **Reusable Sanitary Product Rebate Uptake:** The City noted a significant uptake in the reusable sanitary product rebate program, reflecting a growing community commitment to sustainable practices and reducing waste in personal hygiene products.
- **Reclaim The Void Project:** The Waste Education Team successfully hosted the Reclaim The Void Project, which fostered community involvement in waste education and sustainable practices. The project was well-received, showcasing the City's commitment to collaboration and education in waste management.
- **Establishment of the Sustainability and Environment Reference Group (SERG):** In 2023-24, the City established the SERG, providing a platform for community and industry representatives to advise the Council on strategic matters relating to environmental sustainability. This initiative fosters collaboration and ensures that diverse perspectives are included in decision-making processes.

Vision, Values and Mission

The City's vision is “*Cockburn, the best place to be*” and purpose is to “*Support our communities to thrive by providing inclusive and sustainable services which reflect their aspirations*”. Sustainability is one of five values the City has adopted that influence its culture and assist delivery of its vision and remains a key strategic value for this Strategy.

The City's mission for the remainder of the Strategy to 2030 is to focus on maintaining the existing high-level of sustainable waste management services for the community whilst supporting residents to reduce waste generation and increase recycling.

The City has adopted the Western Australian State Government's Waste Hierarchy, which provides a framework for prioritising waste practices to achieve the best environmental, economic and social outcomes:

Figure 3: Waste hierarchy

The waste hierarchy recognises the City's priority of avoidance of waste generation. Recovery, reuse, reprocessing and recycling of valuable materials are vital where waste production is unavoidable.

Disposal to landfill is the least favourable outcome in the hierarchy; with the City's Climate Change Strategy 2020-2030 having an aspirational target of zero, non-hazardous, waste to landfill by 2030.

The City will continue to work towards meeting the targets set by State Government and continue providing inclusive and sustainable waste management services.

Links to the Strategic Community Plan 2020-2030

The City of Cockburn Strategic Community Plan 2020-2030 articulates an overarching vision for where the City wishes to be by 2030. It includes five strategic outcomes for the City, each accompanied by an associated strategic objective. This Strategy is specifically aligned to four of these strategic outcomes (as per Table 1):

Table 1

Outcome	Strategic objective	
Local Economy	1.5	Support and promote the benefits of buying locally
Environmental Responsibility	2.1	Sustainably manage water, energy and other resources and promote the use of environmentally responsible technologies
Community, Lifestyle and Security	2.5	Minimise the City's waste to landfill through reducing, reusing, re-purposing, re-gifting and recycling of waste
Listening and Leading	2.6	Reduce adverse outcomes arising from climate change through planning, adaption, mitigation, infrastructure and ecological management

The City's Long Term Financial Plan 2024-2025 to 2033-2034 details what is proposed over the next ten years as a means of ensuring the City's long-term financial sustainability.

The Corporate Business Plan provides the operational link between the Strategic Community Plan and Long-Term Financial Plan.

From these planning processes, annual budgets are developed for specific projects to achieve the Strategic Community Plan objectives.

This Strategy is also aligned with the State Government's Waste Avoidance and Resource Recovery Strategy 2030 through the Implementation Plan (Appendix 1).

Waste Strategy Objectives

The City will implement this Strategy through the delivery of the following objectives. Individual actions have been identified to meet these objectives in the Implementation Plan (Appendix 1).

Objective 1 – Avoid and generate less waste

There is growing awareness that the production of waste through inferior quality products, aggressive advertising, designed obsolescence and excessive packaging leads to cycles of consumerism and increased waste generation rates.

The City will address this issue through support and implementation of extended producer responsibility, product stewardship programs and education programs to reduce both its own waste production and that of the wider community.

Waste Reduction and Education Programs

Key actions associated with this objective include the introduction of a smaller 140L general with those eligible properties receiving the 3 bin Garden Organics service to encourage a reduction in the volume of waste being sent to landfill or energy recovery facilities. This also acts as a powerful symbol regarding the importance of reducing general waste, given the non-renewable resources and embodied energy that are lost once a product is placed in this bin.

Ongoing waste education programs will assist the community in identifying which waste items should be disposed of in a more efficient manner. Waste communication campaigns will continue to work towards increasing recognition of the resource value of waste to inspire the community to reduce their waste production.

The five-year review of the Strategy identified that moving to a pre-booked verge collection service could reduce waste generation and increase resource recovery rates, with community consultation to follow on the most advantageous service.

Figure 4: City of Cockburn Community Waste Education Officers provide waste education stalls at all major community events.

Objective 2 – Recover more value and resources form waste

The City is responsible for processing the community's waste in the most environmentally and financially responsible manner, with key resource recovery actions outlined below.

Development of Henderson Waste Recovery Park

Developing the HWRP for the sustainable long-term management of waste remains a priority and focus of the Strategy. The resource recovery cycle for the City's waste services is summarised in the image below.

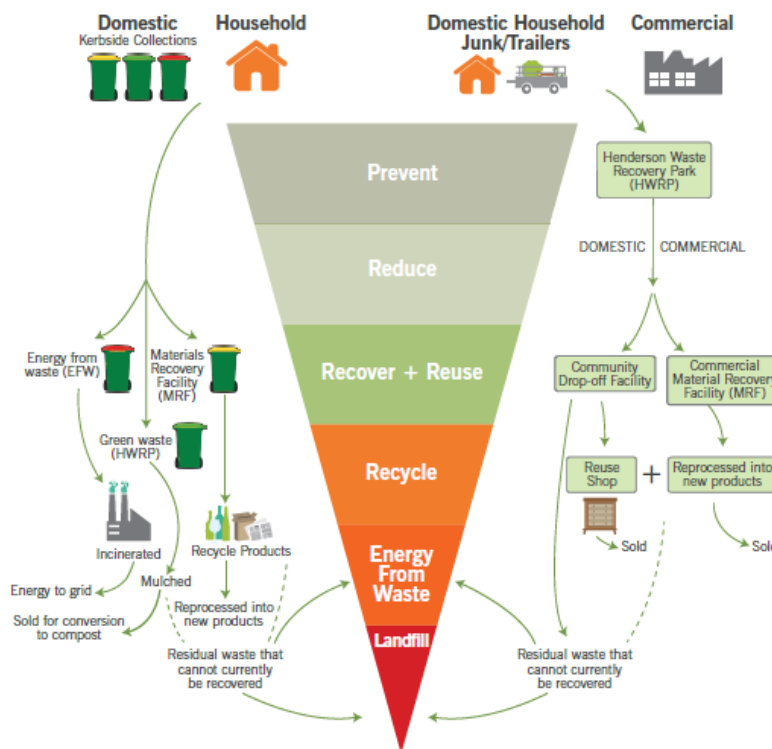

Figure 5: Resource recovery cycle

The future development strategy for the HWRP was outlined in the Cockburn Resource Recovery Park Business Case, which proposed a community drop-off facility, weighbridge, reuse-shop, administration building, and education centre. However, implementation of the business case has been impacted by several issues, including delays in commencement of energy recovery facilities, construction of new leachate ponds and limited remaining life of the landfill (~five years).

Given the above issues, the City conducted a review of the Business Case concurrent with the five-year review of the Strategy, which identified that the proposed development strategy did not provide best value for the community. As an outcome of the review, the City will develop a new Masterplan for the HWRP that will include a transitional operation plan for the remaining life of the landfill.

The Masterplan will also include the development of areas that can be leased to third parties for complementary activities that enable diversion of waste streams away from landfill into reprocessing and reuse, including inert waste, scrap metal, green waste, timber, paper and e-waste.

In the interim, the City has developed a new community waste drop-off transfer station at the HWRP. The new facility provides a purpose-built area for the safe disposal and recovery of residential waste. The relocation of the facility from operational areas has also released more landfill capacity to allow continuation of the landfill, which provides an important service to the community and income for the City.

Figure 6: Image of the Henderson Waste Recovery Park Community Transfer Station

Waste Education

To prevent the creation of waste, promote resource recovery, and highlight the negative environmental consequences of consumerism, the City recognises the importance of providing education services to the community as an integral component of its waste

management services. Critically, the importance of individual responsibility must be emphasised, as sustainable waste management begins with each member of the community. The City will continue to ensure the community is provided with both the relevant information to make informed decisions and the resources to contribute to sustainable waste management outcomes.

Waste communications, though now limited, will continue to be developed to provide the City's waste education offerings across schools, community events and City facilities. Importantly, the communications will seek to educate people through a consistent approach with State Government campaigns such as the 'WasteSorted' program.

Figure 7: Bobby the Bin providing waste education to the community

Energy Recovery

Energy recovery facilities play an important role in the broader waste management system. The East Rockingham and Kwinana energy recovery facilities are scheduled for commissioning by late 2025. These are the first large-scale energy recovery facilities to be

built in Australia. The City has awarded a Waste Supply Agreement to East Rockingham RRF (Resource Recovery Facility), which is constructing the energy recovery facility.

The energy recovery facilities recover the energy stored in waste and feed it back into Perth's power grid. They are expected to have a combined generation capacity of 66 MW and produce over 500,000 MWh of electricity, enough to power 91,000 Perth homes for the life of the projects (which is nominally 30 years).

The image below outlines how energy recovery facilities convert general and residual waste into energy.

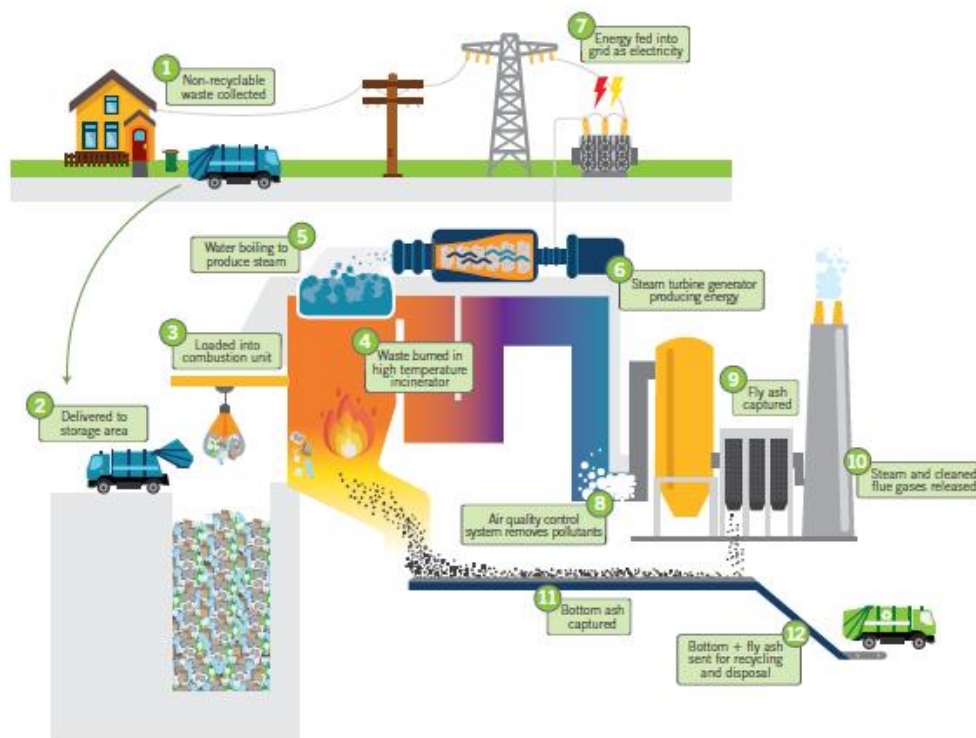

Figure 8: Energy recovery facility operation

Food Waste Collection Service

Options for the recovery of domestic food waste will continue to be considered, including the potential to convert the City's Garden Organics (GO) bins to Food Organics and Garden Organics (FOGO) bins should collection and processing of this material become operationally and financially viable.

Figure 9: City of Cockburn garden waste is transported to a commercial composting facility for processing

Objective 3 - Protect the environment by managing waste responsibly

The City of Cockburn is committed to excellence in the protection of the natural environment. Key actions to achieve this objective are outlined below.

Climate Change Impact

Most of the City's greenhouse gas emissions (33,766 tCO₂e) are generated from solid waste to landfill at the HWRP. The figure below shows that 65% of the City's corporate emissions are produced from waste to landfill, with 24% from electricity consumption and 11% from fuel combustion for facilities and fleet.

Figure 10: City of Cockburn FY 2024 greenhouse gas emissions by source

The City's Climate Change Strategy 2020–2030 includes ten actions related to waste management, including the aspirational target for 100% of non-hazardous waste to be diverted from landfill by 2030. The City aims to further reduce greenhouse gas emissions by capping both the northern and southern landfill cells and continuing to extract methane gas for combustion and conversion into grid electricity.

Increasing renewable energy generation across the HWRP will continue to be investigated and implemented where feasible.

Figure 11: Solar photovoltaic system (130kW), Cockburn Health and Community Facility

Pollution Management

The HWRP is subject to stringent environmental management requirements from the State Government and is regulated by DWER. Key actions to mitigate pollution at HWRP include:

- Pests and vermin are managed on an ongoing basis;
- Relining of existing leachate ponds, installation of leachate evaporation plant and construction of new leachate ponds;
- Ongoing groundwater monitoring program, which will continue after the closure of the landfill cells to ensure long-term pollution control; and
- Mobile litter fencing is maintained to ensure that waste is not able to leave the site boundary.

The City has limited capacity to work on preventing littering and illegal dumping in the community. The City's mapping system allows detailed tracking of dumping offences, which facilitates the development of targeted solutions.

Figure 12: Litter found on City of Cockburn beaches

Summary of Community Consultation

Historic customer surveys continue to record high satisfaction rates with both the Waste Collection Service (kerbside collection and bulk verge service) and the HWRP. These historic surveys rated the kerbside and verge side services highly. This result has remained constant for many years.

The results from the Customer Satisfaction Survey for HWRP have the commercial customers rating the service as 100% and the domestic customers as 98%. This means that 98% of the respondents rate the service 7 or more out of 10. The survey also revealed that both the commercial and domestic customers rated the service highly with 76.5% of respondents scoring the Site at 9 or 10 out of 10.

As part of the five-year review of the Strategy, the City engaged with internal staff and consulted with Elected Members through a briefing on the outcomes of the review and a waste strategic priority setting workshop.

Community consultation will continue to be an important part of the Strategy, especially where changes to waste management services are proposed. Whilst the five-year review determined to maintain the existing high-level of waste management services provided to the community, the City will conduct community consultation to investigate options for the bulk verge waste collection system.

Resourcing the Plan

The Waste Strategy has been fully costed and is reflected in the Long-Term Financial Plan 2024-2025 to 2033-2034, Workforce Plan 2022-2026 and annual budgets. Labour costs and staffing resources have been considered, and capital and operational costs have been detailed. The Strategy will be resourced through reserve funding, grant contributions and ongoing municipal contributions.

Market competition and the introduction of the energy recovery facilities will likely result in reduction of waste tonnes received at the HWRP and corresponding reduction in income for the City. The resourcing requirement for this strategy has taken these impacts into consideration ensuring financial sustainability.

Significant reserve funds will be required in the next decade to cap the landfill cells and ensure post closure management. The Long-Term Financial Plan 2024-2025 to 2033-2034 includes these costs, derived from the Landfill Rehabilitation Model.

Figure 13: Bike recycling at Henderson Waste Recovery Park.

Performance Measures and Targets

Progress against this Strategy is reviewed in the City’s Annual Report and annual State of Sustainability Report. The City has developed targets for waste avoidance and resource recovery. These targets will be realised through ongoing leadership, financial commitment and effective implementation actions, as outlined in Appendix 1.

The five-year review also provided the opportunity to report on the implementation status of the Strategy and actions identified in the Implementation Plan.

Measurement 1 – Waste Avoidance

The State Government’s Waste Avoidance and Resource Recovery Strategy 2030 sets a target for the reduction in municipal solid waste generation per capita by 10% in 2030, based on a 2014/15 baseline.

Waste generation figures include waste from:

- Kerbside bins (general waste, recycling and garden organics);
- Bulk verge collections;
- Residential drop off to Henderson Waste Recovery Park;
- Public place bins; and
- Events bins.

Through the five-year review, the City has committed to meeting the State Government target by the end of the Strategy implementation period (2030). The City’s actual waste generation rates and target are shown in Table 2.

Table 2: City of Cockburn Waste Avoidance Target

	Actual waste generation			Avoidance target
	2014-2015 baseline	2020-2021	2023-2024	10% reduction by 2030
Waste generation per capita per year (kg)	585	570	555	497

Measurement 2 – Waste Recovery

The City’s overall material recovery targets for 2025 and 2030 are in line with the State Government’s targets as outlined in the Waste Avoidance and Resource Recovery Strategy 2030 (Table 3).

Table 3: Western Australia and City of Cockburn community material recovery targets

	Actual waste generation		Recovery target	
	2020-2021	2023-2024	2025	2030
Waste recovery rate	30%	30%	70%	75%

Waste recovery rates are expected to increase with the commencement of general waste deliveries to the East Rockingham Waste Recovery Facility in 2025.

Figure 1: City of Cockburn Reuse Shop, Henderson Waste Recovery Park

Risks

Strategic risks relating to waste management have been identified in the City's Corporate Risk Management Framework and the 5 year review of the Strategy, as follows:

- Introduction of energy recovery facilities and implications for volumes of waste accepted at HWRP;
- Delays in the commencement of the East Rockingham energy recovery facility accepting the City's waste;
- Changes in legislation (e.g., to mandate waste avoidance and recovery targets or change waste levy obligations);
- Failure to adequately provide for ongoing management of the HWRP, including post-closure responsibilities of the landfill;
- Unacceptable environmental impacts due to activities at the HWRP;
- Inability to collect household waste and operate the HWRP, including the provision of community drop-off facilities;
- Lack of engagement with and education of the community regarding waste avoidance and recovery;
- Outcomes of public consultation on verge bulk waste collection services;
- Ability to attract and retain trained and experienced waste services employees; and
- Failure to maintain financial sustainability of waste services unit.

The City has considered these risks in the development of this Strategy and associated Implementation Plan and aims to mitigate these risks as far as is reasonably practical.

Figure 2: Event bins at Bibra Lake Fun Run

Annex 1 – Implementation Plan

Table 4 outlines the actions which the City of Cockburn will take over the next five years to contribute to the achievement of relevant Waste Strategy objectives and targets. This Implementation Plan is based on the approved City of Cockburn Waste Plan (Part 2-Implementation Plan), September 2020.

Table 4: Implementation Plan

Waste Management Tool	Action	Detailed actions/sub-actions	Milestones	Target	Timeframe for delivery (completion date)	Implementation cost	Aligns to Waste Strategy Objective/s			Responsibility for implementation	Status of action at five-year review
							Avoid	Recover	Protect		
Behaviour change programs and initiatives	Implement waste education campaign including school waste education programs, waste education workshops and events, community tours to HWRP, Council staff waste education programs and Council recycling facilities	Resource Recovery Calendars; Deliver 6 HWRP tours for school groups; Deliver 4 incursions to schools;	2. Review website monthly to ensure A-Z of waste is up to date with Consistent Communications updates. 3. Incorporate WasteSorted toolkit resources onto all applicable materials. 4. Prepare and distribute resource recovery calendar to residents annually by 1 July. 5. 6 HWRP tours in 2025/26. 6. 4 incursions in 2025/26. 7	12% domestic per-capita waste reduction by 2025 (on 2014-15 baseline). 67% overall domestic material + energy recovery by 2026 (on 2014-15 baseline). Ensure at least 20% of Sustainable Living Events are waste-related.	2024/25	Y – OP	X			Waste Education Coordinator	Ongoing-updated
	Fully fund a permanent Waste Education Officer	Add Waste Education Officer position to Workforce Plan and secure budget.	Workforce plan approval by March 2026.	Waste Education Officer to be in role by end 2027	2026/27	Y – OP	X			Waste Manager	Ongoing and updated
	Encourage and promote waste initiatives via the Sustainability Grants Program	Continue to support waste-related grant proposals.	Review and assess Sustainability Grant Proposals in March annually.	20% of all grants issued to address waste-related issues.	Ongoing	N/A	X			Waste Education Coordinator	Ongoing-updated
	Review the feasibility of creating waste virtual tours	Investigate the possibility of producing virtual tours of HWRP to be delivered from the Waste Education Centre or online.	Decision to be made on feasibility of creating a virtual tour prior to development of interpretive signage	Feasibility study to be completed by end 2022/23	2022/23	N/A	X			Waste Education Coordinator	Closed

Waste Management Tool	Action	Detailed actions/sub-actions	Milestones	Target	Timeframe for delivery (completion date)	Implementation cost	Aligns to Waste Strategy Objective/s			Responsibility for implementation	Status of action at five-year review
							Avoid	Recover	Protect		
	Review the feasibility of adopting a WALGA endorsed Waste App to reduce printing	Engage with community on preferences for waste information by including a question in community survey; Review community feedback, costs and benefits; Prepare report to executive with recommendation.	Report to council for decision on utilising externally developed Waste App by end 2021/22.	If approved, app to be rolled out before start of 2022/23.	2022/23	N/A	X			Waste Education Coordinator	Closed
	Identify new business and residents through the 'New Bin Request System' for distribution of waste education information	Investigate opportunity to provide waste separation and disposal information to residents when new bins are delivered.	Liaise with Waste Collection Team to ensure that waste education materials are provided to all new household by July 2030.	System for providing information to new residents to be operational by July 2030.	2030	N/A		X		Waste Collection Coordinator	Ongoing-updated
	Continue to implement a preventative Illegal Dumping Program	<ul style="list-style-type: none"> - Development of new system for capturing illegal dumping data through ESRI system; - Roll out tablets to illegal dumping crew to receive jobs and capture data; - Continue attending Roundtable on Illegal Dumping meetings; - Continue engaging with internal illegal dumping working group. 	<p>New illegal dumping data capture system to be developed by end 2020/21.</p> <p>2021/22 to form new baseline for ongoing measurement.</p>	10% reduction in illegal dumping by 2030 based on 2021/22 baseline.	New data system to be completed by end 2030	N/A			X	Waste Collection Services	Ongoing-updated

Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes

That Council ENDORSES the induction into the City's Inaugural Arts Hall of Fame of the nominees listed in the attached Arts Hall of Fame Nomination Assessment.

CARRIED 9/0

Background

At the July 2024 Ordinary Council Meeting, Council endorsed the Arts Hall of Fame Policy to recognise and promote the significant contributions arts practitioners make to the cultural life of the City of Cockburn.

The City of Cockburn Arts Hall of Fame celebrates individuals who have a strong association with the City of Cockburn and have attained significant prominence in their chosen field of endeavor within the arts.

The Arts Hall of Fame will be established at Memorial Hall in Hamilton Hill, featuring a series of commemorative plaques honouring the inductees.

The Cockburn Arts Hall of Fame has been established to:

- (1) Recognise and celebrate the achievements of people who have a strong association with the City of Cockburn and have made a significant contribution in their field of endeavour within the arts.
- (2) Be an aspirational resource, to inspire current and future generations of arts practitioners in the City of Cockburn.
- (3) Be a source of civic pride.
- (4) Showcase the achievements and contributions of the City of Cockburn arts practitioners to the broader state, national and international community.

The selection criteria for selecting the successful nominees are as follows:

- (1) To demonstrate outstanding artistic achievement and contribution to the arts at a local, national, or international level.
- (2) To show cultural impact in their chosen field within Western Australia, Australia or internationally.
- (3) To be recognised by accomplishments, awards or critical acclaim that reflect and demonstrate a commitment to excellence and professionalism in the arts.

Inductees must have resided within the City for a minimum of five years within their lifetime to be eligible, and nominations opened in January and closed at the end of March.

The Arts Hall of Fame will be celebrated with an awards presentation event on 12 June as part of the Makuru Winter Festival event occurring through June in Memorial Hall.

Submission

N/A

Report

The exceptional calibre of nominees recommended for the inaugural Arts Hall of Fame reflects the significant contributions that these respected arts practitioners, residing within the City of Cockburn have made to the arts community.

Eligibility extended beyond accomplished arts practitioners to also include arts professionals who have made meaningful contributions by supporting and enhancing the creative process.

The selected nominees represent a diverse cross-section of the arts, including visual arts, music, dance, arts and disability, and advocacy.

Strategic Plans/Policy ImplicationsCommunity, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

- Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

Budget/Financial Implications

\$20,500 has been allocated in the FY24/25 budget to hold an official Civic event recognising the inaugural inductees and for the manufacture and installation of plaques at Memorial Hall

Legal Implications

N/A

Community Consultation**Nominations**

The call for nominees was disseminated to the public through multiple channels over eight weeks:

- The City's website and social media channels
- Directly to artists and arts groups and organisations via the Cockburn Creatives Database comprising of some 200 or more members.
- The City's Soundings newsletter
- The City's internal communications channels.

Risk Management Implications

Reputational loss from the Arts and wider community regarding the City's commitment to arts and culture programming.

A low level of risk is associated with the Arts Hall of Fame where residents may object to the inclusion/non-inclusion of individuals.

14.5 Office of the CEO

14.5.1 (2025/MINUTE NO 0079) Australian Local Government Association National General Assembly (NGA) - Voting Delegate

Responsible Executive	Chief Executive Officer
Author(s)	Service Lead Governance and Council Support
Attachments	N/A

Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes
That Council:

- (1) APPOINTS the Mayor as the City of Cockburn voting delegate for the Australian Local Government Association (ALGA) National General Assembly (NGA) for all future NGA; and
- (2) APPOINTS the Deputy Mayor as the alternate (proxy) voting delegate, for all future NGA where the Mayor does not attend the NGA or is not present during the voting of motions;
- (3) RESOLVES that, for all future NGA, if both the Mayor and Deputy Mayor are not attending the NGA, that Council will appoint a delegate from those attending the Assembly; and
- (4) Further RESOLVES that, for all future NGA, where a voting delegate has not been appointed by Council, or has been appointed and is not present during the voting of motions, that the CEO or their nominee attending the Assembly is authorised to vote on motions on behalf of the Council.

CARRIED 9/0

Background

The Australian Local Government Association (ALGA) National General Assembly (NGA) will take place on Tuesday 24 June 2025.

This year's theme is "National Priorities Need Local Solutions" and focuses on the important role local government plays in delivering place-based initiatives that help address the nation's biggest challenges.

The National General Assembly provides an opportunity for Council to participate and contribute to the future of local government at a national level, through attending, debating and voting on motions raised by Council's across Australia.

This year, the Mayor, Deputy Mayor, CEO and other staff are attending the NGA.

Submission

N/A

Report

The Council has traditionally appointed the voting delegate for the Australian Local Government Association (ALGA) National General Assembly (NGA) by resolution each year.

To streamline the process, it is proposed that the office of the Mayor is appointed as the voting delegate moving forward, as it is this office which is the official spokesperson for the local government.

To deal with a situation where the Mayor is not attending the NGA, or is attending but not present during the voting of motions, it is proposed that the office of the Deputy Mayor is appointed as the alternate voting delegate (proxy).

In the event neither the Mayor or Deputy Mayor are attending, then it is proposed that Council then appoint the voting delegate from those Elected Members attending the NGA.

In the further event where no voting delegate has been appointed by Council, or has been appointed but is not present during the voting of motions, that the CEO or their nominee attending the Assembly is authorised to vote on motions on behalf of Council.

It is not a requirement to appoint a voting delegate, however the Council has resolved to do so on previous occasions.

It is expected that the voting delegate will cast their vote on every motion in accordance with the any endorsed position or policy of Council.

Officer Recommendation/Committee Recommendation/Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes

That Council RECEIVES the FY25 Quarter Three Status Report on the progress of the Corporate Business Plan Key Performance Indicators.

CARRIED 9/0

Background

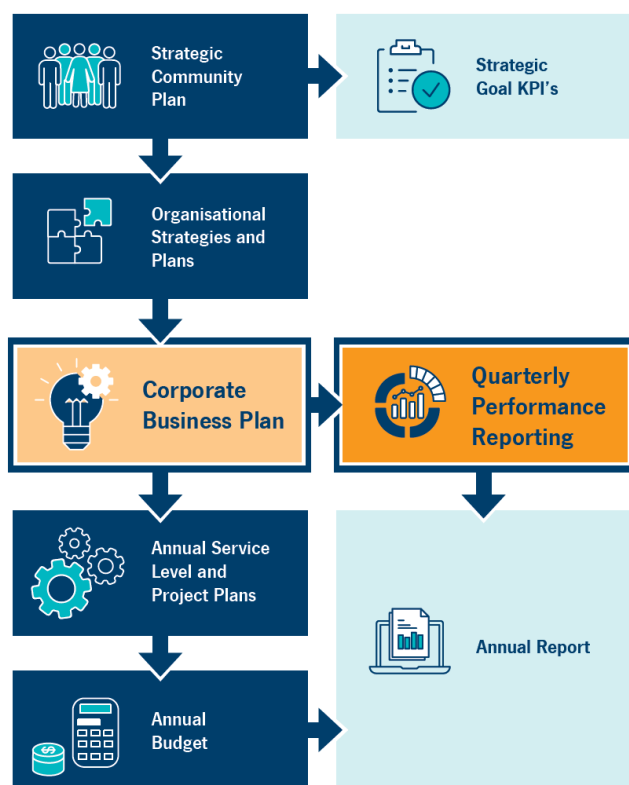

Figure 1: City of Cockburn Strategic Framework

The Corporate Business Plan (CBP) is a business planning document that translates the Council's priorities, as set out in the Strategic Community Plan 2020 – 2030 (SCP), into outcomes within the resources available to the City.

The City of Cockburn Corporate Business Plan (CBP) outlines various strategic projects, service areas, and financial summaries, ensuring that the council's operations are aligned with the community's needs and expectations.

The CBP is a rolling four-year plan that informs the annual budget and is reviewed and updated annually to ensure it aligns with the City's Long-Term Financial Plan (LTFP).

It also includes Key Performance Indicators (KPIs) to measure the success of various projects and initiatives.

Council adopted the Corporate Business Plan (CBP) Key Performance Indicators (KPIs) at the 25 June 2024 Special Council Meeting. CBP KPI progress is reported quarterly through the Organisational Performance Committee.

This report presents the FY25 Quarter 3 (Q3) CBP KPI progress.

Submission

NA

Report

Overall FY25 CBP KPI Progress

The CBP KPIs track delivery of the CBP items.

Accountability for the CBP KPIs is allocated to the Director responsible for delivering the outcome. Responsibility then cascades to a Senior Leadership Team (SLT) member, being a direct report to the Director.

The Q3 status report on the progress of the CBP KPIs for FY25 (1 January 2025 to 31 March 2025) has been provided (refer Attachment 1).

The overall annual progress of the CBP KPIs progress is in Table 1 and the Q3 milestones in Table 2.

In summary:

- The majority (67%) of CBP KPIs are “on track”
- 12% of the annual KPIs are “complete”
- 7% are “at risk” of running behind schedule
- 7% of KPIs are “off track” concerning the annual progress.
- 7% of KPIs were reforecasted at the CBP Mid-Year Review

The overall progress of strategic outcomes is largely positive, with 67% of projects on track and an additional 12% completed.

The Listening and Leading and Environmental Responsibility categories are high performing, with all projects either completed or progressing as planned. However, some challenges exist, notably within City Growth & Moving Around and Community, Lifestyle & Security.

Three projects are currently off track, including the Investment Attraction Plan under Local Economy and two Black Spot Road Projects under City Growth & Moving Around. Additionally, three projects are at risk, being the Beale Park Redevelopment, Stage 4 Marina Expansion Business Case, and Beeliar Dr / Dunraven Dr New Signals, which require close monitoring.

Table 1: CBP KPI Annual Progress

CBP KPI's - Overall Annual Progress			
OVERALL PROGRESS		NUMBER	PERCENTAGE
COMPLETE	Annual KPI achieved	5	12%
ON TRACK	Annual KPI is currently meeting or exceeding its target goals	29	67%
NOT COMMENCED	Annual KPI has not yet started and no progress has been made towards its delivery.	0	0%
AT RISK	A risk(s) has been identified that may delay or impact delivery of the annual KPI.	3	7%
OFF TRACK	Needs Attention. There are issues that have or will impact achievement of the annual KPI	3	7%
REFORECAST	Timeframe of the annual KPI has been reforecast to the following financial year.	3	7%
REMOVED	KPI no longer being delivered.	0	0%
TOTAL		43	100%

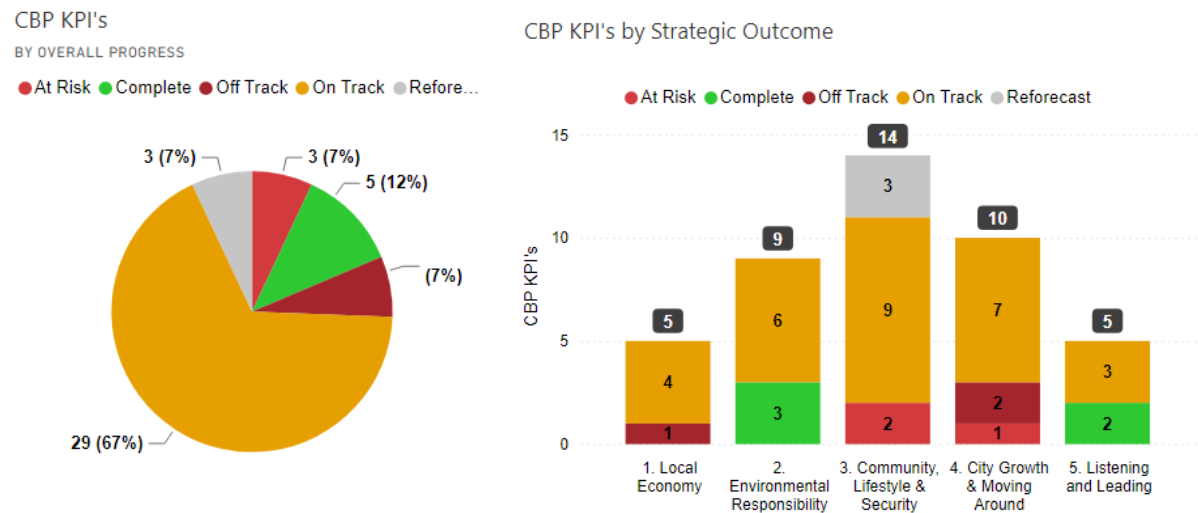

Figure 2: CBP KPI Overall Annual Progress by Strategic Community Plan

Quarter 3 Milestones

As we move through Q3 and approach the end of the financial year, it is crucial to maintain focus and momentum to ensure the successful delivery of key projects. The current status of incomplete projects may be an early indicator of how the final financial year results will shape up, highlighting areas that need attention.

The Q3 CBP KPI’s (refer Table 2) are more representative of current KPI delivery. In summary:

- The majority (84%) of Q1 milestones are complete.
- 16% of Q1 milestones are “off track”.

Table 2: CBP Q3 Milestone Summary

CBP KPI's – Q3 Milestones			
Q3 MILESTONES		NUMBER	PERCENTAGE
COMPLETE	Milestone complete	36	84%
OFF TRACK	Milestone not complete	7	16%
TOTAL		43	100%

The Quarter 3 progress results indicate strong overall performance across the council's strategic outcomes. Out of the total projects, 38 (84%) have been completed, while 7 (16%) are off track, highlighting generally effective project management with some areas requiring additional attention.

In the Local Economy outcome, 5 out of 6 projects (83%) have been completed, demonstrating solid progress in business engagement, investment attraction, and innovation initiatives. Only one project is off track, suggesting minor delays but overall positive momentum.

The Environmental Responsibility outcome stands out with a 100% completion rate (9 out of 9 projects), reflecting a strong commitment to sustainability and efficient execution of environmental initiatives.

For Community, Lifestyle & Security, 10 out of 13 projects (77%) have been completed, while 3 projects (23%) are off track. The off-track projects mainly involve infrastructure redevelopments and expansions, such as park upgrades and community facilities. While these delays may impact timelines, the majority of community projects are progressing as planned.

The City Growth & Moving Around outcome has seen 5 out of 9 projects (56%) completed, but 4 projects (44%) are off track, primarily in road safety and infrastructure improvements. Delays in approvals and contractor engagement appear to be key challenges.

Finally, the Listening and Leading outcome has performed well, with a 100% completion rate (5 out of 5 projects). Successful delivery of service reviews milestones, administrative improvements, and technology upgrades suggests the council is effectively addressing internal efficiencies and governance.

Overall, the council has achieved a high completion rate Q3 milestones at 84%, with only 16% of projects off track. While infrastructure and redevelopment projects face some delays, strong progress in environmental initiatives, community programs, and governance improvements indicates that the CBP KPIs remain largely on track with the strategic commitments.

Figure 3: CBP KPI Q3 Milestone Progress by Strategic Community Plan

Attachment 1

Full details of KPI and milestone progress is presented at Attachment 1 which is colour-coded to indicate the progress and status of the CBP KPIs:

- **Green** indicates the KPI is “complete”
- **Orange** indicates the KPI is “on track” or has “not commenced”
- **Red** indicates the KPI is “at risk” or “off track”
- **Grey** indicates the KPI is “reforecast”.

15.1.2 (2025/MINUTE NO 0081) Service Review Update - Waste Services

Executive	Director Corporate and System Services
Author	Strategic Business Analyst
Attachments	1. Waste Services Review Purpose and Key Research Questions ↓

Officer Recommendation/Committee Recommendation/Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes

That Council NOTES progress of the Waste Services Review, and progress on the remaining four (4) priority service reviews.

CARRIED 9/0

Background

The City has launched a three-year Service Review program starting with a staged review higher-priority services.

The proposal to review five priority service areas, including Waste Services, was endorsed at the 28 August 2024 Organisational Performance Committee.

All reviews utilise a service review methodology¹ tailored to local government needs. The methodology has been developed by the University of Technology Sydney (UTS) Centre of Excellence for Local Government.

A major outcome of the reviews is identification of ways to meet community needs, increase efficiencies and reduce the operating costs of these services.

Review of each service is expected to take seven months.

This paper provides the Committee with an update of progress against the Waste Services Review and high-level status of the other two services also under review.

Submission

N/A

Report

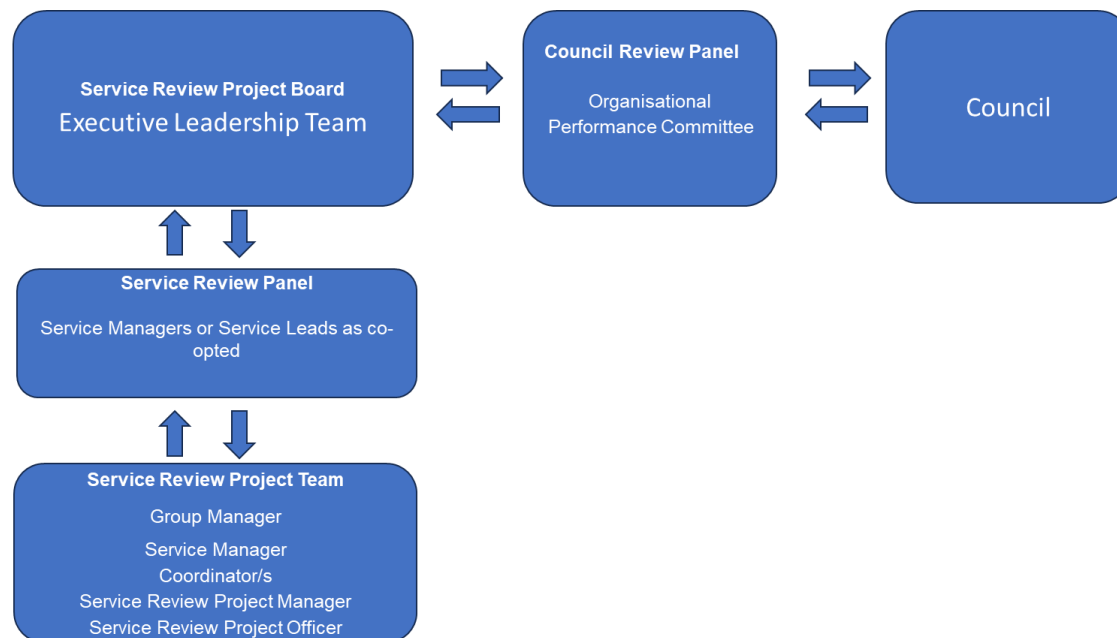

The Waste Services Review commenced in January 2025, with an internal project team (the Team) undertaking the work. This comprises a project manager and project officer from the Corporate and System services group, and representatives from the Waste services team.

¹ Hunting, S.A., Ryan, R. & Robinson, T.P. 2014, *Service delivery review: a how to manual for local government*, 2nd edn, Australian Centre of Excellence for Local Government, University of Technology, Sydney.
[Service-Delivery-Review-Manual.pdf \(uts.edu.au\)](#)

In utilising an internal team, the aim is to bring knowledge into the process, build organisational capacity, and help make implementation more effective.

Governance

The Waste Review adopts the following governance review structure.

Service Review Project Board

- Provide overall direction and leadership for the Review
- Approve priorities and schedule
- View all ideas generated
- Develop and endorse Service Review deliverables
- Make Go/No Go recommendations
- Endorse recommendations for consultation and implementation
- Assist with the removal of roadblocks where required.

Organisational Performance Committee (OPCo)

- Review progress/information updates
- Receive and assess Review findings and recommendations relating to service model, service level or fee changes
- Make recommendations to Council relating to service model, service level or fee changes.

Council

- Receive progress/information reports
- Receive and endorse recommendations relating to service model, service level or fee changes
- Work with the CEO to achieve improvement outcomes.

Service Review Panel

- Review draft deliverables and provide feedback to the Service Review Project Team
- Sense check service review scope, findings, and recommendations, particularly considering Council's strategies, legislative requirements and local laws.

Service Review Project Team

- Carry out Service Reviews as per the agreed methodology
- Conduct service delivery review
- Engage with stakeholders to gain understanding of service delivery experience
- Undertake necessary research to inform the project
- Analyse options and prepare recommendations
- Investigates ideas and issues as they arise
- Provide stakeholders with updates on how their ideas are progressing.

Review Methodology

In following the agreed methodology, the Waste Services Review utilises a three-stage structured approach:

1. **Chart Phase:** Scope, plan and design the Review
2. **Execute Phase:** Undertake the research, distil and analyse, report findings
3. **Action Phase:** Communicate findings, create Action Plans, share and learn.

Waste Service Review Progress to date**Chart Phase**

- The Scope, Project Plan and Design have been completed. Major outputs from the phase are the Purpose and Key Research Questions that will drive the analysis and formulation of Review recommendations. These have been developed in consultation with key stakeholders (refer Attachment 1).

Execute Phase

- An investigation has been conducted to inform the Key Research Questions. This involved a comprehensive analysis, including a desktop review (best practice, evidence-based research, state and Council strategies and plans, learnings from other local government areas, demographic, population and change drivers); internal data (service activity and trends, budget and financial implications, service outputs and outcomes); and stakeholder engagement (customer survey, stakeholder interviews and community-based group feedback).
- A Waste Priority setting workshop was conducted on 25 February 2025 with Elected Members to identify Council's ranked priorities and preferences in delivering waste services. Scenarios were presented for review, which showed projected costs and expected progress towards waste recovery targets to 2034. Feedback from this workshop will inform the Council's Waste Strategy 2020-2030 five-yearly update and has been incorporated into the Review analysis.

- Analysis of the service is now nearing completion, and a summary of results is being prepared. From this summary, the draft Recommendations for Waste Services will be created.
- Council have requested consultation commences to determine community preferences for bulk waste verge collection. The results from this consultation will assist in finalising the draft Recommendations for review. The Waste Services Review team are liaising with Communications and Engagement around the timings for this work.
- Upon completion of the community engagement above, the draft Recommendations will be submitted to the Project Board and the Organisational Performance Committee for their review.

Progress of other service reviews

The remaining priority service reviews are progressing as follows or are scheduled to begin in the next few months.

Review Priority Area	Commenced	Current Phase	Expected Completion
Environment, Parks and Streetscapes	November 2024	Execute	June 2025
Customer Experience	January 2024	Chart	August 2025
Business Systems	Scheduled to commence June 2025		
Assets-Projects	Scheduled to commence July 2025		

Strategic Plans/Policy Implications

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.
- High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

Project management and support of the Waste Services Review utilises existing budget allocation for the Corporate and System Services directorate.

Strategies for cost savings identified through the Review will be presented to the Expenditure Review Committee through the Waste Services Review Recommendations paper.

Legal Implications

N/A

Community Consultation

Community engagement will be conducted through the bulk waste verge collection consultation, which is currently being developed by the Communications and Engagement Service Team. This process will incorporate findings from both the City's Liveability Survey 2024 and the Communities Thrive Customer Satisfaction Research 2025.

Risk Management Implications

It is recognised that during the Waste Services Review process any proposed changes must be reviewed to ensure the City manages its exposure to risk appropriately.

The process will link to the City's risk management processes to ensure appropriate risk assessment is undertaken and updates made to the Corporate Risk Register as required. Any significant risks identified will be elevated to Council in line with standard risk management processes.

Waste Services Review Purpose and Key Research Questions

Review Purpose:

The Waste Services review seeks to implement evidence-based recommendations that balance environmental sustainability, fiscal responsibility, whilst maintaining customer focus in waste management practices.

Key Research Questions:

Defining a fit for purpose waste service:

1. What defines a **fit-for-purpose level** of waste service for the City or the region, and how do we balance available resources and community needs?

Maintaining a fit for purpose waste service:

1. What strategies, innovations or uptake of new systems or technologies can be adopted to improve sustainability of Waste Services, and how can they best **meet the City's current and future (10 year) needs?**
2. How is the City working towards better practice **in waste management** and enhanced sustainability of our waste services, including:
 - a. learning and adopting evidence-based best practice of other LGAs?
 - b. meeting our stated strategic objectives, targets, and customer outcomes?
 - c. planning for a financially sustainable and an achievable level of service delivery?
 - d. strengthening compliance with legislative requirements?
 - e. as a model, best placed to provide the service?

Demand Management; reducing waste generation:

1. How can we shift community/customer focus and encourage adoption of contemporary and effective practice to avoid and reduce generated waste, rather than seeking to manage increasing waste volumes?
2. Current city service provision in this space includes waste education and promotion of circular economy principles. How can we determine if the city's current waste reduction approach is effective and fit for purpose?
3. How can the City improve communication through broader or increased channels to engage, promote and support Waste Education initiatives?

Landfill Management:

1. Given the findings to the above questions, what are the **future management and budgetary considerations for the Henderson Waste Recovery Park** particularly concerning:
 - i. Landfill management?
 - ii. Leachate management?
 - iii. DWER contaminated site compliance and management?

General, across Waste Continuum

1. What **other issues** should be considered relating to waste services, including but not limited to:
 - a. How can we proactively plan for and address internal factors, such as internal support services that may impact on the delivery of waste services?
 - b. What external factors such as procurement challenges, supply chain delays, new fleet delivery issues, and labour market conditions are affecting service delivery, and how can they be mitigated?

15.2 Governance Committee Meeting – 15/04/2025

15.2.1 (2025/MINUTE NO 0082) Amendment to Local Planning Policy 5.18 - Street Trees

Executive	Director Planning and Sustainability
Author	Landscape Officer
Attachments	1. Proposed Local Planning Policy 5.18 - Street Trees (Track Changes) ↓ 2. Proposed Local Planning Policy 5.18 - Street Trees ↓

Officer Recommendation/Committee Recommendation/Council Decision

MOVED Cr P Corke SECONDED Cr M Separovich

That Council:

- (1) ADOPTS the Draft Local Planning Policy 5.18 (as amended) for the purposes of advertising provided as Attachment 1; and
- (2) ADVERTISES the Draft Local Planning Policy 5.18, as per Recommendation 1 above, in accordance with Clause 4 of the Planning and Development (Local Planning Schemes) Regulations 2015; Procedure for making local planning policies.

CARRIED 9/0

Background

Local Planning Policy (LPP) 5.18 - Street Trees was adopted by Council on 10 November 2022.

The objective of the policy is to increase the number of street trees in the City's road reserves, in new and infill areas, and provide a framework for their installation and management associated with subdivision and development within the City.

The policy applies to land, which is zoned Residential, Regional Centre, District Centre, Local Centre, Mixed Business, Mixed Use, Light and Service Industry and Industry.

The policy has been amended to include tree removal requirements, align with current fees and charges, apply to the entire Local Government area, and to establish a clear standard for new tree plantings.

Submission

N/A

Report

The provisions of LPP 5.18 have been mostly retained, with the below changes being proposed:

1. Street tree contribution fee update: The existing \$600 fee for street tree contributions has been removed. The fees are now specified in the City's Fees and Charges Schedule (currently set at \$980 + GST). This approach ensures that fees remain current and can be adjusted as needed without requiring a policy review.
2. Inclusion of street tree removal requirements: The previous policy did not address street tree removals. The revised policy formalises the requirement for financial contributions related to tree removals associated with planning applications. This strengthens the City's ability to recover costs for removals and asset loss while encouraging the retention of existing street trees.
3. Developer planted street trees: Developers will now have the option to plant street trees as part of their Development Application landscaping plan or to meet subdivision clearance requirements. Previously, only bonding, or financial contributions were accepted by the City. This amendment provides greater flexibility for proponents while reducing the burden on City resources for tree planting.
4. Improved planting and procurement standards: The previous policy was absent on formal standards for street tree planting and procurement. The revised policy introduces new requirements for subdivisions and Development Applications to address concerns from the Streetscape Team regarding poor tree stock, soil quality, and substandard planting practices. Developers will be held accountable for the quality of tree planting, particularly in commercial and industrial developments, where compliance evidence must be provided before an occupancy permit is issued. These changes will improve planting outcomes, reduce the City's long-term costs for replacement planting, and result in healthier, more robust trees.
5. Reduced administration: For large-scale, multi-stage subdivisions, the policy now includes an option to bond only the final stage of development. This reduces the administrative burden of managing multiple bonds for low-risk subdivisions while maintaining oversight of tree planting commitments.
6. Expanded scope: The policy has been updated to apply to the entire Local Government area, rather than being limited to specific zones. This ensures consistency across all areas and future-proofs the policy against potential zoning changes or ambiguities.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

- A City that is 'easy to do business with'.

Item 15.2.1

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

- Protection and enhancement of our natural areas, bushland, parks and open spaces.
- Address Climate Change.

City Growth and Moving Around

A growing City that is easy to move around and provides great places to live.

- An attractive, socially connected and diverse built environment.

Budget/Financial Implications

N/A

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

Should Council resolve not to adopt the draft policy, several challenges may arise:

- 1) Increased maintenance costs: Without formal planting and procurement standards, poor-quality tree stock and planting practices may continue to be used. This would result in higher maintenance and replacement costs for the City, placing additional strain on operational resources.
- 2) Reduced canopy coverage: Substandard planting practices and poor tree stock contribute to lower survival rates and slower canopy growth. This would negatively impact the City's long-term objectives for urban greening, shade provision, and environmental benefits.
- 3) Financial constraints: Without the proposed price adjustment for street tree contributions, the City's resources for tree planting and maintenance will be constrained. The existing fee structure does not reflect current costs, limiting the City's ability to effectively manage and expand the urban forest.

Advice to Proponent(s)/Submitters

Implications of Section 3.18(3) Local Government Act 1995

N/A

8:15pm Cr Allen departed the meeting and did not return.

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

Policy Type

Local Planning Policy

Policy Purpose

The City of Cockburn (City) manages over ~~35,000~~ 65,000 street trees which benefit our City and suburbs in many diverse ways. These include:

- Providing pedestrians and cyclists with cooler and more attractive access ways throughout the City;
- Improving air quality;
- Providing habitat for native fauna;
- Reducing heat island effect; and
- Enhancing the character and attractiveness of our suburbs.

The City recognises the importance of trees in contributing to the health and well-being of our communities and is therefore committed to:

- Preserving the City's Urban Forest through tree protection and maintenance programs;
- Increasing the number of street trees on verges through proactive planting programs and plantings associated with the subdivision and development of land; and
- Increasing the canopy coverage throughout the City.

The purpose of this policy is to increase the number of street trees in the City's road reserves, in new and infill areas, and provide a framework for their installation and management.

This supports Council's *Strategic Community Plan 2020 – 2030*, and the specific objectives to "address climate change" and "protection and enhancement of our natural areas, bushland, parks and open spaces". Council's objective will be measured and become achieved through the provision of new street trees, associated with subdivision and/or development within the City.

This policy also reflects community feedback which lists streetscape appearances, as a high community priority in Cockburn.

Policy Statement

(1) Background

The policy has due regard to, and should be read in conjunction with, the following Western Australian Planning Commission (WAPC) State Planning Policies (SPP) and operational policies:

[1]

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

- SPP No. 3.0 (Urban Growth and Settlement)
- SPP No. 7.3 (Residential Design Codes)
- Liveable Neighbourhoods (WAPC 2009)

This policy has due regard to and should be read in conjunction with the following City of Cockburn Policies:

- Local Planning Policy 1.2 'Residential Design Guidelines'
- AEW1 'Street Verge Improvements'
- SEW1 'Maintenance of Public Open Space and Road Reservations following Residential Subdivision'
- ~~City of Cockburn – Good Design Guide – Commercial Lot Development~~
- ~~City of Cockburn – Verge Development Guide – Residential Verges~~

(2) Application

~~This policy applies to land which is zoned Residential, Regional Centre, District Centre, Local Centre, Mixed Business, Mixed Use, Light and Service Industry and Industry. This policy applies to the entire Local Government area.~~

This policy is made pursuant to City of Cockburn Town Planning Scheme No. 3 (TPS 3).

(3) Provisions

3.1 Requirement for street trees:

Street trees are required at both a subdivision and development stage, as follows:

3.1.1 Subdivision:

Once an applicant, subdivider, developer or landowner as the case may be (hereafter referred to as "proponent") receives a subdivision approval from the Western Australian Planning Commission which involves civil works, a condition will require that they must first prepare detailed engineering/civil works drawings for submission and approval by the City, prior to the commencement of works.

For the purposes of approving the civil /engineering drawings, this policy requires these drawings to indicate the provision of street trees to be planted on both sides of all streets within the subdivision application area, and how they will be maintained.

3.1.2 Development:

~~An applicant, developer or landowner as the case may be (hereafter~~

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

~~referred to as “proponent”~~) A proponent receiving a development approval from the City of Cockburn (except those for two grouped dwellings or a Single (R-Code) House), will receive a condition imposed on such approval for the requirement to install and maintain street tree/s where the adjoining verge has an inadequate amount of street trees.

3.1.3 Removal of existing street trees:

A proponent receiving a development approval from the City of Cockburn, where a development seeks to make modifications to the verge, creates a crossover for access, or any other works that results in the need for removal of an existing street tree, will receive a condition imposed on such approval for the requirement to provide compensation for the removal of the asset and/or install and maintain new street tree/s.

Compensation will be determined by the cost of tree removal, the cost of stump removal, the cost of new tree planting, the cost of establishment watering, as well as the loss in asset value of the tree being removed, as determined by the Helliwell tree valuation method.

Unless specified, the City will be responsible for all works associated with the removal of the tree and stump and the replanting and establishment of new tree/s. All payments are to be made to the City prior to the removal of the tree.

3.2 Quantity of trees required:

Street trees are to be provided at the rate listed below.

3.2.1 Subdivisions:

One street tree per lot or in the case of lots less than a 10m width, at a rate to be determined by the City.

3.2.2 Development subject to the R-Codes (except those for two grouped dwellings or a Single (R-Code) House):

One street tree per dwelling, or in the case of lots less than 10m of linear lot width to a public road reserve, at a rate to be determined by the City.

3.2.3 Removal of street trees:

A payment to the City to cover the cost of removal of street tree/s and associated stump grinding, the replanting and watering of new replacement street tree/s as well as a compensatory payment to the

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

City for the loss of asset value of the tree/s. Refer to the City's current Fees and Charges List.

3.2.4 All other development:

One tree per 10m of linear lot width to a public road reserve or at a rate to be determined by the City where agreed upon between the applicant and the City.

3.3 Options for clearance:

~~In order~~ To satisfy the conditions of the WAPC subdivisional approval or City of Cockburn development approval noted above, the following ~~two~~ **three** options are ~~to be used~~ available (subject to City support):

3.3.1 **Option1:** Proponent provides contribution payment to City of Cockburn who then takes responsibility for planting and management.

In this option, the proponent pays the City ~~\$600 per street tree required~~ **a monetary value as listed in the City's Fees and Charges List per street tree required**. This payment must be receipted by the City prior to the practical completion certification of the civil works for subdivision or issue of building permit for development.

In receiving this contribution, the City will purchase, install and maintain all street trees. Installation will occur at the most optimal time in the opinion of the City.

3.3.2 **Option 2:** Proponent plants the trees.

In this option, the proponent plants the required number of trees as depicted in the approved plans. The planting must be done prior to seeking clearance for subdivision or issue of building permit for development. A qualified arborist or landscaping contractor must carry out the work. To ensure that the trees are of good health and have the highest possible chance of success, the following must be demonstrated for each tree:

- **Source of Trees** – Trees must be sourced from an accredited nursery and comply with AS 2303:2015 standards. They should generally be single stemmed with an appropriately sized calliper/trunk diameter and capable of standing upright unassisted within a container. Tree roots must be well established but not container bound, with no "J" roots touching the bottom of the bag.
- **Health of Trees** - Trees must be a healthy specimen typical of its growing habit, free of disease or notable defects, such as

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

snapped branches, poor form, ring barking, pollarding or thinned canopy.

- **Planting Location** – Trees must be planted in the exact locations specified in the approved plan.
- **Excavation of Soil** – The existing soil must be excavated and removed to a minimum dimension of 1500mm x 1500mm x 500mm deep or at least twice the size of the root ball, whichever provides a larger footprint. The final excavation size may be adjusted at the discretion of the City's representative.
- **New Soil** – Backfill with 3:1 site soil to imported soil mix.
- **Granular Wetting** – A soil wetting additive (such as Grosorb) must be evenly incorporated into the backfill soil at a rate of 60 grams per square meter or as specified by the manufacturer.
- **Mulch and Catch Basin** – Apply pine bark or bushland mulch to a depth of 100mm within a 1000mm diameter around the tree root ball. Ensure the mulch is evenly spread, with a berm installed along the 1-metre perimeter.
- **Tree Stakes and Ties** – Secure a 'rainbow tie' at the base of the tree canopy to provide support while allowing natural movement to encourage root establishment. Install two 50x50x2100mm pointed treated pine or hardwood stakes, setting them 450mm into the ground. Ensure the stakes do not pierce the root ball.
- **Irrigation** – Install a dedicated irrigation system capable of providing ongoing water supply to the tree, either in perpetuity or for a minimum of three years until the tree is fully established.

3.3.3 Option 3: Proponent provides the City with a bond for the value of planting and maintaining street trees.

For this option a minimum of ten (10) street trees or more must be required. This option allows the proponent to bond the value of the planting and maintenance of street trees required whilst allowing the applicant to obtain the practical completion certification of the civil works for subdivision or the building permit for development. **Refer to the City's current Fees and Charges List for cost per tree.**

The City will return the bond, only in one amount, once all bonded street trees have been planted and maintained, consistent with any approvals.

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

For multistage subdivisions exceeding 100 lots, the City may consider bonding only the trees present in the final subdivision stage, provided sufficient evidence is presented to demonstrate that tree planting will occur periodically as part of the residential landscaping package, in accordance with the requirements outlined in section 3.3.2.

3.4 Prior to Occupation:

~~For all intents and purposes, where a condition of development approval requires the planting of the trees prior to occupation of the development, in lieu of prior to the issue of the building permit, the City acknowledges that neither option A or B above is applicable or required to clear such condition.~~

A condition of development approval requiring the planting of the trees must be met before occupation. The City may require evidence that the requirements relating to the planting of trees under clause 3.3.2 have been met.

3.5 Species, maintenance, and longevity:

Street trees must comprise of species which will mature to a sufficient size and canopy, and be located to provide sufficient shading of the street verge area, to the satisfaction of the City. The City may require such engineering or development drawings to demonstrate this detail on the relevant plans to ensure no conflict with road infrastructure or services.

3.6 Protection of trees:

All existing or proposed street trees shall be protected from adjoining development in accordance with Australian Standard AS4970-2009 via maintenance of a *Tree Protection Zone* and any relevant measures to ensure protection of the asset accordingly.

Local Planning Policy

Policy Purpose

The City of Cockburn (City) manages over 65,000 street trees which benefit our City and suburbs in many diverse ways. These include:

- Providing pedestrians and cyclists with cooler and more attractive access ways throughout the City;
- Improving air quality;
- Providing habitat for native fauna;
- Reducing heat island effect; and
- Enhancing the character and attractiveness of our suburbs.

The City recognises the importance of trees in contributing to the health and well-being of our communities and is therefore committed to:

- Preserving the City's Urban Forest through tree protection and maintenance programs;
- Increasing the number of street trees on verges through proactive planting programs and plantings associated with the subdivision and development of land; and
- Increasing the canopy coverage throughout the City.

The purpose of this policy is to increase the number of street trees in the City's road reserves, in new and infill areas, and provide a framework for their installation and management.

This supports Council's *Strategic Community Plan 2020 – 2030*, and the specific objectives to "address climate change" and "protection and enhancement of our natural areas, bushland, parks and open spaces". Council's objective will be measured and become achieved through the provision of new street trees, associated with subdivision and/or development within the City.

This policy also reflects community feedback which lists streetscape appearances, as a high community priority in Cockburn.

Policy Statement

(1) Background

The policy has due regard to, and should be read in conjunction with, the following Western Australian Planning Commission (WAPC) State Planning Policies (SPP) and operational policies:

[1]

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

- SPP No. 3.0 (Urban Growth and Settlement)
- SPP No. 7.3 (Residential Design Codes)
- Liveable Neighbourhoods (WAPC 2009)

This policy has due regard to and should be read in conjunction with the following City of Cockburn Policies:

- Local Planning Policy 1.2 'Residential Design Guidelines'
- AEW1 'Street Verge Improvements'
- SEW1 'Maintenance of Public Open Space and Road Reservations following Residential Subdivision'

(2) Application

This policy applies to the entire Local Government area.

This policy is made pursuant to City of Cockburn Town Planning Scheme No. 3 (TPS 3).

(3) Provisions

3.1 Requirement for street trees:

Street trees are required at both a subdivision and development stage, as follows:

3.1.1 Subdivision:

Once an applicant, subdivider, developer or landowner as the case may be (hereafter referred to as "proponent") receives a subdivision approval from the Western Australian Planning Commission which involves civil works, a condition will require that they must first prepare detailed engineering/civil works drawings for submission and approval by the City, prior to the commencement of works.

For the purposes of approving the civil /engineering drawings, this policy requires these drawings to indicate the provision of street trees to be planted on both sides of all streets within the subdivision application area, and how they will be maintained.

3.1.2 Development:

A proponent receiving a development approval from the City of Cockburn (except those for two grouped dwellings or a Single (R-Code) House), will receive a condition imposed on such approval for the requirement to install and maintain street tree/s where the adjoining verge has an inadequate amount of street trees.

[2]

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

3.1.3 Removal of existing street trees:

A proponent receiving a development approval from the City of Cockburn, where a development seeks to make modifications to the verge, creates a crossover for access, or any other works that results in the need for removal of an existing street tree, will receive a condition imposed on such approval for the requirement to provide compensation for the removal of the asset and/or install and maintain new street tree/s.

Compensation will be determined by the cost of tree removal, the cost of stump removal, the cost of new tree planting, the cost of establishment watering, as well as the loss in asset value of the tree/s being removed, as determined by the Helliwell tree valuation method.

Unless specified, the City will be responsible for all works associated with the removal of the tree and stump and the replanting and establishment of new tree/s. All payments are to be made to the City prior to the removal of the tree.

3.2 Quantity of trees required:

Street trees are to be provided at the rate listed below.

3.2.1 Subdivisions:

One street tree per lot or in the case of lots less than a 10m width, at a rate to be determined by the City.

3.2.2 Development subject to the R-Codes (except those for two grouped dwellings or a Single (R-Code) House):

One street tree per dwelling, or in the case of lots less than 10m of linear lot width to a public road reserve, at a rate to be determined by the City.

3.2.3 Removal of street trees:

A payment to the City to cover the cost of removal of street tree/s and associated stump grinding, the replanting and watering of new replacement street tree/s as well as a compensatory payment to the City for the loss of asset value of the tree. Refer to the City's current Fees and Charges List.

3.2.4 All other development:

[3]

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

One tree per 10m of linear lot width to a public road reserve or at a rate to be determined by the City where agreed upon between the applicant and the City.

3.3 Options for clearance:

To satisfy the conditions of the WAPC subdivisional approval or City of Cockburn development approval noted above, the following three options are available (subject to City support):

3.3.1 Option1: Proponent provides contribution payment to City of Cockburn who then takes responsibility for planting and management.

In this option, the proponent pays the City a monetary value as listed in the City's Fees and Charges List per street tree required. This payment must be receipted by the City prior to the practical completion certification of the civil works for subdivision or issue of building permit for development.

In receiving this contribution, the City will purchase, install and maintain all street trees. Installation will occur at the most optimal time in the opinion of the City.

3.3.2 Option 2: Proponent plants the trees.

In this option, the proponent plants the required number of trees as depicted in the approved plans. The planting must be done prior to seeking clearance for subdivision or issue of building permit for development. A qualified arborist or landscaping contractor must carry out the work. To ensure that the trees are of good health and have the highest possible chance of success, the following must be demonstrated for each tree:

- **Source of Trees** – Trees must be sourced from an accredited nursery and comply with AS 2303:2015 standards. They should generally be single stemmed with an appropriately sized calliper/trunk diameter and capable of standing upright unassisted within a container. Tree roots must be well established but not container bound, with no "J" roots touching the bottom of the bag.
- **Health of Trees** - Trees must be a healthy specimen typical of its growing habit, free of disease or notable defects, such as snapped branches, poor form, ring barking, pollarding or thinned canopy.
- **Planting Location** – Trees must be planted in the exact locations specified in the approved plan.

[4]

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

- **Excavation of Soil** – The existing soil must be excavated and removed to a minimum dimension of 1500mm x 1500mm x 500mm deep or at least twice the size of the root ball, whichever provides a larger footprint. The final excavation size may be adjusted at the discretion of the City's representative.
- **New Soil** – Backfill with 3:1 site soil to imported soil mix.
- **Granular Wetting** – A soil wetting additive (such as Grosorb) must be evenly incorporated into the backfill soil at a rate of 60 grams per square meter or as specified by the manufacturer.
- **Mulch and Catch Basin** – Apply pine bark or bushland mulch to a depth of 100mm within a 1000mm diameter around the tree root ball. Ensure the mulch is evenly spread, with a berm installed along the 1-metre perimeter.
- **Tree Stakes and Ties** – Secure a 'rainbow tie' at the base of the tree canopy to provide support while allowing natural movement to encourage root establishment. Install two 50x50x2100mm pointed treated pine or hardwood stakes, setting them 450mm into the ground. Ensure the stakes do not pierce the root ball.
- **Irrigation** – Install a dedicated irrigation system capable of providing ongoing water supply to the tree, either in perpetuity or for a minimum of three years until the tree is fully established.

3.3.3 Option 3: Proponent provides the City with a bond for the value of planting and maintaining street trees.

For this option a minimum of ten (10) street trees or more must be required. This option allows the proponent to bond the value of the planting and maintenance of street trees required whilst allowing the applicant to obtain the practical completion certification of the civil works for subdivision or the building permit for development. Refer to the City's current Fees and Charges List for cost per tree.

The City will return the bond, only in one amount, once all bonded street trees have been planted and maintained, consistent with any approvals.

For multistage subdivisions exceeding 100 lots, the City may consider bonding only the trees present in the final subdivision stage, provided sufficient evidence is presented to demonstrate that tree planting will occur periodically as part of the residential landscaping package, in accordance with the requirements outlined in section 3.3.2.

[5]

Title	Subdivision & Development - Street Trees
Policy Number (Governance Purpose)	LPP 5.18

3.4 Prior to Occupation:

A condition of development approval requiring the planting of the trees must be met before occupation. The City may require evidence that the requirements relating to the planting of trees under clause 3.3.2 have been met.

3.5 Species, maintenance, and longevity:

Street trees must comprise of species which will mature to a sufficient size and canopy and be located to provide sufficient shading of the street verge area, to the satisfaction of the City. The City may require such engineering or development drawings to demonstrate this detail on the relevant plans to ensure no conflict with road infrastructure or services.

3.6 Protection of trees:

All existing or proposed street trees shall be protected from adjoining development in accordance with Australian Standard AS4970-2009 via maintenance of a *Tree Protection Zone* and any relevant measures to ensure protection of the asset accordingly.

Background

LPP 4.2

Initially adopted by Council in July 2010, the Muriel Court Design Guidelines were prepared to ensure the delivery of a high-quality and functional built environment within the recently approved [Local Structure Plan](#) for the same area.

In 2019, the LPP was substantially updated, to take account of the release of the Residential Design Codes – Volume 2 (Apartments). The tracked change version is included as Attachment 1.

LPP 5.6

Initially adopted by Council in March 2011, LPP 5.6 seeks to provide a framework for the safe and efficient movement of motorists, public transport users, pedestrians, and

cyclists, where a coordinated approach to vehicle access is required from busy roads. Currently it applies to the section of North Lake Road adjacent the Muriel Court Structure Plan, and Verde Drive in Jandakot.

In September 2020, the North Lake Road Vehicle Access Policy Plan of the LPP was updated to include an '*indicative emergency vehicle access*' to match the anticipated outcome of a Public Works Development Application for what is now known as the Cockburn Central CFRS Fire Station.

Submission

The proposed amendments to these policies have been prepared by City Officers following an internal review that identified errors and/or inconsistencies in both LPP's with other requirements or what has now been developed on the ground.

Report

LPP 4.2 – Cockburn Central North (Muriel Court) Structure Plan Design Guidelines

Most provisions within LPP 4.2 remain appropriate and are proposed to be retained. The adjustments proposed and associated justification are set out in the table below. A tracked changes version of the amended policy is included as Attachment 1:

LPP Section	Proposed Modification	Justification
4. Local Development Plans (LDP)	<p>Modify the term '<i>Boundary setbacks</i>' to:</p> <ul style="list-style-type: none"> '<i>Lot Boundary and Street setbacks</i>' <p>Removal of the potential requirement to address:</p> <ul style="list-style-type: none"> Open Space Built Form requirements Roof Form and Design Storage <p>Insert the potential requirement to address:</p> <ul style="list-style-type: none"> Visual Privacy Solar Access 	<p>To clarify that this allows for variation to both the deemed-to-comply requirements of the R-Codes as it relates to both 'Street' and other 'Lot' boundary setbacks.</p> <p>Removes aspects of the R-Codes that require 'endorsement' from the Western Australian Planning Commission (WAPC) under 3.2.4a of State Planning Code Volume 1.</p> <p>To recognise what has consistently been allowed to date, as necessary to accommodate two-storey terrace style housing on small lots, particularly on east-west oriented lots that are incapable of achieving compliant solar access.</p>
5. Minimum Residential Densities and	Reword the clause and remove the table identifying the anticipated minimum lot areas required to meet the	To better reference the DA 19 enabling scheme provisions and remove the table that has led to confusion in reader's expectations

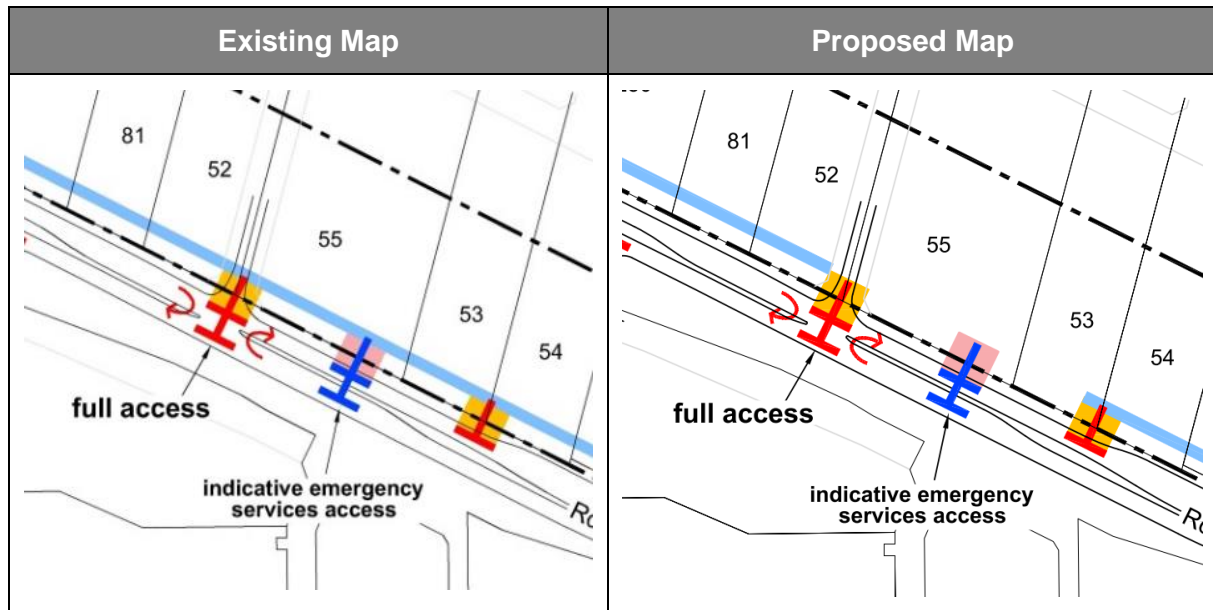

LPP Section	Proposed Modification	Justification
Staging	75% minimum density requirement of each code.	on what is required to meet the minimum density requirement.
	Include specific reference to 'evidence based justification' where a staged approach to meeting the minimum density requirements is proposed.	To provide greater clarity on the City's expectations of what is required, to demonstrate how an initial shortfall can be reasonably rectified via a subsequent proposal.
6. Noise Attenuation	Insert reference to <i>State planning Policy 5.4 – Road and Rail Noise</i> .	To ensure the policy correctly references and aligns with the relevant State Planning Policy.
8. Low Density Zone (R25 & R40) Standards	Rename and relocate R40 provisions to the 'low density zone'.	To align with the latest version of the R-Codes which includes R40 within the 'low density' category.
	Replace the two (2) storey minimum building height for R40 coded land with reference to the R-Codes.	To correct a previous adjustment and match earlier versions of the Muriel Court Design Guidelines that more appropriately focused the two (2) storey minimum building height requirement on the R60 code (and above).
	Insert the full title of the Residential Design Codes and its abbreviation which is regularly referenced elsewhere throughout the LPP.	To ensure the policy correctly references and aligns with the relevant State Planning Code.
9. Primary Controls for Medium/High Density Zone (R60, R80 & R160)	Rename to reflect removal of R40 and all of the text at parts a) and b).	To clarify that the Primary Controls table is applicable to the design of all dwellings within the Muriel Court LSP area (not just Multiple Dwellings). This is particularly important given most development that has occurred thus far are either Single or Grouped dwellings.
	Removal of specified standards for each code relating to: <ul style="list-style-type: none"> Boundary wall height Minimum side setbacks Minimum rear setbacks 	To avoid duplicating standards expressed in the R-Codes and/or the need to update the policy as and when the R-Codes are progressively reviewed and updated.

LPP Section	Proposed Modification	Justification
	<ul style="list-style-type: none"> Plot Ratio 	
10.Mixed Business & Local Centre Standards	<p>Removal of specified standards relating to:</p> <ul style="list-style-type: none"> Plot Ratio 	To avoid duplicating standards expressed in the R-Codes or that might unintentionally conflict with other standards of Town Planning Scheme No.3.
Appendix 1 – Streets	<p>Replace reference to Semple Court with Ngort Drive.</p> <p>To correct the proposed widths for Muriel Court either side of Ngort Drive.</p> <p>Reword the potential requirement for traffic calming in laneways.</p>	<p>To reflect the current name of the road being referenced.</p> <p>The constructed width of Muriel Court east of the future Ngort Drive alignment is 24.4m, consistent with the LSP Map and its classification as a 'Neighbourhood Connector A' in the <i>Traffic Impact Assessment</i> for the LSP area.</p> <p>The constructed width of Muriel Court west of Ngort Drive is 20m, consistent with the LSP Map and its classification as a low volume 'Neighbourhood Connector B' in the <i>Traffic Impact Assessment</i> for the area.</p> <p>To clarify (based on experience in the area) that calming may be warranted due to laneway reserve widths in addition to the typical length triggers set out in Liveable Neighbourhoods.</p>
Appendix 2 – Material Selections	To insert flexibility for tree species in appropriate instances.	Whilst consistency amongst species (<i>Claret ash</i> and <i>Chinese elm</i>) is encouraged, flexibility is required to respond to the increasing risk of pests and disease on various tree species.

Local Planning Policy 5.6 – Vehicle Access

All provisions within LPP 5.6 remain appropriate are proposed to be retained. The only adjustments proposed relate to the Vehicle Access Policy Plan relating to North Lake Road, as set out in the table below. A copy of the amended policy is included as Attachment 4.

LPP Section	Proposed Modification	Justification
Appendix 1 (page 5)	Delete entire page	Appendix 1 appears twice in the current version of the policy (Pages 5 and 7 in Attachment 1). Page 7 includes additional information (notation regarding MRWA interest in the road as a potential future road under their care and control) and is therefore the version that should be retained (as adjusted in the manner described below).
Appendix 1 (page 7)	Modify the North Lake Road Vehicle Access Policy Plan to remove the 'easement' shown in blue from all of Lot 55 and part of Lot 53. Relocate Appendix 1 ahead of Appendix 2.	To reflect the constructed design of the Cockburn Central Fire Station on Lot 55, that did not allow for future construction of a shared access way between the future full access road on the boundary of Lots 52 and 55, and the western boundary of Lot 53. The shared crossover between Lots 53 and 54 has deliberately not been shifted west (and instead a portion of the easement on Lot 53 has been removed), to avoid imposing any greater access restriction on Lot 54. To ensure the plans are shown in correct numerical order.

In addition to matching what has now been developed, in a manner the WAPC previously determined via the Development Approval process not to compromise the efficient access of surrounding land, they may also improve traffic safety by removing potential conflict between a future accessway and the now constructed fire truck emergency crossover.

Strategic Plans/Policy Implications

Local Economy

A sustainable and diverse local economy that attracts increased investment and provides local employment.

- Increased Investment, economic growth and local employment.
- A City that is 'easy to do business with'.

City Growth and Moving Around

A growing City that is easy to move around and provides great places to live.

- An attractive, socially connected and diverse built environment.
- An integrated, accessible and improved transport network.

Budget/Financial Implications

N/A

Legal Implications

N/A

Community Consultation

Clause 5(2) of the Deemed Provisions, regarding the procedure for amending local planning policy states:

- *Despite subclause (1), the local government may make an amendment to a local planning policy without advertising the amendment if, in the opinion of the local government, the amendment is a minor amendment.*

Whilst there is no definition of a 'minor amendment' in the *Planning and Development (Local Planning Schemes) Regulations 2015*, the City considers the amendments to be 'minor' and administrative in nature, for the following reasons.

1. They largely involve corrections to errors that have occurred as it and the R-Codes have been updated over time.
2. They reflect constructed outcomes within the Structure Plan and embrace the learnings of previous planning proposals in the area.
3. They better align the Design Guidelines to how the R-Codes currently operate (in particular focusing future LDPs on 'Primary Controls' the City has previously accepted without the need for WAPC Endorsement).
4. None of the adjustments create any additional burden on landowners or developers, instead they seek to clarify the intent of long-standing requirements.

On this basis, public consultation of the updated policy is not considered necessary with the changes to take effect upon publication, following formal adoption by Council at the next Ordinary Council Meeting.

Risk Management Implications

Should Council resolve not to adopt the updated policies, an opportunity will be missed to address existing anomalies, clarify the intent and ensure consistency between the Local and State Planning Frameworks.

Planning decisions made against an incoherent or inconsistent framework run the risk of being challenged in the State Administrative Tribunal, which can have adverse resource and financial implications on the City.

Advice to Proponent(s)/Submitters

Implications of Section 3.18(3) Local Government Act 1995

Nil

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

Policy Type

Local Planning Policy

Policy Purpose

To provide site specific design guidelines for Development Area 19 (DA19) that will assist in the delivery of high quality and functional built environment.

All applications for subdivision and development shall have due regard with the Design Guidelines.

Policy Statement

(1) Introduction

These Design Guidelines shall be read in conjunction with the City of Cockburn Town Planning Scheme No.3 (TPS 3), Residential Design Codes, Cockburn Central North (Muriel Court) Local Structure Plan and other applicable Local Planning Policies and Local Development Plans.

(2) Vision

The Muriel Court Local Structure Plan area will be characterised as a sustainable, contemporary, high quality, vibrant, urban village which is an extension of the Cockburn Central Town Centre.

(3) Objectives

The objectives of the Design Guidelines are:

Physical

- Promote a safe, comfortable and easily accessible environment for residents and visitors;
- Ensure that buildings address and complement public spaces by providing transparent and engaging interfaces between the street and the public realm;

Social

- Promote a strong sense of place and community;
- Promote walking, cycling and public transport use through appropriately designed streets and buildings;
- Provide for a mix of housing opportunities to cater for a diverse community;
- Ensure good access to public open space for residents and visitors;

[1]

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

Economic

- Promote a viable local centre that supplies the daily needs of the local residents;
- Facilitate a development intensity that complements the Cockburn Central Town Centre and Cockburn Central West.

(4) Local Development Plans

Any subdivision application that proposes to create lots suitable for single house (including terrace-style) or grouped dwelling development in the Local Structure Plan (LSP) area will require the preparation of a Local Development Plan (LDP) for approval by the City to guide development outcomes. LDPs may address:

- Lot boundary and street setbacks;
- Building Heights;
- Vehicle Access;
- ~~Open Space;~~
- Fencing;
- ~~Built Form requirements;~~
- ~~Roof Form and Design;~~
- ~~Storage; and~~
- Visual Privacy;
- Solar Access; and
- Any other design element as agreed to by the City.

(5) Minimum Residential Densities and Staging

~~In accordance with TPS 3 (DA19 provisions), as a minimum, the following zones are required to achieve density at the equivalent of 75% of greater of the density code applicable to the zone. In accordance with the Development Area 19 provisions, within TPS 3, any subdivision/development is required to achieve a minimum 75% lot/dwelling yield relative to its density code on the Structure Plan Map.~~

Density Code	Min Land Area (Lot) to Yield 75%	Land Area to Yield 100%
R25	466	350
R40	293	220
R60	200	150
R80 & R160	160	120

~~Achieving the 75% minimum residential density provision for multiple dwellings is calculate based on the single house/grouped dwelling yield.~~

The 75% minimum residential density requirement may be achieved via a staged approach which can be demonstrated as part of any application. Staged development shall demonstrate how future stages address:

- ~~Evidence based justification for any yield shortfall to be provided in a subsequent stage; Minimum density requirements;~~
- Earthworks;
- Levels;

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

- Drainage;
- Road connections;
- Any other relevant information.

(6) Noise Attenuation

To address potential noise sources in the area, an Acoustic Report shall accompany applications for residential development and subdivision in the following locations:

- All development adjacent to the Kwinana Freeway;
- All development abutting the Mixed Business zone;
- All development incorporating a mix of uses;
- All development incorporating residential uses adjacent to North Lake Road.
- All noise attenuation and noise management shall be in accordance with State Planning Policy 5.4 – Road and Rail Noise and Council's Local Planning Policy LPP 1.12 Noise Attenuation.

(7) Vehicle Access – North Lake Road

Reciprocal vehicle access arrangements and shared vehicle access points are specified for lots abutting North Lake Road. Please refer to Council's Local Planning Policy LPP 5.6 Vehicle Access.

(8) Low Density Zone (R25 & R40) Standards

	R40
<u>Minimum primary and secondary street setbacks</u>	<u>Primary – 2m</u> <u>Secondary – 1m</u>

- (a) All other provisions as per Residential Design -Codes (R-Codes) and LDP.

(9) Primary Controls for Medium/High Density Zone (~~R40 & R60~~, R80 & R160) ~~and High Density Zone (R80 & R160)~~

~~(a) Single House and Grouped Dwellings – As per R-Codes and LDP.~~

~~(b) Multiple Dwellings (Apartments):~~

	R40	R60	R80	R160
Building height (storeys) Minimum	Two storeys <u>As per R-Codes</u>	Two storeys	Two storeys	Two storeys
Building height (Storeys) Maximum	Three storeys	Four storeys	Four storeys	No maximum (refer to Jandakot Airport Obstacle Limitation Surfaces)

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

Boundary wall height (storeys)	As per R-Codes (R40)	Two storeys	As per R-Codes (R80)	Two storeys
Minimum primary and secondary street setbacks	Primary – 2m Secondary – 1m	Primary - 2m Secondary – 1m	As per R-Codes (R80)	As per R-Codes (R160)
Minimum side setbacks	As per R-Codes (R40)	As per R-Codes (R60)	As per R-Codes (R80)	As per R-Codes (R160)
Minimum rear setback	As per R-Codes (R40)	As per R-Codes (R60)	As per R-Codes (R80)	As per R-Codes (R160)
Plot Ratio	0.7	1.0	As per R-Codes (R80)	As per R-Codes (R160)

All other provisions as per R-Codes and any variations to the provisions above shall be assessed using the relevant element objectives in the R-Codes as they related to apartment design.

(10) Mixed Business & Local Centre Standards

	<i>Restricted Use – Office/Residential</i>	Restricted Use – Non-Residential	Local Centre
Building height (storeys) Minimum	Three storeys	Nil	Two storeys
Building height (Storeys) Maximum	No maximum (refer to Jandakot Airport)	No maximum (refer to Jandakot Airport)	Four Storeys
Boundary wall height (storeys)	As per R-Codes (R160)	As per BCA	Two storey
Minimum primary and secondary street setbacks	Subject to design in accordance with LPP 5.6 Vehicle Access.	Subject to design in accordance with LPP 5.6 Vehicle Access.	Nil
Minimum side setbacks	3m	As per BCA.	Nil
Minimum rear setback	3m	10m	Nil
Plot Ratio	N/A	N/A	As per R-Codes (R80) – Residential Component

All other provisions as per R-Codes and any variations to the provisions above shall be assessed using the relevant element objectives in the R-Codes as they related to apartment design.

APPENDIX 1 - STREETS

The following sets out the City's specific streetscape requirements to be adopted by developers when designing and planning civil works. The City will refer to this section when assessing civil drawings. Developers are encouraged to engage with the City's Engineering and Parks Team early in the civil design process to discuss the below and further site specific design considerations prior to lodging civil drawings for approval.

Objectives for the design of public spaces in Cockburn Central North

Designs that seek to:

- Contribute to a vibrant, pedestrian friendly community that promotes use of public spaces;
- Provide the functional and aesthetic requirements required to support medium and high density development of which is expected to occur across the precinct;
- Promote the design of streets and public open spaces that will allow users and residents to connect to the local environment. This includes accommodating street trees consistent with the scale of development being proposed on adjoining lands.

Design process

Developers and applicants are advised that the City will be seeking evidence that streetscape civil drawings have responded to:

- The Cockburn Central North Structure Plan (Muriel Court Structure Plan) including but not limited to the design requirements set out within the Local Water Management Strategy;
- Site specific conditions including: Site context, topography and geotechnical conditions, environmental constraints and opportunities, and the retention of significant trees, and;
- Sustainable design measures including water quality and management.

STREET PROFILES

The following details set out the City's requirements for the design of new roads and associated infrastructure within the precinct.

Sample Court Ngort Drive (25.2 metres)

- Sample Court Ngort Drive will be designed as an Integrator B Road, as defined by Liveable neighbourhoods, with a 25.2m road reserve;
- The design speed will be 50 km/hr and provide for up to 15,000 vehicles per day;
- Road pavement widths will be sufficient to provide for a traffic lane, segregated bicycle lane and on-street parking;
- 1.5m wide footpaths on both sides of the road which are adjacent property boundaries (0.3m offset);
- Within the local centre, the footpaths will be wider and constructed between the property boundary and the kerb; and
- Street lighting and tree planting in central median;
- Median width 4m; and

[6]

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

- See Appendix 2 for material selections.

Muriel Court (24.45.2m – East of ~~Simple Court~~ Ngort Drive Realignment)

- ~~Simple Muriel~~ Court will be designed as an ~~Integrator B~~ Neighbourhood Connector A Road, as defined by Liveable neighbourhoods, with a 24.45.2m road reserve;
- Muriel Court is designed for 50 km/hr and will provide for up to 15,000 vehicles per day;
- See ~~attachment 2~~ Appendix 3 for required intersection types along Muriel Court;
- Road pavement widths will be sufficient to provide for a traffic lane, segregated bicycle lane and on-street parking;
- 1.5m wide footpaths on both sides of the road which are adjacent property boundaries (0.3m offset);
- Within the local centre, the footpaths will be wider and constructed between the property boundary and the kerb;
- Street lighting and tree planting in central median;
- Median width 4m; and
 - See Appendix 2 for material selections.

Muriel Court (204.4m – West of ~~Simple Court~~ Ngort Drive Realignment)

- Muriel Court will be designed as a Neighbourhood Connector Road, as defined by Liveable Neighbourhoods, within a 204.4m road reserve;
- Muriel Court is designed for 50 km/hr and will provide for up to 15,000 vehicles per day;
- 1.5m wide footpaths on both sides of the road which are adjacent property boundaries (0.3m offset);
- Segregated bicycle lane for the entirety of the length of Muriel Court;
- Street lighting in a minimum 2m wide central median; and
 - See Appendix 2 for material selections.

18 metre wide roads

- These roads are designed as wide access streets suitable for higher density residential areas and provide for on street parking and street tree planting;
- Street pavement 6m with one verge 6.2m and the other 5.8m. The wider verge on one side will accommodate sewer and stormwater drainage;
- 1.5m wide footpaths on both sides of the road which are adjacent- to property boundary (0.3m); and
- 2.1m wide on-street car parking bays.

15 metre wide roads

- These roads are for lower density residential areas and some on-street parking (on the carriageway), which provide speed control;
- 4.5m verges and 6m pavement;
- Street trees are to be provided in the road reserve;
- 1.5m wide footpaths on both sides of the road which are adjacent to property boundary (0.3m offset); and
- 2.1m side on-street car parking bays.

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

16 metre wide road

- As per 15m wide roads, except that verges are 5m wide each;
- 1.5m wide footpaths on both sides of the road which are adjacent property boundaries (0.3m offset);
- For lots that abut public open space the road reserve is 14.5m; and
- The street profile is the same, except on the public open space side the verge which is 3.5m and contains a Dual Use Path (2.1m) and no car parking.

Laneways

- New laneways may be required to provide access to new lots created through subdivision.
- Road Design speed of 10 km/h;
- 6m wide road pavements with no footpaths with 1x0.5m setbacks for lighting at regular spacing as illustrated in Figure below; and
- ~~Require traffic calming where length is deemed to warrant it.~~ Traffic calming may be warranted within laneways, where required by the laneway length.

APPENDIX 3 – MURIEL COURT AND KNOCK PLACE INTERSECTION TREATMENTS

In 2018 the City engaged GTA Consultants to undertake a review of the Muriel Court Traffic Impact Assessment due to revised traffic generation numbers expected across the Muriel Court precinct. This recognises several structure plan amendments have cumulatively impacted on dwelling yield and therefore also traffic generation numbers.

The addendum is to be read alongside the original Muriel Court traffic impact assessment undertaken in 2008. The full report can be accessed on the Muriel Court webpage [https://www.cockburn.wa.gov.au/Building-and-Development/Town-Planning-and-Development/Current-Development-Projects/Cockburn-Central-North-\(Muriel-Court\)](https://www.cockburn.wa.gov.au/Building-and-Development/Town-Planning-and-Development/Current-Development-Projects/Cockburn-Central-North-(Muriel-Court))

Within the TIA Addendum at Attachment 6 and provided below is the City's preferred and now adopted option for the design of intersection treatments along Muriel Court and Knock Place.

[11]

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

Policy Type

Local Planning Policy

Policy Purpose

To provide site specific design guidelines for Development Area 19 (DA19) that will assist in the delivery of high quality and functional built environment.

All applications for subdivision and development shall have due regard with the Design Guidelines.

Policy Statement

(1) Introduction

These Design Guidelines shall be read in conjunction with the City of Cockburn Town Planning Scheme No.3 (TPS 3), Residential Design Codes, Cockburn Central North (Muriel Court) Local Structure Plan and other applicable Local Planning Policies and Local Development Plans.

(2) Vision

The Muriel Court Local Structure Plan area will be characterised as a sustainable, contemporary, high quality, vibrant, urban village which is an extension of the Cockburn Central Town Centre.

(3) Objectives

The objectives of the Design Guidelines are:

Physical

- Promote a safe, comfortable and easily accessible environment for residents and visitors;
- Ensure that buildings address and complement public spaces by providing transparent and engaging interfaces between the street and the public realm;

Social

- Promote a strong sense of place and community;
- Promote walking, cycling and public transport use through appropriately designed streets and buildings;
- Provide for a mix of housing opportunities to cater for a diverse community;
- Ensure good access to public open space for residents and visitors;

[1]

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

Economic

- Promote a viable local centre that supplies the daily needs of the local residents;
- Facilitate a development intensity that complements the Cockburn Central Town Centre and Cockburn Central West.

(4) Local Development Plans

Any subdivision application that proposes to create lots suitable for single house (including terrace-style) or grouped dwelling development in the Local Structure Plan (LSP) area will require the preparation of a Local Development Plan (LDP) for approval by the City to guide development outcomes. LDPs may address:

- Lot boundary and street setbacks;
- Building Heights;
- Vehicle Access;
- Fencing;
- Visual Privacy;
- Solar Access; and
- Any other design element as agreed to by the City.

(5) Minimum Residential Densities and Staging

In accordance with the Development Area 19 provisions, within TPS 3, any subdivision/development is required to achieve a minimum 75% lot/dwelling yield relative to its density code on the Structure Plan Map.

The 75% minimum residential density requirement may be achieved via a staged approach which can be demonstrated as part of any application. Staged development shall demonstrate how future stages address:

- Evidence based justification for any yield shortfall to be provided in a subsequent stage;
- Earthworks;
- Levels;
- Drainage;
- Road connections;
- Any other relevant information.

(6) Noise Attenuation

To address potential noise sources in the area, an Acoustic Report shall accompany applications for residential development and subdivision in the following locations:

- All development adjacent to the Kwinana Freeway;
- All development abutting the Mixed Business zone;
- All development incorporating a mix of uses;
- All development incorporating residential uses adjacent to North Lake Road.
- All noise attenuation and noise management shall be in accordance with State Planning Policy 5.4 – Road and Rail Noise and Council's Local Planning Policy LPP 1.12 Noise Attenuation.

[2]

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

(7) Vehicle Access – North Lake Road

Reciprocal vehicle access arrangements and shared vehicle access points are specified for lots abutting North Lake Road. Please refer to Council's Local Planning Policy LPP 5.6 Vehicle Access.

(8) Low Density Zone (R25 & R40) Standards

	R40
Minimum primary and secondary street setbacks	Primary – 2m Secondary – 1m

(a) All other provisions as per Residential Design Codes (R-Codes) and LDP.

(9) Primary Controls for Medium/High Density Zone (R60, R80 & R160).

	R60	R80	R160
Building height (storeys) Minimum	Two storeys	Two storeys	Two storeys
Building height (Storeys) Maximum	Four storeys	Four storeys	No maximum (refer to Jandakot Airport Obstacle Limitation Surfaces)
Minimum primary and secondary street setbacks	Primary - 2m Secondary – 1m	As per R-Codes (R80)	As per R-Codes (R160)

All other provisions as per R-Codes and any variations to the provisions above shall be assessed using the relevant element objectives in the R-Codes as they related to apartment design.

(10) Mixed Business & Local Centre Standards

	<i>Restricted Use – Office/Residential</i>	<i>Restricted Use – Non-Residential</i>	Local Centre
Building height (storeys) Minimum	Three storeys	Nil	Two storeys
Building height (Storeys) Maximum	No maximum (refer to Jandakot Airport)	No maximum (refer to Jandakot Airport)	Four Storeys
Boundary wall height (storeys)	As per R-Codes (R160)	As per BCA	Two storey
Minimum primary and secondary street setbacks	Subject to design in accordance with LPP 5.6 Vehicle Access.	Subject to design in accordance with LPP 5.6 Vehicle Access.	Nil
Minimum side setbacks	3m	As per BCA.	Nil
Minimum rear setback	3m	10m	Nil

All other provisions as per R-Codes and any variations to the provisions above shall be assessed using the relevant element objectives in the R-Codes as they related to apartment design.

Policy Number (Governance Purpose)	LPP4.2

APPENDIX 1 - STREETS

The following sets out the City's specific streetscape requirements to be adopted by developers when designing and planning civil works. The City will refer to this section when assessing civil drawings. Developers are encouraged to engage with the City's Engineering and Parks Team early in the civil design process to discuss the below and further site specific design considerations prior to lodging civil drawings for approval.

Objectives for the design of public spaces in Cockburn Central North

Designs that seek to:

- Contribute to a vibrant, pedestrian friendly community that promotes use of public spaces;
- Provide the functional and aesthetic requirements required to support medium and high density development of which is expected to occur across the precinct;
- Promote the design of streets and public open spaces that will allow users and residents to connect to the local environment. This includes accommodating street trees consistent with the scale of development being proposed on adjoining lands.

Design process

Developers and applicants are advised that the City will be seeking evidence that streetscape civil drawings have responded to:

- The Cockburn Central North Structure Plan (Muriel Court Structure Plan) including but not limited to the design requirements set out within the Local Water Management Strategy;
- Site specific conditions including: Site context, topography and geotechnical conditions, environmental constraints and opportunities, and the retention of significant trees, and;
- Sustainable design measures including water quality and management.

STREET PROFILES

The following details set out the City's requirements for the design of new roads and associated infrastructure within the precinct.

Ngort Drive (25.2 metres)

- Ngort Drive will be designed as an Integrator B Road, as defined by Liveable neighbourhoods, with a 25.2m road reserve;
- The design speed will be 50 km/hr and provide for up to 15,000 vehicles per day;
- Road pavement widths will be sufficient to provide for a traffic lane, segregated bicycle lane and on-street parking;
- 1.5m wide footpaths on both sides of the road which are adjacent property boundaries (0.3m offset);
- Within the local centre, the footpaths will be wider and constructed between the property boundary and the kerb; and
- Street lighting and tree planting in central median;
- Median width 4m; and

[5]

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

- See Appendix 2 for material selections.

Muriel Court (24.4m – East of Ngort Drive Realignment)

- Muriel Court will be designed as an Neighbourhood Connector A Road, as defined by Liveable neighbourhoods, with a 24.4m road reserve;
- Muriel Court is designed for 50 km/hr and will provide for up to 15,000 vehicles per day;
- See Appendix 3 for required intersection types along Muriel Court;
- Road pavement widths will be sufficient to provide for a traffic lane, segregated bicycle lane and on-street parking;
- 1.5m wide footpaths on both sides of the road which are adjacent property boundaries (0.3m offset);
- Within the local centre, the footpaths will be wider and constructed between the property boundary and the kerb;
- Street lighting and tree planting in central median;
- Median width 4m; and
 - See Appendix 2 for material selections.

Muriel Court (20m – West of Ngort Drive Realignment)

- Muriel Court will be designed as a Neighbourhood Connector Road, as defined by Liveable Neighbourhoods, within a 20m road reserve;
- Muriel Court is designed for 50 km/hr and will provide for up to 15,000 vehicles per day;
- 1.5m wide footpaths on both sides of the road which are adjacent property boundaries (0.3m offset);
- Segregated bicycle lane for the entirety of the length of Muriel Court;
- Street lighting in a minimum 2m wide central median; and
 - See Appendix 2 for material selections.

18 metre wide roads

- These roads are designed as wide access streets suitable for higher density residential areas and provide for on street parking and street tree planting;
- Street pavement 6m with one verge 6.2m and the other 5.8m. The wider verge on one side will accommodate sewer and stormwater drainage;
- 1.5m wide footpaths on both sides of the road which are adjacent to property boundary (0.3m); and
- 2.1m wide on-street car parking bays.

15 metre wide roads

- These roads are for lower density residential areas and some on-street parking (on the carriageway), which provide speed control;
- 4.5m verges and 6m pavement;
- Street trees are to be provided in the road reserve;
- 1.5m wide footpaths on both sides of the road which are adjacent to property boundary (0.3m offset); and
- 2.1m side on-street car parking bays.

Title	Cockburn Central North (Muriel Court) Structure Plan – Design Guidelines
Policy Number (Governance Purpose)	LPP4.2

16 metre wide road

- As per 15m wide roads, except that verges are 5m wide each;
- 1.5m wide footpaths on both sides of the road which are adjacent property boundaries (0.3m offset);
- For lots that abut public open space the road reserve is 14.5m; and
- The street profile is the same, except on the public open space side the verge which is 3.5m and contains a Dual Use Path (2.1m) and no car parking.

Laneways

- New laneways may be required to provide access to new lots created through subdivision.
- Road Design speed of 10 km/h;
- 6m wide road pavements with no footpaths with 1x0.5m setbacks for lighting at regular spacing as illustrated in Figure below; and
- Traffic calming may be warranted within laneways, where required by the laneway length.

APPENDIX 3 – MURIEL COURT AND KNOCK PLACE INTERSECTION TREATMENTS

In 2018 the City engaged GTA Consultants to undertake a review of the Muriel Court Traffic Impact Assessment due to revised traffic generation numbers expected across the Muriel Court precinct. This recognises several structure plan amendments have cumulatively impacted on dwelling yield and therefore also traffic generation numbers.

The addendum is to be read alongside the original Muriel Court traffic impact assessment undertaken in 2008. The full report can be accessed on the Muriel Court webpage [https://www.cockburn.wa.gov.au/Building-and-Development/Town-Planning-and-Development/Current-Development-Projects/Cockburn-Central-North-\(Muriel-Court\)](https://www.cockburn.wa.gov.au/Building-and-Development/Town-Planning-and-Development/Current-Development-Projects/Cockburn-Central-North-(Muriel-Court))

Within the TIA Addendum at Attachment 6 and provided below is the City's preferred and now adopted option for the design of intersection treatments along Muriel Court and Knock Place.

[10]

Title	Vehicle Access
Policy Number (Governance Purpose)	LPP 5.6

Policy Type

Local Planning Policy

Policy Purpose

When land adjacent to major/arterial/distributor/important roads is developed for more intensive uses the resulting additional traffic generated by such uses, can cause conflict, especially where pre-existing traffic -volumes are high. This can create dangerous and unattractive road environments.

In these situations, a coordinated approach to vehicle access is required to ensure that development does not introduce any undesirable impacts on the safe and efficient movement for motorists, heavy vehicles operators, public transport users, pedestrians and cyclists.

The purpose of the Policy provides a framework for the planning and development of safe and efficient movement of motorists, public transport users, pedestrians and cyclists, where such a coordinated approach to vehicle access is required.

The Policy will be used by the City of Cockburn to guide the assessment of applications for development, subdivision and Local Development Plans, where a Vehicle Access Plan has been prepared.

The overall objectives for the policy are to:

- (1) Provide for safe and efficient movement of motorists, public transport users, pedestrians and cyclists;
- (2) Provide for safe and efficient movement of waste management and other service vehicles;
- (3) Minimise the potential for conflict between through and local traffic;
- (4) Provide visually attractive road environments; and
- (5) Provide for reasonable property access that is direct, convenient and safe.

Policy Statement

- (1) Vehicle Access Policy Plans:
 1. Vehicle Access Policy Plans are to be prepared by the City of Cockburn in consultation with relevant stakeholders, which may include Main Roads WA, the Department of Planning and landowners of affected properties.
 2. Vehicle Access Policy Plans are to be adopted by Council for inclusion as an Appendix to the Vehicle Access Policy.

[1]

Title	Vehicle Access
Policy Number (Governance Purpose)	LPP 5.6

3. The access arrangements in Vehicle Access Policy Plans shall be constructed to public road standards and should consider the following design features to ensure traffic safety and efficiency:
 - a) road reserve widths;
 - b) intersection location and spacing;
 - c) intersection type;
 - d) traffic control type (i.e traffic signals, roundabout, signage);
 - e) median location and breaks;
 - f) the number, location and design of vehicle access points to adjoining private properties;
 - g) the size and length of vehicles that will be using the access;
 - h) the volume of traffic that will be using the access;
 - i) road lighting;
 - j) mechanisms for organising and securing shared use of crossovers;
 - k) servicing of properties by waste management and other commercial vehicles; and
 - l) provision of cyclist and pedestrian facilities and integration with the adjacent path network. .
4. Vehicle Access Policy Plans are to consider pedestrian and cyclist movement patterns and key desire lines, particularly where residential development exists or is planned in proximity to the Vehicle Access Policy Plans area.
5. Vehicle Access Policy Plans are to be prepared with reference to the relevant local/state/national policies, guidelines and Australian Standards as determined appropriate by the Local Government.

(2) Vehicle Access Controls:

1. Crossovers

- a) Control over the location, design and number of crossovers will be exercised by the responsible authority to reflect the arrangements shown on a Vehicle Access Policy Plan.
- b) There will be a presumption against the creation of new vehicle crossovers across the primary frontage of the lot where alternative access is, or could be made available, to secondary roads and laneways, or via easements in gross arrangements to a nominated crossover as shown on the Vehicle Access Policy Plan.
- c) Where a vehicle crossover is permitted under a Vehicle Access Policy Plan, conditions may be imposed on the width and design of the crossover to ensure adequate visibility and to provide for the safe and convenient movement of vehicles entering and leaving the road.

Title	Vehicle Access
Policy Number (Governance Purpose)	LPP 5.6

2. Easement in Gross

- a) Where indicated on a Vehicle Access Policy Plan, the City of Cockburn will require as a condition of development or subdivision, easements in gross in the form of a public access easement on land titles. The easements in gross are granted for the City of Cockburn to maintain public access across the subject land to the side streets and crossover access points as delineated on the Vehicle Access Policy Plan. These easements in gross on land titles are to be provided at the cost of the developer or landowners of the subject land. The treatment of the area covered by the easement in gross shall be designed and treated to the satisfaction of the City to ensure consistency across lots.
- b) In determining development applications where a Vehicle Access Policy Plan requires the provision of a right-of-carriageway and where such access is not available through adjacent properties to a dedicated road, consideration may be given for retention of a temporary access crossover until such time as alternative access is available via the right-of-carriageway system.
- c) Provisions for the closure of the temporary crossover shall be provided by way of legal agreement.

3. Parking/Circulation

- a) All applications for development approval on land subject to a Vehicle Access Policy Plan will be required to provide for traffic to enter and leave the site in a forward direction and to comply with the City of Cockburn's car parking and on-site vehicle circulation requirements, as detailed in the City's Town Planning Scheme No. 3 (TPS 3). This requirement is intended to ensure that there is no traffic congestion on-site which would interfere with the safety and free flow of traffic along the primary road.

4. Variation Clause

- a) The precise location of rights of carriageways or crossovers delineated on a Vehicle Access Policy Plan may be varied subject to the agreement of the City of Cockburn provided that the purpose and the intent of the Vehicle Access Policy Plan is maintained.
- b) A detailed assessment may be required in the form of a traffic management plan, a traffic impact assessment, a road safety audit, and/or traffic modelling may be required where a variation to a Vehicle Access Policy Plan is proposed. The form and scope of the required traffic assessment will be subject to guidance and agreement by the City of Cockburn.

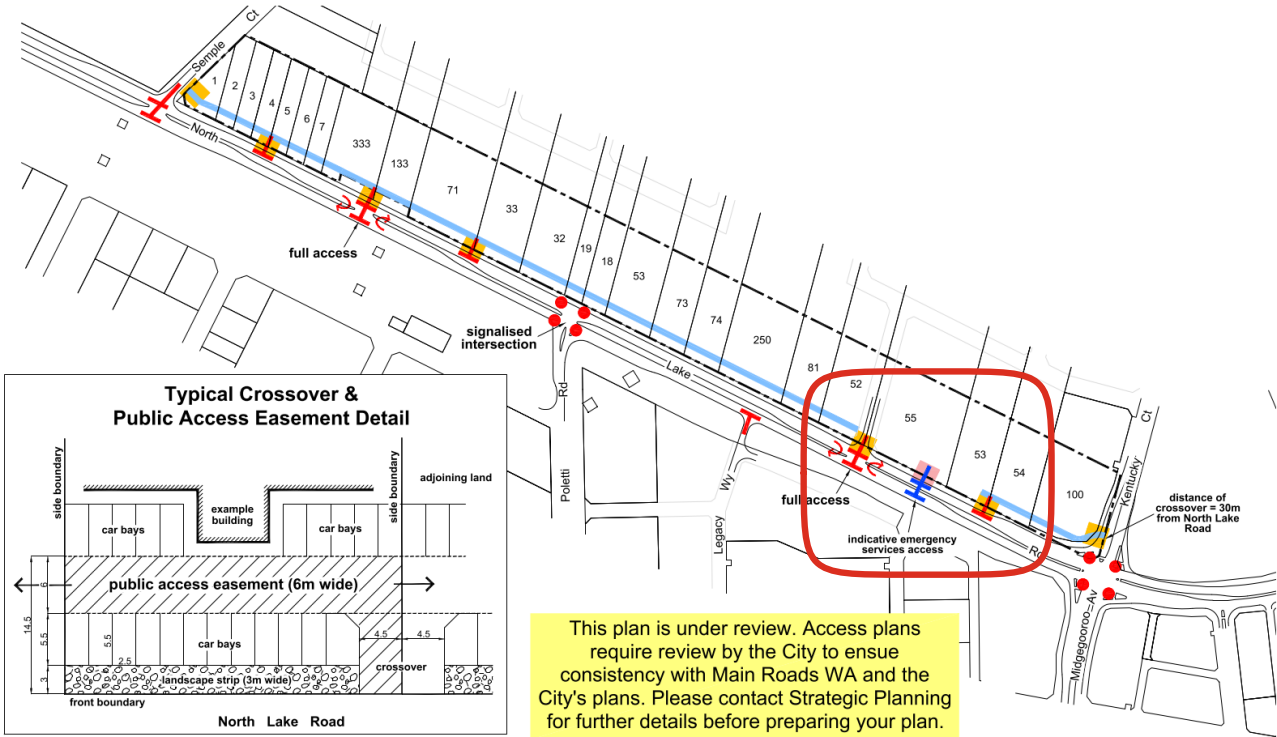

[3]

Title	Vehicle Access
Policy Number (Governance Purpose)	LPP 5.6

- c) This policy document may be updated with agreement from the City of Cockburn.
- d) With specific regard to the Verde Drive Access Plan consideration will be given to the exact location of crossovers and need for an easement (West of Solomon Road) as development occurs. This recognises the likely need to reconfigure long narrow lots and the likely timing of various developments will likely be staged over time. The City at such time(s) will ensure the staging of development in this area is provided with suitable access arrangements and will use discretion by having due regard to the objectives of this policy and the intent of the Plan illustrated at Appendix 2.

That Council ADOPTS the revised Crime Prevention Reference Group Terms of Reference (Attachment 2).

CARRIED 9/0

Background

The Crime Prevention Reference Group (CPRG) was established to enable an inter-agency approach to guiding the City of Cockburn (the City) in its response to community safety and crime prevention, and to act as a forum to discuss strategies and responses to specific community safety issues.

The CPRG reviewed its Terms of Reference, incorporating feedback from members, and endorsed the revisions at its meeting on 11 September 2024.

These updates ensure alignment with the City’s strategic objectives and enhance the group’s effectiveness in addressing local safety concerns.

Submission

N/A

Report

The revised Terms of Reference include an updated purpose and objectives to reflect the group’s purpose more clearly.

New sections are also included to ensure alignment to City standards. New sections were added for resignation, roles and responsibilities, code of conduct, and accountability, maintaining consistency with the City’s other Reference Groups.

The CPRG's purpose and objectives have been updated as follows:

Purpose

Identify and address issues pertaining to community safety and crime prevention in the City of Cockburn.

Objectives

The purpose of this group will be achieved through:

1. Open communication and information sharing on community safety issues and concerns.
2. Encourage members to participate in crime prevention events, programmes, and initiatives.
3. Provide guidance in the development of policies and programmes aimed at reducing crime. This includes the perception of crime, the actual occurrence of crime, and anti-social behaviour.
4. Assist in the development of the City's plans towards community safety and crime prevention.
5. Review, reassess, and report on the City of Cockburn's plans on community safety and crime prevention
6. Provide interagency cooperation to address community safety issues.

Strategic Plans/Policy Implications

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

- A safe and healthy community that is socially connected.

City Growth and Moving Around

A growing City that is easy to move around and provides great places to live.

- An attractive, socially connected and diverse built environment.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.
- High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

N/A

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

Failing to adopt the proposed Terms of Reference would impact the focus and objectives of the CPRG.

As a result, the retention of valued members could be impacted and the quality of advice the City receives on crime prevention matters and its ability to respond to community safety issues could be reduced.

Crime Prevention Reference Group (CPRG)

Terms of Reference

Purpose

- ~~To assist in the development of Crime Prevention initiatives relevant to the City of Cockburn.~~
- ~~Support Crime Prevention projects and funding applications for relevant initiatives within the City of Cockburn.~~
- ~~Provide guidance on the development of policy for the Community Safety and Crime Prevention programmes, including 'Crime Prevention Through Environmental Design' (CPTED) principles.~~
- ~~Discuss interagency cooperation on all issues pertaining to Crime Prevention and devise working response plans, as appropriate.~~
- Identify and address issues pertaining to community safety and crime prevention in the City of Cockburn.

Objectives

~~The objective of the Reference Group is to identify community concerns, perception of crime and anti-social behaviour within the City of Cockburn. This will be achieved through~~
 The purpose of this group will be achieved through:

1. ~~Liaison between the members of on crime prevention issues, concerns, and expectations. Open communication and information sharing on community safety issues and concerns.~~
2. Encourage members to participate in crime prevention events, programmes, and initiatives.
3. Provide guidance in the development of policies and programmes ~~that encourages~~ aimed at reduction in reducing crime. This includes the perception of crime, the actual occurrence of crime, and anti-social behaviour ~~within the community.~~
4. ~~As requested from time to time, a~~ Assist in the development of the City's plans towards community safety and crime prevention. The reference group may also be asked to contribute to annual reviews of these plans; and
- 4.5. Review, reassess, and report on the City of Cockburn's plans on community safety and crime prevention.
- 5.6. Provide interagency cooperation to address community safety issues.

Membership of the Group

The CPRG membership will comprise of:

- Elected Member/s appointed by Council in accordance with Council Policy
- WA Police – up to four representatives
- Department of Communities (Housing) - one representative
- Department of Justice – one representative
- Department of Education – one representative
- Business - up to three representatives from local businesses
- City of Cockburn Staff representatives:
 - Head of Community Safety and Ranger Services
 - Community Safety Manager
 - Community Safety Liaison Officer
 - Youth Services Manager
 - Community Development Manager
 - Aboriginal Community Development Officer
 - Library Services Manager
 - CoSafe Manager

Membership Resignation

- A member may resign from membership of the CPRG by giving written notice of the resignation to the CPRG meeting facilitator.
- The resignation takes effect when the City's CPRG facilitator receives the notice.

Quorum

A quorum consists of 50% of members.

Roles & Responsibilities

Members

- Prepare for, attend, and participate in meetings.
- Adhere to ~~the~~ the Terms of Reference for this group ~~Terms of Reference~~.
- Provide information and advice on items related to the group's purpose, scope, and objectives.
- Be respectful to the Chair and other ~~members, and~~ members and assist in maintaining an orderly and positive meeting by taking turns to speak and encouraging others to voice opinions.
- Maintain positive relationships and communication with City staff and Elected Members, to be an effective liaison.

Chairperson

- The Chairperson role shall be undertaken by a City of Cockburn Elected Member. Membership terminates when an Ordinary Local Government election occurs every two years in October. Elected Members may be reappointed as the Chairperson~~A~~.
- The Chairperson shall ensure:
 - the meeting is conducted according to the Terms of Reference
 - matters are dealt with in an orderly and efficient manner
 - meetings are kept on time.

Elected Members

- Attend to provide support to its membership.
- Not to 'drive' the Group in achieving its objectives.
- Not to try influence outcomes.
- Meet responsibilities of Members as detailed in the Terms of Reference.

Community Safety Liaison Officer

- Coordinating the CPRG
- Administrative support to the CPRG
- Progression of meeting outcomes
- Liaison between the CPRG and the City

Accountability and Process

Members are required to:

- Act with honesty, good faith, and integrity.
- Abide by the Terms of Reference and Code of Conduct.
- Actively participate in meetings.
- Declare any actual or perceived conflicts of interest at the commencement of the meeting.
- Maintain confidentiality of discussions within meetings.

Members are not permitted to:

- Liaise with the media and represent either the opinions of The City of Cockburn, the Council, or the group.
- Use any Community Reference Group for any public lobbying or political purposes, including use of social media to promote specific campaigns or strategies
- Discuss City of Cockburn business outside of the boundaries of official CPRG and the City of Cockburn.

Term

The CPRG will be ongoing until terminated by agreement by resolution of Council.

These Terms of Reference will be reviewed biennially in line with the Local Government election cycle and may be amended, varied, or modified in writing after consultation and agreement by resolution of Council.

Meeting Information

Decision-making

- The process of coming to agreement is generally by consensus decision-making
- A motion is carried if a majority of the Group members present at the meeting vote in favour of the motion.

Meetings

- Quarterly, or as determined
- Held at the City of Cockburn Administration Building or other City facilities
- Members to attend in person
- Chaired by the Chairperson

Code of conduct for Reference Group members

Members are required to understand and agree with the Code of Conduct, as breaches may result in the forfeiting of membership. ~~Key aspects are as below but are not limited to these stated.~~

Conflicts of Interest

~~Reference Group~~CPRG members must not use their position as a means of making personal gain or influencing others in this regard. Meetings or group discussion should therefore not be misused by bringing personal interest or potential personal gain to the agenda or discussion. This includes promotion of personal businesses or skills, particularly if there is monetary or other gain.

Misuse of position as a member

~~Reference Group~~CPRG members are not permitted to use their position to exert influence in any community setting or to claim to be representing the ~~Reference Group~~CPRG without the express direction to do so from the City, or to bring disrepute to the Group or to the City.

Where approved by the City, members may represent the Group if in an official capacity at an agreed upon function, members are then required to do so in a professional and respectful manner

Communication

Members are required to use positive and respectful means of communicating with each other, with staff, and with the wider community.

Integrity

Members of the CPRG have a responsibility to act with good intent towards their fellow CPRG members, the City of Cockburn and all who engage with the CPRG. This means:

- Maintaining the business confidentiality of the City of Cockburn (written, spoken or otherwise)
- Maintaining the personal confidentiality of fellow CPRG members and all others who support or engage the CPRG (written, spoken or otherwise)
- Declaring one's own ~~c~~Conflict of ~~H~~interest where applicable and removing oneself from the meeting where this is the case
- Being honest, open, and fair, in all dealings and conversations whilst conducting CPRG business

Acknowledgement of Country

The Mayor, Councillors and staff of the City of Cockburn acknowledge the Whadjuk Nyungar people of Beeliar Boodjar as the traditional custodians of this land. We pay our respect to Elders, past and present.

Crime Prevention Reference Group (CPRG)

Terms of Reference

Purpose

- Identify and address issues pertaining to community safety and crime prevention in the City of Cockburn.

Objectives

The purpose of this group will be achieved through:

1. Open communication and information sharing on community safety issues and concerns.
2. Encourage members to participate in crime prevention events, programmes, and initiatives.
3. Provide guidance in the development of policies and programmes aimed at reducing crime. This includes the perception of crime, the actual occurrence of crime, and anti-social behaviour.
4. Assist in the development of the City's plans towards community safety and crime prevention.
5. Review, reassess, and report on the City of Cockburn's plans on community safety and crime prevention.
6. Provide interagency cooperation to address community safety issues.

Membership of the Group

The CPRG membership will comprise of:

- Elected Member/s appointed by Council in accordance with Council Policy
- WA Police – up to four representatives
- Department of Communities (Housing) - one representative
- Department of Justice – one representative
- Department of Education – one representative
- Business - up to three representatives from local businesses
- City of Cockburn representatives:
 - Head of Community Safety and Ranger Services
 - Community Safety Manager
 - Community Safety Liaison Officer
 - Youth Services Manager
 - Community Development Manager
 - Aboriginal Community Development Officer
 - Library Services Manager
 - CoSafe Manager

Membership Resignation

- A member may resign from membership of the CPRG by giving written notice of the resignation to the CPRG meeting facilitator.
- The resignation takes effect when the City's CPRG facilitator receives the notice.

Quorum

A quorum consists of 50% of members.

Roles & Responsibilities

Members

- Prepare for, attend, and participate in meetings.
- Adhere to the Terms of Reference for this group.
- Provide information and advice on items related to the group's purpose, scope, and objectives.
- Be respectful to the Chair and other members and assist in maintaining an orderly and positive meeting by taking turns to speak and encouraging others to voice opinions.
- Maintain positive relationships and communication with City staff and Elected Members, to be an effective liaison.

Chairperson

- The Chairperson role shall be undertaken by a City of Cockburn Elected Member. Membership terminates when an Ordinary Local Government election occurs every two years in October. Elected Members may be reappointed as the Chairperson.
- The Chairperson shall ensure:
 - the meeting is conducted according to the Terms of Reference
 - matters are dealt with in an orderly and efficient manner
 - meetings are kept on time.

Elected Members

- Attend to provide support to its membership.
- Not to 'drive' the Group in achieving its objectives.
- Not to try influence outcomes.
- Meet responsibilities of Members as detailed in the Terms of Reference.

Community Safety Liaison Officer

- Coordinating the CPRG
- Administrative support to the CPRG
- Progression of meeting outcomes
- Liaison between the CPRG and the City

Accountability and Process

Members are required to:

- Act with honesty, good faith, and integrity.
- Abide by the Terms of Reference and Code of Conduct.
- Actively participate in meetings.
- Declare any actual or perceived conflicts of interest at the commencement of the meeting.
- Maintain confidentiality of discussions within meetings.

Members are not permitted to:

- Liaise with the media and represent either the opinions of The City of Cockburn, the Council, or the group.
- Use any Community Reference Group for any public lobbying or political purposes, including use of social media to promote specific campaigns or strategies
- Discuss City of Cockburn business outside of the boundaries of official CPRG and the City of Cockburn.

Term

The CPRG will be ongoing until terminated by agreement by resolution of Council.

These Terms of Reference will be reviewed biennially in line with the Local Government election cycle and may be amended, varied, or modified in writing after consultation and agreement by resolution of Council.

Meeting Information

Decision-making

- The process of coming to agreement is generally by consensus decision-making
- A motion is carried if a majority of the Group members present at the meeting vote in favour of the motion.

Meetings

- Quarterly, or as determined
- Held at the City of Cockburn Administration Building or other City facilities
- Members to attend in person
- Chaired by the Chairperson

Code of conduct for Reference Group members

Members are required to understand and agree with the Code of Conduct, as breaches may result in the forfeiting of membership.

Conflicts of Interest

CPRG members must not use their position as a means of making personal gain or influencing others in this regard. Meetings or group discussion should therefore not be misused by bringing personal interest or potential personal gain to the agenda or discussion. This includes promotion of personal businesses or skills, particularly if there is monetary or other gain.

Misuse of position as a member

CPRG members are not permitted to use their position to exert influence in any community setting or to claim to be representing the CPRG without the express direction to do so from the City, or to bring disrepute to the Group or to the City.

Where approved by the City, members may represent the Group if in an official capacity at an agreed upon function, members are then required to do so in a professional and respectful manner

Communication

Members are required to use positive and respectful means of communicating with each other, with staff, and with the wider community.

Integrity

Members of the CPRG have a responsibility to act with good intent towards their fellow CPRG members, the City of Cockburn and all who engage with the CPRG. This means:

- Maintaining the business confidentiality of the City of Cockburn (written, spoken or otherwise)
- Maintaining the personal confidentiality of fellow CPRG members and all others who support or engage the CPRG (written, spoken or otherwise)
- Declaring one's own conflict of interest where applicable and removing oneself from the meeting where this is the case
- Being honest, open, and fair, in all dealings and conversations whilst conducting CPRG business

15.2.4 (2025/MINUTE NO 0085) Draft Council Policy - Fireworks

Officer Recommendation

The Committee recommends Council ADOPTS Council Policy – Fireworks for a public consultation period of 28 days.

Committee Recommendation/Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes

That Council ADOPTS Council Policy – Fireworks with a reduced scope, incorporating the following amendments:

1. Amend the section “City Events - Fireworks displays are supported at City Events”,
2. Deletion of clauses 4 and 5,
3. Amendment of clause 3 to ‘The fireworks display should not exceed 30 minutes in duration’,
4. Public consultation period of 28 days.

CARRIED 9/0

Background

Approvals for fireworks displays are administered by the Department of Energy Mines Industry Regulation and Safety (‘DEMIRS’) under the *Dangerous Goods Safety Act 2004*.

The DEMIRS approvals process includes consultation with local government to allow for feedback on:

- the level of public interest
- risks to the public, property or the environment.

In 2020, the City engaged an independent Environmental Consultant to undertake a Desktop Review and Impact Assessment of Fireworks (DRIA) (refer Attachment 6).

This was to investigate the impact of fireworks on the natural environment and local fauna species.

The DRIA identified that firework displays can result in the following harmful impacts to people and the environment:

- Chemical components in most fireworks release small volumes off carcinogens upon combustion
- Fireworks displays create small amounts of waste by-products scattered over the surrounding environment. These can be toxic and reduce the overall quality of soil, groundwater, surface water
- The noises and bright lights from fireworks are likely to invoke a short-term fear response in animals.

Based on findings of the DRIA, Council agreed at its March 2021 Ordinary Council Meeting to:

- (1) Develop a policy in relation to fireworks events.
- (2) Continue to permit small, well organised fireworks in the City at appropriate venues in the short to medium term.
- (3) Continue to investigate alternatives to City fireworks displays with the aim of phasing out City sponsored fireworks in the long term.

A draft Council Policy - Fireworks has subsequently been prepared to address the first recommendation.

A copy of the draft Policy was sent to DEMIRS on 1 July 2024. This is because advice from DEMIRS in 2021 recommended the City should prepare a policy outlining Council's stance on fireworks displays and the circumstances in which they would be supported.

With an established policy position, DEMIRS indicated it would be more likely to support recommendations from the City as part of its formal review.

On 17 July 2024, DEMIRS wrote to the City to confirm its support of the draft Policy, and it considered it a great initiative.

The draft Policy was presented to the Sustainability and Environment Reference Group ('SERG') at its meeting on 28 August 2024.

Following the meeting, SERG noted support of the draft Policy and provided formal feedback to the City on 18 September 2024.

The recommendations from the SERG and the relevant responses from the City are attached to this report.

The SERG feedback resulted in several minor modifications being made to the draft Policy before it was distributed to the major fireworks providers in Western Australia.

On 4 November 2024, the draft Policy was sent to the following companies:

- Cardile Fireworks
- West Coast Fireworks
- Howard's Fireworks.

A copy of the draft Policy was also sent to Adventure World because fireworks displays have been hosted by the amusement park in the past.

Of the four companies involved in early consultation, only one submission was received. The submission was from Cardile Fireworks and is attached to this report. The City's response to the feedback from Cardile Fireworks is also attached.

Overall, Cardile Fireworks is not supportive of the draft Policy as it considers the fireworks industry is being unfairly targeted when other entertainment options for community events also have comparable environmental impacts.

The feedback from Cardile Fireworks resulted in a single modification to the draft Policy, whereby a provision excluding fireworks displays from occurring in declared Bushfire Prone Areas was removed.

The Cardile Fireworks feedback highlighted the Department of Fire and Emergency Services and DEMIRS already have an established process for mitigating the risk of bushfires caused by fireworks displays and the subject policy provision served as unnecessary duplication.

This was the only change made following consultation as the submission from Cardile Fireworks did not disprove any of the findings of the DRIA.

Following the conclusion of the targeted consultation with fireworks contractors and Adventure World, the draft Policy is attached for consideration by the Governance Committee and Council.

Submission

The submission from Cardile Fireworks is included in the attachments, along with another document outlining key feedback and comments from the City.

Report

The purpose of this report is to present the Governance Committee and Council with a draft Fireworks Policy that:

1. Addresses the recommendation of the March 2021 Ordinary Council Meeting.
2. Sets the principles to apply when responding to a Fireworks Event Notice administered by the DEMIRS under the *Dangerous Goods Safety Act 2004*.
3. Ensures that the potential impacts to the environment and public health, as identified by the DRIA, are appropriately managed.

The attached draft Policy has been prepared to address the above criteria.

It is important to note the Policy does not seek to phase out or ban fireworks in the City of Cockburn, it is intended to establish the minimum criteria for fireworks event applications to be supported.

This will involve excluding displays from occurring at environmentally sensitive sites and requiring event organisers to prepare Fireworks Management Plans in other locations.

In order to address the harmful impacts to people and the environment, identified by the DRIA, it is recommended Council ADOPTS the Council Policy – Fireworks for a public consultation period of 28 days.

Policy Application

The draft Policy is proposed to apply to any event seeking to use fireworks in the district of the City of Cockburn excluding Rottnest Island.

The Rottnest Island Authority will be responsible for providing feedback to DEMIRS for displays proposed to occur on the Island.

Alternative Options

Not all local governments in the Perth Metropolitan Area have a specific policy for fireworks events. A list of local government authorities with policies is shown in the table below:

Local Government	Policy Name	Policy Scope
City of Stirling	Use of Fireworks and Pyrotechnics Policy	"To assess community impacts associated with noise from fireworks displays, proximity to residences and hospitals, litter, traffic and environmental impacts upon City property".
City of Fremantle	Council Policy – Pyrotechnic Management	"To outline the procedure in which the City of Fremantle will consider applications for fireworks displays".
City of Nedlands	Council Policy – Fireworks in the City	"To establish standards for fireworks displays"
Town of Victoria Park	Policy 404 – Fireworks Management	"Assess community impacts associated with noise from fireworks display, proximity to residences and environmental impacts".
City of Kwinana	Council Policy – Fireworks Management	"Assess community impacts associated with noise, proximity to residences and environmental impacts".
Shire of Serpentine Jarrahdale	Council Policy 4.5.1 – Fireworks	"Assess community impacts associated with noise, proximity to residences and environmental impacts such as litter and bush fire prevention".

Outside of the above examples, many other local governments operate without a policy to manage the impacts of fireworks.

This is in recognition the DEMIRS process still provides a framework for local governments to have input into fireworks event applications.

DEMIRS will still consider feedback on the level of public interest and the various risks associated with the displays, however, DEMIRS has advised it would be less likely to support recommendations without a policy.

Notwithstanding, Council has the option to decline support for the draft Policy and continue with a business-as-usual approach.

The other alternative is to adopt a policy with a reduced scope of influence, to provide the fireworks industry with more opportunities to operate within the City of Cockburn.

To this end, the City has prepared a 'reduced scope' Policy for consideration by Council as an alternative option (refer Attachment 2).

Differences relative to the recommended Policy are shown in track-changes. This is not the option recommended for consultation.

Strategic Plans/Policy Implications

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

- Protection and enhancement of our natural areas, bushland, parks and open spaces.
- Sustainable resource management including waste, water and energy.

Community, Lifestyle & Security

A vibrant healthy, safe, inclusive and connected community.

- A safe and healthy community that is socially connected.

Budget/Financial Implications

Not applicable.

Legal Implications

Not applicable. The *Dangerous Goods and Safety Act 2004* is administered by DEMIRS.

Community Consultation

It is recommended the draft Policy will be made available for public consultation for a period of 28 days.

After the expiry of the period within which submissions may be made, the local government must review the proposed policy in the light of any submissions made and resolve to:

- (i) proceed with the Policy without modification; or
- (ii) proceed with the Policy with modification; or
- (iii) not to proceed with the Policy.

The Policy will be brought back to a future meeting for final consideration once community consultation has taken place.

Risk Management Implications

The harmful impacts to people and the environment identified by the Desktop Review and Impact Assessment of Fireworks are more likely to occur if there is not a Council Policy to govern fireworks events in the City of Cockburn.

A review of the City's Risk Management Framework indicates the risk classification is 'low'.

Advice to Proponent(s)/Submitters

Cardile Fireworks, who lodged a submission on the proposal have been advised this matter is to be considered at the 15 April 2025 Governance Committee. The City's response to the feedback received from Cardile is available via the agenda for this meeting.

Implications of Section 3.18(3) Local Government Act 1995

Nil

Policy	Fireworks
Policy Number (Governance Purpose)	

Policy Type

Council

Policy Purpose

The purpose of this Policy is to set the principles to apply when responding to a Fireworks Events Notice ('Notice') administered by the Department of Energy, Mines, Industry Regulation and Safety ('DEMIRS') under the *Dangerous Goods Safety Act 2004*.

The City's role in assessing a Notice is restricted to an assessment of the impacts the event may have on the community and the environment. DEMIRS will then consider the City's position before deciding on whether a Fireworks Permit should be issued.

Policy Statement

This Policy applies to any event seeking to use Fireworks in the district of the City of Cockburn excluding Rottnest Island.

Definitions

'Adjacent to City managed conservation reserves' means any parcel of land that shares a boundary with a reserve managed by the City for the purpose of conservation.

'Events' include all civic, commercial or community events, meetings, functions, workshops, markets, festivals, expos, parties, information sessions, conferences and organised/formal sport or recreational events. This includes any event requiring the City's Public Health Approval in accordance with the provisions of the *Health (Public Buildings) Regulations 1992*.

'Fireworks' means an article or substance, containing one or more explosives with or without other substances, that is designed to entertain people by producing light, sound, gas, smoke, or a combination of them, by means of exothermic chemical reaction that does not rely on oxygen from external sources to sustain the reaction, but not a rocket motor.

'Close proximity fireworks' means a firework that is designed to be electrically initiated only and either:

- Manufactured commercially and is designed and labelled as suitable to be used in close proximity to a person; or
- Manufactured from commercially available constituents that are designed and labelled as suitable to manufacture fireworks to be used in close proximity to a person.

'Fireworks Event' has the meaning given to that term in Regulation 136 of the *Dangerous Goods Safety (Explosives) Regulations 2007*, being: "an event or show that involves the use of a firework outdoors to entertain one or more people, whether at a public or Private

[1]

Policy	Fireworks
Policy Number (Governance Purpose)	

Event or show". For the purposes of this policy, fireworks displays that occur over a number of days/times at one venue for the same purpose are regarded as one event.

'Fireworks Event Notice' refers to the relevant DEMIRS form or notice submitted to the City for a fireworks event. The Notice is a prerequisite for a Fireworks Event Permit, issued by the Department.

'Licensed Fireworks Contractor' means the contractor licensed by DEMIRS as stipulated in the Fireworks Event Notice.

'Responsible Approving Authority' refers to the authority who is responsible for approving the venue's Noise Management Plan under the Environmental Protection Act 1986 and Environmental Protection (Noise) Regulations 1997. The responsible approving authority includes the Chief Executive Officer of the City of Cockburn for all venues located within the City, and the Department of Water and Environmental Regulation for prescribed premises.

Principal Considerations

When considering the use of fireworks in relation to a Fireworks Events Notice, the City's primary considerations will include:

- the risk in relation to people, property, environment; and
- ensuring people in the vicinity of the proposed event are notified to minimise any disturbance to those people.

City Events

- Firework displays are not supported at City events.

Other Events

- Firework displays are not supported at other events without prior approval from City's Manager Public Health and Building Services.

Minimum criteria to be met for a Fireworks Event to be supported:

Having regard for the principal considerations outlined above, the following conditions and criteria must be met for a fireworks event to be supported by the City:

- (1) The event at which the fireworks display is proposed, is in the public or community interest, having regard for the reason for the event and expected size of the event.
- (2) The event venue has not had more than three firework events in any twelve (12) month period unless a separate Noise Management Plan has been approved by the Responsible Approving Authority.
- (3) The fireworks event is scheduled to occur between the hours of 8am to 10pm Monday to Saturday and 9am to 10pm Sundays and Public Holidays, unless the event is a Community/Public Event, or an exemption has been approved by the Responsible Approving Authority.

[2]

Policy	Fireworks
Policy Number (Governance Purpose)	

- (4) The fireworks display must not exceed 30 minutes in duration.
- (5) The fireworks display is not proposed within or adjacent to City managed conservation reserves or other reserves containing waterbodies.
- (6) The fireworks display is not proposed within or adjacent to City managed reserves containing known Black Cockatoo roost sites, as per Birdlife Australia's *Great Cocky Count*.
- (7) A Management Plan is provided to the City at the time of submitting the Fireworks Event Notice. The Management Plan will be subject to review and approval by the City's Sustainability and Environment and Public Health and Building Services.
- (8) A Fireworks Event Notice should be received by the City at least 2 weeks prior to the date of the event. This will allow sufficient time to review the proposal and provide information to affected residents.
- (9) The Licensed Fireworks Contractor agrees to indemnify the City and any persons acting for or on behalf of the City against any claim for damage or injury to persons, property or the natural environment and the costs associated with such a claim that may arise from the event.
- (10) The Licensed Fireworks Contractor holds current public liability insurance policy to a minimum value of \$20,000,000. Note – All public liability insurance policies must stipulate that they provide coverage relevant to Fireworks Events within a Local Government area in relation to the event or contain suitable wording to the satisfaction of the Local Government Insurance Services.

Fireworks Management Plans are to address the following:

- Distance from spectators and exclusion zones: displays are encouraged to be conducted as far away from spectators as possible.
- Prevailing wind: event organisers are encouraged to ensure that spectators are positioned downwind of the display, if possible.
- List of likely contaminants: to be provided by the fireworks supplier in the form of a Material Safety Data Sheet or similar.
- Notification of nearby residents - all residents within a 1km radius are to be notified by the event organiser/applicant two weeks prior to the event. Information to assist pet owners in managing pet behaviour is to be included in the notification package.
- Waste removal and disposal plan.
- Documentation of a certified Fireworks Contractor License, relevant experience and public liability insurance policy.
- Detail on any other steps taken to minimise adverse impacts.
- Silent fireworks are preferred as they produce less noise.

[3]

Policy	Fireworks
Policy Number (Governance Purpose)	

Close Proximity Fireworks

In accordance with the *DEMIRS Code of Practice – Safe Use of Close Proximity Fireworks* in Western Australia, a Fireworks Management Plan is not required for events seeking to use close proximity fireworks, however, prior consent to use City land for the proposed activity is required.

The Minimum Criteria for outdoor Fireworks Events do not apply to events seeking to use Close Proximity Fireworks, however, the City will assess applications against the Principal Considerations listed in this Policy.

Objection to a Fireworks Event

Applications may be objected to when the City considers that the Fireworks Event is not in the public interest, or it presents an unacceptable risk to people, property or the environment.

If the City intends to object after considering a Fireworks Event Notice, it will provide the Licensed Fireworks Contractor with a right of reply to the objection before it completes the Fireworks Event Notice.

(34) The fireworks display must not exceed 30 minutes in duration.

(45) The fireworks display is not proposed within ~~or adjacent to~~ City managed conservation reserves or other reserves containing waterbodies.

(56) The fireworks display is not proposed within ~~or adjacent to~~ City managed reserves containing known Black Cockatoo roost sites, as per Birdlife Australia's *Great Cocky Count*.

~~(6) The fireworks display is not proposed in declared bushfire-prone areas. Bushfire prone areas are designated by the Western Australian Fire and Emergency Services Commissioner on an annual basis.~~

~~(7) A Management Plan is provided to the City at the time of submitting the Fireworks Event Notice. The Management Plan will be subject to review and approval by the City's Sustainability and Environment and Public Health and Building Services.~~

(68) A Fireworks Event Notice should be received by the City at least 2 weeks prior to the date of the event. This will allow sufficient time to review the proposal ~~and provide information to affected residents.~~

~~(7) The Licensed Fireworks Contractor must notify residents within the vicinity of a proposal to conduct a Fireworks Event at least two weeks prior to the date of the event. Notification is to be through publication and promotion of the Fireworks Event using social media, letter box drops, traditional media and other media sufficient to provide general notice to residents impacted by a Fireworks Event.~~

~~(9) The Licensed Fireworks Contractor agrees to indemnify the City and any persons acting for or on behalf of the City against any claim for damage or injury to persons, property or the natural environment and the costs associated with such a claim that may arise from the event.~~

~~(10) The Licensed Fireworks Contractor holds current public liability insurance policy to a minimum value of \$20,000,000. Note — All public liability insurance policies must stipulate that they provide coverage relevant to Fireworks Events within a Local Government area in relation to the event or contain suitable wording to the satisfaction of the Local Government Insurance Services.~~

Fireworks Management Plans are to address the following:

- ~~— Distance from spectators and exclusion zones: displays are encouraged to be conducted as far away from spectators as possible.~~
- ~~— Prevailing wind: event organisers are encouraged to ensure that spectators are positioned downwind of the display, if possible.~~
- ~~— List of likely contaminants: to be provided by the fireworks supplier in the form of a Material Safety Data Sheet or similar.~~

Policy	Fireworks
Policy Number (Governance Purpose)	

- ~~— Notification of nearby residents — all residents within a 1km radius are to be notified by the event organiser/applicant two weeks prior to the event. Information to assist pet owners in managing pet behaviour is to be included in the notification package.~~
- ~~— Waste removal and disposal plan.~~
- ~~— Documentation of a certified Fireworks Contractor License, relevant experience and public liability insurance policy.~~
- ~~— Detail on any other steps taken to minimise adverse impacts.~~
- ~~— Silent fireworks are preferred as they produce less noise.~~

Close Proximity Fireworks

In accordance with the *DEMIRS Code of Practice – Safe Use of Close Proximity Fireworks* in Western Australia, a Fireworks Management Plan is not required for events seeking to use close proximity fireworks, however, prior consent to use City land for the proposed activity is required.

The Minimum Criteria for outdoor Fireworks Events do not apply to events seeking to use Close Proximity Fireworks, however, the City will assess applications against the Principal Considerations listed in this Policy.

Objection to a Fireworks Event

Applications may be objected to when the City considers that the Fireworks Event is not in the public interest, or it presents an unacceptable risk to people, property or the environment.

If the City intends to object after considering a Fireworks Event Notice, it will provide the Licensed Fireworks Contractor with a right of reply to the objection before it completes the Fireworks Event Notice.

Adoption Date: (Governance Purpose Only)	
Next Review Due: (Governance Purpose Only)	
ECM Doc Set ID: (Governance Purpose Only)	

Sustainability and Environment Reference Group Review of Draft Council Policy: Fireworks

	SERG Recommendation	City Comment	Outcome
1.1	Update references to the 'Department of Mines, Industry Regulation and Safety' to 'Department of Energy, Mines, Industry Regulation and Safety' which is the current name.		Change made
1.2	Update the policy so that fireworks are not permitted at City managed events, with the exception of Close Proximity Fireworks which can be approved by the CEO	The suggestion to ban fireworks at City managed events is supported. The use of close proximity fireworks does not require CEO approval and can be approved by City staff. This is because referral to DEMIRS is not required.	Recommendation partially supported
1.3	Remove the term "conservation reserves" or define it in the policy or provide a list	As this policy will be applied by City staff, definitions and lists of conservation reserves is not considered necessary. The City manages 93 conservation reserves. A full list of the reserves can be sent to the SERG group for awareness.	Recommendation not supported

	SERG Recommendation	City Comment	Outcome
1.4	Fireworks should not be permitted within 500m of conservation reserves. This can be extended to 1km based on wind direction and strength	<p>An arbitrary distance for separation is very difficult to justify without undertaking further technical studies which the City is unwilling to pay for. The City is confident that the existing restricted zones (within or adjacent to) would rule out most events that could impact upon natural areas.</p> <p>As part of the DEMIRS approval, consideration is given to weather conditions and restrictions are applied accordingly.</p>	Recommendation not supported.
1.5	Exclude fireworks from a 500m radius of hospitals, aged care facilities and animal management places	<p>Hospitals and aged care facilities are already governed by separate requirements in relation to noise sensitive premises. A setback of 1km already applies under the Noise Regulations.</p> <p>With respect to animal management, major facilities only exist in two areas within the City. These being the City's Animal Management Facility and the Treeby Kennel Zone. Neither area has any public open space within the recommended 500m exclusion zone so it is not possible for fireworks to be approved in close</p>	Recommendation not supported.

SERG Recommendation		City Comment	Outcome
		<p>proximity to these sites.</p> <p>Outside of this, there are some small-scale kennels and catteries that exist as part of veterinaries. Given the small number of animals at these facilities, it is considered that they should be subject to the same protections as the residential areas where domestic pets also reside.</p> <p>The City considers that the establishment of new large scale animal management facilities would be very unlikely.</p>	
1.6	Include a requirement for the contractor to indemnify the City against claims for damage to the natural environment including, but not limited to flora, fauna and waterways.	Natural environment added.	Recommendation supported.
1.7	Include an exclusion zone of 500m around Aboriginal Heritage Sites.	The preservation of Aboriginal Heritage Sites is administered by the Department of Planning, Lands and Heritage under specific legislation. It is not the	Recommendation not supported

SERG Recommendation		City Comment	Outcome
		responsibility of Local Government and falls outside of the scope of this policy.	
1.8	Include a time-based limitation on the duration of fireworks displays	The Management Plans will include a requirement to specify that displays will not exceed 30 minute duration to reduce amenity impacts	Recommendation supported.
1.9	Ban fireworks in bushfire prone areas	Already addressed in the draft policy. Refer to criterion 6.	Change not required.
2	Do not support fireworks events in restricted burning period	Fireworks displays during declared Total Fire Bans are regulated by the Department of Fire and Emergency Services under State Government legislation. DFES would typically revoke any existing permissions but exemptions do apply. This recommendation falls outside the City's scope of responsibility and cannot be included in the policy.	Recommendation not supported.
2.1	Include previous experience in list of documentation provided by contractors in Fireworks Management Plans		Change made.

SERG Recommendation		City Comment	Outcome
2.2	Additional suggestions for management plans: volume	Volume is addressed by the 1km setback from sensitive premises as per the Noise Regulations. A 30 minute time limitation has been added, as per suggestion 1.8. Monitoring of waste, fauna and emissions would be too challenging to pursue any follow up compliance and there is no suitable regulatory framework applicable. It is difficult to prove changes to any of these parameters could be caused by a fireworks display exclusively.	Time limitation included. Other monitoring parameters not added to the policy.
2.3	Include requirements to ensure a separation to waterbodies and threatened species habitat	Minimum Criteria section updated to ensure that fireworks displays will not occur within or adjacent to any reserves containing waterbodies or known Black Cockatoo roost sites.	Recommendation supported and addressed in separate section of Policy.
2.4	Update Policy to give the City authority to cancel or revoke approved fireworks displays.	The City is unable to make any changes to approvals issued by DEMIRS.	Recommendation not supported.

DRAFT FIREWORKS POLICY

Dear City of Cockburn,

Thank you for sharing the draft policy regarding Fireworks Events Notices via email on 4 November 2024, "*Re: City of Cockburn - Draft Fireworks Policy*"), and for identifying Cardile Fireworks as a key stakeholder. We appreciate the opportunity to provide feedback on this important matter.

As a local WA company, Cardile Fireworks is committed to delivering safe, spectacular, and environmentally conscious fireworks displays. We recognise the importance of developing a policy that balances community enjoyment with environmental sustainability. We value the City of Cockburn's (the City) dedication to sustainability and are keen to collaborate in refining and implementing this policy.

Cardile Fireworks has been a family owned, Western Australian business for over 100 years. Currently in our fifth generation of family management, our journey began in 1890, growing from humble beginnings to becoming a trusted name in the pyrotechnic industry. Our extensive experience and unwavering commitment to safety, creativity, community and environment have allowed us to light up countless events, from small local gatherings to grand city-wide celebrations, currently producing over 200 fireworks displays across Western Australia annually.

At Cardile Fireworks, we recognise the importance of protecting our environment and are committed to minimising our ecological footprint. As a leading fireworks display company in Australia since 1909, we strive to balance the excitement and beauty of our pyrotechnic shows with our responsibility to the planet. Our dedication to environmental stewardship is reflected in every aspect of our operations, from the materials we use to the way we conduct our displays.

Environmental Impacts of Fireworks Displays

Cardile Fireworks have closely followed the City's focus on the environmental impacts of fireworks displays since the publication of the City's "*Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study*" (16 Feb 2021).

As per the Desktop Review and Impact Assessment (DRIA) and the summary of information provided in the "*City of Cockburn Ordinary Council Meeting Minutes - Thursday 11 March 2021*", it is clear that fireworks displays, such as those at Manning Park, are managed with considerable care to minimise environmental impact.

The DRIA concluded that "the impacts associated with the Manning Park fireworks display are likely to be minor", and any potential pollutants from fireworks "are unlikely to produce contaminants in concentrations high enough to impact the quality of soil and water, and health of flora and fauna."

Furthermore, oxidising agents like perchlorate, which can initially contaminate soil and water, have been found to decrease over time following fireworks displays, suggesting that the immediate impact is manageable and not lasting. The deployment of silent fireworks and advance notifications to residents further mitigate effects on local wildlife and pets, ensuring they aren't exposed to chronic stress or injury.

Additionally, while alternatives to fireworks such as light shows, water shows, and drone shows have been suggested, these options are not cost effective for events like the Manning Park Spring Fair. The current cost of the fireworks is around \$5,000, whereas the cost of alternatives far exceeds the entire event budget of \$73,000, making them financially unviable.

The comprehensive measures taken, such as thorough cleanups, the use of reusable launch canisters, and real time noise management, demonstrate that fireworks can be a responsible choice for community celebrations without significant long-term environmental issues.

Thus, the findings of the report do not substantiate claims that fireworks are damaging to the environment, especially given the minor impacts associated with the carefully managed displays at a location such as Manning Park.

The thoughtful precautions and low frequency of these events clearly demonstrate and ensure that the community can continue to enjoy fireworks in an environmentally responsible manner.

The City demonstrated its commitment to environmental responsibility by investing in a comprehensive DRIA. This extensive study, which evaluated the potential impacts of fireworks on the local environment and wildlife, found that the effects of the Manning Park fireworks display are likely to be minimal. The findings highlight that pollutants from fireworks are unlikely to contaminate soil and water to a degree that would harm flora and fauna. Moreover, the city has implemented robust measures to mitigate short term impacts, such as thorough clean-ups and the use of silent fireworks.

Given the thoroughness of the DRIA and its conclusions, it is clear that well-managed fireworks displays, like those at Manning Park, do not pose significant environmental risks and can continue be enjoyed by the community.

The below summarises these findings and seeks clarification on particular items noted in the draft copy of City's Fireworks Policy provided.

Findings & Clarification

Based on our understanding, the DRIA suggests that the environmental impact of fireworks displays, particularly those at Manning Park, is minimal. The report indicates that the pollutants produced are unlikely to significantly affect the soil, water, flora, and fauna, provided that the current management practices are maintained. Additionally, the use of silent fireworks and other mitigative measures have been implemented to address any immediate concerns for wildlife and residents.

Given these findings, we are seeking clarification on the items outlined below:

1. Policy on Fireworks at City Events: The current policy states that fireworks displays are not supported at City events. Could the City provide a more detailed reasoning behind this decision? Considering the DRIA's conclusion that the environmental impact of well managed fireworks displays is minor, what specific concerns or criteria led to this policy?
2. Approval for Other Events: Fireworks displays for other events require prior approval from the City's Manager Public Health and Building Services. Can the City elaborate on the approval process and the factors considered in granting permission? How do these align with the findings of the DRIA, which suggest minimal environmental impact for small, short duration displays like those traditionally held at Manning Park?
3. Exploring Alternatives: The DRIA recommends that the City should look at financially viable alternatives to fireworks, with the aim of potentially phasing out their use. Given that the current cost of alternatives, such as light shows, water shows, and drone shows, far exceeds the budget for events like the Manning Park Spring Fair, how does the City plan to address this financial challenge? Are there specific alternatives being prioritised, and what is the timeline for their implementation?
4. Environmental Impact Findings: The DRIA report and summary state that the environmental impact of the Manning Park fireworks display is minimal. Could the City explain why, despite these findings, the City is still pursuing a policy to potentially phase out fireworks? What additional data or considerations are influencing this decision?

Our aim is to ensure that we are fully aligned with the City's environmental and public health goals while also continuing to provide the community with enjoyable and safe fireworks displays. We believe that further dialogue and transparency on these matters will be beneficial for all stakeholders.

We also seek clarification on the following items regarding the City's stance on fireworks:

5. Community Engagement and Feedback: How has the City incorporated community feedback into its policy on fireworks displays? Given that many community members enjoy fireworks, how does the City plan to balance these preferences with these low-level environmental concerns?
6. Consistency in Environmental Policies: Can the City clarify why it seeks to phase out fireworks despite the DRIA's findings, while other events or activities with similar or greater impacts may not face the same scrutiny. The DRIA findings confirm that fireworks have a low environmental impact, targeting them for phase out seems inconsistent and perhaps even a slippery slope?

Consider the emissions from food trucks, which release significant amounts of carbon dioxide, particulate matter, and nitrogen oxides into the atmosphere, contributing to air pollution and greenhouse gas emissions. Additionally, the extensive use of lighting at events consumes considerable electricity, often sourced from non-renewable energy, further adding to the carbon footprint. Amusement rides similarly consume large amount of energy and can produce waste and noise pollution. If these activities, which have more substantial environmental impacts, are not being phased out, why are fireworks? The approach appears unfair and misaligned with the principle of targeting the most significant contributors to environmental degradation first. Is it not essential to ensure that policies are equitable and based on comprehensive, comparative assessments of all activities' environmental impacts?

7. Economic and Cultural Impact: Has the City considered the cultural significance and economic benefits of fireworks displays, especially for local businesses and community events? What are the projected economic impacts on vendors and local businesses if fireworks are phased out in favour of more costly alternatives?
8. Scientific Basis for Decisions: Can the City provide more details on the scientific methodology used in the DRIA to ensure transparency and reliability of the findings? How does the City plan to address any limitations or gaps identified in the DRIA to ensure that decisions are based on comprehensive data?
9. Evaluation of Alternatives: What specific criteria are being used to evaluate the feasibility and effectiveness of alternatives to fireworks? Given the significantly higher costs of alternatives, how does the City plan to secure funding without compromising other community services or events?
10. Long-Term Monitoring and Data Collection: How does the City plan to continue monitoring the environmental impact of fireworks displays in the future, particularly the potential accumulation of contaminants? What additional studies or data collection efforts are planned to further substantiate any decisions regarding fireworks displays?
11. Cultural & Community Sentiment: Fireworks hold significant cultural importance across many communities, being central to celebrations such as Diwali, Eid, Chinese New Year, Blessing of the Fleet (European Cultural Festivals) and New Year's Eve. These vibrant displays not only symbolise joy and festivity but also carry deep-rooted traditions that bring people together. For instance, fireworks during Diwali represent the triumph of light over darkness, while for Chinese New Year and Fishing Fleet Festivals, they are believed to ward off evil spirits and bring good luck. Phasing out fireworks may inadvertently dampen these cultural celebrations failing to serve the diverse and multicultural fabric of the local community. Ensuring that such significant traditions are honoured and preserved is essential for maintaining the cultural richness and unity of our society. Therefore, it is vital to consider the broader cultural implications and the community's sentiments when discussing the phasing out of fireworks. How does the City seek to value and manage the traditions and multi-cultural nature of the community while seeking to "phase out" fireworks?
12. Future Entertainment & Events: The future of the entertainment industry is rapidly evolving with the integration of cutting-edge technologies, such as the emerging technology of fireworks being launched from drones and the integration of drones and fireworks displays. This innovative approach not only enhances the visual spectacle but also allows for greater precision and reduced environmental impact. For instance, major global events like the Paris Olympics and Paralympic Games and 4th of July celebrations in the United States are already adopting these advanced pyrotechnic and drone techniques. If the City were to phase out fireworks, it risks being left behind, unable to provide state-of-the-art displays that are becoming the standard worldwide. This could diminish the City's appeal and its ability to host contemporary, technologically advanced events. To stay competitive and relevant, it is crucial for the city to embrace these advancements and ensure that its policies support the adoption of new technologies in entertainment, keeping pace with global trends and community expectations.

Here are some examples of integrated fireworks and drone displays:

- **Paris Fireworks from Drones**: For the 2024 Paralympic Games and Olympic Games Ceremonies in Paris, fireworks were launched from drones providing a state of the art and globally renowned artistic display.

- **USA 4th July Fireworks from Drones:** In 2024, many displays across the USA integrated both fireworks and drone displays, with fireworks being launched from drones to create illuminating designs in major US cities.

These examples highlight how integrating drones with fireworks and launching fireworks from drones is becoming a popular trend, offering innovative and environmentally friendly displays.

We would like to ensure that the City's policies are transparent, scientifically sound, considering the broader implications for the community and local businesses and the future of outdoor entertainment technologies.

We would like to make note of the following items raised in the City's minutes:

a) Fireworks Displays: Bushfires

Cardile Fireworks has been proudly producing spectacular displays across Western Australia for over 100 years, and we take our responsibility for safety very seriously. Notably, in all this time, we have never been the cause of a bushfire. Each of our displays is rigorously approved by the Department of Fire and Emergency Services (DFES), ensuring that all safety standards are meticulously adhered to. Every display we conduct has a fire appliance on site, along with two trained firefighters, ready to respond to any potential issues.

Moreover, if a location is deemed unsuitable for a fireworks display, we will not proceed with the event at that site. Both DFES and the Department of Energy, Mines, Industry Regulation and Safety (DEMIRS) must approve all our display locations, ensuring they meet stringent safety criteria. This comprehensive approach underscores our commitment to the highest safety standards and the wellbeing of the communities we serve.

b) Fireworks Displays: Post Display Clean-Up

Fireworks displays can leave behind biodegradable cardboard remnants on the ground. At Cardile Fireworks, we are committed to maintaining the cleanliness and environmental integrity of our display sites. For every display we produce, our crew conducts a comprehensive clean-up on-site. Additionally, we arrange for an independent cleaning contractor to ensure that all biodegradable cardboard and other remnants are thoroughly collected and disposed of responsibly. This meticulous clean-up process is a standard practice for all our displays across Western Australia, reflecting our dedication to environmental stewardship and community satisfaction.

c) Alternative Forms of Entertainment - Drones vs Fireworks: Sustainability

Cardile Fireworks have conducted significant research into alternative forms of entertainment.

- **Environmental Impacts of Drone Shows**

Drone shows are often labelled as the "environmentally friendly" alternative to fireworks, but how true is this? Every drone in a drone show contains a lithium-ion battery, which is considered one of the most hazardous wastes ever made by humans. Lithium is finite and cannot be recycled, meaning that when the batteries are no longer functioning, they need to be disposed of. Batteries are extremely toxic to the environment; the chemicals inside will never decompose and will only pollute the soil around them. It takes more than 100 years for the metal part of batteries to decompose.

A typical drone show consists of 300-1000 drones, each with a lithium battery. This means there are 300-1000 lithium-ion batteries present in every drone show, which need to be fully charged for each show. Lithium mining is also a major source of pollution and has its own negative environmental impacts. For every tonne of mined lithium, 15 tonnes of CO₂ are emitted into the air. Creating these batteries is also a process with large CO₂ emissions.

- **Lithium Batteries**

For example, each drone holds a Lithium Polymer (LiPo) Battery. Lithium Polymer (LiPo) batteries, like other lithium-based batteries, have significant environmental impacts throughout their lifecycle, from extraction to disposal. The extraction of lithium, a key component in LiPo batteries, is a resource-intensive process. It requires large amounts of water, which can lead to water depletion in arid regions. For example, in Chile's Salar de Atacama, lithium mining activities consume 65% of the region's water, impacting local farmers and communities.

- **Lithium Mining**

Additionally, the mining process can lead to soil degradation, loss of biodiversity, and contamination of water sources with toxic chemicals such as hydrochloric acid. The production of LiPo batteries involves significant energy consumption and carbon emissions. Manufacturing processes for lithium-ion batteries can emit between 50-65 kWh of electricity per kWh of battery capacity. This high energy usage contributes to a substantial carbon footprint.

- **Battery Disposal**

Disposal of LiPo batteries poses environmental hazards due to the presence of heavy metals such as cobalt, nickel, and manganese. Improper disposal can lead to soil and water contamination, as these metals can leach out of landfills. There have been several incidents highlighting the environmental risks associated with LiPo batteries. For example, in 2016, a toxic chemical leak from a lithium mine in Tibet led to the death of fish and livestock in the Liqi River. More recently, drone shows using LiPo batteries have faced criticism for their environmental impact. In Perth, [several drones malfunctioned and fell into the Swan River](#), raising concerns about the safety and environmental impact of drone shows.

- **Drone Show Incidents & Reliability: Wind Speeds & Weather**

Recent incidents have highlighted the potential risks associated with drone shows. Such incidents underscore the potential hazards of drone shows, which can be mitigated with traditional fireworks displays. Drone shows are also unable to perform in rain and in winds exceeding 24km/h, as recently seen at Sydney Vivid 2024, hundreds of thousands of spectators were sent home without a display, due to wind speeds preventing the drone show from proceeding. Fireworks displays can proceed in winds up to 50km/h and in the rain, delivering a reliable spectacle to audiences.

- **Cost Comparison**

Firework displays are also much more economical than drone shows. A small drone show in Australia typically costs in excess of \$30,000, while larger shows can climb to well over six figures. These drone shows may include <100 drones, not allowing for detailed shapes or images to be created. In contrast, a typical fireworks display costs significantly less, typically under \$8,000.

- **Other Alternatives**

Alternatives like light shows, water shows, and other musical acts do indeed offer their own charm, but they come with significant costs and environmental considerations.

Light shows and projections can be incredibly expensive to set up and operate. They require high-end equipment, extensive powder usage and often specialised technicians, which drives up the cost far beyond that of a traditional fireworks display. The energy consumption associated with these displays contributes to a higher carbon footprint due to the reliance on electricity, typically sourced from non-renewable energy.

Water shows, while visually stunning, also demand a significant amount of resources. They involve complex plumbing systems, water pumps, and lighting that collectively consume a lot of energy. The installation and maintenance of these systems can be costly and resource-intensive, impacting both finances and environmental sustainability.

Other musical acts and performances necessitate considerable infrastructure, including stages, sound systems, and lighting, all of which increase both the carbon footprint and the financial outlay. Transporting equipment, artists, and crews to and from the venue adds to the environmental impact due to fuel emissions and logistical requirements.

In contrast, well managed fireworks displays, as the DRIA has shown, have a relatively low environmental impact, particularly when proper measures are taken to mitigate any potential harm.

Given the findings that the impact of fireworks is minimal, it seems disproportionate to phase them out in favour of alternatives that may not only be less cost-effective but also have a higher environmental and carbon footprint. Therefore, a more balanced approach considering all factors is crucial.

d) Carbon Emissions & Environmental Studies: Large Scale Fireworks Display

Cardile Fireworks have also conducted our own environmental studies into the impacts of our fireworks displays, ranging from close proximity pyrotechnic displays, small scale fireworks displays and large scale fireworks displays.

The carbon emissions of a large scale fireworks display by Cardile Fireworks (as per 2023) are 14.97kg. **For reference, the displays provided at previous Cockburn Spring Fair's had a carbon emission of approximately 6kg.**

Black Powder Compositions Utilised: 59.883kg NEQ

Carbon Emissions: 14.97kg

**The justification of this calculation can be found below.*

What does this equate to?

To put 15kg of carbon emissions into perspective, These examples illustrate how relatively small 15 kg of CO₂ emissions is when compared to everyday activities.

Comparison	Equivalent CO ₂ Emissions
Driving a Car	The average passenger vehicle emits about 252 grams of CO ₂ per kilometre driven. Therefore, 15 kg of CO ₂ emissions is equivalent to driving approximately 60 kilometres
Fuel	1 litre of petrol will produce about 2.3 kg of carbon dioxide and 1 litre of diesel will produce about 2.7 kg of carbon dioxide. Therefore, the displays produce an equivalent emission of approximately 5.5L of petrol or diesel
Electricity Usage	15 kg of CO ₂ emissions is roughly equivalent to using about 36 kWh of electricity, which is about the amount of electricity a typical household uses in a day.
Air Travel	A short domestic flight (about 1 hour) emits approximately 90 kg of CO ₂ per passenger. So, 15 kg of CO ₂ emissions is equivalent to about 10 minutes of flight time, for one passenger.

Compared to a drone battery?

Let's consider a drone battery, such as a 6S 22.2V 10,000mAh LiPo battery, which stores about 222 Wh (watt-hours) of energy. Charging this battery typically requires around 0.25 kWh (kilowatt-hours) of electricity, considering some energy loss during the charging process.

Carbon Intensity in Australia

Australia's carbon intensity for electricity generation is approximately 0.81 kg of CO₂ per kWh.

Calculating Carbon Emissions

Using the carbon intensity value, we can calculate the carbon emissions for charging the larger drone battery:

Carbon Emissions = Energy Required x Carbon Intensity

Carbon Emissions = 0.25 x 0.81

Carbon Emissions = 0.2025

So, charging a single larger drone battery results in approximately 0.2025 kg (202.5 grams) of CO₂ emissions.

Comparison to 14.97kg of CO₂ Emissions

To put this into perspective, 14.96kg of CO₂ emissions is equivalent to charging approximately 74 drone batteries. Remember, the average drone show uses 100-500 drones and drone batteries per show.

*** Calculation of Carbon Footprint & Carbon Emissions of Fireworks**

14th ISF-Changsha Moderated Session Roger L. Schneider, Ph.D. The principal source of CO₂ from the discharging of fireworks is Black Powder and similar compositions, such as Burst Charges. Ref: Encyclopedia of Explosives and Related Items (US ARDEC) (1) Sukharevskii, et al, balanced reaction

(2) $74 \text{ KNO}_3 + 16 \text{ C}_6\text{H}_2\text{O} + 32 \text{ S} \rightarrow 56 \text{ CO}_2 + 3 \text{ CH}_4 + 2 \text{ H}_2\text{S} + 4 \text{ H}_2 + 35 \text{ N}_2 + 14 \text{ CO} + 19 \text{ K}_2\text{CO}_3 + 7 \text{ K}_2\text{SO}_4 + 2 \text{ K}_2\text{S} + 8 \text{ K}_2\text{S}_2\text{O}_3 + 2 \text{ KCNS} + (\text{NH}_4)_2\text{CO}_3 + \text{C} + 3 \text{ S}$

KNO₃ FW = 101 g/mole

C AW = 12 g/g-atom

C₆H₂O FW = 90 g/mole

C₆H₂ FW = 74 g/mole;

S AW = 32 g/g-atom

(74 moles)(101 g/mole) = 7,474 g (16 moles)(90 g/mole) = 1,440 g

(32 g-atoms)(32 g/g-atom) = 1,024 g Total = 9,938 g

KNO₃ (7,474 g/9,938 g)(100%) = 75.2 % w/w C₆H₂O (1,440 g/9,938 g)(100%) = 14.5% w/w S

(1,024 g/9,938 g)(100%) = 10.3% w/w

Even at STP, ammonium carbonate will likely decompose to release more CO₂, so (NH₄)₂CO₃. 2 NH₃ + H₂O + CO₂ and the 3 moles of CH₄ will unlikely survive the BP combustion under normal fireworks discharge conditions, therefore;

The total CO₂ production is then, 60 moles, or 0.26 g CO₂ per gram BP But, use 0.25 g CO₂ per gram BP (2) Stettbacher, et al, balanced reaction: $2 \text{ KNO}_3 + 3 \text{ C} + \text{S} \rightarrow \text{K}_2\text{S} + \text{N}_2 + 3 \text{ CO}_2$

In conclusion: 1 Tonne of Black Powder in Firework Compositions releases 250kg of CO₂ emissions.

ENVIRONMENTAL AWARENESS & SUSTAINABILITY PLEDGE

A detailed summary of Cardile's sustainability accomplishments and our ongoing commitment toward sustainable spectacles of the future.

At Cardile Fireworks, we recognise the importance of protecting our environment and are committed to minimising our ecological footprint. As a leading fireworks display company in Australia since 1909, spanning five generations of family management, we strive to balance the excitement and beauty of our pyrotechnic shows with our responsibility to the planet. Our dedication to environmental stewardship is reflected in every aspect of our operations, from the materials we use to the way we conduct our displays.

Sustainability and Safety Pledge

1. **Eco-Friendly Materials:** We pledge to use environmentally friendly materials in our fireworks, including biodegradable and low-impact components, to reduce pollution and waste.
2. **Responsible Sourcing:** We are committed to sourcing our materials from suppliers who adhere to sustainable practices and share our commitment to environmental protection.
3. **Waste Reduction:** We will implement waste reduction strategies, including recycling and proper disposal of all materials used in our displays, to minimise our impact on the environment.
4. **Energy Efficiency:** We will strive to reduce our energy consumption by using energy-efficient equipment and practices in our operations.
5. **Community Engagement:** We will engage with local communities to promote environmental awareness and encourage sustainable practices in all aspects of our business.
6. **Continuous Improvement:** We pledge to continuously evaluate and improve our environmental practices, staying informed about the latest advancements in sustainability and incorporating them into our operations.

Safety Measures

1. **Compliance with Regulations:** We strictly adhere to all local, state, and federal regulations governing the use of fireworks to ensure the safety of our displays.
2. **Professional Training:** Our team of pyrotechnicians undergoes rigorous training and certification to handle fireworks safely and effectively.
3. **Risk Assessments:** We conduct thorough risk assessments for each display, identifying potential hazards and implementing measures to mitigate them.
4. **Emergency Preparedness:** We have comprehensive emergency response plans in place, including coordination with local fire and emergency services, to ensure a swift and effective response in case of an incident.
5. **Safe Distances:** We establish and maintain safe distances between the fireworks launch site and spectators, buildings, and other structures to prevent accidents.
6. **Protective Equipment:** Our team uses appropriate protective equipment and follows strict safety protocols during the setup, execution, and cleanup of fireworks displays.

By adhering to these principles and safety measures, Cardile Fireworks aims to create spectacular displays that not only entertain but also respect and protect our environment and ensure the safety of our audiences and team members.

Environmental Procedures

At Cardile Fireworks, we are committed to being an environmentally aware organisation and proactively embrace and implement sustainable business practices. We strive to reduce our environmental impact not only through our production and manufacturing processes but also through strategies and protocols followed during display preparation and on-site at each event.

Low Smoke & Debris-less Technology

Cardile Fireworks uses only the most innovative and environmentally friendly firework and pyrotechnic items available. These pyrotechnic items are manufactured with specific chemicals and compounds to ensure the lowest possible smoke production. We have created exclusive smokeless and debris-less mid-level firework effects, ensuring minimal smoke and no debris.

100% Biodegradable & Recycled Materials – No Plastics

We use 100% biodegradable cardboard in our firework manufacturing and packaging. After the fireworks have been fired, all remaining cardboard tubes and packaging are collected and recycled. None of our pyrotechnic items include or contain plastics, nor do they drop plastic debris.

Reusable Fibreglass Mortars

Cardile Fireworks uses reusable fibreglass firing mortars for launching all aerial shells, roman candles, and mine effects. This environmentally friendly option allows these mortars to be reused for countless future displays.

Reusing and Recycling

We implement the following sustainable business practices at each display:

- Reusing and recycling all copper wiring from electrical ignitors.
- Reusing and recycling all copper wiring used to interconnect field modules.
- Reusing and recycling all copper wiring used to connect field modules to firing panels.¹¹
- Reusing and recycling all cardboard boxes and cartons.
- Recycling all biodegradable pyrotechnic cardboards.

Computer Fired & Programmed Displays

Computer firing does not require long lengths of fuses or port fire devices to hand fire each pyrotechnic item, reducing the amount of combustibles used. Programming and computer-controlled displays allow us to control the amount of pyrotechnics fired, ensuring that the environmental footprint of each display is kept to a minimum through selective use of pyrotechnic items, firing patterns, and centralised locations.

Wireless Technology

We strive to use wireless technology and firing systems at as many display locations as possible. Where wireless technology can be used, the use of cables and wires is greatly reduced.

Clean-Up Procedures

Cardile Fireworks implements strict clean-up procedures and protocols at all displays. These procedures involve thorough clean-up by our crew immediately after each display and a second clean-up and site check the following morning at first light, ensuring no debris or cardboard remnants are left on site.

All Cardile employees are aware of the priority we place on environmental responsibility and are committed to upholding these standards in all aspects of our operations.

Summary:

Cardile Fireworks seeks clarification and response from the City of Cockburn. After evaluation of the *"Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study" (16 Feb 2021)* & as per the summary of information provided in the *"City of Cockburn Ordinary Council Meeting Minutes - Thursday 11 March 2021"*, Cardile Fireworks outlines the following items; as detailed in the letter above:

Environmental Impact Findings:

- The Desktop Review and Impact Assessment (DRIA) has concluded that the environmental impact of fireworks displays at Manning Park is minimal. The pollutants from these displays are unlikely to significantly affect the soil, water, flora, and fauna, provided that current management practices are maintained. Therefore, we question why the City is pursuing a policy to phase out fireworks despite these findings and why fireworks displays are not supported at City events.

Approval and Safety Measures:

- Cardile Fireworks has been producing displays in WA for over 100 years without ever causing a bushfire. Each display is approved by DFES, and we always have a fire appliance and trained firefighters on site. If a location is deemed unsuitable, we do not proceed. Both DFES and the DEMIRS must approve all display locations, ensuring the highest safety standards are met.

Clean-Up and Environmental Responsibility:

- We acknowledge that fireworks displays result in biodegradable cardboard remnants. Our crew conducts thorough on-site clean-ups, and we also hire independent cleaning contractors to ensure all remnants are responsibly disposed of, reflecting our commitment to environmental stewardship.

Cultural Significance:

- Fireworks are integral to many cultural celebrations, such as Diwali, Eid, Chinese New Year, and New Year's Eve. Phasing out fireworks may inadvertently undermine these cultural traditions and fail to serve the diverse community of Cockburn.

Comparison with Other Activities:

- The environmental impact of fireworks is relatively low compared to other common activities. For example, food trucks, event lighting, and amusement rides generate significant emissions and waste. Given these larger impacts, it seems disproportionate to single out fireworks. We ask if other activities with greater environmental footprints are being scrutinised or phased out, and if not, why fireworks are specifically targeted.

Feasibility and Cost of Alternatives:

- Alternatives such as light shows, water shows, and drone displays are not only costly but also have higher environmental impacts. The current cost of these alternatives far exceeds the budget for events like the Manning Park Spring Fair. We seek clarification on the feasibility and funding for these alternatives.

Future Events & Emerging Firework & Drone Technologies

- Cardile Fireworks are currently developing our firework drones in liaison with a local drone company to be debuted in Western Australia in 2025, following the technologies developed in Europe and the USA. These drones will be set to revolutionise both firework and drone displays in Australia. It would be wise for the City to consider this entertainment and

emergence of future technologies in their policy. If the City of Cockburn are to phase out fireworks, it risks being left behind, unable to provide state-of-the-art displays that are becoming the standard worldwide, as already demonstrated at the Paris Olympics and Paralympic Ceremonies and American 4th of July Celebrations in 2024.

Conclusion and Request:

Given the minimal environmental impact of fireworks as supported by the DRIA and our established practices, we respectfully request that the City review its policy on phasing out fireworks and the stance that fireworks displays are not supported at City events. We also seek responses to our questions raised in this letter (items 1-12) and consideration of the comprehensive data and analysis provided by the DRIA, our environmental studies, and the cost and feasibility of alternatives.

We appreciate your attention to these matters and look forward to your detailed response.

Best regards,

**Jim Cardile**

ISPL has not attempted to verify the accuracy and completeness of information supplied by the Client.

This document has been prepared based on assumptions as reported throughout and upon information and data supplied by others or generated by Integrate Sustainability Pty Ltd (Integrate Sustainability). This document has been subject to review and changes from the Client and the Client’s representative.

Executive Summary

Integrate Sustainability Pty Ltd (ISPL) was engaged by the City of Cockburn to undertake a desktop review and environmental impact assessment (EIA) on fireworks displays using the Manning Park Spring Fair as a Case Study. This report presents potential impacts associated with fireworks displays in general as well as assessing the potential impact associated with the minor firework display at Manning Park. EIA involves examining and identifying potential consequences or impacts to the environment and is used as a decision making and planning tool. To complete the EIA, a desktop review of approximately 85 documents was undertaken to ascertain the context of the local environment of the City of Cockburn and understand the environmental impacts associated with fireworks albeit on a larger scale than Manning Park. These findings are summarised below.

Local Environment

The City of Cockburn is located approximately 15km south of Perth on the Swan Coastal Plain and occupies a land area of 168km². Cockburn is largely residential but also includes industrial areas, wetlands and a number of areas of conservation significance such as Beeliar and Jandakot Regional Parks, Woodman Point and several Reserves.

The Rotary Spring Fair is held annually at Manning Park on the last Sunday of October and finishes with a mid and ground level firework display ranging in height from approximately 5m to 140m above ground level and lasting approximately 10 minutes. The display is considered minor in comparison to other displays occurring in the metropolitan area and is the only fireworks display undertaken by the City.

Manning Park is situated in the north-western section of the City of Cockburn, approximately 500m from the coast, north of Azelia Road. Manning Park forms part of the Beeliar Regional Park and is surrounded by residential properties and land developments on all sides except the west which hosts a small industrial area. A NatureMap search was conducted for the City of Cockburn area which identified a total 456 fauna species, 34 of which are of conservation significance. An *Environmental Protection and Biodiversity Conservation Act 1999* Protected Matters Report identified 59 conservation significant fauna species as potentially utilising the area.

Fireworks and Environmental Impacts

Fireworks consist of several main chemical components which react in a designed manner to produce the desired array of bright light and accompanying sound effect. The general components include gun powder (potassium nitrate), sulphur, charcoal, an oxidising agent (usually either nitrate, chlorate, or perchlorate) and metal salts to produce various colours.

Firework displays have been known to result in an increase of particulate matter concentrations of 5 to 20 times background concentrations and remain in the atmosphere for between 16 hours and up to a month. Increased concentrations of particulate matter may cause respiratory difficulties even after only short durations of exposure. Despite the literature focusing on human health impacts, similar impacts are considered likely for fauna. The scale of these impacts is linked to the volume of fireworks and duration of the display. Manning Park fireworks are considered to be at the lower end of the scale.

Oxidising agents used in fireworks can contaminate soil, groundwater and surface water within a reasonable radius of the display. Oxidising agents such as perchlorate are readily water-soluble and return to the ground through precipitation thereby impacting the quality of soil, groundwater and surface water and the health of organisms through uptake. Perchlorate concentrations have been found to decrease over time following firework displays, however the impact of accumulation has not been studied. Areas in which firework displays happen regularly would be expected show a gradual increase of perchlorate levels over time as the gradual

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

increase in perchlorate concentration is likely to make dilution less effective. Again this will be impacted by the volume of fireworks and duration of the display.

Many different types of metals are included in fireworks to create colourful displays. The combustion of fireworks releases metals into the atmosphere resulting in elevated metal concentrations for up to several days which only decrease due to dissipation. Metals released from fireworks may be deposited in soils or waterbodies or breathed in by humans or fauna. Many of the metals used in fireworks have carcinogenic or toxic impacts on humans, flora and fauna.

Fireworks have been recorded reaching noise levels up to 190dB and averaging 90dB for the duration of the display. These noise levels can damage human hearing and cause a behavioural reaction in animals. While in most cases animals exhibit shivering or cowering, mainly stationary responses, some species exhibit flight responses which can lead to injury and death in extreme cases through blunt-force trauma. Birds, primarily seabirds have been observed abandoning their nests and, in some cases, not returning following the completion of the display. In an effort to minimise impacts the Manning Park fireworks include ground level silent fireworks in the display.

Other impacts from fireworks include light pollution, waste and litter generation and fire. Limited research has been conducted on the impact of light generated from firework displays, however it is likely to cause a flight response in birds. Paper or cardboard packaging is likely to not be entirely combusted during the explosion of the firework device and therefore will return to the ground creating a source of pollution or choking hazard for fauna. The Manning Park display tries to limit any waste by using fibre glass cartridges in many of the displays that are collected and used over and over again.

Impact Assessment

The research indicates that fireworks cause plumes of pollution as a result of combustion. The smoke generated contains traces of particulate matter, metals, non-combusted residues such as oxidising agents and inorganic by-products, a number of which are known carcinogens or impact healthy respiratory functioning. Based on the size and duration of the Rotary Spring Fair firework display, the height at which most of the display takes place and the likely weather conditions, it is unlikely the fireworks display will have a medium or long-term impact on the City of Cockburn air quality, although impact is likely to occur in the short term.

Metals and other particulates produced from or remaining after the combustion of the fireworks are likely to be deposited in Manning Park, either over the land or into the lake. It is unlikely the Rotary Spring Fair firework display will produce contaminants in concentrations high enough to impact the quality of the soil and water, and health of flora and fauna, but there is the potential for contaminants to accumulate over time causing long-term impacts.

Loud noises such as those produced from fireworks are likely to cause a fear response for most animals. However, single short-duration events such as fireworks are unlikely to result in chronic stress, which could result in a significant behavioural and physiological response and impacts. Other than immediate responses such as flight, running or cowering, medium or long-term impacts are unlikely. The greatest risk perceived to fauna is that caused by blunt-force trauma injuries to animals trying to flee the area. Of further consideration is the similarities between fireworks and thunderstorms which are likely to affect fauna in a similar manner although atmospheric conditions such as changes in barometric pressure may provide some warning.

Packaging from the fireworks is expected to be littered about Manning Park following the display. A previous impact study identified litter remained for up to several days following the event; this litter is considered a short-term impact. It is to be acknowledged correspondence from the City of Cockburn, implies additional efforts have since been made to reduce litter such as the use of biodegradable packaging, the collection and recycling of tubes, which are fibre glass rather than paper and, minimising packaging and reuse of other

*Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study*

equipment where possible. The risk of fire was the final impact considered for the City of Cockburn firework display and based on the information available, this risk appears to be appropriately managed.

Recommendations

Given that a number of practises are currently in place to minimise many the impacts it is not currently possible to definitively state whether the annual fireworks display at Manning Park should or should not continue. The only long-term impacts identified by this assessment relate to the potential accumulation of contaminants over time, however this impact could be quantified by determining the actual contaminants within the specific chemical constituents and their concentrations likely to be produced by the fireworks display. Consequently, the following recommendations are made based on the outcomes of the impact assessment:

- In the long term consider relocating the fireworks display to an area without an adjacent wetland area or natural bushland such as a sporting oval;
- Keep ground level displays as far from spectators as possible and downwind if practical.
- Obtain a list of likely contaminants including the specific oxidising agent, potential metal particulates and any other potentially harmful products from the firework supplier;
- If the fireworks are to continue at Manning Park, undertake analysis of the soil at the launch site and water from Manning Lake prior to and immediately following the fireworks display for likely contaminants to quantify the impact of pollutants and consider establishing a long-term monitoring program;
- Monitor the Manning Park area subsequent to the fireworks display to identify any injured wildlife;
- Increase the number of silent fireworks used in future events;
- Continue to alert pet owners well in advance of the event of the time and duration of the display and provide information for managing pet behaviour during the event; and
- Continue to ensure all waste is collected and appropriately disposed of following the event.

Although appreciated by many, the overall public perception of fireworks is changing, and more people are becoming concerned about the impact on animals and the appropriateness of the displays given the increasing devastation caused by bushfires. For this reason, ISPL suggests the City of Cockburn trial alternatives, should funding permit, in the coming years with a goal to potentially phase out the use of fireworks in the future. Alternatives may include:

- Light shows and projections;
- Water shows;
- Drone shows; or
- Other musical acts and performances.

1 Introduction

Following concerns that a fireworks display may have a negative impact on the environment, Integrate Sustainability Pty Ltd (ISPL) was engaged by the City of Cockburn (the City) to undertake a desktop review, environmental impact assessment and prepare a report highlighting the potential impacts from the firework display using the Manning Park Rotary Spring Fair as a Case Study.

1.1 Project Overview

To mark the end of the Rotary Spring Fair held annually at Manning Park on the last Sunday of October, the City of Cockburn conducts a small fireworks display lasting approximately 10 minutes. The display consists of a number of mid-level fireworks with aerial displays ranging in height from approximately 10m to 140m above ground level, with the majority being approximately 75m in the air. The contractor engaged by the City utilises fireworks manufactured with specific chemicals and compounds to ensure the lowest possible smoke production and minimal debris. Typically, the packaging of the fireworks comprises biodegradable cardboard, and all remaining fireworks tubes, packaging, wiring and cannisters are collected and recycled following the show (City of Cockburn personal communication).

Manning Park is considered part of the larger Beeliar Regional Park that encompasses Manning Lake and the limestone ridge to the west of the wetland. Situated north of Azelia Road (Figure 1.1) in the suburb of Hamilton Hill, the park and wetlands host an array of fauna and flora, as well as open spaces and recreational areas utilised by the City of Cockburn and residents for major events and outings (City of Cockburn, 2020).

Figure 1.1 Location of Manning Park

The Cockburn Rotary Spring Fair has been hosted by the City of Cockburn in collaboration with the Cockburn Rotary for at least 25 years. The Spring Fair is widely recognised as one of the City's most popular events hosting a variety of stalls, food vendors, a sideshow alley and entertainment (City of Cockburn, 2020). The Fair has an annual attendance of approximately 4,000 people.

1.2 Approach and Methodology

Environmental Impact Assessment (EIA) is a process which involves examining and identifying potential consequences or impacts to the environment (Wathern, 2013). EIA is used as a decision making and planning tool for urban development as it can provide decision makers with an indication of the consequences related to an activity. The EIA process includes initial identification of the environmental values of the area proposed for development or activity; either through a desktop assessment summarising the information already known about the area, or using targeted surveys where the environmental values are unknown or there are potential significant environmental impacts.

This is followed by identification and discussion of the potential impacts or risk pathways associated with the local environment and proposed activities. Where risks and impacts are identified, management measures and recommendations for monitoring are proposed to prevent or minimise those impacts should the activity proceed. This information is then used by decision makers to determine whether the activity should occur or not.

The EIA prepared by ISPL for the City of Cockburn comprised of:

- A desktop review of approximately 85 documents including scientific literature, government reports, articles from public interest and animal welfare groups, news organizations and other websites to ascertain the context of the local environment of the City of Cockburn and understand the potential environmental impacts associated with fireworks;
- Identification and assessment of the environmental impacts associated with fireworks in terms of the local environment, duration and size of the Spring Fair fireworks display;
- Recommendations to further quantify the identified impacts and undertake additional actions not already in place to mitigate potential impacts; and
- Identification of alternative entertainment options in lieu of fireworks, if appropriate and cost effective.

1.3 Assumptions and Limitations

While the available scientific literature considered in this EIA addressed firework displays of a much larger intensity, duration and frequency than the display at the Cockburn Rotary Spring Fair; no scientific literature was available considering events of a similar small scale as the spring fair. However, limited publicly available information such as news articles and websites were located, providing a level of assessment for small scale firework events. Consideration was given to the size of the event and local environmental values, using the contextual understanding included in this report to identify potential impacts associated with the annual Cockburn Rotary Spring Fair firework display. While the size of the display has been considered, the proprietary chemical makeup of the fireworks is unknown and as such all contaminants presented in the literature were taken into consideration for the EIA.

ISPL also acknowledges a number of the sources reviewed during this EIA are not peer reviewed and may incorporate opinions of individuals or companies. These sources were included in the impact assessment to identify *all* possible impacts attributed to fireworks; rather than only those presented in the scientific literature. This report therefore presents all the risks and identified potential impacts of the fireworks display for the City of Cockburn using an unbiased approach. It also acknowledges the actions currently being undertaken to minimise impacts.

2 Desktop Assessment

As part of the EIA process, a desktop review was completed to provide an overview of the local environmental and potential environmental impacts of fireworks. These are described in the subsections below.

2.1 Local Environment

The City of Cockburn is located approximately 15km south of Perth on the Swan Coastal Plain and occupies a land area of 168km². The City is largely residential but also includes industrial areas, wetlands and a number of areas of conservation significance such as Beeliar and Jandakot Regional Parks, Woodman Point and a number of Reserves. The City of Cockburn includes two Wetlands of National Importance - Thomsons Lake (Ramsar listed) and Gibbs Road Swamp System, along with a number of other wetlands shown in Figure 2.1. Two Threatened Ecological Communities (TECs) - the 'Banksia Woodlands of the Swan Coastal Plain' and the 'Tuart (*Eucalyptus gomphocephala*) Woodlands and Forests of the Swan Coastal Plain' are located within these regional parks.

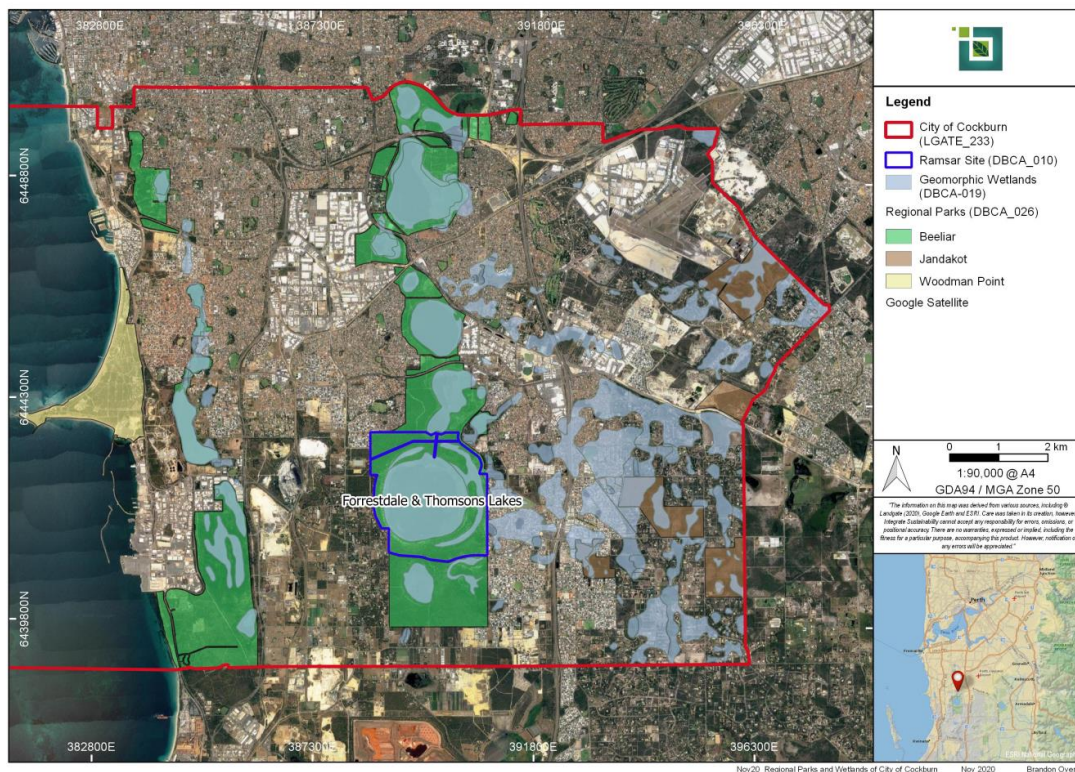

Figure 2.1 Regional Parks and Wetlands of the City of Cockburn

Vegetation of the area ranges from coastal dune complexes in the west, to open woodlands consisting mainly of Jarrah (*Eucalyptus marginata*), Marri (*Corymbia calophylla*) and Wandoo (*Eucalyptus wandoo*) in the east (DPIRD, 2020).

2.1.1 Manning Park

Manning Park is situated in the north-western section of the City of Cockburn, approximately 500m from the coast (Figure 1.1). Manning Park is surrounded by residential properties and land developments on all sides except the west, which comprises a small industrial area hosting commercial enterprises including WA Salt Group, South Fremantle Power Station, Schutz Australia and Aussie Fluid Power.

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

Manning Park is home to the Manning Lake Reserve which is part of the Beeliar Regional Park and is a Bush Forever site. Manning Lake flora ranges from wetland dependent vegetation such as Freshwater Paperbark (*Melaleuca rhaphiophylla* and *Baumea juncea*), to upland vegetation such as the Chenille Honey Myrtle (*Melaleuca huegelii*) and Parrot bush (*Dryandra sessilis*). A variety of native fauna can be found at Manning Lake, including frogs, reptiles and birds. These include the Motorbike Frog (*Littoria moorei*), Western Bluetongue (*Tiliqua rugosa rugosa*) and Sacred Ibis (*Threskiornis aethiopica*) and Carnaby's Black Cockatoo. (City of Cockburn, 2020).

2.1.2 Fauna

A NatureMap report identified 456 fauna species occurring within the City of Cockburn boundaries (Table 2.1). Of these, 34 species are of conservation significance under the *Environmental Protection and Biodiversity Conservation (EPBC) Act 1999* and/or the *Biodiversity Conservation (BC) Act 2016*. The EPBC Act Protected Matters Report identified 59 conservation significant species as potentially utilising the area. Conservation significant species, excluding migratory species, fish, whales, and dolphins are shown in Table 2.2. Both the NatureMap and EPBC Act Protected Matters Reports are included in Appendix 1.

2.1.3 Air Quality

Much of the City of Cockburn is located within the Kwinana Air Quality Buffer Zone. The Buffer Zone exists to manage industrial emissions and maintain a healthy air quality for those working and living in the area (Kwinana Industries Council, 2020). Limited information is currently available on the air emissions within the City of Cockburn; however, a review of the National Pollutant Inventory (NPI) website indicates 12 facilities within the City of Cockburn trigger the NPI reporting threshold (Department of Environment and Energy, 2019). Emission reporting from these facilities, lists 56 emitted substances, with the most commonly reported substances included in Table 2.3. Most emissions are derived from waste treatment, disposal, and remediation services; cement, lime, plaster and concrete production; and mineral metal and chemical sales. A full list of reported emissions is available in Appendix 2.

Table 2.3 Emissions of Most Commonly Reported Substances for Facilities in the City of Cockburn 2018/2019 (Department of Environment and Energy, 2019)

Substance	Air (kg)	Land (kg)	Water (kg)
Acetone	12,000	-	-
Arsenic & compounds	2.3	0.059	35
Benzene	69	0.15	-
Beryllium & compounds	1.1	0.02	-
Carbon monoxide	840,000	-	-
Chlorine & compounds	4,200	2,500	-
Oxides of Nitrogen	870,000	-	-
Particulate Matter 10µm (PM10)	62,000	-	-
Polycyclic aromatic hydrocarbons (B[a]Peq)	2.5		
Toluene	210	1.7	
Total nitrogen			1,400,000
Total phosphorous			330,000
Total Volatile Organic Compounds	150,000		

Due to its proximity to the Kwinana Industrial Area and the commercial operations within the City of Cockburn, it is expected the air quality within the City of Cockburn is impacted to some degree. The Department of Water and Environmental Regulation (DWER) has a real time air quality monitoring station at South Lake. Despite the reported emissions from within the City of Cockburn and Kwinana, data from this location indicates the air quality is 'very good' according to the air quality index for Western Australia (DWER, 2020). Air quality data for South Lake from the 2015 calendar year is available in the Air Quality Monitoring in Perth Region Fact Sheet; from which the following approximate ranges have been deduced (DWER, 2016) and shown in Table 2.4.

Table 2.4 South Lake Air Quality Data (2015) (DWER, 2016)

Air Quality Factor	Duration	Range (Minimum and Maximum)		Maximum Concentration (NEPM)
		Minimum	Maximum	
Carbon monoxide	8hr average	0.25ppm (January)	1.75ppm (February)	9.0ppm
Nitrogen dioxide	1hr average	0.02ppm (January)	0.045ppm (September)	0.12ppm
Ozone	1hr average	0.03ppm (June)	0.065ppm (January)	0.1ppm
Sulphur dioxide	1hr average	0.01ppm (July)	0.04ppm (February)	0.2ppm
Particles as PM10	daily average	20µg/m ³ (August)	55µg/m ³ (February)	50µg/m ³
Particles as PM2.5	daily average	12µg/m ³ (March)	34µg/m ³ (February and May).	25µg/m ³

According to this 2015 data, carbon monoxide, nitrogen dioxide, ozone and sulphur dioxide averages all remain below the maximum concentrations outlined in the National Environment Protection (Ambient Air Quality) Measure (NEPM). PM10 and PM2.5 exceed the NEPM maximum concentrations of 50µg/m³ and 25µg/m³ respectively in months where peak concentrations were observed. Despite this, yearly averages remain below maximum concentration levels.

2.2 Fireworks

Fireworks essentially are small pyrotechnical missiles that explode in the sky creating loud explosions and bursts of brightly coloured light (GrrlScientist, 2019). Fireworks consist of several main chemical components

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

(Figure 2.2) which react in a designed manner to produce the desired array of bright light and accompanying sound effect.

The two most important components of a firework device are the gun powder explosive, which is generally a mix of potassium nitrate (KNO_3), sulphur and charcoal, and the oxidising agent usually either nitrate, chlorate, or perchlorate. Metal salts are also included in the shell to produce the flash and colour exhibited by the combustion. These elements are then generally bound together by a binder, usually a type of carbohydrate and encapsulated within a paper or cardboard shell (Compound Interest, 2013; Sijimol & Mohan, 2014).

Figure 2.2 Diagram of Fireworks Components

The heat given off during the combustion reaction causes the electrons of the chosen metals to 'excite' emitting the excess energy as light. Many different types of elements or elemental compositions are used to produce the bright colours associated with fireworks. For example, lithium (Li) salts produce pink, sodium (Na) salts make yellow or orange, copper (Cu) and barium (Ba) salts generate green or blue, and calcium (Ca) or strontium (Sr) give red (Compound Interest, 2013; GrrlScientist, 2019; Chi-Chi, 2016; Cao, et al., 2017). A summary of the chemicals found in fireworks is provided in Figure 2.3, also included in Appendix 3.

Figure 2.3 The Chemicals in Fireworks (Compound Interest, 2013)

2.3 Environmental Impact

Firework displays are high intensity activities that cause short-term air quality degradation, produce uncharacteristically loud noises, flashes of light and release toxins into the environment.

2.3.1 Chemical and Metallurgical Pollutants

Particles

Firework displays commonly generate dense smoke clouds of particulate matter (PM) that disperse water-soluble ions, trace metals and other toxins into the atmosphere (Chi-Chi, 2016; Cao, et al., 2017). For example, firework displays at major events in Oahu (US), Hisar (India) and Jinan (China) resulted in a 2 to 14-fold increase of PM_{2.5}¹ and PM₁₀² concentrations in comparison to their relative background levels. The literature suggests the impact of a firework display can result in a 5 to 20-fold increase of PM baseline levels (Croteau, Dills, Beaudreau, & Davis, 2010; Chi-Chi, 2016; Cao, et al., 2017) or by between 7 and 14% of the combusted mass of fireworks (Croteau, Dills, Beaudreau, & Davis, 2010). The amount of PM released during the display is largely tied to the volume of fireworks used in the display, with large events obviously producing more pollution.

Similarly, the literature portrays a large variance when considering the time taken for PM levels to return to pre-event levels. Chi-Chi (A review of the impact of fireworks on particulate matter in ambient air, 2016) reviewed 49 separate studies relating to atmospheric pollution resulting from firework displays, whereby the research suggested that firework PM can remain suspended in the air for a week or even up to 1 month after festival displays. Alternatively, Croteau (Emission factors and exposures from ground-level pyrotechnics, 2010) and a review by the Scottish Government (Fireworks Legislation and Impacts: International Evidence Review, 2019), observed the return of PM concentrations to background levels within a space of 24 and 16 hours respectively.

The large variance in the timeframes is linked to multiple factors. The size of the display impacts the amount of matter and therefore influences the how long the PM takes to disperse. Smaller events like Manning will disperse relatively quickly. Other factors include wind and climatic pressures, rainfall, distance away from the display and the height of the display. Croteau (Emission factors and exposures from ground-level pyrotechnics, 2010) found that ground-level displays presented larger risks for PM to impact the health of spectators than aerial displays which are further away and disperse more rapidly into the atmosphere.

Studies have shown that even brief exposure to pollutants derived from fireworks can pose a high non-carcinogenic risk to human health. Fireworks generate fine and ultrafine particles which are more toxic and appear to have a more negative health effect compared with coarse particles (Chi-Chi, 2016). Health effects are mainly expressed as a result of the inhalation of smoke derived from the display which contributes to coughs, fever and dyspnea, and even acute eosinophilic pneumonia. The impact of increased PM₁₀ emitted from fireworks includes acute lower respiratory tract symptoms and illnesses (Cao, et al., 2017).

While no research was found discussing the impact of PM on fauna, the increase in PM is expected to have a similar effect as in humans. Sufficient evidence has also been demonstrated that water-soluble ions contribute to more than 50% of PM_{2.5} mass (Chi-Chi, 2016), which thereby enables the contaminants to enter the ground and waterways more easily.

In summary, firework displays are considered to increase particulate matter concentrations of 5 to 20 times background concentrations and remain in the atmosphere from between 16 hours and a month. Increased concentrations of particulate matter may cause respiratory difficulties even after only short durations of exposure. Despite the literature focusing on human health impacts, similar impacts are considered likely for fauna. The scale of these impacts is linked to the volume of fireworks and duration of the display. It is likely Manning Park is at the lower end of the spectrum.

Oxidising Agents

Oxidising agents such as perchlorate are included in fireworks as atmospheric oxygen does not support rapid combustion (Chi-Chi, 2016). Perchlorate is an oxy-anion of chlorine. During the production of fireworks and firework displays, the potential exists for perchlorate to be released into the air, and then deposited onto the

¹ Particle Matter less than 2.5µm in size, generally associated with harm to health.

² Particle Matter less than 10µm in size, generally associated with harm to environment.

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

land or water along with precipitation. Perchlorate is readily water-soluble and remains stable for long periods of time under natural environmental conditions. Perchlorate collected in the soil may either leach into water bodies or may be absorbed by plants through soil moisture and accumulate in plant tissues. Multiple studies have detected perchlorate in groundwater, surface water and drinking water following firework displays (Sijimol & Mohan, 2014; Scottish Government, 2019).

Perchlorate is hazardous to many organisms as it is a potent thyroid disruptor. Perchlorate actively inhibits the uptake of iodide by the thyroid gland thereby resulting in the decreased production of thyroid hormones (Sijimol & Mohan, 2014; Chi-Chi, 2016). Perchlorate is therefore particularly hazardous to aquatic organisms who consume contaminated water and animals whose diet consists of aquatic organisms such as waterbirds and some mammals.

The oxidising agent comprises approximately 40% of each firework and therefore remaining residue has the potential to contaminate soil and water over a large area. Sijimol and Mohan (Environmental impacts of perchlorate with special reference to fireworks—a review, 2014) reported groundwater being contaminated within a radius of 100m of the firework display while noting the extent of contamination depends on the number of displays, types of fireworks involved, amount of misfiring, firework disposal, and the duration of the display.

Several studies have been conducted throughout America suggesting various impact levels from perchlorate. Studies in Dartmouth and Oklahoma reported elevated levels of perchlorate in soils, groundwater and the surface water of a small lake (New Hampshire Department of Environmental Services, 2018). Separate studies suggest elevated concentrations in surface water appeared to peak approximately 14 hours following firework displays (reaching levels from 24 to 1028 times the mean baseline value); and then returned to background levels within 20 to 80 days (GrrlScientist, 2019). Research suggests perchlorate concentration above 2µg/L are required to have an impact on water quality (New Hampshire Department of Environmental Services, 2018).

Nitrate is also known to be used in fireworks as an oxidising agent. While no studies were found linking the impacts of nitrate residue from fireworks to environment harm, nitrate is known to be potentially toxic to freshwater aquatic organisms in high concentrations, although some marine animals are also sensitive. The main toxic action of nitrate is due to the conversion of oxygen-carrying pigments to forms that are incapable of carrying oxygen (Camargo, Alonso, & Salamanca, 2005).

In summary, the oxidising agents used in fireworks can contaminate soil, groundwater, and surface water within a reasonable radius of the display. Oxidising agents such as perchlorate are readily water-soluble and return to the ground through precipitation thereby impacting the quality of soil, groundwater and surface water and the health of organisms through uptake. Perchlorate concentrations have been found to decrease over time following firework displays, however the impact of accumulation has not been studied. Areas in which firework displays happen regularly are expected to show a gradual increase of perchlorate levels over time as the gradual increase in perchlorate concentration is likely to make dilution less effective.

Metals

A variety of different metals are used to influence the burst of light displayed by fireworks as discussed in Section 2.2. It is therefore no surprise that studies from around the world have all reported an increase of metals concentrations in the air following firework displays (Croteau, Dills, Beaudreau, & Davis, 2010; Chi-Chi, 2016; Kumar, et al., 2016; Cao, et al., 2017; GrrlScientist, 2019). Chi-Chi (A review of the impact of fireworks on particulate matter in ambient air, 2016) observed from 49 separate firework displays, 25 reported increased concentrations of Al, Ba, Cd, Cr, Cu, K, Mg, Mn, Pb, Sr and Zn³.

³ Aluminium (Al), Barium (Ba), Cadmium (Cd), Chromium (Cr), Copper (Cu), Potassium (K), Magnesium (Mg), Manganese (Mn), Lead (Pb), Strontium (Sr) and Zinc (Zn)

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

The 2006 FIFA World Cup firework display in Milan resulted in increased concentration of metals in the air, which included Sr (120-fold), Mg (22-fold), K (12-fold), Ba (11-fold), and Cu (6-fold) (Chi-Chi, 2016). Similarly, Kumar (Fireworks induced particle pollution: A spatio-temporal analysis, 2016) observed across a number of displays an average increase from background levels of Ba (24.7 times), Sr (2.98 times) and Cu (3.18 times). Furthermore, a 2016 study from Spain reported an increase in air metal concentrations not only at the firework launch site but also nearby in places throughout the city as the smoke clouds dispersed. Air metal concentrations were elevated for days following the display (GrrlScientist, 2019), however it has typically been reported air metal concentrations declined within 24-hours (New Hampshire Department of Environmental Services, 2018). ISPL notes however, these fireworks displays were of a more significant size and duration than those at Manning Park..

Metal particles, such as Cd, Pb, Cr and Ni have been identified as human carcinogens and also have severe effects on people with asthma (Cao, et al., 2017). In addition to the health related impacts of metals, many of the particles from the air end up deposited on the land or in surface water thereby having the potential to damage vegetation and impact on the health of other organisms (Cao, et al., 2017). A number of the metals identified as being used in fireworks are substances or wastes which if released may present immediate or delayed adverse impacts to the environment by means of bioaccumulation and/or toxic effects upon biotic systems (Ascend Waste and Environment, 2015). For example, Flying Colours Fireworks (Environmental Impacts, 2020) notes elevated levels of:

- Sr has been linked with harm to bone marrow and blood thinning;
- Al has been linked with poor mental and physical performance;
- Cu can be extremely harmful to aquatic ecosystems and has also been linked with firework caused dioxin pollution;
- Ba has been linked with retching, loose bowels, breathing inconvenience, changes in pulse, general muscle shortcoming and spasms; and
- Cd can be linked to cancer, lung harm, kidney infection and delicate bones.

In summary, many different types of metals are included in fireworks to create colourful displays. The combustion of fireworks release metals into the atmosphere resulting in elevated metal concentrations for up to several days which only decrease due to dissipation. Metals released from fireworks may be deposited in soils or waterbodies or breathed in by humans or fauna. Many of the metals used in fireworks have carcinogenic or toxic impacts on humans, flora and fauna. The level of impacts will depend on the size and duration of the display.

Other Pollutants

The combustion of fireworks produces several by-products which can also be harmful to human health and the environment. Following firework displays, increases in SO₂, NO, NO₂, ozone, and organic compounds are generally observed (Croteau, Dills, Beaudreau, & Davis, 2010; Cao, et al., 2017). SO₂ can be slowly absorbed into fine particles and transported deeply into the lungs, thereby causing long-term health effects. NO₂ emitted from fireworks can generate biochemical alterations and histological demonstrable lung damage leading to both acute and chronic exposure. The higher concentrations of O₃ and CO also may cause severe asthma and lung diseases (such as pneumonia) (Cao, et al., 2017).

2.3.2 Material/ Physical Waste Impacts

Fireworks consist of several parts which are not all consumed during combustion. Croteau (Emission factors and exposures from ground-level pyrotechnics, 2010) reviewed a number of different fireworks and concluded on average between 55% and 86% of the original mass of the firework remained as non-combusted residue and packaging. In addition to this, tubing and wires are also used during fireworks displays and therefore have the potential to be left behind as waste. Fireworks are often ignited over water in order to reduce the risk of fire; however, in doing so increases the likelihood wastes will end up in the water. The paper or cardboard

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

packaging is unlikely to be entirely consumed during the explosion and therefore will return to the ground. Weather conditions play a large role as to where the waste will likely land and how easy it will be to contain and collect. The level of impacts will depend on the size and duration of the display.

2.3.3 Fire

The combustion of fireworks produces a number of 'excited particles', immense heat and falling debris, and this can result in fire. As fireworks are legal to purchase for personal use in North America, there are numerous records of fires started from fireworks. For example, between 2009 and 2013 fireworks were the reported cause for 129 fires and almost \$2.5 million in damage (The Land Between, 2019) in Ontario, Canada. In 2018 across the US it is estimated that fireworks started 19,500 fires in the calendar year (National Fire Protection Association, 2020).

While fireworks are generally not available for private sale in Australia, public firework displays still present a risk of fire, particularly in Australia's dry climate. Following the devastating bushfires of 2019, public opinion against firework displays commenced in Australia with multiple petitions circulating to ban displays such as the New Year's Eve Sky Show in Sydney (BBC News, 2019). While the events are heavily regulated and measures are put in place to limit the risk and impact of fires, the potential for fires still remains; and following the catastrophic outcome of bushfires in recent years, the issue remains sensitive to the general public.

2.3.4 Noise Pollution

A number of noise studies have been conducted on firework displays. Of the seven studies reviewed by Cao (Review on physiochemical properties of pollutants released from fireworks: Environmental and health effects and prevention, 2017) that focused on noise quality, the mean noise level during firework displays was found to be approximately 90dB; 1.2 times higher than mean background noise levels of 78dB. Further research has estimated peak noise levels to be between 137dB and 190dB, which is high enough to be harmful to human hearing and can lead to life-threatening injuries to pets, livestock, wildlife and birds due to the impulsive nature of the noise (Scottish Government, 2019; RSPCA, 2019; GrrlScientist, 2019).

While there is limited information available specific to Australia and more specifically its native animals, there is consensus amongst the research that fireworks can be a source of fear and distress for many animals (RSPCA, 2019). The hearing of many animals is much more sensitive than that of humans and so not only are fireworks found to be more disturbing for them, but they can also damage their hearing more severely (Animal Ethics, 2019; Scottish Government, 2019). Furthermore, the infrequency and unpredictability of fireworks makes it unlikely that animals will acclimatise to the noise produced regardless of how often events are held (RSPCA, 2019).

Native Fauna

Most of the research conducted on the impact of noise focuses on dogs, farm animals and birds, with the effects of sudden loud noises on native or wild animals being difficult to assess. How native fauna react to noise stimuli largely depends on the biology and behavioural traits of each species, as well as nutrition, intraspecific conflicts and reproductive status (Rodewald, Ganslober, & Kolpin, 2014). Psychological effects on native fauna are difficult to assess and for this reason most of the research makes assumptions based on behaviours exhibited in response to loud noise (RSPCA, 2019).

The evidence suggests many small mammals are likely to run, hide, shiver, cower or freeze in response to loud and sudden noises (Scottish Government, 2019). Other studies have reported rodents continue displaying stressed behaviours such as running for several minutes after the noise ceases (Animal Ethics, 2019). Research is also available to suggest the noise from fireworks affects larger mammals such as sea lions who were observed becoming vocal and then fleeing (Pedreros, Sepulveda, Gutierrez, Carrasco, & Quinones, 2016) and rhinoceroses and cheetahs who exhibited distinct signs of arousal or panic (Rodewald, Ganslober, & Kolpin, 2014). Despite these observations, monitoring of quokka populations on Rottnest Island during firework

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

displays did not indicate any distress or changes in behaviour (Scott, 2018). This response, as suggested by the literature, is likely influenced by the quokka's surroundings, behaviour and social adaptations.

Loud noises have historically been used as a deterrent for birds and so it unsurprising the effect fireworks have on birds. The available research agrees birds commonly take flight as a result of loud noises with numerous studies suggesting multiple species fly upwards several hundred metres to escape the area, unlikely to return for at least 45 minutes following the end of the display (Griffin, 2012; Scottish Government, 2019; RSPCA, 2019; Evans-Brown, 2019). While the noise of fireworks can cause tachycardia in birds or even death from fright; the most common cause of death or injury is due to blunt-force trauma from birds becoming disorientated and crashing into trees, buildings or other objects (Griffin, 2012; Scottish Government, 2019; Animal Ethics, 2019; McCammon & Paris, 2019).

Several studies have also reported birds (such as nesting terns and gulls) abandon their nests either temporarily or permanently as a result of the noise (Animal Ethics, 2019; RSPCA, 2019). This reaction, commonly exhibited by seabirds, resulted in cancellation of the 4th of July firework displays in Gualala, California (Griffin, 2012).

Many organisations such as veterinary clinics and the RSPCA group the impacts of and care advise given regarding fireworks and thunderstorms, given the several similarities such as sudden noise, flashes of light and generally short durations. The fearful and anxious behaviour exhibited by animals in response to thunderstorms is considered appropriate as it is a survival response to potential danger (PennVet, 2020). A key difference between the two is that storms generally provide some sort of warning to animals by gradual change in weather conditions such as increasing wind, darkening skies and a drop in barometric pressure (PennVet, 2020). Despite this, the cowering or fleeing response exhibited by most animals is still displayed. It is therefore also suitable to acknowledge the similarities in the return of normal behaviour following the removal of stimuli, be it storm or fireworks, and the animal's ability to recover or withstand the event.

In 2001, the City of Cockburn commissioned an impact assessment on the effects of firework displays on the waterbirds in the Manning Park area. The study found the fireworks did not adversely affect the waterbirds of Manning Lake. (City of Cockburn, 2001)

Livestock

Horses and farm livestock are easily frightened by loud noises and generally respond in ways that result in injury to themselves or damage property or equipment. A study revealed that noises ranging from 80dB to 89dB increased the heart rate of pigs; while prolonged exposure to noise levels above 100dB increased the respiration rate in lambs (RSPCA, 2019). Several studies have been undertaken to examine the impact of fireworks on horses who exhibit a flight response when exposed to loud noises. In a study conducted by Gronqvist (The Management of Horses during Fireworks in New Zealand, 2016) of nearly 5,000 horses, 79% were shown to react anxiously or very anxiously as result of fireworks, with 82% of the horses starting to run; and more than a quarter of those received injuries as a result. A similar study was conducted on chickens, however only 9.3% of the chickens observed were visibly frightened (Scottish Government, 2019).

Domestic Animals

Sensitivity to loud, infrequent noises is particularly common in dogs and is usually followed by anxious behaviour. Despite much of the research being conducted on dogs, there is evidence suggesting cats and other small mammals such as rabbits, ferrets and guinea pigs exhibit similar responses (Scottish Government, 2019). The most common stress responses exhibited by domestic animals include vomiting, severe self-injury and accidental trauma. In a survey conducted by Gates (Owner perceptions and management of the adverse behavioural effects of fireworks on companion animals: an update, 2019) which included 4,293 pet owners

*Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study*

(15,871 pets), 74.4% of the animals were reportedly frightened by fireworks exhibiting behaviours such as hiding, shivering and cowering, and 345 were injured as a result of the fireworks.

In summary, fireworks have been recorded reaching noise levels up to 190dB and averaging 90dB for the duration of the display. Noise levels this high can damage human hearing and cause a behavioural reaction in animals. While in most cases, animals exhibit shivering or cowering (mainly stationary responses), some species exhibit flight responses which can lead to injury and death in extreme cases through blunt-force trauma. Birds, (primarily seabirds) have been observed abandoning their nests and, in some cases, not returning following the completion of the display.

Despite the responses exhibited by fauna in the literature from general noise, there is also research which qualifies the impact of fireworks on animals. While it is understood the loud noises affect animals' behaviours differently, there is evidence that suggests short-term events and changes like fireworks do not induce real stress as long as the animals are able to cope with them (Rodewald, Ganslober, & Kolpin, 2014). Chronic stress, which is responsible for the serious behavioural and physiological consequences is unlikely to be caused by short-term events. Observations show animals tend to manage the impact of stress with retreat behaviours enabling them to tolerate the fireworks display (Rodewald, Ganslober, & Kolpin, 2014). Furthermore, given the frequency, duration, and intensity of sounds resulting from fireworks displays, it is unlikely that wildlife would sustain temporary, much less permanent, hearing damage (Environmental Analysis Section Stewardship Branch, 2008). This is particularly relevant given the small scale display at Manning and it is unlikely that hearing damage would be sustained by the local wildlife.

2.3.5 Light Pollution

Far less research has been conducted on the impact of light generated from firework displays than what has been carried out for sound. Nevertheless, the light produced from fireworks represents a human-caused disturbance stimulus that, depending on the time of year, exposure time and proximity, can have varying disturbance effects. Research concludes birds react to visual stimuli just as readily as acoustic stimuli. In Stickroth's (Effects of Fireworks on Birds - A Critical Overview, 2019) study, despite the birds only exhibiting a mild reaction, even at a distance where the noise could not be heard, birds took flight in response to the light produced. Further research also indicated waterbirds may react more sensitively to light than other birds and mammals (Stickroth, 2019).

There are also other studies assessing the impact of artificial light on the natural environment. Light influences a variety of the physiological and ecological processes and therefore the impact of light pollution on particular species, communities or ecosystems can be significant (Shier, Bird, & Wang, 2020). Light generated from fireworks would be expected to have minimal to no impact in these circumstances due to the short duration of exposure (in comparison to longer-term light pollutants such as streetlights).

3 Impact Assessment

The EIA was completed to assess the impacts identified through the desktop research on the known environmental and social values within the City of Cockburn, more specifically Manning Park. The EIA uses the definitions provided in Table 3.1 to assign an impact rating to attributes of the firework display. Impact ratings have been assigned based on available knowledge and therefore may differ if new information becomes available.

Table 3.1. Risk matrix

		Consequence		
		Short-term	Medium-term	Long-term
Likelihood	Very Likely	Medium	High	High
	Likely	Low	Medium	High
	Unlikely	Low	Low	Medium
Definitions	<p>Consequence:</p> <p><i>Short-term</i> - Impacts will have a short-term effect (duration of fireworks display and following 24 hours) with conditions returning to pre-event levels.</p> <p><i>Medium-term</i> - Impacts will have a medium-term effect (lasting up to several months) with conditions returning to an alternative stable state.</p> <p><i>Long-term</i> - Impacts will have a long-term effect (lasting 2 years or more) with conditions unlikely to return to pre-event levels.</p> <p>Likelihood:</p> <p><i>Unlikely</i> – Event / impact has a rare or unlikely chance of occurring.</p> <p><i>Likely</i> – Event / impact has a possible chance of occurring.</p> <p><i>Very-likely</i> – Event / impact will occur.</p> <p>Impact Rating:</p> <p><i>Low</i> – No or small impact(s) to the environment or community that may not require management measures.</p> <p><i>Medium</i> – moderate impact(s) to the environment or community that can be reduced with management measures.</p> <p><i>High</i> – significant impact(s) to the environment or community that are unlikely to be controlled with management measures.</p>			

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

Table 3.2. Risk Assessment Relevant to the Manning Park Display

Value	Impact	Likelihood	Consequence	Rating	Comments
Air					
Air Quality	Smoke plume produced from the firework display contains a number of pollutants including particles, metals and by-products which reduce the air quality.	Likely	Short-term	Low	Although it is likely the firework display will produce a plume of smoke, given the size of the display it is likely it will dissipate relatively quickly and produce minimal concentrations of pollutants.
	Reduced air quality from firework pollutants causes respiratory issues for humans and animals.	Unlikely	Short-term	Low	It is likely pollutants will be produced from the fireworks, however given the proximity to the launch site and the distance from the ground it is unlikely the smoke will cause any respiratory issues prior to it dissipating.
Land					
Soil Quality	Metals produced from the firework display settle to the ground contaminating the soil.	Likely	Long-term	High	Metal particles are likely to fall to the ground following the firework display (although at low quantities given the size of the display). It is unlikely metal concentrations from a single display will have an impact on contamination levels but the impact of accumulation from multiple events is unknown. As the display is held at the same location each year, concentrations could increase over time.
	Oxidising agents such as perchlorate produced from the firework display settle to the ground contaminating the soil.	Unlikely	Medium-term	Low	It is unknown what oxidising agent is contained in the fireworks utilised in the display. Perchlorate is readily water-soluble and so if used would be expected to dissipate resulting in a decrease in soil concentration levels over time. As the size of the display is small, high concentrations of oxidising agents would not be expected.
Aesthetic	Litter resulting from the fireworks display is unappealing.	Very-likely	Short-term	Low	Litter is likely however it is collected following the event.

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

Value	Impact	Likelihood	Consequence	Rating	Comments
Water					
Water Quality	Metals produced from the firework display fall into the water, leach from the soil or leach/ dissolve from waste (packaging) residue.	Likely	Long-term	High	As the firework display takes place above the lake it is assumed metal particles will fall into the water. It is also possible for metals to leach or dissolve from material waste residue which falls into the water. It is unlikely metal concentrations from a single display will have an impact on contamination levels, but the cumulative impact of ongoing events is unknown. As the display is held at the same location each year, concentrations could increase over time.
	Oxidising agents such as perchlorate produced from the firework display fall into the water, leach from the soil or leach/ dissolve from waste (packaging) residue.	Likely	Long-term	High	It is unknown what oxidising agent is included in the fireworks utilised in the display. Perchlorate is readily water-soluble and has the potential to contaminate the lake and groundwater if used. As the size of the display is small, high concentrations of oxidising agents would not be expected, however can be hazardous in aquatic environments.
Fauna					
Native Fauna	Light from the firework display causes birds to react and potentially injure themselves.	Likely	Short-term	Low	Research suggests birds, particularly water birds may react to bursts of light.
	Noise produced from the firework display causes birds to react and potentially injure themselves.	Likely	Medium-term	Medium	Research suggests birds are likely to react in some way as a result of sudden loud noises. Behaviour may differ between individuals, either remaining stationary or taking flight. When taking flight, it possible for birds to become disorientated, injure themselves or abandon nests.
	Noise produced from the firework display causes small mammals to react and potentially injure themselves.	Likely	Short-term	Low	Research suggests although loud bangs may cause anxious behaviour, it is likely to only be short-term and result in mainly stationary actions thereby reducing the chances of injury.

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

Value	Impact	Likelihood	Consequence	Rating	Comments
	Noise from the fireworks display causes animals to abandon the area and not return.	Unlikely	Long-term	Medium	Research suggests fleeing or abandonment is a possible reaction to loud noises, however in most cases observed, individuals return when the disruptions cease. This is seen to be the case at Manning Based on the 2001 study on waterbirds.
	Native fauna ingests or become tangled/ trapped in remaining litter.	Likely	Short-term	Low	Litter resulting from the firework display is most likely to consist of paper and cardboard from the packaging. The City of Cockburn have stated the fireworks do not use any plastic and therefore the risk of entrapment or issues caused by ingestion are reduced.
	Metals or oxidising agents ingested resulting in illness or death of aquatic fauna, waterbirds or other animals higher in the food chain.	Unlikely	Long-term	Medium	The concentrations of metals or oxidising agents produced from the size of the fireworks display is unlikely sufficient to cause harm. It is however unknown what oxidising agent is used and the impact of accumulation or bioaccumulation.
	Loss of habitat as a result of fire.	Unlikely	Medium-term	Low	Fire is an inherent risk however, provided appropriate measures are put in place, the likelihood is reduced and impact minimal.
Livestock	Noise produced from the firework display causes horses or other farm animals to react thereby causing injury.	Likely	Short-term	Low	Research suggests horses are likely to react to loud bangs, however the location of the firework display makes it less likely any horses will be within hearing distance. Behavioural changes are considered to be short-term and cease with the firework display.
Domestic pets	Noise produced from the firework display causes behavioural change in domestic animals.	Very-likely	Short-term	Medium	Research suggests domestic animals are likely to react to loud noises with the potential for harming themselves. Given the firework display takes place in a predominantly residential area it is very likely domestic animals will be within hearing distance.

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

Value	Impact	Likelihood	Consequence	Rating	Comments
Flora					
Vegetation health	Uptake of contamination from soil or water as a result of firework debris or residue reduces vegetation health over time.	Unlikely	Long-term	Medium	The level of contamination resulting from a small firework display is unlikely to be significant enough to impact on vegetation health. However, it is unknown what oxidising agent is used and the impact of accumulation.
Vegetation density	Fire caused by the firework display could result in a reduction in vegetation density.	Unlikely	Medium-term	Low	Fire is a risk associated with fireworks, however provided appropriate measures are put in place, the likelihood is reduced and impact minimal.

3.1 Discussion of Impacts

3.1.1 Air

Fireworks produce pollutants from the combustion reaction and left-over residues. These pollutants, including particulates, metals and other inorganics and organic by-products will be present in the form of smoke trails. As the firework display at the City of Cockburn Rotary Spring Fair occurs for only a short duration (approximately 10 minutes) and takes place outdoors with the majority of the fireworks combusting at heights greater than 75m above ground level; it is considered likely the smoke will dissipate prior to reaching a level in which humans or fauna are likely to breathe the pollution in.

Pollution concentrations are unlikely to impact the overall air quality of the City of Cockburn due to the size and duration of the firework display. Although particulate matter concentrations are likely to increase slightly in the short-term; given location of the display and occurrence of coastal breezes, dilution of pollutants are expected to happen relatively quickly. As the research suggests, pollutant levels would be expected to subside within a day, if not sooner.

3.1.2 Land and Water

The quality of the soil and water has the potential to be impacted as a result of contaminants produced from the firework display. Particulates, metals, and oxidising agents remaining after combustion are likely to be deposited on either land or water. While the size of each firework display makes it unlikely to have a significant impact on the quality of the water or soil in Manning Park on their own, it is unknown if there has been an accumulative effect resulting from the display in the same location year after year.

The research suggests that in most cases the oxidising agents commonly used in fireworks are readily water-soluble and can be hazardous to aquatic ecosystems. It is unknown which oxidising agent is used in the City of Cockburn's fireworks therefore, the worst-case scenario (use of perchlorate) has been assumed for the impact assessment and the risk rating is therefore the highest. Metal particulates are also likely to be deposited in either the water or soil; and research describes metals such as copper are hazardous to aquatic ecosystems, while a number of the other elements can result in health impacts if sufficient quantities are consumed or absorbed.

Firework packaging is also likely to be found following the display. The packaging used for the City of Cockburn's fireworks consists of 100% biodegradable cardboard. While this will breakdown over time, if not collected following the event, it may form a choking hazard for fauna in the area and may contain left-over residue not consumed during combustion. This residue may consist of gun powder, metals, or oxidising agents, all of which can be hazardous if consumed or will continue to release into the environment through oxidation and exposure to rain. It is important to note the contractor used by the City of Cockburn is responsible for the collection and recycling of remaining cardboard tubes and packaging, and also reuses equipment from the display such as copper wiring and fibreglass canisters where possible.

3.1.3 Fauna

Native fauna, livestock and domestic pets have been considered during the impact assessment. Native fauna was identified to be at most risk due to their proximity to the fireworks display and the potential for their environment to be contaminated by chemicals remaining from the fireworks or litter. The noise generated from the firework display is identified as the highest risk to fauna, but according to research, is unlikely to result in any long-term impacts. It is also important to note the City of Cockburn have not received any reports of injured wildlife in response to the firework display.

Small mammals are likely to cower from loud noises, making the risk of injury less likely. Domestic pets, while likely to exhibit anxious behaviour, can be secured by pet owners and are likely only to show a change of behaviour during the display. Horses and livestock are more at risk than other mammals due to their flight

*Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study*

response leading to possible injury. Based on the location of the City of Cockburn Rotary Spring Fair, it is less likely livestock and horses will be within a close proximity to the display and therefore less likely to react to the noise. Birds as a group are identified as at most risk, although behavioural changes are expected to vary between species. Various species will either take flight or cower in response to the loud noise. When taking flight, individuals may be prone to injury due to collision with objects or disorientation. As Manning Park is morphologically quite open, there are less obstacles for birds to collide with should they take flight rapidly. The research suggests noise attributed to the fireworks display is unlikely to result in long-term nest or area abandonment. The short-term impacts from fireworks are not expected to cause chronic stress and all behaviours are expected to return to normal shortly following the end of the fireworks.

Based on the available information, it is unclear what impact contaminants will have on the habitat or health of the fauna. While many chemicals used in fireworks are considered hazardous when ingested, the concentrations resulting from a small annual display are not expected to be sufficient to result in serious impact. The likelihood of pollutants accumulating from the annual display is unknown, this has the potential to result in higher concentrations of contaminants and therefore there is potential for impacts to the health of fauna and their habitat.

3.1.4 Flora

Impacts to vegetation are unlikely to result from the firework display. While fire remains a risk, the City of Cockburn implements appropriate measures to reduce the risk and impact including employing professional fire tenders to be onsite for the event.

There is the potential for vegetation health to be impacted from contaminant uptake, although this is unlikely given the small scale. As discussed in previous sections the firework display is not expected to be capable of generating sufficient levels of contaminants to result in an impact to ecosystem health or water and soil quality. The potential for contaminants to accumulate over the years is unknown and therefore difficult to assess.

4 Conclusion and Recommendations

The impact assessment has been undertaken using available resources to identify potential impacts from firework displays. The literature largely focuses on impacts associated with much larger displays which include a greater quantity of fireworks, are longer in duration and are more frequent. ISPL has used the literature and contextual information pertaining to the local environment and information provided by the City of Cockburn regarding the Rotary Spring Fair firework display to determine and assess potential impacts.

The research suggests fireworks have the potential to cause plumes of pollution as a result of the combustion of fireworks. The smoke generated contains traces of particulate matter, metals, non-combusted residues such as oxidising agents and inorganic by-products. A number of the pollutants are known carcinogens or impact healthy respiratory functioning. Based on the size and duration of the Rotary Spring Fair firework display, the height at which most of the display takes place and the likely weather conditions, it is unlikely the fireworks display will have a medium or long-term impact on the City of Cockburn air quality, although impacts are likely to occur in the short term.

Particulates produced from the combustion of the fireworks are likely to be deposited at the location used for the display. In terms of the Manning Park this will occur over the land or the lake. While ISPL considers it unlikely the Rotary Spring Fair firework display will produce contaminants in concentrations high enough to impact the quality of the soil and water, and health of flora and fauna; there is potential for contaminants to accumulate and further work is required to determine if there are impacts.

ISPL recommends, that should the display continue at Manning Park, a monitoring program be established to quantify the potential accumulative impacts associated with contaminant build-up in soil and water. Monitoring should occur to identify any seasonal fluctuations in water and soil but also immediately preceding and following a fireworks display. This information can be used to assist in any future decisions relating to the continued use of fireworks or moving firework displays to other locations within the City of Cockburn which may not have as sensitive environmental receptors. This will provide quantifiable data which can be compared to the following guidelines:

- ANZECC & ARMCANZ Freshwater Quality Guidelines (2018);
- NEPM Schedule B1 Groundwater Investigation Levels (GILs) (2011); and
- NEPM Schedule B1 Health Investigation Levels (HIL) for Soil Contaminants (2011).

Little evidence was presented in the literature pertaining to the impact of light produced from firework displays. The research suggests bursts of light can cause a flight reaction in birds similar to that produced by noise stimuli. While it is known that loud noises result in a fear response for most animals; single, short-duration events such as fireworks are considered unlikely to result in chronic stress, which could result in a significant behavioural and physiological response and impacts (Rodewald, Ganslober, & Kolpin, 2014).

Other than immediate responses such as flight, running or cowering, medium or long-term impacts are unlikely. The greatest risk perceived to fauna is that caused by blunt-force trauma caused by animals trying to flee the area. This risk is applicable to all animals and can be managed to mitigate and reduce the risks to fauna, ISPL recommends:

- Continuing to advertising the date, time and duration of the firework display using multiple platforms and media well in advance of the event to allow pet owners time to appropriately prepare;
- Encouraging pet owners to seek advice from professionals if they know their pet gets anxious and responds badly to fireworks;
- Encouraging pet owners to keep their pets inside during the fireworks display;
- Install temporary signage around Manning Park to reminding people to watch for animals crossing and to reduce speeds, or additional signage placed out for the event along internal roads which people may use to leave the park following the event and

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

- Continue to monitor Manning Park and surrounding areas following the fireworks display to determine whether any native animals have injured themselves trying to flee the area.

Packaging from the fireworks is expected to be littered about Manning Park following the display. Correspondence with the City of Cockburn indicates efforts are taken to ensure litter is collected following the display. Despite this, the 2001 Spring Fair Fireworks Bird Impact Study by the City of Cockburn acknowledges litter was still present in the lake and surrounding vegetation several days after the event (City of Cockburn, 2001). Since this report the City has made it the responsibility of the contractor to use biodegradable packaging, collect and recycle remaining cardboard tubes and packaging and reuse equipment where possible. The site is also inspected following the event to collect any additional litter. ISPL recommends formalising the clean-up and establishing clean-up standards. It is acknowledged the general public's attendance at the fair is also contributing litter (in addition to that generated by the firework display); and both pose a risk to the environment and require management.

The risk of fire was the final impact considered for the City of Cockburn firework display and based on the information available, appears to be appropriately managed - no changes are recommended.

In conclusion, from the impacts identified, it is not currently possible to definitively state whether the City of Cockburn Rotary Spring Fair fireworks display should or should not continue. The only long-term impacts identified by this assessment relate to the potential accumulation of contaminants over time from multiple events however this rating could be significantly reduced by ascertaining the actual contaminants within the proprietary chemical constituents of the fireworks and their concentrations likely to be produced by the firework display. Despite allocating the highest rating to these impacts, this is more likely due to knowledge gaps rather than actual risk. Therefore, the impacts attributed to the fireworks display do not necessarily provide sufficient reasoning to cancel the display in future years.

ISPL recommends that in the long term, consideration be given to relocating the display to a location that does not contain or is not adjacent to a wetlands or natural bushland such as a sporting oval. The relocation would lessen impacts to native fauna, water pollution and reduce fire risks. It is acknowledged that depending on the site selected there could be an increase in impacts on domestic animals due to the proximity to residences in reduce. ISPL believes these impacts can be minimised with continued adequate warning given to local residents.

Should the display continue at Manning Park a monitoring program is required to quantify the potential accumulative impacts associated with contaminant build-up in soil and water. Monitoring should occur to identify any seasonal fluctuations in water and soil but also immediately preceding and following a fireworks display. This information can be used to assist in any future decisions relating to the continued use of fireworks or moving firework displays to other locations within the City of Cockburn which may not have as sensitive environmental receptors.

Monitoring post-firework displays should also occur to ensure no injury to native fauna or where native fauna are injured that they receive appropriate care; as well as implementation of management plans to ensure all waste is collected and removed from Manning Park following the event. Should monitoring of native fauna and waste identify changes to baseline conditions at Manning Park which are attributed to the annual fireworks display, further consideration should be given to the continued use of fireworks at this location.

Although many locals enjoy the fireworks at Manning it is prudent to note that the public perception of fireworks is changing, and more people are becoming concerned about the impact on animals and the appropriateness of the displays given the increasing devastation caused by bushfires. ISPL suggests the City of Cockburn investigate and trial alternatives, where possible and financially feasible to do so, in the coming years with a goal to potentially phase out the use of fireworks in the future, should this align with public opinion.

4.1 Alternatives to Firework Displays

As part of the impact assessment, ISPL identified a number of alternative options to fireworks that could be implemented at the event. We highlight that no impact assessment has been conducted on these alternatives, nor has ISPL taken into consideration the cost or feasibility of the alternatives presented.

Silent Fireworks

Silent fireworks are becoming more common internationally to make displays more enjoyable for children, animals and people suffering with post-traumatic stress disorder (PTSD). A number of petitions were created to require noiseless fireworks to be used in NSW, however there is no evidence as to the success of the petitions. ISPL is aware that noiseless fireworks are being used as part of the ground firework display, and recommends that effort could be made to increase the number of noiseless fireworks used at the event if it is feasible.

Light Shows and Projections

Light shows or laser shows are becoming more and more popular for both indoor and outdoor events, and their rising popularity also means there are a number of companies now producing them. Lights can be used to illuminate buildings or the night sky and can be integrated with music to increase the effect. Some events have even progressed from laser light displays to projections of imagery or video being broadcast onto landmarks to create vivid displays. These events can be expensive and The City has indicated they regularly seek quotes but at this time the costs for such displays are considerable in comparison to what is currently being spent on the current fireworks.

Water Shows

Special effects utilising water are also becoming more common. Water shows often include lights and soundtracks integrated with water effects to produce a visual display. Again, these can be expensive especially when compared to the current expenditure on fireworks at Manning.

Drone Shows

As drones become more common and more available, a number of companies have become established within Australia specialising in the use of drones to produce light shows and other visual effects. Drones have the added benefit of being less invasive than other displays. Again, these can be expensive especially when compared to the current expenditure on fireworks at Manning.

Musical Acts or Performances

While firework displays are considered a premier form of entertainment at many events across Australia, the devastating impact of bushfires over the last several years has resulted in a loss of public support for the practice. A number of events around the country no longer incorporate firework displays instead including musical acts or performances, live entertainment or interactive displays.

4.2 Recommended Actions

In summary, the recommended actions presented in this impact assessment are:

- In the longer term consider relocating the fireworks display to an area without an adjacent wetland area or natural bushland such as a sporting oval;
- Keep ground level displays as far from spectators as possible and downwind if practical;
- Obtain a list of likely contaminants including the oxidising agent, potential metal particulates and any other potentially harmful products from the firework supplier;
- If the fireworks are to continue at Manning Park, undertake analysis of the soil at the launch site and water from Manning Lake prior to and immediately following the fireworks display for likely contaminants to quantify the impact of pollutants and consider establishing a long-term monitoring program;
- Monitor the Manning Park area following the fireworks display to identify any injured wildlife;

Desktop Review and Impact Assessment of Fireworks Display - Manning Park Spring Fair Case Study

- Increase the number of silent fireworks used in future events;
- Continue to alert pet owners well in advance of the event of the time and duration of the display and provide information for managing pet behaviour during the event; and
- Continue to ensure all waste is collected and appropriately disposed of following the event.

It is to be noted that the costs of alternatives may be considerable, and the City of Cockburn will need to consider the costs of alternatives while assessing the feasibility of implementing changes.

Appendix 1 – NatureMap and EPBC Protected Matters Report

NatureMap Species Report

Created By Guest user on 10/11/2020

Current Names Only Yes

Core Datasets Only Yes

Method 'By Rectangle'

Extent 115° 45' 19" E, 115° 55' 11" E, 32° 12' 32" S, 32° 03' 59" S

Group By Conservation Status

Conservation Status	Species	Records
Non-conservation taxon	1524	51181
Other specially protected fauna	1	23
Priority 1	3	10
Priority 2	3	12
Priority 3	21	329
Priority 4	17	703
Protected under international agreement	27	924
Rare or likely to become extinct	24	1478
TOTAL	1620	54660

Name ID	Species Name	Naturalised	Conservation Code	¹ Endemic To Query Area
Rare or likely to become extinct				
1.	24345 <i>Botaurus poiciloptilus</i> (Australasian Bittern)		T	
2.	1596 <i>Caladenia huegelii</i> (Grand Spider Orchid)		T	
3.	24784 <i>Calidris ferruginea</i> (Curlew Sandpiper)		T	
4.	24790 <i>Calidris tenuirostris</i> (Great Knot)		T	
5.	24731 <i>Calyptorhynchus banksii</i> subsp. <i>naso</i> (Forest Red-tailed Black Cockatoo)		T	
6.	24733 <i>Calyptorhynchus baudinii</i> (Baudin's Cockatoo, White-tailed Long-billed Black Cockatoo)		T	
7.	24734 <i>Calyptorhynchus latirostris</i> (Camaby's Cockatoo, White-tailed Short-billed Black Cockatoo)		T	
8.	48400 <i>Calyptorhynchus</i> sp. (white-tailed black cockatoo)		T	
9.	34031 <i>Carcharodon carcharias</i> (Great White Shark)		T	
10.	25335 <i>Caretta caretta</i> (Loggerhead Turtle)		T	
11.	24092 <i>Dasyurus geoffroyi</i> (Chuditch, Western Quoll)		T	
12.	25346 <i>Dermochelys coriacea</i> (Leatherback Turtle)		T	
13.	30836 <i>Diomedea exulans</i> subsp. <i>exulans</i> (Snowy Albatross)		T	
14.	10796 <i>Diuris drummondii</i> (Tall Donkey Orchid)		T	
15.	12938 <i>Diuris micrantha</i>		T	
16.	1637 <i>Diuris purdiei</i> (Purdie's Donkey Orchid)		T	
17.	1639 <i>Drakaea elastica</i> (Glossy-leaved Hammer Orchid)		T	
18.	13635 <i>Drakaea micrantha</i>		T	
19.	17150 <i>Eremophila glabra</i> subsp. <i>chlorella</i>		T	
20.	24146 <i>Myrmecobius fasciatus</i> (Numbat, Walpurti)		T	
21.	48237 <i>Rostratula australis</i> (Australian Painted Snipe)		T	
22.	24145 <i>Setonix brachyurus</i> (Quokka)		T	
23.	18590 <i>Synaphea</i> sp. Fairbridge Farm (D. Papenfus 696)		T	
24.	34113 <i>Westralunio carteri</i> (Carter's Freshwater Mussel)		T	
Protected under international agreement				
25.	41323 <i>Actitis hypoleucos</i> (Common Sandpiper)		IA	
26.	25554 <i>Apus pacificus</i> (Fork-tailed Swift, Pacific Swift)		IA	
27.	25736 <i>Arenaria interpres</i> (Ruddy Turnstone)		IA	
28.	24779 <i>Calidris acuminata</i> (Sharp-tailed Sandpiper)		IA	
29.	24780 <i>Calidris alba</i> (Sanderling)		IA	
30.	25738 <i>Calidris canutus</i> (Red Knot, knot)		IA	
31.	24786 <i>Calidris melanotos</i> (Pectoral Sandpiper)		IA	
32.	24788 <i>Calidris ruficollis</i> (Red-necked Stint)		IA	
33.	24789 <i>Calidris subminuta</i> (Long-toed Stint)		IA	
34.	25574 <i>Charadrius dubius</i> (Little Ringed Plover)		IA	
35.	41332 <i>Chlidonias leucopterus</i> (White-winged Black Tern, white-winged tern)		IA	
36.	24791 <i>Gallinago hardwickii</i> (Latham's Snipe, Japanese snipe)		IA	
37.	47954 <i>Gelochelidon nilotica</i> (Gull-billed Tern)		IA	
38.	48587 <i>Hydroprogne caspia</i> (Caspian Tern)		IA

Name ID	Species Name	Naturalised	Conservation Code	¹ Endemic To Query Area
39.	25741 <i>Limosa limosa</i> (Black-tailed Godwit)		IA	
40.	24690 <i>Macronectes giganteus</i> (Southern Giant Petrel)		IA	
41.	48591 <i>Pandion cristatus</i> (Osprey, Eastern Osprey)		IA	
42.	24802 <i>Philomachus pugnax</i> (Ruff, reeve)		IA	
43.	24843 <i>Plegadis falcinellus</i> (Glossy Ibis)		IA	
44.	24382 <i>Pluvialis fulva</i> (Pacific Golden Plover)		IA	
45.	24383 <i>Pluvialis squatarola</i> (Grey Plover)		IA	
46.	24526 <i>Sterna hirundo</i> subsp. <i>hirundo</i> (Common Tern)		IA	Y
47.	48597 <i>Thalasseus bergii</i> (Crested Tern)		IA	
48.	24806 <i>Tringa glareola</i> (Wood Sandpiper)		IA	
49.	24808 <i>Tringa nebularia</i> (Common Greenshank, greenshank)		IA	
50.	24809 <i>Tringa stagnatilis</i> (Marsh Sandpiper, little greenshank)		IA	
51.	41351 <i>Xenus cinereus</i> (Terek Sandpiper)		IA	
Other specially protected fauna				
52.	25624 <i>Falco peregrinus</i> (Peregrine Falcon)		S	
Priority 1				
53.	14932 <i>Acacia lasiocarpa</i> var. <i>bracteolata</i> long peduncle variant (G.J. Keighery 5026)		P1	
54.	45014 <i>Amanita quenda</i>		P1	
55.	33994 <i>Throscodectes xiphos</i> (Stylet Bush Cricket, Stylet Throscos (Jandakot))		P1	Y
Priority 2				
56.	46333 <i>Amanita wadulawitu</i> (Long-spored Lepidella)		P2	
57.	42022 <i>Poranthera moorokatta</i>		P2	
58.	1717 <i>Thelymitra variegata</i> (Queen of Sheba)		P2	
Priority 3				
59.	18195 <i>Amanita carneiphylla</i>		P3	
60.	45013 <i>Amanita drummondii</i>		P3	
61.	43543 <i>Amanita fibrilloses</i>		P3	
62.	48332 <i>Amanita preissii</i> (Cinnamon-ring Lepidella)		P3	
63.	43542 <i>Amanita wadjukiorum</i>		P3	
64.	35317 <i>Austrostipa mundula</i>		P3	
65.	3178 <i>Byblis gigantea</i> (Rainbow Plant)		P3	
66.	16245 <i>Cyathochaeta teretifolia</i>		P3	
67.	7485 <i>Dampiera triloba</i>		P3	
68.	11461 <i>Hibbertia spicata</i> subsp. <i>leptotheca</i>		P3	
69.	48935 <i>Idiosoma sigillatum</i> (Swan Coastal Plain shield-backed trapdoor spider)		P3	
70.	20462 <i>Jacksonia gracillima</i>		P3	
71.	33982 <i>Leioproctus contrarius</i> (a short-tongued bee)		P3	
72.	25147 <i>Lerista lineata</i> (Perth Slider, Lined Skink)		P3	
73.	25249 <i>Neelaps calonotos</i> (Black-striped Snake, black-striped burrowing snake)		P3	
74.	11557 <i>Phlebocarya pilosissima</i> subsp. <i>pilosissima</i>		P3	
75.	5237 <i>Pimelea calcicola</i>		P3	
76.	8163 <i>Pithocarpa corymbulosa</i> (Corymbose Pithocarpa)		P3	
77.	25800 <i>Stylidium paludicola</i>		P3	
78.	48297 <i>Styphelia filifolia</i>		P3	
79.	24855 <i>Tyto novaehollandiae</i> subsp. <i>novaehollandiae</i> (Masked Owl (southwest))		P3	
Priority 4				
80.	4763 <i>Dodonaea hackettiana</i> (Hackett's Hopbush)		P4	
81.	24189 <i>Falsistrellus mackenziei</i> (Western False Pipistrelle, Western Falsistrelle)		P4	
82.	24215 <i>Hydromys chrysogaster</i> (Water-rat, Rakali)		P4	
83.	48588 <i>Isodon fusciventer</i> (Quenda, southwestern brown bandicoot)		P4	
84.	47975 <i>Ixobrychus dubius</i> (Australian Little Bittern)		P4	
85.	4035 <i>Kennedia beckxiana</i> (Cape Arid Kennedia)		P4	
86.	33742 <i>Microtis quadrata</i>		P4	
87.	48024 <i>Notamacropus eugenii</i> subsp. <i>derbianus</i> (Tammar Wallaby, Tammar)		P4	
88.	48022 <i>Notamacropus irma</i> (Western Brush Wallaby)		P4	
89.	24328 <i>Oxyura australis</i> (Blue-billed Duck)		P4	
90.	24663 <i>Phaethon rubricauda</i> (Red-tailed Tropicbird)		P4	
91.	7756 <i>Stylidium longitubum</i> (Jumping Jacks)		P4	
92.	33992 <i>Synemon gratiosa</i> (Graceful Sunmoth)		P4	
93.	48135 <i>Thinornis rubricollis</i> (Hooded Plover, Hooded Dotterel)		P4	
94.	24803 <i>Tringa brevipes</i> (Grey-tailed Tattler)		P4	
95.	44444 <i>Tripterocephalus</i> sp. <i>Brachylobus</i> (A.S. George 14234)		P4	
96.	14714 <i>Verticordia lindleyi</i> subsp. <i>lindleyi</i>		P4

Conservation Codes
 T - Rare or likely to become extinct
 X - Presumed extinct
 IA - Protected under international agreement
 S - Other specially protected fauna
 1 - Priority 1
 2 - Priority 2
 3 - Priority 3
 4 - Priority 4
 5 - Priority 5

¹ For NatureMap's purposes, species flagged as endemic are those whose records are wholly contained within the search area. Note that only those records complying with the search criterion are included in the calculation. For example, if you limit records to those from a specific datasource, only records from that datasource are used to determine if a species is restricted to the query area.

NatureMap is a collaborative project of the Department of Biodiversity, Conservation and Attractions and the Western Australian Museum.

EPBC Act Protected Matters Report

This report provides general guidance on matters of national environmental significance and other matters protected by the EPBC Act in the area you have selected.

Information on the coverage of this report and qualifications on data supporting this report are contained in the caveat at the end of the report.

Information is available about [Environment Assessments](#) and the EPBC Act including significance guidelines, forms and application process details.

LGA CITY OF COCKBURN, WA

Report created: 10/11/20 12:49:20

Summary

Matters of National Environment Significance

This part of the report summarises the matters of national environmental significance that may occur in, or may relate to, the area you nominated. Further information is available in the detail part of the report, which can be accessed by scrolling or following the links below. If you are proposing to undertake an activity that may have a significant impact on one or more matters of national environmental significance then you should consider the Administrative Guidelines on Significance - see <http://environment.gov.au/protection/environment-assessments>

World Heritage Properties:	None
National Heritage Places:	None
Wetlands of International Significance:	1
Great Barrier Reef Marine Park:	None
Commonwealth Marine Area:	1
Threatened Ecological Communities:	2
Threatened Species:	59
Migratory Species:	74

Other Matters Protected by the EPBC Act

This part of the report summarises other matters protected under the Act that may relate to the area you nominated. Approval may be required for a proposed activity that significantly affects the environment on Commonwealth land, when the action is outside the Commonwealth land, or the environment anywhere when the action is taken on Commonwealth land. Approval may also be required for the Commonwealth or Commonwealth agencies proposing to take an action that is likely to have a significant impact on the environment anywhere.

The EPBC Act protects the environment on Commonwealth land, the environment from the actions taken on Commonwealth land, and the environment from actions taken by Commonwealth agencies. As heritage values of a place are part of the 'environment', these aspects of the EPBC Act protect the Commonwealth Heritage values of a Commonwealth Heritage place. Information on the new heritage laws can be found at <http://www.environment.gov.au/heritage>

A permit may be required for activities in or on a Commonwealth area that may affect a member of a listed threatened species or ecological community, a member of a listed migratory species, whales and other cetaceans, or a member of a listed marine species. Information on EPBC Act permit requirements and application forms can be found at <http://www.environment.gov.au/epbc/permits-and-application-forms>

Commonwealth Lands:	1
Commonwealth Heritage Places:	None
Listed Marine Species:	112
Whales and Other Cetaceans:	14
Critical Habitats:	None
Commonwealth Reserves Terrestrial:	None
Australian Marine Parks:	None

Extra Information

This part of the report provides information that may also be relevant to the area you have nominated.

State and Territory Reserves:	10
Regional Forest Agreements:	None
Invasive Species:	42
Nationally Important Wetlands:	3

Details

Matters of National Environmental Significance

Wetlands of International Importance (Ramsar) [\[Resource Information \]](#)

Name	Proximity
Forrestdale and thomsons lakes	Within Ramsar site

Commonwealth Marine Area [\[Resource Information \]](#)

Approval is required for a proposed activity that is located within the Commonwealth Marine Area which has, will have, or is likely to have a significant impact on the environment. Approval may be required for a proposed action taken outside the Commonwealth Marine Area but which has, may have or is likely to have a significant impact on the environment in the Commonwealth Marine Area.

Name
EEZ and Territorial Sea

Threatened Ecological Communities [\[Resource Information \]](#)

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Name	Status	Type of Presence
Banksia Woodlands of the Swan Coastal Plain ecological community	Endangered	Community likely to occur within area
Tuart (Eucalyptus gomphocephala) Woodlands and Forests of the Swan Coastal Plain ecological community	Critically Endangered	Community likely to occur within area

Threatened Species [\[Resource Information \]](#)

Name	Status	Type of Presence
BIRDS		

Anous tenuirostris melanops		
Australian Lesser Noddy [26000]	Vulnerable	Species or species habitat may occur within area
Botaurus poiciloptilus		
Australasian Bittern [1001]	Endangered	Species or species habitat known to occur within area
Calidris canutus		
Red Knot, Knot [855]	Endangered	Species or species habitat known to occur within area
Calidris ferruginea		
Curlew Sandpiper [856]	Critically Endangered	Species or species habitat known to occur within area
Calidris tenuirostris		
Great Knot [862]	Critically Endangered	Roosting known to occur within area
Calyptorhynchus banksii naso		
Forest Red-tailed Black-Cockatoo, Karrak [67034]	Vulnerable	Species or species habitat known to occur within area
Calyptorhynchus baudinii		
Baudin's Cockatoo, Long-billed Black-Cockatoo [769]	Endangered	Species or species habitat likely to occur within area
Calyptorhynchus latirostris		
Carnaby's Cockatoo, Short-billed Black-Cockatoo [59523]	Endangered	Species or species habitat known to occur within area
Charadrius leschenaultii		
Greater Sand Plover, Large Sand Plover [877]	Vulnerable	Roosting known to occur within area

Name	Status	Type of Presence
Charadrius mongolus Lesser Sand Plover, Mongolian Plover [879]	Endangered	Roosting known to occur within area
Diomedea amsterdamensis Amsterdam Albatross [64405]	Endangered	Species or species habitat may occur within area
Diomedea dabbenena Tristan Albatross [66471]	Endangered	Species or species habitat may occur within area
Diomedea epomophora Southern Royal Albatross [89221]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
Diomedea exulans Wandering Albatross [89223]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
Diomedea sanfordi Northern Royal Albatross [64456]	Endangered	Foraging, feeding or related behaviour likely to occur within area
Halobaena caerulea Blue Petrel [1059]	Vulnerable	Species or species habitat may occur within area
Leipoa ocellata Malleefowl [934]	Vulnerable	Species or species habitat likely to occur within area
Limosa lapponica baueri Bar-tailed Godwit (baueri), Western Alaskan Bar-tailed Godwit [86380]	Vulnerable	Species or species habitat known to occur within area
Limosa lapponica menzbieri Northern Siberian Bar-tailed Godwit, Bar-tailed Godwit (menzbieri) [86432]	Critically Endangered	Species or species habitat may occur within area
Macronectes giganteus Southern Giant-Petrel, Southern Giant Petrel [1060]	Endangered	Species or species habitat may occur within area
Macronectes halli Northern Giant Petrel [1061]	Vulnerable	Species or species habitat may occur within area
Numenius madagascariensis Eastern Curlew, Far Eastern Curlew [847]	Critically Endangered	Species or species habitat likely to occur within area
Pachyptila turtur subantarctica Fairy Prion (southern) [64445]	Vulnerable	Species or species habitat known to occur within area
Phoebastria fusca Sooty Albatross [1075]	Vulnerable	Species or species habitat may occur within area
Pterodroma mollis Soft-plumaged Petrel [1036]	Vulnerable	Foraging, feeding or related behaviour known to occur within area
Rostratula australis Australian Painted Snipe [77037]	Endangered	Species or species habitat known to occur within area
Sternula nereis nereis Australian Fairy Tern [82950]	Vulnerable	Foraging, feeding or related behaviour known to occur within area
Thalassarche carteri Indian Yellow-nosed Albatross [64464]	Vulnerable	Foraging, feeding or related behaviour may

		occur within area
Thalassarche cauta Shy Albatross [89224]	Endangered	Foraging, feeding or related behaviour likely to occur within area
Thalassarche impavida Campbell Albatross, Campbell Black-browed Albatross [64459]	Vulnerable	Species or species habitat may occur within area
Thalassarche melanophris Black-browed Albatross [66472]	Vulnerable	Species or species habitat may occur within area
Thalassarche steadi White-capped Albatross [64462]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
INSECTS		
Hesperocolletes douglasi Douglas' Broad-headed Bee, Rottnest Bee [66734]	Critically Endangered	Species or species habitat may occur within area
MAMMALS		
Balaenoptera borealis Sei Whale [34]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
Balaenoptera musculus Blue Whale [36]	Endangered	Migration route known to occur within area
Balaenoptera physalus Fin Whale [37]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
Dasyurus geoffroii Chuditch, Western Quoll [330]	Vulnerable	Species or species habitat likely to occur within area
Eubalaena australis Southern Right Whale [40]	Endangered	Breeding known to occur within area
Megaptera novaeangliae Humpback Whale [38]	Vulnerable	Species or species habitat known to occur within area
Neophoca cinerea Australian Sea-lion, Australian Sea Lion [22]	Vulnerable	Species or species habitat known to occur within area
Pseudocheirus occidentalis Western Ringtail Possum, Ngwayir, Womp, Woder, Ngoor, Ngoolangit [25911]	Critically Endangered	Species or species habitat likely to occur within area
Setonix brachyurus Quokka [229]	Vulnerable	Species or species habitat known to occur within area
PLANTS		
Andersonia gracilis Slender Andersonia [14470]	Endangered	Species or species habitat may occur within area
Caladenia huegelii King Spider-orchid, Grand Spider-orchid, Rusty Spider-orchid [7309]	Endangered	Species or species habitat known to occur within area
Diuris drummondii Tall Donkey Orchid [4365]	Vulnerable	Species or species habitat likely to occur within area
Diuris micrantha Dwarf Bee-orchid [55082]	Vulnerable	Species or species habitat known to occur within area

Document Set ID: 10264942
Version: 1, Version Date: 02/03/2021

Name	Status	Type of Presence
Diuris purdiei Purdie's Donkey-orchid [12950]	Endangered	Species or species habitat likely to occur within area
Drakaea elastica Glossy-leafed Hammer Orchid, Glossy-leaved Hammer Orchid, Warty Hammer Orchid [16753]	Endangered	Species or species habitat known to occur within area
Drakaea micrantha Dwarf Hammer-orchid [56755]	Vulnerable	Species or species habitat likely to occur within area
Eleocharis keigheryi Keighery's Eleocharis [64893]	Vulnerable	Species or species habitat may occur within area
Lepidosperma rostratum Beaked Lepidosperma [14152]	Endangered	Species or species habitat may occur within area
Thelymitra dedmaniarum Cinnamon Sun Orchid [65105]	Endangered	Species or species habitat may occur within area
REPTILES		
Caretta caretta Loggerhead Turtle [1763]	Endangered	Foraging, feeding or related behaviour known to occur within area
Chelonia mydas Green Turtle [1765]	Vulnerable	Foraging, feeding or related behaviour known to occur within area
Dermochelys coriacea Leatherback Turtle, Leathery Turtle, Luth [1768]	Endangered	Foraging, feeding or related behaviour known to occur within area
Natator depressus Flatback Turtle [59257]	Vulnerable	Foraging, feeding or related behaviour known to occur within area
SHARKS		
Carcharias taurus (west coast population) Grey Nurse Shark (west coast population) [68752]	Vulnerable	Species or species habitat known to occur within area
Carcharodon carcharias White Shark, Great White Shark [64470]	Vulnerable	Species or species habitat known to occur within area
Rhincodon typus Whale Shark [66680]	Vulnerable	Species or species habitat may occur within area
Migratory Species		[Resource Information]
* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.		
Name	Threatened	Type of Presence
Migratory Marine Birds		
Anous stolidus Common Noddy [825]		Species or species habitat likely to occur within area
Apus pacificus Fork-tailed Swift [678]		Species or species habitat likely to occur within area
Ardenna carneipes Flesh-footed Shearwater, Flesh-footed Shearwater [82404]		Species or species habitat likely to occur within area
Ardenna pacifica Wedge-tailed Shearwater [84292]		Breeding known to occur within area

Version: 1, Version Date: 02/03/2021

Name	Threatened	Type of Presence
Philomachus pugnax Ruff (Reeve) [850]		Species or species habitat known to occur within area
Pluvialis fulva Pacific Golden Plover [25545]		Roosting known to occur within area
Pluvialis squatarola Grey Plover [865]		Roosting known to occur within area
Thalasseus bergii Crested Tern [83000]		Breeding known to occur within area
Tringa brevipes Grey-tailed Tattler [851]		Roosting known to occur within area
Tringa glareola Wood Sandpiper [829]		Species or species habitat known to occur within area
Tringa nebularia Common Greenshank, Greenshank [832]		Species or species habitat known to occur within area
Tringa stagnatilis Marsh Sandpiper, Little Greenshank [833]		Roosting known to occur within area
Tringa totanus Common Redshank, Redshank [835]		Roosting known to occur within area
Xenus cinereus Terek Sandpiper [59300]		Roosting known to occur within area

Other Matters Protected by the EPBC Act

Commonwealth Lands [Resource Information]

The Commonwealth area listed below may indicate the presence of Commonwealth land in this vicinity. Due to the unreliability of the data source, all proposals should be checked as to whether it impacts on a Commonwealth area, before making a definitive decision. Contact the State or Territory government land department for further information.

Name
Commonwealth Land -

Listed Marine Species [Resource Information]

* Species is listed under a different scientific name on the EPBC Act - Threatened Species list.

Name	Threatened	Type of Presence
Birds		
Actitis hypoleucos Common Sandpiper [59309]		Species or species habitat known to occur within area
Anous stolidus Common Noddy [825]		Species or species habitat likely to occur within area
Anous tenuirostris melanops Australian Lesser Noddy [26000]	Vulnerable	Species or species habitat may occur within area
Apus pacificus Fork-tailed Swift [678]		Species or species habitat likely to occur within area
Ardea alba Great Egret, White Egret [59541]		Breeding known to occur within area
Ardea ibis Cattle Egret [59542]		Species or species habitat may occur within

Name	Threatened	Type of Presence area
Arenaria interpres Ruddy Turnstone [872]		Roosting known to occur within area
Calidris acuminata Sharp-tailed Sandpiper [874]		Roosting known to occur within area
Calidris alba Sanderling [875]		Roosting known to occur within area
Calidris canutus Red Knot, Knot [855]	Endangered	Species or species habitat known to occur within area
Calidris ferruginea Curlew Sandpiper [856]	Critically Endangered	Species or species habitat known to occur within area
Calidris melanotos Pectoral Sandpiper [858]		Species or species habitat known to occur within area
Calidris ruficollis Red-necked Stint [860]		Roosting known to occur within area
Calidris subminuta Long-toed Stint [861]		Species or species habitat known to occur within area
Calidris tenuirostris Great Knot [862]	Critically Endangered	Roosting known to occur within area
Catharacta skua Great Skua [59472]		Species or species habitat may occur within area
Charadrius bicinctus Double-banded Plover [895]		Roosting known to occur within area
Charadrius dubius Little Ringed Plover [896]		Species or species habitat known to occur within area
Charadrius leschenaultii Greater Sand Plover, Large Sand Plover [877]	Vulnerable	Roosting known to occur within area
Charadrius mongolus Lesser Sand Plover, Mongolian Plover [879]	Endangered	Roosting known to occur within area
Charadrius ruficapillus Red-capped Plover [881]		Roosting known to occur within area
Diomedea amsterdamensis Amsterdam Albatross [64405]	Endangered	Species or species habitat may occur within area
Diomedea dabbenena Tristan Albatross [66471]	Endangered	Species or species habitat may occur within area
Diomedea epomophora Southern Royal Albatross [89221]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
Diomedea exulans Wandering Albatross [89223]	Vulnerable	Foraging, feeding or related behaviour likely to occur within area
Diomedea sanfordi Northern Royal Albatross [64456]	Endangered	Foraging, feeding or related behaviour likely to occur within area
Eudyptula minor Little Penguin [1085]		Breeding known to occur

Invasive Species	[Resource Information]
Weeds reported here are the 20 species of national significance (WoNS), along with other introduced plants that are considered by the States and Territories to pose a particularly significant threat to biodiversity. The following feral animals are reported: Goat, Red Fox, Cat, Rabbit, Pig, Water Buffalo and Cane Toad. Maps from Landscape Health Project, National Land and Water Resources Audit,	

Name	Status	Type of Presence
Birds		
Acridotheres tristis		
Common Myna, Indian Myna [387]		Species or species habitat likely to occur within area
Anas platyrhynchos		
Mallard [974]		Species or species habitat likely to occur within area
Carduelis carduelis		
European Goldfinch [403]		Species or species habitat likely to occur within area
Columba livia		
Rock Pigeon, Rock Dove, Domestic Pigeon [803]		Species or species habitat likely to occur within area
Passer domesticus		
House Sparrow [405]		Species or species habitat likely to occur within area
Passer montanus		
Eurasian Tree Sparrow [406]		Species or species habitat likely to occur within area
Pavo cristatus		
Indian Peafowl, Peacock [919]		Species or species habitat likely to occur within area
Phasianus colchicus		
Common Pheasant [920]		Species or species habitat likely to occur

Name	Status	Type of Presence
		within area
Streptopelia chinensis Spotted Turtle-Dove [780]		Species or species habitat likely to occur within area
Streptopelia senegalensis Laughing Turtle-dove, Laughing Dove [781]		Species or species habitat likely to occur within area
Sturnus vulgaris Common Starling [389]		Species or species habitat likely to occur within area
Turdus merula Common Blackbird, Eurasian Blackbird [596]		Species or species habitat likely to occur within area
Mammals		
Bos taurus Domestic Cattle [16]		Species or species habitat likely to occur within area
Canis lupus familiaris Domestic Dog [82654]		Species or species habitat likely to occur within area
Felis catus Cat, House Cat, Domestic Cat [19]		Species or species habitat likely to occur within area
Funambulus pennantii Northern Palm Squirrel, Five-striped Palm Squirrel [129]		Species or species habitat likely to occur within area
Mus musculus House Mouse [120]		Species or species habitat likely to occur within area
Oryctolagus cuniculus Rabbit, European Rabbit [128]		Species or species habitat likely to occur within area
Rattus norvegicus Brown Rat, Norway Rat [83]		Species or species habitat likely to occur within area
Rattus rattus Black Rat, Ship Rat [84]		Species or species habitat likely to occur within area
Vulpes vulpes Red Fox, Fox [18]		Species or species habitat likely to occur within area
Plants		
Anredera cordifolia Madeira Vine, Jalap, Lamb's-tail, Mignonette Vine, Anredera, Gulf Madeiravine, Heartleaf Madeiravine, Potato Vine [2643]		Species or species habitat likely to occur within area
Asparagus aethiopicus Asparagus Fern, Ground Asparagus, Basket Fern, Sprengi's Fern, Bushy Asparagus, Emerald Asparagus [62425]		Species or species habitat likely to occur within area
Asparagus asparagoides Bridal Creeper, Bridal Veil Creeper, Smilax, Florist's Smilax, Smilax Asparagus [22473]		Species or species habitat likely to occur within area
Asparagus plumosus Climbing Asparagus-fern [48993]		Species or species habitat likely to occur within area
Brachiaria mutica Para Grass [5879]		Species or species habitat may occur within

Caveat

The information presented in this report has been provided by a range of data sources as acknowledged at the end of the report.

This report is designed to assist in identifying the locations of places which may be relevant in determining obligations under the Environment Protection and Biodiversity Conservation Act 1999. It holds mapped locations of World and National Heritage properties, Wetlands of International and National Importance, Commonwealth and State/Territory reserves, listed threatened, migratory and marine species and listed threatened ecological communities. Mapping of Commonwealth land is not complete at this stage. Maps have been collated from a range of sources at various resolutions.

Not all species listed under the EPBC Act have been mapped (see below) and therefore a report is a general guide only. Where available data supports mapping, the type of presence that can be determined from the data is indicated in general terms. People using this information in making a referral may need to consider the qualifications below and may need to seek and consider other information sources.

For threatened ecological communities where the distribution is well known, maps are derived from recovery plans, State vegetation maps, remote sensing imagery and other sources. Where threatened ecological community distributions are less well known, existing vegetation maps and point location data are used to produce indicative distribution maps.

Threatened, migratory and marine species distributions have been derived through a variety of methods. Where distributions are well known and if time permits, maps are derived using either thematic spatial data (i.e. vegetation, soils, geology, elevation, aspect, terrain, etc) together with point locations and described habitat; or environmental modelling (MAXENT or BIOCLIM habitat modelling) using point locations and environmental data layers.

Where very little information is available for species or large number of maps are required in a short time-frame, maps are derived either from 0.04 or 0.02 decimal degree cells; by an automated process using polygon capture techniques (static two kilometre grid cells, alpha-hull and convex hull); or captured manually or by using topographic features (national park boundaries, islands, etc). In the early stages of the distribution mapping process (1999-early 2000s) distributions were defined by degree blocks, 100K or 250K map sheets to rapidly create distribution maps. More reliable distribution mapping methods are used to update these distributions as time permits.

Only selected species covered by the following provisions of the EPBC Act have been mapped:

- migratory and
- marine

The following species and ecological communities have not been mapped and do not appear in reports produced from this database:

- threatened species listed as extinct or considered as vagrants
- some species and ecological communities that have only recently been listed
- some terrestrial species that overfly the Commonwealth marine area
- migratory species that are very widespread, vagrant, or only occur in small numbers

The following groups have been mapped, but may not cover the complete distribution of the species:

- non-threatened seabirds which have only been mapped for recorded breeding sites
- seals which have only been mapped for breeding sites near the Australian continent

Such breeding sites may be important for the protection of the Commonwealth Marine environment.

15.2.5 (2025/MINUTE NO 0086) Policy Review - Civic Hospitality and Gifts

Executive	Chief Executive Officer
Author	Service Lead Governance and Council Support
Attachments	<ol style="list-style-type: none"> 1. Proposed Civic Hospitality and Gifts Policy (Tracked Changes) ↓ 2. Proposed Civic Hospitality and Gifts Policy ↓

Officer Recommendation

The Committee recommends Council ADOPTS the amended Civic Hospitality and Gifts Policy, as per Attachment 2.

Committee Recommendation

That Council ADOPTS the amended Civic Hospitality and Gifts Policy, as per Attachment 2 with the following changes:

- (1) Item 3.3.1 - change the wording to “The Mayor and Councillors host an annual function to recognise individuals and organisations who contribute significantly to the City’s development.”,
- (2) Item 3.3.4 - change the wording to “Elected Members may invite up to six named individuals in total from the categories identified by * at 3.3.3 as guests.”,
- (3) Item 4.1 - change the wording to “Other than the events listed, the Mayor, Councillors, and/or Chief Executive Officer may offer hospitality including refreshments, within the confines of the Function Room, Dining Room and Elected Members’ area of the Administration Building, provided that, in the case of the Mayor and Elected Members, they first advise and receive confirmation from the Chief Executive Officer for any proposed hospitality.”

Council Decision

MOVED Cr M Separovich SECONDED Cr P Corke
That Council

- (1) ADOPTS the amended Civic Hospitality and Gifts Policy, as per Attachment 2 with the following changes:
 1. Item 3.3.1 - change the wording to “The Mayor and Councillors host an annual function to recognise individuals and organisations who contribute significantly to the City’s development.”,
 2. Item 3.3.4 - change the wording to “Elected Members may invite up to six named individuals in total from the categories identified by * at 3.3.3 as guests.”,
 3. Item 4.1 - change the wording to “Other than the events listed, the Mayor, Councillors, and/or Chief Executive Officer may offer hospitality including refreshments, within the confines of the Function Room, Dining Room and Elected Members’ area of the Administration Building, provided that, in the case of the Mayor and Elected Members, they first advise and receive confirmation from the Chief Executive Officer for any proposed hospitality.”

- (2) REQUESTS a further report to be presented to the June 2025 Governance Committee meeting to respond to the Office of Auditor General's guidance on the need to develop clear policy guidance for employees and Elected Members on what is allowable and reasonable business expenditure on meals, entertainment and hospitality.

CARRIED 8/0

Reason

To allow Council to adopt the revised Policy but also make provision for it to return to the Governance Committee for review so the City can address the OAG's guidance on reasonable business expenditure on meals, entertainment and hospitality.

Officer Comment

The City supports the proposed alternate motion.

Background

The City's Policy on the provision of hospitality and gifts was introduced as a means of recognising the community contributions of individuals and organisations within the district.

The Policy has been subject to review of the years, which have introduced improvements, and addressing non-compliant provisions (e.g. purported authorisations).

The Policy was due for a review in March 2024, with a high-level review now completed.

Submission

N/A

Report

This review provides a high-level formatting and drafting style review.

Unnecessary duplications have been removed, as well as superfluous detail. The Policy has an additional provision regarding sustainability, to reinforce the City's sustainability practices.

Strategic Plans/Policy ImplicationsCommunity, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

- A safe and healthy community that is socially connected.

City Growth and Moving Around

A growing City that is easy to move around and provides great places to live.

- An attractive, socially connected and diverse built environment.

Choose an item.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.
- High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

There are no financial implications from the recommendation in this report.

Legal Implications

There are no direct legal implications as the amendments provide enhanced governance and conflict of interest safeguards, reducing potential liabilities related to the City's hospitality practices. The main objective of this Policy is to provide guidance on the invitations management of the City's Civic events.

Community Consultation

N/A

Risk Management Implications

The amendments to the Policy consider several risks including:

Reputational Risk: By introducing clear guidelines on gift limits and conflict of interest disclosures, the Policy mitigates risks of perceived favouritism or misuse of public resources.

Compliance Risk: The inclusion of legislative references ensures that the Policy complies with current laws, reducing the risk of legal challenges.

Operational Risk: The sustainability initiatives minimise environmental impact and promote resource efficiency, reducing long-term operational risks related to waste management and event costs.

Advice to Proponent(s)/Submitters

N/A

Implications of Section 3.18(3) Local Government Act 1995

Nil

Title

Civic Hospitality and Gifts

Policy Type

Council

Policy Purpose

~~This policy provides the authority and guidance for civic hospitality including functions, entertainment and gifts.~~
 To guide the City of Cockburn's (City) hospitality functions, gifts and entertainment, ensuring transparency, inclusivity and sustainability.

Policy Statement

1. Objective

1.1. The objective of this policy is to establish a framework for civic events and hospitality that promotes community engagement, recognises significant contributions, and upholds good governance, sustainability, and inclusivity principles.

2. Scope

2.1. This policy applies to all civic hospitality, including events, gifts, and entertainment hosted by the City. It covers interactions with Elected Members, City staff, external stakeholders, and the community, ensuring compliance with relevant legislation.

3. Annual Events

3.1. Program

3.1.1. A program of events and budget is approved each year to provide hospitality such as functions to recognise community volunteers, pioneers and individuals and organisations who contribute significantly to the City.

~~4.1.1. The program may vary at the discretion of the Council, in consultation with the Chief Executive Officer (CEO).~~

3.1.2.

3.1.3. The CEO, in consultation with the Mayor approves invitation lists and generally partners are included.

~~3.1.4. Some events may be tailored to the guests and the following should be guided by this policy.~~

~~4.2. Pioneers Event:~~

~~4.3.2.~~

3.2.1. A Pioneers event is held annually to celebrate the history of the City and acknowledge the pioneers of the area.

3.2.2. To be eligible for an invitation, residents must satisfy the criteria that they have been continuous residents of the City of Cockburn for at least 60 years.

3.2.3. The guest list includes State and Federal Parliamentary Representatives, whose electorates are contained within the District; Honorary Freeman of the City; the Mayor and Councillors-Elected Members of the City; the Aboriginal Reference Group Co-Chairs and the City's Executive.

~~4.4.3.3.~~

al Civic Function:

Annua

Title	Civic Hospitality and Gifts
-------	-----------------------------

3.3.1. The City hosts an annual function to recognise individuals and organisations who contribute significantly to the City's development.

4.4.1.3.3.2. This event may also be combined with other events such as a milestone celebration (~~40th~~-Anniversary of the City ~~of Cockburn~~).

4.4.2.3.3.3. The guest list is drawn from:

- State and Federal Parliamentary ~~r~~Representatives, whose electorates are contained within the District;
- Honorary Freeman of the City;
- Mayor and Councillors of the City;
- Mayor and CEO of adjoining local government ~~d~~Districts;
- Minister and/or Director General of state government portfolios/Departments, as considered appropriate;
- Representatives of local business and industries within the City ~~of Cockburn~~, as considered appropriate*;
- Representatives of community organisations within the district, with whom ~~Council the~~ City has an association. A maximum of one (1) representative per organisation, per year, will be invited*;
- Individuals who have contributed to the community and individuals who the Elected Members recognise for their volunteering and voluntary support within the community of ~~Cockburn the~~ City. Such individuals may include former Elected Members*;
- The Aboriginal Reference Group (ARG) - Co Chairs;
- City's Executive; and
- Staff (maximum three per year) at the discretion of the CEO.

4.4.3.3.3.4. Elected Members may suggest up to six names of individuals ~~in total from the categories identified by * at 3.3.3~~, for consideration as guests. ~~drawing from individuals who fall within points six to eight above.~~

3.3.5. Should an invited person be unable to attend, an Elected Member shall be notified and given the opportunity to invite a replacement guest.

4.5.3.4. _____ Volun
teer Emergency Services Event:

3.4.1. An annual event is ~~usually~~ held to acknowledge the contribution of volunteers from local emergency service organisations.

- Members of the Department of Fire and Emergency Services (DFES);
- Members of State Police;
- Volunteers from local Bushfire Brigades;
- Volunteers from Marine Rescue Cockburn ~~Volunteer Sea, Search and Rescue (CVSSR)~~;
- Local representatives of the State Emergency Services;
- Relevant City Reference Group members;
- _____ Mayor and Councillors of the City;

Title	Civic Hospitality and Gifts
-------	-----------------------------

- Local, State and Federal Parliamentary representatives, whose electorates are contained within the District; and
- Staff (maximum five per year), as at the discretion of determined by the CEO.

3.4.3. Trainees and volunteers under 18 years of age are not invited to attend this event. Due to Council's duty of care and the size of this event, those under 18 years are not invited where the event is held on licensed premises.

2.4. Hospitality

4.1. Other than the events listed, the Mayor, Councillors (with the prior consent of the Mayor), as per the Elected Members Use of Council Bar Procedure and/or Chief Executive Officer CEO may offer hospitality including refreshments, within the confines of the Function Room, Dining Room and Elected Members area of the Administration Building.

4.2. The Chief Executive Officer CEO may also authorise hospitality off site such as meals and refreshments consumed by Elected Members and other stakeholders during tours of facilities, site inspections and meetings where these are relevant to the City of Cockburn.

4.3. The Mayor and/or Chief Executive Officer CEO may also offer hospitality to recognise a milestone achieved or notable civic act performed by a community member.

3.5. Promotional Gifts and Mementos

5.1. The Mayor and/or Chief Executive Officer CEO may make gifts of promotional items or small items to guests at civic functions or if visiting or attending functions at other organisations. whether local, interstate or overseas.

5.2. A set budget covers these expenditures, ensuring fairness and transparency.

5.3. Councillors Elected Members may request such items make recommendations for recipients through the Chief Executive Officer CEO. A budget is to be provided for such items.

6. Environmental Sustainability

6.1. The City aims to host sustainable events by using environmentally friendly materials and minimising waste at functions.

6.2. The policy encourages reusable or recyclable items for promotional gifts.

Title	Civic Hospitality and Gifts
--------------	------------------------------------

Policy Type

Council

Policy Purpose

To guide the City of Cockburn's (City) hospitality functions, gifts and entertainment, ensuring transparency, inclusivity and sustainability.

Policy Statement

1. Objective

1.1. The objective of this policy is to establish a framework for civic events and hospitality that promotes community engagement, recognises significant contributions, and upholds good governance, sustainability, and inclusivity principles.

2. Scope

2.1. This policy applies to all civic hospitality, including events, gifts, and entertainment hosted by the City. It covers interactions with Elected Members, City staff, external stakeholders, and the community, ensuring compliance with relevant legislation.

3. Annual Events

3.1. Program

3.1.1. A program of events and budget is approved each year to provide hospitality such as functions to recognise community volunteers, pioneers and individuals and organisations who contribute significantly to the City.

3.1.2. The program may be varied by decision of Council, in consultation with the Chief Executive Officer (CEO).

3.1.3. The CEO, in consultation with the Mayor approves invitation lists and generally partners are included.

3.1.4. Events may be tailored to the guests and should be guided by this policy.

3.2. Pioneers Event:

3.2.1. A Pioneers event is held annually to celebrate the history of the City and acknowledge the pioneers of the area.

3.2.2. To be eligible for an invitation, residents must satisfy the criteria that they have been continuous residents of the City for at least 60 years.

3.2.3. The guest list includes State and Federal Parliamentary Representatives, whose electorates are contained within the District; Honorary Freeman of the City; the Mayor and Elected Members of the City; the Aboriginal Reference Group Co-Chairs and the City's Executive.

3.3. Annual Civic Function:

3.3.1. The City hosts an annual function to recognise individuals and organisations who contribute significantly to the City's development.

3.3.2. This event may also be combined with other events such as a milestone celebration (Anniversary of the City).

3.3.3. The guest list is drawn from:

Title	Civic Hospitality and Gifts
--------------	------------------------------------

- State and Federal Parliamentary representatives, whose electorates are contained within the District;
- Honorary Freeman of the City;
- Mayor and Councillors of the City;
- Mayor and CEO of adjoining local government districts;
- Minister and/or Director General of state government portfolios/Departments, as considered appropriate;
- Representatives of local business and industries within the City, as considered appropriate*;
- Representatives of community organisations within the district, with whom the City has an association. A maximum of one (1) representative per organisation, per year, will be invited*;
- Individuals who have contributed to the community and individuals who the Elected Members recognise for their volunteering and voluntary support within the community of the City. Such individuals may include former Elected Members*;
- The Aboriginal Reference Group (ARG) - Co Chairs;
- City's Executive; and
- Staff (maximum three per year) at the discretion of the CEO.

3.3.4. Elected Members may suggest up to six names of individuals from the categories identified by * at 3.3.3 , for consideration as guests.

3.3.5. Should an invited person be unable to attend, an Elected Member shall be notified and given the opportunity to invite a replacement guest.

3.4. Volunteer Emergency Services Event:

3.4.1. An annual event is held to acknowledge the contribution of volunteers from local emergency service organisations.

3.4.2. The guest list is comprised of:

- Members of the Department of Fire and Emergency Services (DFES);
- Members of State Police;
- Volunteers from local Bushfire Brigades;
- Volunteers from Marine Rescue Cockburn;
- Local representatives of the State Emergency Services;
- Relevant City Reference Group members;
- Mayor and Councillors of the City;
- Local, State and Federal Parliamentary representatives, whose electorates are contained within the District; and
- Staff, as determined by the CEO.

3.4.3. Trainees and volunteers under 18 years of age are not invited to attend this event.

Officer Recommendation

The Committee recommends Council ADOPTS, by absolute majority, the revised ‘Elected Member Entitlements Policy’ provided as Attachment 2.

Committee Recommendation/Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes

That Council ADOPTS the revised ‘Elected Member Entitlements Policy’ provided as Attachment 2 with a new point (7) 5. as follows:

- “5. If the Mayor is absent from Western Australia for more than fourteen days the Mayoral vehicle is to be available to the Deputy Mayor during the period of absence. The Deputy Mayor must enter into an agreement as set out in point (7) 2. above before using the Mayoral vehicle”.

CARRIED BY ABSOLUTE MAJORITY OF COUNCIL 9/0

Background

Council has an Elected Members Entitlement – Allowances and Reimbursements Policy which was last amended in March 2024.

In November 2024, the Policy was presented to Council for review via the Governance Committee, who resolved to defer consideration of the Policy to a future Governance Committee Meeting following a workshop of the Governance Committee.

While the Policy has not been brought to a workshop, Elected Members have been asked, via email, for feedback on the Policy. Feedback provided was reviewed and changes made to the Policy in response.

Further, similar policies at other Tier 1 Local Governments were also reviewed.

It is recommended that the Policy be adopted with a new title and the changes as show in the clean version (refer Attachment 2).

Submission

N/A

Report

The City recognises the importance of supporting Council and Elected Members to undertake their functions as set out in the *Local Government Act 1995* and other legislation.

A key part of supporting Elected Members is to ensure, where reasonably possible and within budgetary constraints, that Elected Members are not unduly financially burdened when undertaking their role as an Elected Member. Also, the Elected Member Entitlements Policy should support Elected Members with entitlements to help them fulfill their role, acknowledging the unique nature of the role and the requirements to effectively meet the role.

The City has a duty to ensure that it provides a safe working environment for Elected Members.

To this end, the City has reviewed the City's Elected Members Entitlements – Allowances and Reimbursements Policy and recommend the following changes, which are reflected in the marked-up copy of the Policy (refer Attachment 1).

1. Simplifying the Policy title to 'Elected Members Entitlements Policy';
2. Extending travel and childcare reimbursements to all approved meetings, events, functions or training/CPD attended by an Elected Member on behalf of the Council or in their capacity as an Elected Member;
3. Extending childcare reimbursements to all meetings, briefings and civic functions attended by an Elected Member on behalf of the Council or in their capacity as an Elected Member;
4. Introducing reimbursements for specified professional expenses incurred by an Elected Member attending meetings, functions and events on behalf of Council or in their capacity as an Elected Member, to a maximum limit of \$1,500 each year;
5. Specifying that computer equipment will be provided in addition to the ICT Allowance, and that the ICT Allowance is primarily for costs associated with call charge/internet service plans and bring your own mobile phone;
6. Introducing the ability for the City to provide:
 - a. City of Cockburn branded clothing (Elected Member uniform) or PPE relevant to their role; and
 - b. Access to a City corporate rideshare account, for the purposes of travel to meetings, events, functions of training/CPD attended by an Elected Member on behalf of the Council or in their capacity as an Elected Member;
7. Introducing health and wellness entitlements, including:
 - a. One 'all-access' Cockburn ARC membership per Elected Member; and
 - b. Access to the City's EAP provider, to the same extent as provided to all staff;
8. New clauses which provide guidance on the class and mode of travel for Elected Members when travelling intrastate, interstate or overseas; and
9. New clauses which deal with paid parental leave and superannuation, as required or allowed by legislation.

Other changes which were made to clarify the operation of the Policy include:

- Specifying the evidence required to substantiate mileage claims;
- New clause requiring that all City-issued ICT equipment must be returned within 14 days of that Elected Member ceasing to hold office, or when that equipment is replaced (unless purchased for depreciated value);
- A new sub-clause clarifying that where allowances are paid in advance and a person ceases to hold the office of an Elected Member, any advance amount paid will be recovered in accordance with the Regulations; and
- Alignment of the dispute provisions regarding the Mayoral vehicle with the overarching dispute process provided by the Policy.

These changes are broadly in alignment with what is offered at other Tier 1 Local Governments, a high-level comparison table can be found below.

Local Government	Entitlements offered in addition to legislative minimums
Belmont	<ul style="list-style-type: none"> • Carer/support worker reimbursements when attending authorised meeting, training or professional development • Professional allowance • Mayoral vehicle • Business cards • Additional support (on resolution of Council)
Joondalup	<ul style="list-style-type: none"> • Child care expenses when attending meetings, receptions, citizenship ceremonies or other Council function or Council-related activity • Travel expenses when attending as delegate of Council, on instruction of Council, social functions when representing the Mayor or authorised by resolution (or otherwise authorised) <ul style="list-style-type: none"> ○ Taxi or similar type services permitted in lieu of private motor vehicle travel • Professional allowance • Mayoral vehicle • Membership of Qantas club (Mayor) • Cost of registration/tickets for pre-approved events/non-approved event under Council Policy "Attendance at Events" (including for spouse where invited in formal capacity) • Mayor – access to office, Elected Members lounge and refreshments, secretarial support • Other Elected Members – access to shared office, Elected Members lounge and refreshments, some secretarial support • ICT equipment in addition to ICT allowance • Name badges, business cards, letterhead, Christmas card/e-Christmas card, Elected Member uniform, satchel/briefcase • Allowance for home office equipment • Travel expenses reimbursement (meals, refreshments, dry cleaning and laundry, reasonable telephone, internet and fax charges)

	<ul style="list-style-type: none"> • Class of travel: economy (domestic), business class (overseas). • Accommodation: from night before and/or after where unreasonable to travel on same day.
Melville	<ul style="list-style-type: none"> • Allowance for home office equipment (for new Elected Members only) • Travel expense reimbursement • Child care expenses when attending event as City-nominated representative • Carer/support worker expenses where attending an event as City-nominated representative • Mayoral vehicle • ICT equipment in addition to ICT allowance • Business cards, paper, diary, personal and property insurance (limitations apply), motor vehicle insurance whilst vehicle being used on Council business • Other expenses incurred in the course of an Elected Member's role or duties

Swan	<ul style="list-style-type: none"> • Child care fees when attending to 'official City business' • Travel expenses (mileage or taxi fares) when carrying out official City business <ul style="list-style-type: none"> ◦ Public transport permitted in lieu of private motor vehicle travel • ICT equipment in addition to ICT allowance • Access to a cab charge card

	<ul style="list-style-type: none"> • Business cards, paper, letterhead, ink cartridges, shredding machine
Wanneroo	<ul style="list-style-type: none"> • Child care and travel costs when attending meetings for bodies where they have been appointed to by Council, annual/special electors meeting, civic functions, citizenship ceremonies, school award ceremonies, resident/ratepayer meetings, site meetings (where relevant to an item before Council), director/CEO meetings, funerals of recognised persons, meetings with State bodies etc.) • Mayor – access to office, secretarial support, computer and telephone etc. • Other Elected Members – access to meeting room • Mayoral vehicle • ICT equipment in addition to ICT allowance • Name badges, business cards, letterhead, diary, stationery, Christmas cards, printer, corporate apparel, briefcase/suitcase, promotional items

Strategic Plans/Policy Implications

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.

Budget/Financial Implications

Budget for Elected Members expenses, allowances and benefits is provided for in the annual budget. The recommendations in this report are not expected to result in a material increase in these budgets.

Legal Implications

This Policy has been reviewed taking into account the following legislation:

- Local Government Act 1995
- Local Government (Administration) Regulations 1996
- Salaries and Allowances Tribunal Determinations.

Community Consultation

Elected Members were asked, via email, for feedback on the Policy. Feedback provided was reviewed and changes made to the Policy in response.

If Elected Members wish to, in accordance with the original resolution, workshop the policy, Elected Members may suspend standing orders pursuant to clause 22.1 of the *City of Cockburn Standing Orders 2016* and do so.

Risk Management Implications

The adoption of the amended Policy will help ensure:

- Elected Members are appropriately supported to undertake their functions and responsibilities under the *Local Government Act 1995* and other legislation
- Elected Members have access to entitlements that are administered in a transparent way
- The City provides a safe working environment for Elected Members.

Title	Elected Members Entitlements –Allowances & Reimbursements Policy
-------	---

Policy Type

Council

Policy Purpose

The objectives of this policy are:

1. To provide a clear outline statement of entitlements available to Elected Members under the *Local Government Act 1995* (~~the Act~~) and *Local Government (Administration) Regulations 1996* (~~the Regulations~~) and within the prescribed ranges ~~established determined~~ by the Salaries and Allowances Tribunal ~~through a determination published in the Government Gazette from time to time (SAT).~~
2. To ~~enable support~~ Elected Members to ~~be accessible to the community, their colleagues and the City's staff carry out their functions and responsibilities without being placed under undue financial burden.~~

Under the Local Government Act, eEquipment and facilities subject provided under to this policy ~~policy are provided to Elected Members on the absolute understanding that they will must~~ not be used for any election purposes.

Policy Statement

~~In addition to those entitlements available to Elected Members (Member/s) under legislation, the~~ The policy outlines statutory entitlements, "approved expenses" and other benefits and support the City will reimburse or provide to Elected Members ~~when incurred in their capacity as onto support them to undertake their functions and responsibilities as an Elected Member.~~

(1) Prescribed allowances

1. Mayoral Allowance

The annual local government allowance for the Mayor (in addition to any fees or reimbursements of expenses payable under the Act and Regulations) is recommended to be the maximum amount ~~as~~ determined by the Salaries and Allowances Tribunal, ~~subject to the formal resolution of Council.~~

2. Deputy Mayoral Annual Allowance

~~An~~ The annual local government allowance is to be paid to the Deputy Mayor ~~(in addition to any fees or reimbursements of expenses payable under the Act and Regulations), and~~ is recommended to be the maximum percentage determined by the Salaries and Allowances Tribunal of the annual allowance to which the Mayor is entitled, ~~subject to the formal resolution of Council.~~

3. Annual Meeting Attendance Allowance

[1]

Title	Elected Members Entitlements –Allowances & Reimbursements Policy
-------	---

In lieu of paying Elected Members a meeting attendance fee for ~~Council, Committee or prescribed~~ meetings, ~~it is recommended to pay Elected Members are to be paid~~ the maximum amount ~~within the range~~ set by the Salaries and Allowances Tribunal ~~from time to time that may be paid annually, subject to the formal resolution of Council.~~

4. Information and Communication Technology (ICT) Allowance

~~All Elected Members are paid the maximum annual amount for ICT Expenses, subject to the formal resolution of Council. The allowance will be paid annually in advance within the range set by the Salaries and Allowances Tribunal through a determination from time to time, calculated from each ordinary election and the full amount will be provided for in each annual budget.~~

~~The ICT Allowance is for costs relating to:~~

- ~~(a) Telephone rental at the Elected Members' private residence;~~
- ~~(b) Council related charges for telephone calls made from telephones located at the Elected Members' private residences; and~~
- ~~(c) Charges associated with one (1) mobile telephone plan and (1) broadband/internet plan, or a combined plan as the case may be.~~
- ~~Mobile telephone rental and call charge plans.~~
- ~~Laptop, iPad or any desktop computer (with monitor), including:~~
 - ~~• appropriate software~~
 - ~~• printer/scanner~~
 - ~~• broadband internet access and router~~
 - ~~• associated consumables~~

~~Where an Elected Member has exhausted their allowance, the SAT determination provides for Elected Members to be reimbursed for reasonable 'out of pocket' expenses. All claims for additional reimbursement must be supported by original receipts or other proof of expenditure as well as evidence that the full ICT Allowance has been fully expended.~~

(2) Prescribed expense reimbursements (Administration Regulation 31(1)(b))

1. Travel expenses associated with Council and Committee meetings

~~Elected Members who attend Council and, Committee, Council appointed Reference Groups or other formally arranged meetings, briefings, civic functions, seminars or training on behalf of the Council, are entitled to be reimbursed travel expenses.~~

Travel expenses that may be claimed are either one of the following:

- (a) Motor vehicle expenses and parking fees; or
- (b) Taxi, public transport or ride share transport services ('transport providers') (excluding chauffeur or private charter services).

Title	Elected Members Entitlements –Allowances & Reimbursements Policy
-------	---

All claims for motor vehicle expenses must be supported by a Logbook record, identifying the date, location and number of kilometerskilometres travelled. The amount to be reimbursed will be calculated at the same rate applicable to the reimbursement of travel costs in the same or similar circumstances under the Local Government Officers' (Western Australia) Award 2021.

The City will not provide reimbursement for any tips provided to transport providers.

Councillors will be automatically paid the prescribed mileage, allowance for attendance at formal Council meetings and Standing Committee meetings, in accordance with Clause (9) 2(a) of this Policy.

2. Child care costs associated with Council and Committee meetings, and mandatory training

Elected ~~M~~members are entitled to be reimbursed childcare costs, while attending Council and Committee Meetings and mandatory training required by section 5.126(1) of the Act and other meetings.

In accordance with ~~r~~Regulation 31(1)(b) of the Regulations of the Local Government (Administration) Regulations 1996, childcare costs will be paid to the maximum allowance as determined by the Salaries and Allowances Tribunal annual determination, or the actual cost per hour, whichever the lesser amount is.

All claims must detail the provider's name and address, date/s of the meeting attended, number of hours of care, and include original receipts or other proof of expenditure. An Elected Member must provide the name, address and ABN (if applicable) of the childcare service provider before claiming childcare expenses. All subsequent claims are to include the name of the childcare provider.

The expense incurred for childcare costs can be reimbursed using the claim form and substantiated with details of date(s), the provider's name and address, meeting/event attended and number of hours, together with original receipts attached to the claim form, or other proof of expenditure.

Childcare costs will not be paid for where the care is provided by a family member living in the same premises as the Elected Member.

(3) Discretionary expense reimbursements (Administration Regulation 32(1))

1. Other travel expenses

Elected Members:

Title	Elected Members Entitlements –Allowances & Reimbursements Policy
-------	---

- (a) who attend Council-appointed Reference Groups or other formally arranged meetings, briefings or civic functions on behalf of Council;
- (b) who attend pre-approved training or continuing professional development in relevant to or in connection with their role as an Elected Member; or
- (c) who attend a pre-approved event or an event that is approved under the City's Council Policy "Attendance at Events Policy" are invited and attend any event or function on behalf of Council or in their capacity as an Elected Member.

are entitled to be reimbursed travel expenses.

Sub-clause (b) above is subject to regulation 37 of the Regulations.

The amount that may be reimbursed and evidence required to substantiate a motor vehicle or transport claim is the same as outlined in clause (2) 1 of this Policy.

Where an Elected Member is required to stay overnight to attend an event, function or training referenced in subclause 1(b) or (c), expenses that may be claimed include:

- (d) meals and refreshments (where not provided);
- (e) travel to and from the accommodation and the event, function or training location; and
- (f) dry cleaning and laundry expenses.

Intrastate, interstate and overseas travel

Where an Elected Member is required to travel via airplane intrastate, interstate or overseas to attend an event, function or training referenced in subclause 1(b) or (c), the mode and class of travel will be as per the below:

- (a) Intrastate and Interstate: economy class.
- (b) Overseas: business class for flights longer than 6 hours duration, leaving Australia, unless otherwise approved by the CEO for medical reasons.

Where an Elected Member is required to stay overnight to attend an event, function or training referenced in subclause(1)(b) or (c), the class and length of accommodation will be as per the below:

- (c) All types of travel: standard room from the night before the first day of the event until the last day of the event, unless otherwise approved by the CEO.

2. Other child care costs

Elected Members incurring childcare costs while attending other Council-appointed Reference Groups or other formally arranged meetings, briefings

Title	Elected Members Entitlements –Allowances & Reimbursements <u>Policy</u>
-------	--

or civic functions on behalf of the Council are entitled to be reimbursed childcare costs, on approval of the CEO.

The amount that may be reimbursed and evidence required to substantiate a claim is the same as outlined in clause (2) 2 of this Policy.

Title	Elected Members Entitlements –Allowances & ReimbursementsPolicy
-------	--

Parking

~~Car parking fees:~~

~~Incurring attending an event in their capacity as a Council member; or
Incurring where an Elected Member having driven their private vehicle to their place of work, attends an event (in their capacity as a Council Member) directly following work, instead of travelling to the event by taxi.~~

3. ~~Personal Professional expenses~~

~~Elected Members may be reimbursed for allowable personal professional expenses incurred as a result of:~~

- ~~(a) attending Council or Committee Meetings;~~
- ~~(b) attending Council-appointed Reference Groups or other formally arranged meetings, briefings or civic functions on behalf of Council;~~
- ~~(c) attending pre-approved events or other events approved under Council Policy "Attendance at Events Policy"; or~~
- ~~(d) undertaking any other responsibilities or functions of an Elected Member as prescribed by law,~~

~~to a maximum limit of \$1,500 per year.~~

~~Allowable professional expenses include:~~

~~— Attendance at a pre-approved event or an event that is approved under the City's Attendance at Events Policy where there is a cost associated with entry;~~

- ~~(e) clothing, footwear, and formal wear hire;~~
- ~~(f) dry cleaning and clothing/footwear repairs; and~~
- ~~(g) personal grooming; and~~
- ~~(h) where subclause 3(c) applies – registration/ticket fees (inclusive of any fees for official lunches, dinners and tours/inspections relevant to the event).~~

~~The amount allocated for reimbursement of allowable personal expenses will be inflated annually from 1 July, based on the Consumer Price Index (All Groups Perth) Rate, and rounded to the nearest \$10.~~

4.4. Minor hospitality

~~Elected Members may be reimbursed reasonable minor hospitality costs, up to a maximum amount of \$30 per instance, incurred while attending meetings, briefings, functions, events and other occasions on behalf of Council, or in their capacity as an Elected Member while undertaking the recognised functions of an Elected Member referred to elsewhere in this Policy.~~

2.5. Consumable ~~o~~Office supplies

Title	Elected Members Entitlements –Allowances & Reimbursements Policy
-------	---

Elected members may be reimbursed for any consumable office supplies reasonably required to undertake the recognised functions of an Elected Member, excluding any costs incurred relevant to any elections for electoral purposes.

3.6. Other approved expenses

Council will reimburse the following expenses incurred by Elected Members in carrying out their duties or performing their functions:

- ~~(a) — Dry cleaning specifically incurred because of attending recognised Council related functions referred to elsewhere in this Policy~~
- ~~(b) — Hire of clothing when attending a recognised Council related function.~~
- ~~(c) — Permissible personal expenses not otherwise paid in advance by the City incurred as a result of attending a conference, seminar or training as a delegate of Council in accordance with Council Policy “Attendance at Conferences, Seminars and Training”.~~
- (d)(a) Reimbursement of legal representation costs incurred in accordance with the Local Government Act and the Council Policy “Legal Representation & Costs Indemnification — Elected Members & Employees Access to Legal Services for Elected Members and Employees”.
- ~~(e) — Reimbursement of one (1) Membership membership of a Professional professional Association association per year, subject to the purpose of the Association association being related to the role or function of an Elected member, up to a maximum value of \$1,000.~~

~~(f) —~~ (4) — Prescribed allowances paid in lieu of reimbursements

(g)(b) 1. — ~~Information and Communication Technology (ICT) Allowance~~

~~All Elected Members are paid the maximum annual amount for ICT Expenses subject to the formal resolution of Council. The allowance will be paid annually in advance within the range set by the Salaries and Allowances Tribunal through a determination from time to time, calculated from each ordinary election and the full amount will be provided for in each annual budget. The ICT Allowance is for costs relating to:~~

- ~~(a) — Telephone rental at the Elected Members’ private residence;~~
- ~~(b) — Council related charges for telephone calls made from telephones located at the Elected Members’ private residences; and~~
- ~~(c) — Mobile telephone rental and call charge plans.~~
- ~~(d) — Laptop, iPad or any desktop computer (with monitor), including,~~
 - ~~• appropriate software~~
 - ~~• printer/scanner~~
 - ~~• broadband internet access and router~~
 - ~~• associated consumables~~

~~(5) — Discretionary non-monetary allowances paid in lieu of reimbursements~~

-------	---

~~1. Equipment and stationery~~

~~Elected Members will be eligible to receive the following to assist them to undertake the recognised functions of an Elected Member.~~

- ~~(a) Elected Members will be provided with a mobile computer, compatible with the City's security and other systems.~~
- ~~(b) Elected Members will be provided with access to a computer for their use within the City's Administration Centre.~~
- ~~(c) Elected Members will be supplied, as reasonably required to undertake the functions of an Elected Member, with:

 - ~~i. Business cards, and~~
 - ~~ii. Letterhead template.~~~~
- ~~(d) Elected Members will be supplied with a name badge at the commencement of their term of office. Replacement name badges will be supplied, upon request, if lost, stolen, damaged or worn.~~

~~(4) Other entitlements provided for in legislation~~

~~1. Parental leave~~

~~In accordance with section 2.25(5B)) of the Act, Elected Members are entitled to parental leave for six months beginning on which the Elected Member or their spouse or de facto partner:~~

- ~~(a) gives birth; or~~
- ~~(b) adopts, or becomes the guardian or foster parent of, a person who is under 16 years of age~~

~~2. Superannuation~~

~~In accordance with section 5.99B of the Act and regulation 32A of the Regulations, the City will pay superannuation to Elected Members from 1 February 2025.~~

~~Superannuation will be paid in accordance with the *Superannuation Guarantee (Administration) Act 1992* (Cth).~~

~~An Elected Member may opt-out of receiving superannuation by written notice to the CEO.~~

~~(5) Support and facilities available to elected members~~

~~1. Mayor~~

~~The Mayor shall, in carrying out Mayoral duties and responsibilities, be entitled to receive the benefit of the following facilities and resources without the reduction of the fees and allowances approved by Council under section 5.98, 5.98A, 5.99 and 5.99A of the Act.~~

Title	Elected Members Entitlements –Allowances & Reimbursements Policy
-------	---

- (a) the use of an office;
- (b) a City employee or other employee resource to the extent considered appropriate by the CEO;
- (c) any items associated with the effective and efficient administration of the Mayor's office as determined from time to time by the CEO;
- (d) access to the Elected Member's Lounge and refreshments; and
- (e) paper copies of all Council and Committee Meeting agendas, upon written request to the CEO.

2. Deputy Mayor and other Elected Members:

The Deputy Mayor and other Councillors shall, in carrying out their civic duties and responsibilities, be entitled to receive the benefit of the following facilities and resources without the reduction of the fees and allowances approved by Council under section 5.98, 5.98A, 5.99 and 5.99A of the Act:

- (a) access to the Elected Member's Lounge and refreshments;
- (b) access to a suitably equipped shared office, reading room, meeting and conference rooms within the Administration Centre with computer, photocopying, printing, facsimile, internet and telephone facilities, as deemed necessary by the CEO to fulfil their Council related functions;
- (c) some secretarial support as deemed necessary by the CEO, including limited word processing, photocopying, and postage; and
- (d) paper copies of all Council and Committee Meeting agendas, upon written request to the CEO.

(6) Other supplies and benefits provided and available to Elected Members

1. Computer equipment

All Elected Members, following election to Council, are entitled to ~~receive be~~ provided with the following computer equipment to the same standard as provided to City employees:

- (a) a laptop or tablet;
- (b) two screens;
- (c) docking station; and
- (d) mouse and keyboard.

Computer equipment supplied to Elected Members will be replaced every four (4) years, following the Local Government Elections, or in the event there is hardware failure and this occurs prior to the scheduled replacement.

~~Elected Members will be consulted prior to the provision of equipment and be able to nominate their preferences as to the model or brand of equipment provided.~~

2. Other equipment, supplies and items

Title	Elected Members Entitlements –Allowances & Reimbursements Policy
-------	---

All Elected Members, following election to Council, will be provided with the following equipment and supplies:

- (a) name badge;
- (b) building access card;
- (c) a reasonable quantity of business cards; and
- (d) City of Cockburn electronic letterhead template.

Elected Members may also request a reasonable supply of printed letterheads and envelopes.

Additional reasonable quantities of business cards, letterheads and envelopes will also be made available to Elected Members, on request.

3. Clothing and PPE

All Elected Members, following election to Council, may request an Elected Member uniform, comprising of:

- (a) one (1) jacket;
- (b) three (3) collared/buttoned shirts or blouses; and
- (c) two (2) casual polo shirts.

The City will, on request, provide necessary personal protection equipment (PPE) to Elected Members, to the extent determined by CEO.

4. Use of corporate rideshare account

In lieu of travelling by motor vehicle or other transport providers, Elected Members may request access to the City's corporate rideshare account for the purposes of travelling to events, functions and training outlined in subclause (3) 1(a)-(c).

5. Wellness initiatives

The City will make available the following to Elected Members to support their individual health and wellbeing:

- (a) one (1) "All Access" Cockburn ARC membership; and
- (b) access to the City's Employee Assistance Program (EAP), to the same extent as provided to staff.

~~(6)~~(7) Mayoral Vehicle Provision

~~— Equipment and stationery~~

~~Elected Members will be eligible to receive the following to assist them to undertake the recognised functions of an Elected Member.~~

- ~~— Elected Members will be provided with a mobile computer, compatible with the City's security and other systems.~~
- ~~— Elected Members will be provided with access to a computer for their use within the City's Administration Centre.~~
- ~~— Elected Members will be supplied, as reasonably required to undertake the functions of an Elected Member, with:~~
 - ~~— Business cards, and~~
 - ~~— Letterhead template.~~

Title	Elected Members Entitlements –Allowances & ReimbursementsPolicy
-------	--

~~Elected Members will be supplied with a name badge at the commencement of their term of office. Replacement name badges will be supplied, upon request, if lost, stolen, damaged or worn.~~

(8) Insurance

The City will insure or provide insurance cover ~~for to~~ Elected Members for the following:

1. Accidental injury or death whilst engaged in the performance of the official duties of their office, including direct travel to and from activity.
2. Liability for matters arising out of the performance of the official duties of their office but subject to any limitations set out in the policy of cover/insurance.
3. Spouses/partners of Elected Members when the spouse/partner is accompanying the Member in an official (non–personal) capacity.
4. Travel insurance whilst travelling on official business.

(9) Return of computer equipment and other specified items

All computer equipment and/or security pass issued to an Elected Member must be returned within 14 days of that person ceasing to be an Elected Member or returned at the same time as the equipment is replaced.

In lieu of returning computer equipment, Elected Members may elect to purchase the equipment at a depreciated value, as determined by the CEO.

(9)(10) Policy

Administration

1. Approval Process

- (a) Elected Members applying to receive reimbursement of expenses in accordance ~~with the provision of~~ this policy must submit the appropriate Reimbursement of Expenses Form to the Chief Executive Officer, together with acceptable supporting documentation.

2. Payment of fees/allowances

- (a) All Allowances will be paid automatically, unless an Elected Member has advised the Chief Executive Officer in writing that they do not want to claim any or part of the available allowances.
- (b) All allowances will be paid monthly in arrears, except for the ICT allowance which will be paid annually in advance, calculated from each ordinary election ~~and will be provided for in each annual budget.~~
- (c) Any taxation liability arising from these payments is the individual responsibility of each Elected Member.

Title	Elected Members Entitlements –Allowances & Reimbursements Policy
-------	---

(d) If an Elected Member has previously advised that they do not want all or part of the available allowances that they are entitled to, any subsequent request for full or additional payment will not be back paid but will accrue from the date of such request.

(e) If an Elected Member ceases to hold office:

- i. ~~payment (where made monthly)~~ will only be made up to and including the final day of engagement; ~~and-~~
- ii. ~~repayment or recovery of fees or allowances paid in advance (inclusive of superannuation) will be recovered in accordance with regulations 32B and 34AE of the Regulations.~~

2.3. Dispute Resolution

Any disputes regarding this policy will be referred to the Chief Executive Officer in the first instance. If the Elected Member and the Chief Executive Officer cannot reach an agreement, the matter will be ~~reported~~ referred to Council for ~~resolution~~ determination.

Title	Elected Members Entitlements Policy
-------	-------------------------------------

Policy Type

Council

Policy Purpose

The objectives of this policy are:

1. To provide a clear statement of entitlements available to Elected Members under the *Local Government Act 1995* (the Act) and *Local Government (Administration) Regulations 1996* (the Regulations) and within the prescribed ranges determined by the Salaries and Allowances Tribunal (SAT).
2. To support Elected Members to carry out their functions and responsibilities without being placed under undue financial burden.

Under the Act, equipment and facilities provided under this policy must not be used for any election purposes.

Policy Statement

The policy outlines statutory entitlements, approved expenses and other benefits and support the City will reimburse or provide to Elected Members to support them to undertake their functions and responsibilities .

(1) Prescribed allowances

1. Mayoral Allowance

The annual local government allowance for the Mayor (in addition to any fees or reimbursements of expenses payable under the Act and Regulations) is to be the maximum amount determined by the Salaries and Allowances Tribunal.

2. Deputy Mayoral Annual Allowance

The annual local government allowance is to be paid to the Deputy Mayor , and is recommended to be the maximum percentage determined by the Salaries and Allowances Tribunal of the annual allowance to which the Mayor is entitled.

3. Annual Meeting Attendance Allowance

In lieu of paying Elected Members a meeting attendance fee for meetings, Elected Members are to be paid the maximum amount set by the Salaries and Allowances Tribunal.

[1]

Title	Elected Members Entitlements Policy
-------	-------------------------------------

4. Information and Communication Technology (ICT) Allowance

All Elected Members are paid the maximum annual amount for ICT Expenses. The allowance will be paid annually in advance.

The ICT Allowance is for costs relating to:

- (a) Telephone rental at the Elected Members' private residence;
- (b) Council related charges for telephone calls made from telephones located at the Elected Members' private residence; and
- (c) Charges associated with one (1) mobile telephone plan and (1) broadband/internet plan, or a combined plan as the case may be.

Where an Elected Member has exhausted their allowance, the SAT determination provides for Elected Members to be reimbursed for reasonable 'out of pocket' expenses. All claims for additional reimbursement must be supported by original receipts or other proof of expenditure as well as evidence that the full ICT Allowance has been fully expended.

(2) Prescribed expense reimbursements (Administration Regulation 31(1)(b))

1. Travel expenses associated with Council and Committee meetings

Elected Members who attend Council and Committee meetings are entitled to be reimbursed travel expenses.

Travel expenses that may be claimed are either one of the following:

- (a) Motor vehicle expenses and parking fees; or
- (b) Taxi, public transport or ride share transport services ('transport providers') (excluding chauffeur or private charter services).

All claims for motor vehicle expenses must be supported by a record, identifying the date, location and number of kilometres travelled. The amount to be reimbursed will be calculated at the same rate applicable to the reimbursement of travel costs in the same or similar circumstances under the *Local Government Officers' (Western Australia) Award 2021*.

The City will not provide reimbursement for any tips provided to transport providers.

2. Child care costs associated with Council and Committee meetings, and mandatory training

Elected Members are entitled to be reimbursed childcare costs, while attending Council and Committee Meetings and mandatory training required by section 5.126(1) of the Act.

In accordance with regulation 31(1)(b) of the Regulations, childcare costs will be paid to the maximum allowance as determined by the Salaries and Allowances Tribunal annual determination, or the actual cost per hour, whichever the lesser amount is.

[2]

Title	Elected Members Entitlements Policy
-------	-------------------------------------

An Elected Member must provide the name, address and ABN (if applicable) of the childcare service provider before claiming childcare expenses. All subsequent claims are to include the name of the childcare provider.

Childcare costs will not be paid for where the care is provided by a family member living in the same premises as the Elected Member.

(3) Discretionary expense reimbursements (Administration Regulation 32(1))

1. Other travel expenses

Elected Members:

- (a) who attend Council-appointed Reference Groups or other formally arranged meetings, briefings or civic functions on behalf of Council;
- (b) who attend pre-approved training or continuing professional development in relevant to or in connection with their role as an Elected Member; or
- (c) who attend a pre-approved event or an event that is approved under Council Policy "Attendance at Events Policy",

are entitled to be reimbursed travel expenses.

Sub-clause (b) above is subject to regulation 37 of the Regulations.

The amount that may be reimbursed and evidence required to substantiate a motor vehicle or transport claim is the same as outlined in clause (2) 1 of this Policy.

Where an Elected Member is required to stay overnight to attend an event, function or training referenced in subclause 1(b) or (c), expenses that may be claimed include:

- (d) meals and refreshments (where not provided);
- (e) travel to and from the accommodation and the event, function or training location; and
- (f) dry cleaning and laundry expenses.

Intrastate, interstate and overseas travel

Where an Elected Member is required to travel via airplane intrastate, interstate or overseas to attend an event, function or training referenced in subclause 1(b) or (c), the mode and class of travel will be as per the below:

- (a) Intrastate and Interstate: economy class.
- (b) Overseas: business class for flights longer than 6 hours duration, leaving Australia, unless otherwise approved by the CEO for medical reasons.

Title	Elected Members Entitlements Policy
-------	-------------------------------------

Where an Elected Member is required to stay overnight to attend an event, function or training referenced in subclause(1)(b) or (c), the class and length of accommodation will be as per the below:

- (c) All types of travel: standard room from the night before the first day of the event until the last day of the event, unless otherwise approved by the CEO.

2. Other child care costs

Elected Members incurring childcare costs while attending other Council-appointed Reference Groups or other formally arranged meetings, briefings or civic functions on behalf of the Council are entitled to be reimbursed childcare costs, on approval of the CEO.

The amount that may be reimbursed and evidence required to substantiate a claim is the same as outlined in clause (2) 2 of this Policy.

3. Professional expenses

Elected Members may be reimbursed for allowable professional expenses incurred as a result of:

- (a) attending Council or Committee Meetings;
- (b) attending Council-appointed Reference Groups or other formally arranged meetings, briefings or civic functions on behalf of Council;
- (c) attending pre-approved events or other events approved under Council Policy "Attendance at Events Policy"; or
- (d) undertaking any other responsibilities or functions of an Elected Member as prescribed by law,

to a maximum limit of \$1,500 per year.

Allowable professional expenses include:

- (e) clothing, footwear, and formal wear hire;
- (f) dry cleaning and clothing/footwear repairs; and
- (g) personal grooming; and
- (h) where subclause 3(c) applies – registration/ticket fees (inclusive of any fees for official lunches, dinners and tours/inspections relevant to the event).

The amount allocated for reimbursement of allowable personal expenses will be inflated annually from 1 July, based on the Consumer Price Index (All Groups Perth) Rate, and rounded to the nearest \$10.

4. Minor hospitality

Elected Members may be reimbursed reasonable minor hospitality costs, up to a maximum amount of \$30 per instance, incurred while attending

[4]

Title	Elected Members Entitlements Policy
-------	-------------------------------------

meetings, briefings, functions, events and other occasions on behalf of Council, or in their capacity as an Elected Member.

5. Consumable office supplies

Elected members may be reimbursed for any consumable office supplies reasonably required to undertake the recognised functions of an Elected Member, excluding any costs incurred for electoral purposes.

6. Other approved expenses

Council will reimburse the following expenses incurred by Elected Members in carrying out their duties or performing their functions:

- (a) Reimbursement of legal representation costs incurred in accordance with the Act and Council Policy "Access to Legal Services for Elected Members and Employees".
- (b) Reimbursement of one (1) membership of a professional association per year, subject to the purpose of the association being related to the role or function of an Elected member, up to a maximum value of \$1,000.

(4) Other entitlements provided for in legislation

1. Parental leave

In accordance with section 2.25(5B)) of the Act, Elected Members are entitled to parental leave for six months beginning on which the Elected Member or their spouse or de facto partner:

- (a) gives birth; or
- (b) adopts, or becomes the guardian or foster parent of, a person who is under 16 years of age

2. Superannuation

In accordance with section 5.99B of the Act and regulation 32A of the Regulations, the City will pay superannuation to Elected Members from 1 February 2025.

Superannuation will be paid in accordance with the *Superannuation Guarantee (Administration) Act 1992* (Cth).

An Elected Member may opt-out of receiving superannuation by written notice to the CEO.

(5) Support and facilities available to elected members

1. Mayor

Title	Elected Members Entitlements Policy
-------	-------------------------------------

The Mayor shall, in carrying out Mayoral duties and responsibilities, be entitled to receive the benefit of the following facilities and resources without the reduction of the fees and allowances approved by Council under section 5.98, 5.98A, 5.99 and 5.99A of the Act.

- (a) the use of an office;
- (b) a City employee or other employee resource to the extent considered appropriate by the CEO;
- (c) any items associated with the effective and efficient administration of the Mayor's office as determined from time to time by the CEO;
- (d) access to the Elected Member's Lounge and refreshments; and
- (e) paper copies of all Council and Committee Meeting agendas, upon written request to the CEO.

2. Deputy Mayor and other Elected Members:

The Deputy Mayor and other Councillors shall, in carrying out their civic duties and responsibilities, be entitled to receive the benefit of the following facilities and resources without the reduction of the fees and allowances approved by Council under section 5.98, 5.98A, 5.99 and 5.99A of the Act:

- (a) access to the Elected Member's Lounge and refreshments;
- (b) access to a suitably equipped shared office, reading room, meeting and conference rooms within the Administration Centre with computer, photocopying, printing, facsimile, internet and telephone facilities, as deemed necessary by the CEO to fulfil their Council related functions;
- (c) some secretarial support as deemed necessary by the CEO, including limited word processing, photocopying, and postage; and
- (d) paper copies of all Council and Committee Meeting agendas, upon written request to the CEO.

(6) Other supplies and benefits provided and available to Elected Members

1. Computer equipment

All Elected Members, following election to Council, are entitled to be provided with the following computer equipment to the same standard as provided to City employees:

- (a) a laptop or tablet;
- (b) two screens;
- (c) docking station; and
- (d) mouse and keyboard.

Computer equipment supplied to Elected Members will be replaced every four (4) years, following the Local Government Elections, or in the event there is hardware failure and this occurs prior to the scheduled replacement.

2. Other equipment, supplies and items

[6]

Title	Elected Members Entitlements Policy
-------	-------------------------------------

All Elected Members, following election to Council, will be provided with the following equipment and supplies:

- (a) name badge;
- (b) building access card;
- (c) a reasonable quantity of business cards; and
- (d) City of Cockburn electronic letterhead template.

Elected Members may also request a reasonable supply of printed letterheads and envelopes.

Additional reasonable quantities of business cards, letterheads and envelopes will also be made available to Elected Members, on request.

3. Clothing and PPE

All Elected Members, following election to Council, may request an Elected Member uniform, comprising of:

- (a) one (1) jacket;
- (b) three (3) collared/buttoned shirts or blouses; and
- (c) two (2) casual polo shirts.

The City will, on request, provide necessary personal protection equipment (PPE) to Elected Members, to the extent determined by CEO.

4. Use of corporate rideshare account

In lieu of travelling by motor vehicle or other transport providers, Elected Members may request access to the City's corporate rideshare account for the purposes of travelling to events, functions and training outlined in subclause (3) 1(a)-(c).

5. Wellness initiatives

The City will make available the following to Elected Members to support their individual health and wellbeing:

- (a) one (1) "All Access" Cockburn ARC membership; and
- (b) access to the City's Employee Assistance Program (EAP), to the same extent as provided to staff.

(7) Mayoral Vehicle

1. The Mayor will receive a fully maintained local government owned vehicle, to the equivalent standard as provided to the CEO, for the purpose of carrying out the recognised functions of the Mayoral office.
2. Details of the arrangement for the provision, use and responsibilities for the vehicle in (6) 1 above is included in as agreed between the City of Cockburn and the Mayor.

[7]

Title	Elected Members Entitlements Policy
-------	-------------------------------------

3. All costs associated with the private use of the Mayoral vehicle are to be reimbursed to the City of Cockburn by the Mayor in accordance with the "Mayoral Motor Vehicle Agreement" detailed in (6) 2 above.
4. The calculation of the reimbursement for the private use is by way of a Logbook in accordance with the requirements of the Australian Taxation Office.

(8) Insurance

The City will insure or provide insurance cover to Elected Members for the following:

1. Accidental injury or death whilst engaged in the performance of the official duties of their office, including direct travel to and from activity.
2. Liability for matters arising out of the performance of the official duties of their office but subject to any limitations set out in the policy of cover/insurance.
3. Spouses/partners of Elected Members when the spouse/partner is accompanying the Member in an official (non-personal) capacity.
4. Travel insurance whilst travelling on official business.

(9) Return of computer equipment and other specified items

All computer equipment and/or security pass issued to an Elected Member must be returned within 14 days of that person ceasing to be an Elected Member or returned at the same time as the equipment is replaced.

In lieu of returning computer equipment, Elected Members may elect to purchase the equipment at a depreciated value, as determined by the CEO.

(10) Policy Administration

1. Approval Process
 - (a) Elected Members applying to receive reimbursement of expenses in accordance this policy must submit the appropriate Reimbursement of Expenses Form to the Chief Executive Officer, together with acceptable supporting documentation.
2. Payment of fees/allowances
 - (a) All Allowances will be paid automatically, unless an Elected Member has advised the Chief Executive Officer in writing that they do not want to claim any or part of the available allowances.
 - (b) All allowances will be paid monthly in arrears, except for the ICT allowance which will be paid annually in advance calculated from each ordinary election.

[8]

Title	Elected Members Entitlements Policy
-------	-------------------------------------

- (c) Any taxation liability arising from these payments is the individual responsibility of each Elected Member.
- (d) If an Elected Member has previously advised that they do not want all or part of the available allowances that they are entitled to, any subsequent request for full or additional payment will not be back paid but will accrue from the date of such request.
- (e) If an Elected Member ceases to hold office:
 - i. payment (where made monthly) will only be made up to and including the final day of engagement; and
 - ii. repayment or recovery of fees or allowances paid in advance (inclusive of superannuation) will be recovered in accordance with regulations 32B and 34AE of the Regulations.

3. Dispute Resolution

Any disputes regarding this policy will be referred to the Chief Executive Officer in the first instance. If the Elected Member and the Chief Executive Officer cannot reach an agreement, the matter will be referred to Council for determination.

Officer Recommendation/Committee Recommendation/Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes

That Council ADOPTS the amended Review of Policies and Delegated Authorities Policy shown as Attachment 2.

CARRIED 9/0

Background

Council has a Formal Introduction and Review of Council Delegated Authorities and Policies Policy which was last reviewed in May 2022.

This Policy has been reviewed in accordance with the review timeframe established by Council. It is recommended that the Policy be adopted with a new title and one minor change.

Submission

N/A

Report

This Policy establishes a framework for the development and adoption of delegations from Council and Council policies.

The review has identified an opportunity to simplify the name of the Policy and makes minor changes to ensure Elected Members are always consulted on significant policy changes or new policies.

The current name of the Policy is unwieldy. It is proposed to change the name of the Policy to the Review of Policies and Delegated Authorities Policy. This is a simpler statement of the intent of the Policy.

The Policy is not clear that Elected Members should be engaged early in the process of policy reviews.

Whilst mechanisms exist, it is still open for officers to provide a report direct to a Committee on a significant policy issue without first consulting Elected Members.

The proposed change to the Policy requires officers to engage with Elected Members on any significant changes to policy and any new policy. The proposed change is to add the text underlined below.

- (4) Such mechanisms can include:
1. through a formally established Committee, pursuant to Sec.5.8 of the Act;
 2. an informal Working Group comprising of Elected Members and Staff convened to assess these documents, or at a Strategic Briefing Session, and/or
 3. individual officer reports provided directly to a meeting of Council provided that the officer has first engaged with Elected Members on the policy intent.

Strategic Plans/Policy Implications

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

Listening and Leading

A community focused, sustainable, accountable, and progressive organisation.

- Best practice Governance, partnerships and value for money.
- High quality and effective community engagement and customer service experiences.

Budget/Financial Implications

Nil

Legal Implications

N/A

Community Consultation

N/A

Risk Management Implications

Failure to properly review delegations and policies poses governance and reputational risks to local government. It also runs the risk of the City failing to keep pace with social change.

Policy Type

Council

Policy Purpose

To provide a process by which Council formally introduces and reviews its Delegated Authorities and Policies.

Sec.2.7(2) (b) of the Local Government Act, 1995, provides that the role of the Council is to 'determine the local government's policies'. In the past, this has been achieved through either a committee process, or by providing proposed new or amendment documents directly to Council.

Policy Statement

- (1) Council will formally review all its Delegated Authorities and Policies over a two year period, corresponding with each Electoral Cycle and will ensure any amendments to any relevant Acts and/or subsidiary legislation affecting the City are reflected and incorporated in a timely manner.
- (2) Council will formally review all its adopted Delegated Authorities on at least an annual basis as required by legislation.
- (3) The introduction of new Delegated Authorities and Policies and all reviews of relevant documents may be undertaken in any manner approved by Council.
- (4) Such mechanisms can include:
 1. through a formally established Committee, pursuant to Sec.5.8 of the Act;
 2. an informal Working Group comprising of Elected Members and Staff convened to assess these documents, or at a Strategic Briefing Session, and/or
 3. individual officer reports provided directly to a meeting of Council, provided that the officer has first engaged with Elected Members on the policy intent.
- (5) The methodology referred to in (4) above will be determined by resolution of the Council.
- (6) It is a requirement that any proposal to introduce, amend or delete any Delegated Authority or Policy of the City can only be effected by a decision of the Council once it has been introduced/reviewed in accordance with Point (3) above
- (7) In recognition of Council's sustainability initiatives, it will only be a requirement to reproduce and attach those documents, for which a material change is proposed to

15.2.8 (2025/MINUTE NO 0089) Policy Review Update

Executive	Chief Executive Officer
Author	General Council
Attachments	1. Governance Committee - Calendar Policy and Local Laws - 2025-26 (Updated) ↓

Officer Recommendation/Committee Recommendation/Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes

That Council NOTES the progress of the Policy Review.

CARRIED 9/0

Background

The City of Cockburn has established a timeframe for review of all Council policies every two years. This report provides an update on the progress of the review of policies in light of internal and external factors.

An updated Governance Committee – Calendar Policy and Local Laws schedule is also attached showing the progress so far this year on policy reviews, which is consistent with the below update.

Submission

N/A

Report

Council has a schedule for the review of policies every two years. A number of policies were scheduled for review at this Governance Committee meeting which have not been reviewed. The reasons for this are as outlined below.

Access to Legal Services for Elected Members and Employees Policy and Obtaining Legal & Other Expert Advice & Legal Proceedings Between City of Cockburn & Other Parties

Parliament passed the Local Government Amendment Act 2024 as part of local government legislative reform. This included new provisions relating to access to legal services and directors' and officers' liability policies for local government. The new provisions have been enacted but are yet to come in force.

These provisions will introduce regulation of access to legal services in local government for the first time.

It is proposed to defer consideration of the review of these policies pending an update on the implementation of these reforms.

Privacy Management Policy

Parliament passed the Privacy and Responsible Information Sharing Act in 2024. The parts of the PRIS Act that apply to local governments are yet to come into force. As part of the City's response to this legislative change, it will prepare and implement a Privacy and Information Handling Policy. This will be reported to the Governance Committee and Council for review and adoption.

It is proposed to defer consideration of this policy review pending presentation of the Privacy and Information Handling Policy later in 2025.

Elected Member Appointment – Standing Committees, Reference Groups, Boards and External Organisations Policy

Parliament passed the Local Government Amendment Act 2024 as part of local government legislative reform. This included new provisions changing the Audit Committee to an Audit, Risk and Improvement Committee.

Along with the change to the scope of the committee there are changes to the membership of this Committee. This Act also makes changes to the operation and membership of other committees, including making all committees generally open to the public.

It is proposed to defer consideration of the review of this policy pending an update on the implementation of these reforms. In the interim, officers will engage with Elected Members at a briefing session to better understand the impact of the legislative reforms affecting committees on the City's meeting cycle.

Execution of Documents Policy

At the April 2025 Audit, Risk and Compliance Committee, audit reports considered the City's Acting Through Arrangements as well as the Triennial Review of Compliance, Risk and Controls.

As part of those audits, findings were made which prompted the City to respond with a proposed Procure-to-Pay Compliance and Risk Assessment. This assessment will guide the review of the City's Delegation Register as it relates to procurement, entry into contracts, variation of contracts and payments.

It is proposed, as part of the review of the City's Delegation Register, to also consider the authority provided to officers to execute documents on behalf of the City.

This will ensure that there is consistency between the level of delegated authority and the authorisation to execute documents.

It may be that the result of this review will see the Execution of Documents Policy recommended to be repealed and replaced with new provisions within the Delegations Register.

It is proposed that this policy is reviewed at the June 2025 Operational Committee Meeting which will also consider the Delegations Register review and the Procure-to-Pay Compliance and Risk Assessment.

Dust Management for Development Sites and Food Act 2008 – Fee exemption Policies

Due to an oversight, these policies have not been reviewed in time for April Governance Committee meeting. They have been re-scheduled for consideration at the June 2025 Governance Committee meeting.

Community Funding to Support Local Economic Development Policy

The City is currently reviewing the grants program for economic development and will update this Policy as part of this work. It is proposed to defer consideration of this policy to the June 2025 Governance Committee meeting to align with this work.

Strategic Plans/Policy Implications

Listening and Leading

17.1 (2025/MINUTE NO 0092) Spearfishing at the CY O'Connor Artificial Reef

Responsible Executive	Director Sustainable Development and Safety
Author(s)	Coastal Technical Officer
Attachments	N/A

Council Decision

MOVED Cr P Corke SECONDED Cr C Reeve-Fowkes
That Council:

- (1) CONTACTS Recfishwest and the WA Fishing Industries Council (WAFIC) seeking their feedback and support for the establishment of a no fishing zone around the artificial reef at CY O'Connor Beach;
- (2) ADVERTISES the City's intent to approach the State Government to establish a no fishing zone around the artificial reef at CY O'Connor Beach, seeking public comment on the proposal; and
- (3) subject to the City being able to demonstrate it can address any concerns raised by Recfishwest, WA Fishing Industries Council and the general public, REQUESTS the State government pursue a blanket ban on fishing within 50m of the artificial reef at C.Y. O'Connor Beach.

CARRIED 9/0

Background

The following Notice of Motion was received from Cr Corke on 3 April 2025:

That Council requests the City to write to the Hon Jackie Jarvis, Minister for Agriculture and Food, Fisheries, Forestry, Small Business, Mid-West, asking for an immediate ban on spearfishing at the CY O'Connor artificial reef under the Fish Resources Management Act 1994, the installation of signs and suitable education and enforcement activities.

Cr Corke's reasoning for the notice of motion was on the following basis:

The artificial reef is fast becoming a popular snorkelling spot. There are swimmers snorkelling every day and school parties are visiting regularly. Recently people have been seen spearfishing there, and the number of spear fishers appears to be rising rapidly.

This is creating a dangerous situation as gidgees and blood in the water can attract sharks. This destination is only going to become more popular with snorkelers and therefore swift action is required to ensure visitors to the artificial reef have the same protections as those visiting the Omeo Dive Trail.

Submission

N/A

Report

Stage 1 of the artificial fringing reef at C.Y. O'Connor Beach was installed in April 2022. Stage 2 was installed in December 2025. Since the installation, the reef has attracted and supports an array of fish, marine invertebrates and marine flora.

A fish survey undertaken recently identified, 68 fish species, meaning that since the deployment of the engineered fringing reef, fish diversity at the site has risen significantly.

Following a doubling of recorded species to 57 in 2022, numbers have continued to climb, now reaching 68 species, a notable 134% increase from the 29 species recorded prior to deployment. The total number of species recorded at the site post-installation (i.e. from both 2023 and 2025 surveys) now stands at 81.

Observations of non-fish fauna at the site resulted in the identification of 64 species, with a further 32 identified to genus only.

This concentration of marine life makes it a very popular location for snorkellers and divers. Anecdotal evidence indicates fishing is also popular at the site and fishing is being undertaken by a variety of methods, including spearfishing. Mussels are also being collected.

The City can write to the Hon Jackie Jarvis, Minister for Agriculture and Food, Fisheries, Forestry, Small Business, Mid West, asking for an immediate ban on spearfishing at the CY O'Connor artificial reef under the Fish Resources Management Act 1994. However, given the City has limited documented evidence in relation to the amount of fishing taking place, it is unlikely the request would be supported.

The preferred approach, suggested by City officers, would be to seek to have a blanket ban on fishing within 50m of the artificial reef implemented.

The City has sought advice from the Department of Primary Industry and Regional Development (DPIRD) in relation to the establishment of a blanket no fishing zone around the reef. The grounds for the request are the site is an important fish habitat area and a blanket no fishing zone would help the City to manage aquatic resource sharing issues at the site.

A no fishing zone has been established around the Coogee Maritime Trail on the same grounds.

DPIRD officers recommend the City first reach out to Recfishwest and the WA Fishing Industries Council (WAFIC) seeking their feedback and support for the establishment of a no fishing zone.

Recfishwest is the peak body representing the interests of 750,000 West Australian recreational fishers. DPIRD requires Recfishwest to be consulted prior to any determination of a no fishing zone.

It is recommended that the City seeks feedback and support for establishing a no fishing zone around the artificial fringing reef from Recfishwest and WAFIC.

The City should also seek local community input on the proposal.

Once feedback has been received and the City shows it can address any concerns raised by Recfishwest, WAFIC and the general public, it is recommended that the City lodge a formal request to DPIRD requesting the establishment of a no fishing zone around the artificial reef.

Should DPIRD consent to a no fishing zone being established, the City will then arrange for the zone to be demarcated by buoys and appropriate signage will be installed, with similar information provided on the City's website.

Strategic Plans/Policy Implications

Environmental Responsibility

A leader in environmental management that enhances and sustainably manages our local natural areas and resources.

- Protection and enhancement of our natural areas, bushland, parks and open spaces.

Community, Lifestyle and Security

A vibrant healthy, safe, inclusive, and connected community.

- Accessible and inclusive community, recreation and cultural services and facilities that enrich our community.

Budget/Financial Implications

This proposal would draw on existing budgets and staff resourcing, no additional budget is required. Timing would need to work around other existing coastal planning and management.

Legal Implications

N/A

Community Consultation

Consultation should be undertaken with Recfishwest, WAFIC and the local community to determine if there is support for a blanket ban on fishing at the artificial reef.

Risk Management Implications

Without the implementation of a blanket ban on fishing at the artificial reef at C. Y. O'Connor Beach there is a risk that there will be conflict between those using the reef for passive recreation purposes and those fishing at the site. There is also a risk that the habitat value provided by the reef may be compromised.
